The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

[Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.]

Patna

Under the powers conferred upon him by section 101 (2) (*a*) of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B.C.) of 1898, the Lieutenant-Governor of Bengal is pleased to direct that a survey shall be made and a record-of-rights prepared in respect of all lands included within the boundaries of the aforesaid mauza.

The particulars to be recorded in the said survey and record-of-rights shall be the following, viz.:—

(*a*) the name of each tenant or occupant,

(*b*) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat; and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure,

(*c*) the situation and quantity and one or more of the boundaries of the land held by each tenant or occupier,

(*d*) the name of each tenant's landlord,

(*e*) the money-rent payable at the time the record-of-rights is being prepared, or if a produce-rent, the fact that a produce-rent is paid,

(*f*) the mode in which that rent has been fixed, whether by contract, by order of a Court, or otherwise,

(*g*) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases,

(*h*) the special conditions and incidents, if any, of the tenancy,

(*i*) if the land is claimed to be held rent-free, whether or not rent is actually paid; and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority,

(j) the name of each proprietor, with the character and extent of his interest, and the situation, quantity and one or more of the boundaries of the proprietor's private lands, as defined in Chapter XI of the Act,
(k) the customary terms according to which produce-rents are paid,
(l) the custom of the village regulating the methods of irrigation, and the duties and rights of both landlords and tenants with respect to the use and maintenance of the means of irrigation.

No. 2208D., dated Darjeeling, the 21st August 1903.—Assistant Surgeon Bepin Behari Sen Gupta did supernumerary duty at the Medical College Hospital, Calcutta, from the forenoon of the 5th to the afternoon of the 21st March 1903, and from the forenoon of the 27th March to the forenoon of the 25th April 1903.

No. 2211D., dated Darjeeling, the 21st August 1903.—Assistant Surgeon Bepin Behari Sen Gupta was employed on special duty at the Howrah Railway Station from the 22nd to the 25th March 1903, both days inclusive, during the absence, on leave, of Assistant Surgeon Sarat Chandra Sur.

No. 2214D., dated Darjeeling, the 21st August 1903.—Assistant Surgeon Bepin Behari Sen Gupta was employed at Golokegunge on the Dhubri-Gauhati extension, Eastern Bengal State Railway, from the 1st May to the 3rd June 1903, both days inclusive, during the absence of Assistant Surgeon Basanta Kumar Bhowmik to give evidence at the High Court Sessions, Calcutta.

No. 2217D., dated Darjeeling, the 21st August 1903.—Assistant Surgeon Bepin Behari Sen Gupta did supernumerary duty at the Medical College Hospital, Calcutta, from the forenoon of the 12th June to the afternoon of the 4th July 1903.

No. 2226D., dated Darjeeling, the 22nd August 1903.—Assistant Surgeon Posupati Mitra is appointed to do supernumerary duty at the Medical College Hospital, Calcutta, until further orders, with effect from the 3rd August 1903.

TREASURY NOTICES.

UNCOVENANTED DEPUTY COLLECTOR MAULVI MUHAMMAD LATIF ALAM has been placed in charge of the Bhagalpur Treasury, and is authorised to draw bills on other Treasuries.

SAKHAWAT HOSSEIN, for *Offg. Commissioner.*

COMMR.'S OFFICE, BHAGALPUR, *the 14th August 1903.*

BABU MAKUNDA DEB MUKERJI, Deputy Collector, is placed in charge of the Patna Treasury, and is authorized to draw bills on other Treasuries.

H. LUSON, *Offg. Commissioner.*

PATNA COMMR.'S OFFICE, BANKIPORE, *the 23rd August 1903.*

UNCOVENANTED DEPUTY COLLECTOR MR. ATUL KRISHNA ROY has been placed in charge of the Manbhum Treasury, with effect from the 31st July 1903, and has been authorized to draw bills on other Treasuries.

F. A. SLACKE, *Commissioner.*

RANCHI, *the 18th August 1903.*

EDUCATION DEPARTMENT, BENGAL.

Subordinate Educational Service.

The 19th August 1903.—Consequent on the death of Babu Kanti Chandra Ghosh Hazra, B.A., Assistant Head Master of the Malda Zilla School, the following arrangements are sanctioned:—

(1) Babu Abinash Chandra Banerjee, B.A., an Assistant Master in the Malda Zilla School (substantive *pro tempore* in Class VIII of the Subordinate Educational Service), to be Assistant Head Master of the same institution, on the pay of his own grade, *vice* Babu Kanti Chandra Ghosh Hazra, deceased.

(2) Babu Sasanka Sekhar Banerjea, M.A., Officiating Assistant Head Master in the Uttarpara Government School (officiating in Class VIII of the Subordinate Educational Service), to be an Assistant Master in the Malda Zilla School, on probation for six months, and to be substantively *pro tempore* in Class VIII of the Subordinate Educational Service, *vice* Babu Abinash Chandra Banerjea.

The following arrangements are sanctioned consequent on the retirement, with effect from the 15th August 1903, of Babu Jogeshur Mookherjea, Deputy Inspector of Schools, Howrah:—

(1) Babu Sripati Mukherjea, B.A., Deputy Inspector of Schools, Shahabad, on leave (Class III), to be Deputy Inspector of Schools, Howrah, *vice* Babu Jogeshur Mookherjea.

(2) Babu Aswini Kumar Das, M.A., Head Master, Northbrook School, Darbhangat, now under training at the Kurseong Training College (Class V), to be Deputy Inspector of Schools, Shahabad, *vice* Babu Sripati Mukherjea.

(3) Babu Mangal Dayal Singh, Sub-Inspector of Schools, Patna, and now Officiating Deputy Inspector of Schools, Shahabad (Class V), will continue to act in the latter appointment, until relieved by Babu Aswini Kumar Das after the end of his training at Kurseong.

(4) Babu Dwijendra Nath Neogi, B.A., to be Head Master of the Northbrook School, Darbhanga, on probation for six months, *vice* Babu Aswini Kumar Das.

Babu Dwijendra Nath Neogi is also appointed substantively *pro tempore* to Class VI of the Subordinate Educational Service in the resulting vacancy consequent on the retirement of Babu Jogeshur Mookherjea.

The following arrangements are sanctioned consequent on the retirement, on the 28th August 1903, of Babu Ram Prakas Lal, Deputy Inspector of Schools, Gaya —

(1) Babu Giriwardhari Lal, Deputy Inspector of Schools, Darbhanga (Class IV), to be Deputy Inspector of Schools, Gaya, *vice* Babu Ram Prakas Lal.

(2) Babu Rajendra Prasad, Assistant Master, Patna Training School, and now Officiating Deputy Inspector of Schools, Patna (Class VI), to be Deputy Inspector of Schools, Darbhanga, *vice* Babu Giriwardhari Lal.

(3) Babu Sarat Chandra Brahmachari, M.A., Deputy Inspector of Schools, Champaran, and now Officiating Deputy Inspector of Schools, Bankura (Class IV), to be Assistant Head Master of the Patna Training School, *vice* Babu Rajendra Prasad.

(4) Babu Trisuldhari Singh, Deputy Inspector of Schools, Singhbhum (Class IV), to be Deputy Inspector of Schools, Champaran, *vice* Babu Sarat Chandra Brahmachari.

(5) Babu Harabans Sahai, Deputy Inspector of Schools, Monghyr (Class III), to be Deputy Inspector of Schools, Singhbhum, *vice* Babu Trisuldhari Singh.

(6) Babu Kishun Sahay, Sub-Inspector of Schools, Saran, and now Officiating Deputy Inspector of Schools, Champaran (Class VI), to be Deputy Inspector of Schools, Monghyr, *vice* Babu Harabans Sahai.

The 25th August 1903.—Babu Jadu Nath Banerji, an Assistant Master in the Rajshahi Collegiate School (Class VIII), was absent on leave for three weeks, under article 271 (1) of the Civil Service Regulations, in continuation of the leave granted to him under the orders of the 31st July 1903.

Babu Nanda Lal Gupta, an Assistant Master in the Rajshahi Collegiate School, on a salary of Rs. 45 a month, acted in Class VIII of the Subordinate Educational Service, during the absence, on leave, of Babu Jadu Nath Banerji.

A PEDLER,

Director of Public Instruction, Bengal.

ORDERS BY THE SYNDICATE OF THE CALCUTTA UNIVERSITY.

1. In supersession of the previous notification, the following text-book in Telugu Poetry has been prescribed for the Entrance Examination in 1904 and the two following years:—

Bhaskarasatakamu—The whole.

2. The following text-books in Gujrathi have been prescribed for the Entrance Examination in 1904 and two following years:—

Prose.

Navalaram—Navala Granthavali, Volume I, pages 1—220.

Poetry.

Kabi Premananda—Nalákhyán.

3. In supersession of the Syllabus announced on pages 211-212 of the Calcutta University Calendar for 1903, the following revised syllabus in Practical Histology has been prescribed for the B.Sc. Examination, Pass and Honours, in 1905:—

Pass Course.

Haliburton	Essentials of Chemical Physiology, Elementary Course. Blood, Milk, Albumen, Digestive Juices, Urine (normal) and Glycogen.
Stirling	Outlines of Practical Physiology, 4th Edition. *Experimental Physiology.*—The Frog's Heart,—Beating of the Heart,—Effect of Heat and Cold,—Section of the Heart, pages 360—363; Stannius's Experiment, pages 376-377;—The Laryngoscope—Vowels, page 481; Reflex Action—Action of Poisons—Knee-jerk in Man, pages 492—496;—Eye—Formation of Image, pages 509—514—Touch, Smell, Taste, Hearing, pages 565—568 and 580-581, omitting small print.
Stirling	Practical Histology, 2nd edition—Preparation of fresh tissues from a Frog, omitting 1, 3, 4, 8 (*b*), 10, 13, 17—23.

Honour Course.

Haliburton	Essentials of Chemical Physiology, Elementary Course.—(i) The Proteids; (ii) Blood, Hæmoglobin; (iii) Digestion—Salivary, Gastric, Pancreatic, Glycogen in the Liver; (iv) Urine—Volumetric Analysis for Urea; Sugar in Urine, Qualitative and Quantitative.
Stirling	Outlines of Practical Physiology,—4th Edition. *Experimental Physiology.*—(i) Nerve-muscle Preparation—Stimulation of Nerve—Mechanical, Chemical and Thermal Stimuli, pages 219—225 and 243—251, omitting small print; (ii) The Frog's Heart—Stannius's Experiment, pages 360—364 and 376-377; (iii) The Laryngoscope—Vowels, page 481; (iv) Reflex Action—Action of Poisons—Knee-jerk in Man, pages 492—496; (v) The Eye—Formation of an Image, &c., pages 509—514; (vi) The Ophthalmoscope, pages 560-561; (vii) Touch, Smell, Taste, Hearing, pages 565—568 and 580-581, omitting small print.
Stirling ...	Practical Histology, 2nd Edition—Preparation of fresh tissues from a Frog, omitting 1, 3, 4, 8 (*b*), 10, 13, 17, 23.

4. In the list of text-books for B.A. Honour English in 1905 (Calendar, 1903, page 195) under "*Permanent subjects*," for "Shaw—Outlines of English Literature" has been substituted "Smith—Students' English Literature, being a History of English Literature by Thomas B. Shaw, edited by William Smith."

5. In the list of text-books in English prescribed for the M.A Examination in 1905 (Calendar, 1903, page 215) after "Hooker—Ecclesiastical Polity, Book I (Clarendon Press series)," the following has been added—

"More ... Utopia."

6. The following changes in the Regulations of the University adopted by the Senate at their meeting held on the 23rd August 1902 have been approved by His Excellency the Governor-General of India in Council:—

(*i*) Paragraph 2 of the Regulations for the Examination for Honours in Medicine (Calendar for 1903, page 72) has been altered as follows:—

"2. The Examination shall take place annually at such time as the Syndicate may, from time to time, appoint, and shall be conducted by means of written papers and practical tests."

The above change will come into operation at and from the Examination in 1904.

(ii) In the form of application for admission to the Entrance Examination on page 94, Calendar, 1903, after the heading "Entrance Examination," the following words have been added:—

"*Form of application to be used only by candidates who appear as students of a High School recognised by the Calcutta University.*"

(iii) Paragraph 2 of the Regulations for the First Examination in Engineering (page 74, Calendar, 1903) has been modified as follows:—

"Any undergraduate of the University may be admitted to this Examination, provided he has prosecuted a regular course of study in a School of Engineering affiliated to the University for five years after passing the Entrance Examination, or for three years after passing the F.A. Examination."

(iv) The following sentence has been omitted from paragraph 2 of the above Regulations:—

"A student who has passed the B.A. Examination in the B Course shall be admitted to the F.E. Examination after two years' study in a School of Engineering affiliated to the University."

(v) Paragraph 2 of the Regulations for Licence in Engineering (page 79, Calendar, 1903) has been altered as follows:—

"Any undergraduate of the University may be admitted to this Examination on producing a certificate from the Head of an Institution affiliated up to the L E standard in Engineering showing that he has prosecuted a regular course of study for one year after passing the First Examination in Engineering."

(vi) Paragraph 2 of the B.E. Regulations (page 85, Calendar, 1903) has been altered as follows:—

"Any candidate who has passed the First Examination in Arts may be admitted to this Examination, provided he produces a certificate from the Head of an Institution affiliated up to the B.E. standard in Engineering showing that he has prosecuted a regular course of study for one year after passing the First Examination in Engineering."

(vii) The following revised Syllabus in Mathematics has been substituted for the one given in paragraph 5 of the F.E. Regulations under heading "I—Mathematics" (pages 74-75, Calendar, 1903):—

I.—MATHEMATICS.

FIRST PAPER.

Computations and Mensuration.

(a) Practical applications of Arithmetic with special reference to contracted methods.

The theory of logarithms; application of logarithms to arithmetical and trigonometrical calculations, including the solution of triangles and the determination of heights and distances.

(b) Mensuration of plane and solid figures, including the application of Simpson's rules, the prismoidal formula and Guldin's theorems, and not excluding proofs of the formulæ in use.

N.B.—Books of logarithmic tables will be provided for the use of candidates during the examination

SECOND PAPER.

Algebra, Trigonometry and Plane Analytical Geometry.

(a) Summation of arithmetic and geometric series, and of series in which the n-th term is an integral function of n.

Binomial, exponential and logarithmic series with easy examples.

Partial Fractions.

(b) Geometrical representation of complex quantities: addition and multiplication of complex quantities; De Moivre's theorem; derived trigonometrical formulæ, including the ordinary formulæ of Elementary Trigonometry.

The expansions and exponential values of $\cos\theta$ and $\sin\theta$; the hyperbolic functions.

Summation of a series of sines and cosines of angles in arithmetical progression, and of other simple trigonometrical series.

(c) Rectangular Cartesian co-ordinates and polar co-ordinates; the analytical geometry of the straight line; equations representing two or more straight lines.

The special forms of the equations of the circle, parabola, ellipse and hyperbola without reference to the general equation of the second degree.

Determination of the asymptotes of a conic given by any equation of the second degree; their use in discriminating the character of the curve.

N.B.—The methods of pure Geometry and of the Differential Calculus will not be disallowed.

THIRD PAPER.

Statics and Dynamics.

(*a*) Uniform and uniformly accelerated motion. Composition of velocities and accelerations. Relative velocities and accelerations. Projectiles. The laws of motion with simple illustrations, such as the motion of a particle on an inclined plane, motion of two particles connected by a string, uniform circular motion of a particle.

(*b*) Composition of concurrent and parallel forces acting on a rigid body. Centre of parallel forces; centres of mass. Reduction of any system of coplanar forces acting on a rigid body to a single resultant force or couple; properties of resultant; conditions of equilibrium; statically equivalent system of forces; problems on equilibrium. Friction. Machines.

(*c*) Impulse of a force; principle of linear momentum for a single particle and for a system of particles; simple cases of impact, including the impact of two spheres whose centres move in the same plane.

Work of a force; principle of energy for a single particle and for a system of particles; application of the principle to the solution of problems.

FOURTH PAPER.

Differential and Integral Calculus.

(*a*) Differentiation in general, including Leibnitz's theorem, partial differentiation, and differentiation of implicit functions.

Orders of smallness; infinitesimals and differentials. Elementary proofs of Taylor's and Maclaurin's Theorems. Expansions of functions of a single variable.

Evaluation of undetermined forms.

Tangents and normals of curves.

Maximum and minimum values of a function of one independent variable.

(*b*) Integration regarded as a process of a summation, and as the inverse of differentiation. The standard integrals. Integration by substitution and by parts.

Integration of rational functions. Simple integrals involving trigonometrical functions.

Application of the Integral Calculus to the determination of lengths of curves, areas, volumes; centres of mass and moments of inertia.

N B Special importance will be attached to the performance and the applications of quite simple differentiations and integrations

(*viii*) The following revised Syllabuses in Chemistry and Physics have been substituted for those prescribed for the F E. Examination on pages 75—78 of the Calendar, 1903, under heading "II.—Natural Science."

II.—NATURAL SCIENCE.

CHEMISTRY.

1.—General properties and changes of matter in simple common cases. Relation of chemical changes to physical and mechanical changes.

Experimental proofs of the indestructibility of matter.

Elementary forms of matter; compounds and distinction of compounds from mixtures.

Experimental deduction of the principal fundamental laws of Chemistry: equivalents.

Dalton's atomic theory.

Experimental determination of the properties of gases with regard to heat and pressure; Boyle's and Charles' laws.

Experimental determination of the volume relations of reacting gases; law of gaseous volumes.

Deduction from above laws of the probable physical composition of matter; Avogadro's hypothesis.

Distinction between the molecule and molecular weight.

Density, relative density, vapour density, and specific gravity of substances.

Relation between relative density of gases and molecular weights.

Determination of relative density of gases by direct weighing and of vapour density of volatile substances by Dumas' method; deduction of molecular weights.

Relation between atoms and molecules.

Distinction between atoms and atomic weights.

Deduction of the maximum value of atomic weights of elements from the molecular weights of their volatile compounds.

Relation between atomic weights and equivalents; valency.

Dulong and Petit's law of atomic heats; its use as subsidiary method of determining atomic weights.

Chemical symbols and formulæ; representation of chemical changes by equations. Quantitative meaning of symbols; calculations.

General types of chemical action as illustrated by the experimental work previously done.

II.—Occurrence, preparation, and properties of the elements listed below, and of their simpler compounds:—Hydrogen, Chlorine, Bromine, Iodine, Fluorine, Potassium, Sodium, Ammonium, Copper, Silver, Gold, Calcium, Strontium, Barium, Magnesium, Zinc, Mercury, Boron, Aluminium, Carbon, Titanium, Silicon, Tin, Lead, Nitrogen, Phosphorus, Arsenic, Antimony, Bismuth, Oxygen, Chromium, Manganese, Tungsten, Sulphur, Iron, Nickel, Cobalt, Platinum—considered generally.

A more detailed study of the preparation, properties and determination of the composition of the typical compounds—Hydrogen, Chloride, Water, Ammonia, and Methane.

Salts, bases, acids, and other compounds; their nature, behaviour on solution and relationship with each other.

General methods for the preparation of Haloides, Oxides, Hydroxides, Sulphides, Sulphates, Nitrates, Phosphates, Carbonates, Carbides, Nitrites, and Hydrides.

The Peroxides and their relation to Ozone and Hydrogen Peroxide.

Double salts, crystallization, water of crystallization.

Isomorphism and its use in controlling atomic weights.

Systematization of Chemical data: the Periodic law, its uses and consequences

III.—The Phenomena of combustion, explosions, reversible reaction; dissociation Phenomena.

Thermo-chemical methods of investigation

Calorimetry—Heat of combustion, heat of formation, heat of neutralisation, heat of solution.

Exothermal and endothermal reactions.

Allotropy and the Allotropic modifications of the elements, allotropy of metals.

Applications of the principles of thermo-chemistry to the solution of technical problems.

The Ionic theory of solution; deduction of the laws of dilute solutions from thermodynamical data; derived methods of determining molecular weights; explanations of chemical reactions based on the Ionic theory, and foundations of Analytical Chemistry.

IV.—Chemical Technology.

Natural waters: their composition, analysis, and determination of suitability for various purposes. Purification of waters on the large scale.

Preparation on the large scale of (Chemistry of the)—

(1) Chlorine, hydrochloric acid, bleaching powder.
(2) Oxygen, red lead.
(3) Quick-lime.
(4) Hydraulic lime, Portland cement, glass, soluble glass, porcelain, pottery, bricks.
(5) Plaster of Paris, alums.
(6) Sulphuric acid, sodium carbonate, caustic soda
(7) White lead, permanent white.
(8) Tin plate, galvanized iron.
(9) The setting and hardening of Mortars and Cements.

V.—PRACTICAL CHEMISTRY.

Preparation and demonstration of the properties of the common gases, such as Hydrogen, Oxygen, Nitrogen, Carbon Dioxide, Nitric Oxide, Nitrogen Monoxide, Hydrogen Sulphide, Hydrogen Chloride, Ammonia.

Preparation of the commoner acids, bases, oxides and salts, *e.g.*, Nitric Acid, Calcium Oxide, Calcium Hydrate, Copper Oxide, Ferrous Sulphate, Copper Sulphate, Zinc Sulphate, Sodium Chloride, Ammonium Chloride.

Determination of the relative density and molecular weight of soluble gases.

Determination of approximate equivalents of metallic radicles in the most simple cases, *e.g.*, Copper, Lead, Iron.

Detection of the commoner substances by their physical characteristics.

Qualitative analysis (including blow-pipe analysis) of mixtures containing not more than two acid and two basic constituents (excluding phosphates insoluble in water) from the following list:—

Hydrogen, Potassium, Sodium, Ammonium, Magnesium, Calcium, Strontium, Barium, Zinc, Manganese, Iron, Aluminium, Chromium, Arsenic, Antimony, Tin, Mercury, Lead, Copper, Silver, Carbon, Sulphur, Hydrochloric Acid, Hydrofluoric Acid, Nitrous Acid, Nitric Acid, Carbonic Acid, Silica, Silicic Acid, Sulphuric Acid, Phosphoric Acid.

Qualitative analysis of substances, such as Iron, Brass, Bronze, Solders, Iron Ores, Boiler Scale, Lime-stones, Lime, Cement, Clay, Brick, Paints and Colour washes (for commoner inorganic constituents only).

Simple gravimetric estimations of Calcium, Zinc, Iron, Copper, Silver, Hydrochloric Acid, Carbonic Acid, Sulphuric Acid, and Silica, Commercial analysis of Lime, Lime-stone, and Brass.

PHYSICS.

I.—HEAT.

Expansion of solids, liquids, and gases. Regnault's experiments on the absolute expansion of Mercury and the expansion of gases. Charles' law. Principles of Thermometers. Temperature as measured by the expansion of solids, liquids, and gases. Mercurial thermometers; air thermometers. Thermometers for various purposes. Density of solids, liquids

and gases. Absolute temperature. Calorimetry. Correction for radiation. Specific heats of solids and liquids: method of mixture; Bunsen's Ice Calorimeter. Specific heat of gases—at constant pressure, Regnault; at constant volume, Rontgen. Dulong and Petit's law. Changes of state of aggregation. Regulation. Critical temperature; continuity of state. Measurement of heat of fusion and vaporisation. Influence of pressure on melting and boiling points. Methods of liquifying gases. Maximum pressure of vapours, Regnault; pressure of saturated steam below and above 100°C. Vapour densities; Dumas', Hoffman's *vs.* Meyer's methods Hygrometry. Conduction; variable and permanent stages; simple cases of steady flow across a plate and along a bar; Wiedemann and Franz' experiments. Convection. First law of thermo-dynamics Joule's experiments. Van der Wahl's Theory. Adiabatic transformations. Second law of thermo-dynamics. Cooling of gases by expansion.

II.—STATICAL ELECTRICITY.

Electrification by friction. Electroscopes. Ice-pail experiments. Induction. Electrophorus. Voss and Wimhurst's Influence machine. Electric work and energy. Indicator diagram of electric work Exploration of electric field. Potential at any point of the field Lines and tubes of force. Equipotential surfaces; lines of induction Measurement of electricity. Attracted disc electrometer; quadrant electrometer. Dimensions Electrostatic units. Capacity, Condensers; two concentric spheres; Leyden Jar. Specific inductive capacity. Absolute measurement of capacity; statical comparison of capacities; measurement of specific inductive capacity; standard air condenser.

III.—CURRENT ELECTRICITY.

Chemical and thermal methods of producing currents: Daniell, Grove, Bunsen, Leclanche, Lahande; thermopile; thermo-electric battery Electrolytic conduction Electrolysis of fused compounds and of saline solutions Faraday's laws. The voltameter. Metallic conduction.

Ohm's law. Kirchhoff's laws. Units of resistance Resistance coils. Wheatstone's bridge Resistance of battery. Resistance of galvanometer. Electro motive force. Standard cells—Latimer Clerk. Determination of electromotive force; statical method. Poggendorff's compensation method. Relation of electricity to heat; Joule's law. Gaseous conduction. Disruptive discharge. Flow of electricity and flow of electrical energy. Pheonomena attendant on the starting, stopping, and varying of a current. Oscillating discharges.

IV —MAGNETISM

Fundamental experiments Magnetic field Magnetic elements. Declination theodolite; dip circle; magnetometer. Methods of magnetization.

Relation of magnetism to electricity Oersted's experiment. Tangent galvanometer; Thomson's reflecting galvanometer: Wiedmann's two-coiled galvanometer. Electro-dynamic experiments; the Solenoid Electro-magnets; types. Permeability and methods of measuring it. Magnetic hysteresis Magnetic flux, Magneto-motive force reluctance. The law of traction. Induction of currents; Lenz's law. Self-induction Ruhmkorff's coil. Electro magnetic units.

V.—RADIANT ENERGY.

Laws of vibrating particle Harmonic vibrations. Transverse and longitudinal waves Interference of waves travelling in the same and in opposite directions. Stationary waves. Composition of undulations; eliptical, circular, and rectilinear vibrations Huyghen, principle. Reflection and refraction of thermal, luminous, and electric waves. Velocity of propagation; Foucault and Fizeau's experiments. Plane and spherical mirrors. Refraction. Prisms, minimum deviation. Determination of refractive indices of solids and liquids. Lenses; cardinal points; systems of lenses. Melloni's experiments on radiant heat. Hertz's experiments on electrical radiations. Rontgen rays. Wireless telegraphy. Dispersion. Spectroscope and spectra. Absorption of ethereal waves; diathermancy and athermancy; coloured bodies. Structure of the human eye.

VI.—APPLIED PHYSICS.

1. *Heat.*—Electric pyrometers. Outlines of construction of the double-acting steam-engine. Otto's gas-engine, petroleum engines, and modern ice-making machinery.

2. *Light.*—The sextant; photometry; telescopes; modern field-glasses; microscopes. Principles of photography.

3. *Electricity and Magnetism.*—Telegraphy. Batteries in common use; signals; sounder; Siemens' inkwriter; Siemens' relay. Lightning-conductors. Terminals, single and multiple points; earth connection, its importance; the conductor proper; material; form; joints; clips and brackets; ridge circuits; incidental connections; space protected; protection of dwelling-houses, magazines, chimneys, periodical inspection and testing. The telephone and microphone; electric bells and indicators. Dynamo-electrical machinery. Efficiency, causes of loss of energy. Types of armatures. Armature coils and cores. Field-magnets, Pole-pieces, Field-magnet coils. Commutators, Collectors, Brushes, brush-holders. Curves of potentials and induction. Reaction of armature and field. Lead of brushes. Methods of exciting field-magnets. Classification of dynamos. Examples.

Transmission of electric energy. Accumulators. Transformers, Airlines, insulators, testing; modes of attaching the wire, material for wires, joints, lightning-protectors. Underground conduits. The three-wire system. Comparison with other methods of transmitting energy.

Motors: construction and application. Electric lighting. Incandescent lamps; arc lamps. Electric welding. Electric measurements and measuring apparatus. The volt. Amperemeters and voltmeters; construction and calibration Ampere balances The balistic galvanometer. The Ohm; resistance coils; the shunts box; Ohmmeters. The Farad and micro-farad. The Watt.

VII.—PRACTICAL EXERCISES.

Measurement of the thickness of plates by the wire-gauge, micrometer, micrometer calliper, cover-glass tester, spherometer.

Determination of the radius of curvature of lenses by the spherometer

The cathetometer; constructional details; adjustments; measurement of differences in heights; verification of Boyle's law; coefficient of tentional elasticity.

The longitudinal dividing machine: construction; manipulation, its use as a comparator; calibration of thermometer tubes.

The circular dividing machine: construction; manipulation

The balance: adjustment; weighing by the method of vibration; comparison and calibration of weights; specific gravity of solids; cross-section of wires.

Moments of inertia.

The barometer: readings and corrections.

Themometer: comparison; verification of fixed points Coefficients of expansion.

Hygrometry: absorption hygrometer; dewpoint hygrometers; the psychrometer; comparison of results.

Calorimetry: correction for loss of heat; specific heat of solids; heat of evaporation; heat of combustion.

Melting and boiling points; distillation.

Study of magnetic fields.

Faraday's Ice-pail experiments; exercises with quadrant electrometer.

Setting up and reading of galvanometers. Ohm's law; Wheatstone's bridge The meter bridge; insulation resistance by deflection method; resistance of wires by Kelvin's apparatus.

The potentiometer: current and voltage measurements.

Kelvin's balance; current; voltage; wattage.

The balastic galvanometer; determination of constant, dip and intensity of earth's magnetic field by the earth inductor.

Electrolysis: electrolytic current measurements.

Secondary batteries: constructional details and management.

Thermo-electrical experiments.

Exercises at the spectroscope. Photometric experiments. Focal distances of mirrors and lenses.

(ix) The following revised Syllabus in Mathematics has been adopted for the one given in paragraph 5 of the L E. and B.E. Regulations (pages 79-80, Calendar, 1903):—

I.—MATHEMATICS.

FIRST PAPER.

Statics and Dynamics.

(a) Principle of virtual work. Analytical conditions of equilibrium.

Solution of problems in Statics by resolving and taking moments, by the principle of virtual work and by graphic methods.

Bending moments. The funicular polygon. The Catenary. Equilibrium of simple jointed frame-works.

(b) Units and dimensions

Statical equivalence of the externally impressed forces with the effective forces in any system of bodies; the principles of linear and angular momentum, the principles of *vis viva*.

Gravitational Potential energy; potential energy of a stretched elastic string.

Motion under gravity of a particle on a smooth vertical circle and on other simple curves; simple harmonic motion; the simple and conical pendulum.

Motion of a rigid body about a fixed axis; the compound pendulum.

SECOND PAPER.

Hydrostatics.

Nature and general properties of fluid pressure.

Density and specific gravity of a homogeneous mixture.

Relations between pressure, density and force.

Thrust on a plane area. Centre of pressure.

Resultant pressure on an immersed solid on any immersed surface, particularly in the case of a homogeneous liquid at rest under gravity.

Conditions for the equilibrium and for the stability of the equilibrium of a floating body.

Hydrostatic Instruments. Determination of specific gravity. Properties of gases.

(v) The following revised Syllabuses in Natural Science for the L.E. and B.E. Examinations has been substituted for those given on pages 80—83, Calendar, 1903:—

II.—NATURAL SCIENCE.

Geology.

I.—*Object of Geology.*—Its relations to other sciences. The doctrine of uniformity, its limits.

II.—*Astronomical Geology.*—Information obtained from meteorites and by the spectroscope. Probable history of the earth in its earlier stages of existence.

III.—*Geognosy.*—The globe and its envelopes. Shape and nature of globe; density; probable internal condition; evidences of pressure and internal heat. Persistence of continent ridges and abysmal depressions.

IV.—*Petrography.*—Macroscopic and Microscopic character of rocks. Microscopic elements; their importance for the study of the history of rocks. Microscopic character of quartz, orthoclase, plagioclase, augite, hornblend, olivine, calcite. Essential and accessory constituents. Classification of rocks. Characters and essential constituents of the following rocks.—Lime-stone, quartzite, amphibolite, gneiss, micaceous and chloritic schists, phyllite, granite, granophyr, quartzporphyry, syenite, trachyte, phonolite, obsidian, pumic, norite, diorite, biobase, dolerite, plagioclase-basalt, sand and gravel, sand-stones, conglomerates, breccias, shale, clay, laterite, tuffs, shellmarl, coral lime stone, chalk, peat lignite, coal, anthracite, graphite, petroleum, asphalt, clay iron-stone.

V.—*Dynamical Geology.*—Volcanic phenomena, description of volcanoes—kind, shape, description, relation to lines of weak resistance and instability. Theories of volcanicity. Hot springs. Earthquakes. Secular upheaval and depression. Geological functions of air. Geological functions of water and ice. Chemical and mechanical actions, denudation and deposition. Pecularities of Indian rivers; glacial erosion; formation of lakes. Geological functions of plants and animals; coral islands.

VI.—*Petrogenetic Geology.*—Origin of granite, diorite, and basalt. Origin of sedimentary rocks; minerogen, phytogen and zoogen sedimentary rocks; theories on the origin of coal-beds. Origin of laterite Origin of metamorphic rocks, theories of metamorphism, local and regional metamorphism. Origin of rock-cleavage. Ore deposits. Origin and classification.

VII.—*Architectonic Geology*—Forms of bedding. Surface-markings. Concretions. Relative strata. Overlap. Groups of strata. Joints. Strike and dip; outcrop; monocline; syncline; anticline. Faults, origin and kinds. Intrusive phase of eruptivity; bosses, sheets, dykes, necks; inter-bedded phase of eruptivity, lavas, tuffs. Unconformability.

VIII.—*Palaeontological Geology.*—Object. Conditions for the entombment of organic remains. Preservation of organic remains in mineral masses; fossilizator. Uses of fossils in Geology.

IX.—*Historical Geology*—Leading principles in stratigraphy. Equivalent strata, absence strata, and formations

X.—*Indian Geology.*—With special reference to the Geology of the Bengal Presidency. Peninsular area. The metamorphic and crystalline series. The transition series. Lower and Upper Vindhyas; petrology; the Vindhyan basin. The Gondwana system; geological positions and characters, probable fluviatile origin; relations of Gondwana basins to existing valleys; lower and upper groups, Talchir-Karharbari, Barakar iron-stone shales, Raniganj, Rajmahal; the most important coal fields The Deccan trap series, area and petrology. Laterite; distribution, age. Post tertiary and recent formations; older river gravels and clays; kankar. Indo-Gangetic plain; upland and alluvial soils, red soils, regur, peat. General outlines of the Geology of the Himalayan area.

XI.—*Physiographical Geology.*—Terrestrial features due to disturbance of crust, monoclival, symmetrical, unsymmetrical, reversed flexures, Alpine type of mountain structure. Features due to volcanic action. Features due to erosion. Indian examples.

XII.—*Field Geology.*—Geological surveying instruments, tracing of boundaries and faults Sections; how to find direction and amount of dip; Dalton's construction; clinometer Levelling. Surface, profile, datum level; benchmarks; methods of geological levelling. Lithology; practical exercises in the identification of Indian rocks.

Mineralogy.

PROVINCE OF MINERALOGY, ITS RELATION TO OTHER SCIENCES.

I.—Properties of crystals independent of direction. Density and specific gravity. Methods of determining specific gravities; hydrostatic balance; pyknometer, Jolly's balance; floatation methods. Separation of rock-forming minerals by the floatation method.

II.—*Physical Crystallography.*—Elasticity. Relation of coefficient of elasticity to direction. Classification of crystals with reference to elasticity.

Cohesion. Cleavage, fracture, hardness: Mohs' scale.

Optical properties of minerals. Kind and degree of lustre. Double refraction and polarization. Nicol's prism. Classification of crystals according to their optical properties.

Uni-axial and bi-axial crystals. Examination of crystals in parallel and convergent polarised light. Rotation of plane of polarization. Absorption of light; idiochromatic and allochromatic minerals; pleochroism; Haidinger's dichroscope, microscope with one nicol.

Electrical properties. Pyro-electricity. Magnetic properties. Separation of rock-constituents by the electro-magnet.

III.—*Geometrical Crystallography.*—Relation of physical properties to geometrical form. Crystalline form; faces. Planes of reference, axes, parameters, indices; symbols. Law of rationality of indices. Principles of Miller's, Weiss', Naumann's notation. Fundamental form; its selection. Symmetry: planes and axes. Classes and systems. Simple forms and combinations. Closed and open forms; prismatic, tabular, and pyramidal habit. Nature of hemihedrism. The nature of tetartohedrism. Hemimorphism. Crystallographic mimicry. Isomorphism and heteromorphism. Morphotrophism and isogonism Twinning: twinning plane; twinning axes. Contact twins and penetration twins; distinctive features of hemitropes. Crystalline aggregates, druses. Pseudomorphism. Measurement of angles; contact and reflecting goniometers; relative merits.

IV.—*Chemical Mineralogy.*—Calculation of formula. Classification of minerals. Group tests.

V—*Descriptive Mineralogy.*—A somewhat detailed description of the following minerals:—

Elements—Diamond, gold.

Sulphides—Pyrite, marcasite, pyrhotite, galena, sphalerite, chalcopyrite.

Oxides—Corundum, hematite, spinel, magnetite, quartz, cassiterite, limonite.

Oxysalts:—

(*a*) Carbonates—Calcite, dolomite, siderite, arragonite, malachite.

(*b*) Sulphates—Anhydrite, barite, gypsum.

(*c*) Phosphates—Apatite.

(*d*) Silicates—Tourmaline, epidote, olivine, garnet, muscovite, biotite, talc, serpentine, pyroxene, amphibol, orthoclase, microcline, albite, aligoclase-labradorite, kaolinite.

Haloidsalts—Halite, flourite.

VI.—*Practical exercises.*—Determination of specific gravities. Use of the scale of hardness. Exercises at the polarization microscope. Measurement of angles by the aid of contact and reflecting goniometers. Blow-pipe analysis. Identification of Indian minerals.

Practical Metallurgy.—

Preparation of common alloys of known composition (and determination of the tensile strength of the alloys prepared).

(Mechanical testing of mortars and cements.)

Fire testing of the qualities of clays and brick earths.

Determination of ash, coke, and sulphur in fuels.

Determination of the calorific power of fuels by the Thomson and Hempel calorimeters.

Determination of furnace temperatures by some form of pyrometer.

Rough analysis of products of combustion.

Furnace gases and gases from gas-engines.

VIII.—*Mechanics of a Machinery.*—Simple practical applications of kinematics and dynamics of machinery. Elementary forms of machines. Gearing for transmitting and modifying motion.

Steam-Engine.—Heat and work. Properties of steam.

Indicators and indicator diagrams. Valve motion. Modern types of steam-engine. Details of construction. Governor's fly-wheels. Condensers, Boilers: their construction and working; boiler fittings. Piping Feed-pumps and injectors. Feedwater. Heaters and economisers

Tests of engines and boilers.

Gas and oil engines. General principles of action. Conditions of economical working

Physics.

PRACTICAL EXERCISES.

Tracing of the B. H. course by means of Du Bois' Balance and Leonard's Bismuth Spiral. Experiments with Ewing's Curve Tracer and Ewing's Hysteresismeter. Determination of the Horizontal component of Terrestrial Magnetism by means of Kelvin's apparatus. Experiments with direct current apparatus. Constructional details of a direct-current Dynamo. Running of dynamos. Characteristics of series, shunt and compound dynamos. Armature characteristics. Magnetisation curves of dynamos. Characteristic of a Thomson-Houston arc-dynamo: efficiency of dynamos and motors with and without Dynamometers. Study of arc-lamps. Calibration of ammeters and voltmeters. Construction and testing of electricity-supply meters. Exploration of the field of a dynamo; S. P. Thomson's method; the Dynamo Indicator; Leonard's Bismuth Spiral; coefficient of magnetic leakage; power lost by Hysteresis and Foucault currents. Effects of variation of speed; variation of economic coefficient.

Experiments with alternate current apparatus. Study of alternate currents by means of the Oscillograph. Constructional details of alternate current generators. Curve of magnetisation. Exploration of the field. Coefficient of self-induction of coils; Impedance method, three-voltmeter method; variation of inductance with current. Saturation of core Resistance in series circuits. Measurement of power; three-voltmeter method, three-amperemeter method. Effect of frequency on the angle of lag. Measurement of mutual inductance. Construction of transformers. Transformer tests. Measurement of capacity of a condenser. Comparison of capacities. Effects of capacity in alternate current circuits Experiments with triphase generators and motors.

The above changes in the Regulations for the Examinations in Engineering will take effect at the Examinations in 1906.

ERRATUM.

IN the orders by the Syndicate of the Calcutta University, published on page 1018, Part I of the *Calcutta Gazette*, dated the 29th July 1903, *for* "Manindralal Bandyopadhyay" in order No. 6 *read* "Manindranath Bandyopadhyay."

SENATE HOUSE, K. C. BANURJI,
The 24th August 1903. *Registrar, Calcutta University.*

CALCUTTA UNIVERSITY.

NOTICE.

THE Senate will proceed in the month of August 1904 to the election of a Tagore Professor of Law for the term of one year, to commence on the 1st of August 1905.

The salary of the Professorship is Rs. 9,000 per annum, and the Professor will be expected to deliver a course of not less than twelve lectures on one of the following subjects:—

(1) The rules of Interpretation in Hindu Law, with special reference to the Mimánsa aphorisms as applied to Hindu Law.
(2) The Mahomedan Law of Inheritance according to the several schools, with a history of its origin, growth, and development.
(3) The Law of Specific Relief in British India.

Candidates for the Professorship are requested to forward their applications to the Registrar on or before the 1st May 1904, stating on which of the abovenamed three subjects they are prepared to lecture. Each candidate will forward with his application one hundred copies of a brief synopsis of his proposed lectures; and, if he so pleases, the same number of copies of his Introductory Lecture.

The Professor will be expected to commence his lectures in August 1905, to complete the delivery thereof in the following January, and to hold an examination of the students who have attended his lectures. He will be further required to send to the Registrar a complete manuscript copy of his lectures before the commencement of the delivery thereof, failing which his appointment shall be liable to be cancelled by the Senate on the recommendation of the Faculty of Law.

SENATE HOUSE, K. C. BANURJI,
The 24th August 1903. *Registrar, Calcutta University.*

ORDERS BY THE SYNDICATE OF THE CALCUTTA UNIVERSITY

THE undermentioned candidates have passed the B.E. Examination:—

FIRST DIVISION.

(In order of merit.)

1.	Basu, Probodhchandra	C. E. College, Sibpur.
2.	Bandyopadhyay, Sailendranath	Ditto.
3.	Sen, Jatindranath	Ditto.
4.	Williamson, N. A.	Ditto.
5.	Basu, Nanibhushan	Ditto.
6.	Hui, Rasiklal	Ditto.

SECOND DIVISION.

(In order of merit.)

1.	Raychaudhuri, Samares	C. E. College, Sibpur.
2.	Ghosh, Ramranjan	Ditto.
3.	Bhawani, Jatadhari	Ditto.
4.	Bhuyan, Arjun	Ditto.
5.	S. M. Abdul Aziz	Ditto.
6.	Bhattacharyya, Basantakumar	Ditto.

SENATE HOUSE, *the 20th August 1903.* K. C. BANURJI, *Registrar.*

Office Memo. of the Inspector of Schools, Bhagalpur Division.

UNIVERSITY ENTRANCE EXAMINATION, 1904.

TEST-EXAMINATION OF PRIVATE STUDENTS.

1. A student who does not appear from any school, or who has been transferred since the 1st September next preceding the examination, without the consent of the Inspector, to the school from which he appears, will be treated as a private student.

2. All private students are required to appear at the test-examination of a zilla school. No private student will be admitted to the test-examination unless accompanied, for the purpose of identification, by some person known to the Head Master.

3. The first day of the test-examination in all zilla schools in the Bhagalpur Division will be the 14th December 1903.

4. Each private student will have to pay a fee of Rs. 2 for permission to appear at the test-examination to the Head of the institution at which he appears. The balance of fees, after payment of expenses (stationery, &c.), will go as remuneration to the examiners.

5. Candidates for the test-examination should apply to this office not later than the 9th November 1903. They should forward the certificates granted to them under the transfer rules by the Head Master of the school in which they last read. In the case of a candidate who had failed at a previous Entrance examination and did not join a school afterwards, the Registrar's receipt, in original, will be accepted in lieu of the transfer certificate.

6. A student who had failed to pass the annual examination for promotion to the first class at the end of session 1902-1903 and then left the school cannot under any circumstances be allowed to appear at the Entrance examination that will be held on the 7th March 1904 and following days.

7. Each candidate should submit with his application a statement showing—

(1) Age.
(2) Residence.
(3) Father's name.
(4) Second language, besides English.
(5) Whether he appeared at any previous Entrance examination.

8. *Bonâ-fide* teachers employed in any of the recognised schools in the Bhagalpur Division may be admitted to the test-examination on payment of the prescribed fee, provided they can produce certificates of service and character from their employers, or from the Deputy Inspector of the district concerned.

9. The forms of application for permission to appear at the Entrance examination will be signed by the Head Master of the zilla school at which the candidates have undergone the test, and will be forwarded by him to the Inspector for countersignature.

10. Applications and fees for admission to the Entrance examination must be forwarded to the Registrar of the Calcutta University by the private candidates themselves, so as to reach his office on or before the 25th January 1904.

F.A. AND B.A. EXAMINATIONS, 1904.

1. Deputy Inspectors of Schools, Sub-Inspectors of Schools, and *bonâ fide* teachers of recognised English schools in the Bhagalpur Division of two years' standing, *i.e.*, who have served as such for full two academical sessions, or for six months in the case of those who were admitted to a former examination of the same class, will be admitted to the above examinations. These latter must have served for six months prior to the submission of their applications to the Inspector for countersignature. School-masters should produce certificates of character and length of service (with dates) from the Managers of the schools in which they are employed. Their applications must reach this office not later than the 4th January 1904.

2. Candidates for the B.A. examination must forward with the applications their F.A. certificates, and those for the F.A. examination their Entrance certificates.

3. Candidates should read carefully the certificate which this office will have to sign, and must be careful to supply all information and documents required, without which the Inspector must decline to sign it.

4. The F.A. and B.A. examinations in 1904 will be held on the 21st March 1904 and following days.

5. Applications and fees for admission to the above examinations must be forwarded to the Registrar, Calcutta University, by the candidates themselves so as to reach his office on or before the 6th February 1904.

BHAGALPUR, *The 19th August 1903.*

P. CHATTERJEE, *Inspector of Schools, Bhagalpur Division.*

DACCA DIVISION.

UNIVERSITY ENTRANCE EXAMINATION.

Private Students.

1. A student who has not attended any H. E. School recognised by the University since the 1st September next preceding the Entrance Examination or has been transferred after the 1st September to the school from which he appears without the consent of the Divisional Inspector of Schools will be treated as a private student.

2. The term "Private student" includes school-masters.

3. Private students desirous of being sent up to the ensuing University Entrance Examination must appear at the test examination of one of the undermentioned schools:—

(1) Dacca Collegiate School.
(2) Mymensingh Zilla School.
(3) Faridpur Zilla School.
(4) Barisal Zilla School.

4. The test examinations of the zilla schools will be held on the 16th December 1903 and the following days. The date of examination of the collegiate school should be ascertained from the Head Master of that school.

5. Every private candidate must submit his application to the Head Master of one of the schools named above at least three weeks before the test examination, and satisfy the following conditions:—

(a) that he has not failed at the test examination of any Entrance school during the current session;
(b) that he has not left school from any class lower than the first; and
(c) that he has left the school in which he last read with a transfer certificate, or (in case of a candidate who appeared at any previous examination) he is in possession of the Registrar's receipt.

A school-master is required to produce a certificate from the Secretary of the school in which he has served as a *bonâ fide* teacher for a period not less than six months, or if he has served in several schools, he must produce certificates from the Secretaries of each of them to prove that he has served as a *bonâ fide* teacher in all of them.

6. Every private candidate must pay a fee of Rs. 2 to the Head Master of the school at which he appears for examination. After payment of the necessary expenses, the balance of fees will be paid to the examiners as remuneration.

7. He must be accompanied, for the purpose of identification, by some person known to the officer conducting the examination, and satisfy him as to his character, otherwise he will not be admitted to the test examination.

8. The Head Masters of the schools named above are requested to send to this office a statement showing the marks gained by each private candidate in each subject at the test examination within a fortnight from the date of the said examination, and are authorised to sign the application forms of eligible candidates, which should be forwarded to this office for countersignature and transmission to the Registrar of the University of Calcutta in due time.

9. Private candidates should arrange to remit their examination fees, together with the application forms direct to the Registrar.

F.A. AND B.A. EXAMINATIONS.

1. Deputy Inspectors of Schools, Sub-Inspectors of Schools, and *bonâ fide* teachers of recognised English schools will be admitted to the F.A. and B.A. Examinations as private candidates, provided they have served in their respective capacities for a period of two academical years.

Bonâ fide teachers are those who hold paid appointments in English schools teaching at least the Middle English standard.

2. Exceptions to the above rule will be made in case of those candidates who, after failure at a previous examination, have served for six months since the date of the examination. If, however, a candidate does not complete six months' service at the time of submitting his application, he must satisfy this office that he will stick to the post till he completes six months' service before the examination.

3. School-masters should submit, with their applications, certificates of character and length of service from the Secretaries of their respective schools, and also the University certificates, in proof of their having passed the Entrance or F.A. Examination, as the case may be. Candidates who were admitted to a previous examination should produce the Registrar's receipt in addition.

4. Applications must reach this office on or before the 9th January 1904.

5. Fees should be remitted by the candidates direct to the Registrar of the University of Calcutta, together with the application forms countersigned by the Inspector of Schools, so as to reach the office of the Registrar on or before the 6th February 1904.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Northern Bengal State Railway, in the district of Rangpur, will be put up to sale at 11 o'clock on the 31st of August 1903, corresponding with the 14th Bhadra 1310 (B.S.) at Nilphamari.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary, or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

APPENDIX XXX.

[See Chapter III, Rule 9.]

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plot of land, no longer required by Government, situated along the Barun-Daltonganj Railway, in the district of Gaya, will be put up to sale at 12 o'clock on Friday, the 18th September 1903, corresponding with the 12th Asin 1311 Fusli, at the Gaya Collector's Court.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the land closer than three feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of the original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

In exercise of the powers conferred by section 565 of the Calcutta Municipal Act, 1899, it is hereby declared that the General Committee of the Corporation of Calcutta intend to submit the following draft bye-laws for the consideration of the Corporation.

Any person having any objection to the bye-laws should submit it in writing to the Chairman of the Corporation before the 25th September 1908.

Bye-laws under Section 559 (4) prescribing the procedure to be followed by owners or occupiers desiring a water-supply.

1. The owner or occupier of any masonry building in Calcutta who requires a supply of filtered or unfiltered water for use within such building, and any person who required such a supply for the purpose of any business or trade or other object, shall send to the Chairman a written application on a printed form (to be supplied by the Chairman free of charge).

2. Such application shall specify the name of the licensed plumber who is to be employed on the work, and shall be signed by the applicant or an agent duly authorised on his behalf.

Bye-laws under Section 559 (5) prescribing a schedule of charges of water supplied for other than domestic purposes.

Every person who is supplied with unfiltered water within Calcutta under section 254 of the Act for any purpose other than a domestic purpose shall pay for the same at the rate of four annas for every 1,000 gallons, or at such other rate or rates as may be fixed by the General Committee from time to time. Such rate shall be payable in addition to any rent which may be payable for a meter provided under section 254 or 270 of the Act.

Every person who is supplied with filtered water within Calcutta under section 254 of the Act for any purpose other than a domestic purpose shall pay for the same at the rate of six annas for every 1,000 gallons, except when water is required for the manufacture of articles for consumption by human beings, when the charge shall be three annas per 1,000 gallons, or at such other rate or rates as may be fixed by the General Committee from time to time; such rate shall be payable in addition to any rent which may be payable for a meter provided under section 254 or 270 of the Act.

Bye-laws under Section 559 (8) of the Act regulating in any particular not specifically provided for in the Act (i) The construction and maintenance of water-pipes, taps and fittings. (ii) All matters and things connected with the supply and use of water, the control of the water-supply and the administration of Chapter XX of the Act.

1. No person other than a licensed plumber shall execute any work connected with the supply of water to any premises in Calcutta.

2. No stop-cocks, taps, ferrules, cisterns or other fittings shall be used in connection with the water-supply unless they have been previously submitted to and stamped by an officer of the Corporation duly authorised by the Chairman in that behalf with a special die to indicate that they have been approved under section 260 of the Act.

3. After the application referred to in bye-law under section 559 (4) of the Act has been sanctioned, the licensed plumber in charge of the work shall send to the District Engineer a further written application on a printed form (to be supplied by the Corporation free of charge) for an order authorising him to open the street within which the water main is situated, to enable him to lay the service-pipe connecting such main with the premises in respect whereof the work is being carried on. Such application shall be accompanied by a separate written application for an order directing the shutting off of the water in the main.

Such applications shall be made not later than 2 P.M. on the day previous to that on which the proposed connection is to be made, and shall be accompanied by a fee of Rs. 1-12 in respect of every new connection, shifting connection or re-connection.

If the licensed plumber in charge of the work proposes to lay any pipes or to make any connection under the rails of any tramway or railway, the applications referred to in the preceding paragraph hereof shall be made at least 48 hours before the work is to be commenced.

4. No connection between a service-pipe and a main shall be permitted to be made otherwise than in the presence of the licensed plumber in charge of the work, or of some responsible and qualified person acting on his behalf and of a Municipal Officer authorised in that behalf.

If any excavation made in a street by a licensed plumber is not filled up by him in a proper and workmanlike manner and to the satisfaction of the Municipal Officer hereinbefore referred to, or if the street is not restored to its former condition, or if the street subsides within three months after such excavation has been filled up, the District Engineer may, at the expense of such licensed plumber, carry out such work as may appear to him to be necessary for the purpose of filling up such excavation and restoring such street to its former condition.

5. The service-pipes laid down by a person for the purpose of connecting his premises with the mains of the Corporation must be of galvanised-iron tubing or of lead. Such pipes

must be capable of withstanding a pressure equal to that of a column of water 200 feet in height.

6. Lead pipes must be at least of the following weights:—

inch bore		lbs. per yard.		
⅜	" "	3½	"	" "
½	" "	4	"	" "
⅝	" "	5	"	" "
¾	" "	6	"	" "
1	" "	8½	"	" "

All joints are to be wiped-joints.

Galvanised-iron pipes must be at least of the following thicknesses:—

½ inch diameter	... ...	One-eighth of an inch.
¾ " "	... ...	Three-sixteenths of an inch.
1 " "	... ...	Seven-thirty-seconds of an inch.

7. Only such bends or elbows as are in the opinion of the Engineer absolutely necessary will be allowed in any service-pipes.

8. If for the purpose of connecting any premises with the Corporation mains any trench or excavation has to be made or the pavement or surface of any street has to be opened or broken up, the licensed plumber in charge of the work shall cause the place to be properly fenced and guarded and to be sufficiently lighted during the night, and shall with all convenient speed and in a proper and workmanlike manner complete the work, fill in such trench or excavation after watering and ramming the same, and restore the surface of the road to its former condition, and carry away the earth and rubbish occasioned by such work to such place as may be required by the District Engineer.

9. A brass stop-cock of a pattern to be prescribed by the Chairman must be fitted to every service-pipe; such stop-cock must be placed outside the premises to which it belongs in such position as the Engineer may direct and must be covered with a cast-iron cover for the purpose of affording access to it and indicating its position.

The covers must be of a pattern approved by the Engineer.

10. All taps must be made of brass and must be of the screw-down loose valve type or of such other type approved by the Engineer as to obviate all risk of concussion in the pipes owing to the tap being closed too rapidly. Taps shall not be of the plug or barrel type or of any similar pattern. They must be of the best and most approved kind, and the name of the maker must in each case be stamped upon them.

11. All taps on filtered water pipes in or about a courtyard, compound, stable, cattle-shed, cow-house, out-office of any premises, and tenanted land must be fixed not less than 3 feet above ground level. No tap, whether erected before or after the passing of these bye-laws, shall be allowed to project *outside any premises or* in such a position as to be available for use by the public.

12. No tap may be altered or moved and no alteration or addition may be made in any existing pipe or work without the written consent of the Engineer.

13. Service-pipes must be laid at a depth of not less than 2 feet below the surface of the ground.

14. Whenever a service-pipe is laid, whether before or after the passing of these bye-laws, across a sewer or open drain, or in any place where, in the opinion of the Engineer, it is liable to injury, such pipe must be passed through an iron pipe of sufficient length and strength to afford due protection to it, and at such level as the Engineer may direct. If any dispute arises regarding the size or quality of the iron pipe, the matter shall be referred to the Engineer, whose decision shall be final

15 No service-pipe shall be laid along or through or adjacent to any drain or water-course or in any place where, in the opinion of the Engineer, there is a risk or likelihood of the water in such service-pipe becoming contaminated

16. No pipe shall be laid through or across any drain or water-course in such a manner as in the opinion of the Engineer is likely to cause an obstruction in such drain or water-course

17. Every cistern and reserve tank must be absolutely watertight and must be provided with a ball-valve and with a tell-tale or warning pipe made of galvanized-iron and with proper means of access and inspection

18 No cistern or reserve tank containing or intended to contain filtered water shall be placed immediately over or in the same room as a privy.

19. No service-pipe will be allowed under any circumstance to communicate directly or indirectly with the basin or the trap otherwise than through the cistern or reserve tank of a water-closet, connected privy or urinal.

20. No water-closet, connected privy or urinal shall be flushed otherwise than by a supply of water discharged direct from the cistern or reserve tank hereinbefore referred to.

21. No premises shall be furnished with more than one service-pipe either from the Municipal main or from any other premises without the written sanction of the Engineer.

PENALTY CLAUSE.

Whoever contravenes any provision of any of the foregoing bye-laws under section 559-4, 5, 6, 7 and 8 of the Act, or who fails to comply with any direction lawfully given

to him or any requisition lawfully made upon him under any of the said bye-laws, shall be liable—

(a) to a fine which may extend to Rs. 20, and, in the case of a continuing breach of any of the provisions of any said bye-laws, to a fine which may extend to Rs. 10 for every day during which such breach continues after conviction for the first breach; or,

(b) in cases where a notice can be issued, to a fine which may extend to Rs. 20, and for every day during which the breach continues Rs. 10.

Bye-laws under section 559 (11) specifying the materials to be used in the construction of drains.

1. All materials made use of in connection with the external or internal drainage of any premises must be of the best quality and shall be subject to approval or rejection by the District Engineer or other officer appointed for that purpose by the General Committee. If any question arises as to whether any material is of the best quality, the matter shall be referred to the Engineer of the Corporation, whose decision shall be final.

2. All masonry will consist of first class bricks set in mortar consisting of two parts clean sharp Mugra sand and one part of fresh pure Portland cement of approved brand.

3. All plastering shall be done with mortar as specified in preceding bye-law.

4. The cast-iron covers for pits of all bends shall be of the standard pattern to be seen at the District Engineer's Office.

5. All stoneware pipes to be salt-glazed, true in section, of equal thickness throughout and be perfectly sound in all respects, and to be jointed with pure cement.

PENALTY CLAUSE.

6. Any person who shall be guilty of a breach of any of the provisions of the foregoing bye-laws under section 559 (9), (10) and (11) shall be liable to a fine which may extend to Rs. 20, and, in the case of a continuing breach of any such provisions, to a further fine which may extend to Rs. 10 for every day during which the breach continues after conviction for the first breach.

Bye-laws under section 559 (12) regulating the construction and cleansing of privies and urinals.

1. Every connected privy and water-closet must, if required by the Chairman, be provided with a reserve tank of not less than *80 gallons* in capacity for every seat. Every such tank shall be of galvanized or wrought-iron of 14 gauge.

2. Every connected privy and every water-closet must be provided with a flushing cistern of not less than 3 gallons capacity with the pan; such flush-pipe must not be less than 1¼ inches in diameter.

3. Every syphon trap of a connected privy or water-closet shall be proof against syphonage, and in all cases where connected privies or water-closets are more than one storey high, an anti-syphonage pipe shall be provided having a sectional area of not less than one-fourth the sectional area of the soil pipe.

4. No inlet for the admission of pure air to the master-trap of any premises shall be fixed within ten feet of a door, window, ventilating grating or chimney of any building unless such inlet is provided with a mica or aluminum valve.

5. Every urinal shall be provided with a syphon-trap which must be proof against syphonage.

PENALTY CLAUSE.

6. Any person who shall be guilty of a breach of any of the provisions of the foregoing bye-laws under section 559 (9), (10) and (11) shall be liable to a fine which may extend to Rs. 20, and, in the case of a continuing breach of any such provisions, to a further fine which may extend to Rs. 10 for every day during which the breach continues after conviction for the first breach.

Bye-laws under section 559 (16) for the provision, maintenance and lighting of hoards or fences in public streets when building work is carried on.

Re-erect means "re-erect" as defined in section 3 (39) of the Act—

1. Whenever any building is to be erected, re-erected, altered, repaired or added to in the neighbourhood of or abutting upon a public street, and such public street is likely to be obstructed on account of such work, the owner of the premises or the person in charge of the work (which term shall include the builder and his servants and agents and every other person engaged upon the work) shall, after obtaining the permission in writing of the Engineer, cause sufficient hoards or fences to be erected to the satisfaction of the Engineer before beginning the work.

The Chairman may by written notice require any such owner or the person in charge of the works who has not erected such hoards or fences, or who has erected hoards or fences

which are in the opinion of the Chairman inadequate, or who has removed any hoards or fences, to erect such hoards or fences as may appear to the Chairman to be necessary, and any person who fails to comply with such notice shall be liable to a daily fine which may extend to Rs. 10 per diem for every day (after the date of service of the notice) during which he shall continue to fail to comply with the same within 48 hours.

2. Every such hoard or fence provided under the foregoing bye-law shall be maintained by the owner of the premises or the person in charge of the works in good condition to the satisfaction of the Engineer.

3. Every hoard or fence shall be sufficiently lighted by the owner of the premises or the person in charge of the works at night to the satisfaction of the Engineer.

4. No person shall erect any hoard, fence or similar contrivance without the written permission of the Engineer.

Such permission shall specify the time during which such hoard, fence or similar contrivance shall be allowed to stand, and such hoard, fence or similar contrivance shall, on the completion of the works, be removed by the owner of the premises or the person in charge of the works, on the completion of the works or on the expiry of the time mentioned in the written permission of the Engineer, whichsoever shall first happen, unless the time shall be extended by the Engineer in writing. A week's notice of the intention to remove a hoard or fence shall be given to the Engineer in writing.

5. Every permission to erect a hoard or fence on any public street shall be granted on such terms and conditions as to payment of rent, and provision of a footpath for passengers and generally upon such terms and conditions as the Chairman may require.

6. If any hoard or fence shall not be removed as provided in bye-law 4 hereof, the Engineer may cause a written notice to be served upon the party concerned requiring him to remove the same at once, and after the issue of such notice in case of non-compliance the Engineer himself may cause it to be removed.

7. If any person shall commit a breach of any of the provisions of bye-laws 2, 3, 4, 5 and 6 hereof, he shall be liable to a fine which may extend to Rs. 20, and, in the case of a continuing breach, to a fine which may extend to Rs. 10 for every day during which the breach continues after conviction for the first breach.

Bye-laws under Section 559 (17) for regulating the making of holes and the depositing of materials in a public street.

1. If in any case, which is not otherwise provided for in any bye-law drawn under the Act, any person is desirous of opening or making an excavation or trench in any public street, he shall make a written application to the Engineer for leave to proceed with the work, specifying the reason for such opening, excavation or trench, and the Engineer shall in his discretion either refuse permission or grant permission on such terms as he may think fit.

2. After receipt of permission in writing from the Engineer and not less than 48 hours before the opening, excavation, or trench shall be begun, such person shall send to the Engineer a written notice specifying the date and hour upon which it is proposed to commence the work.

3. No person shall commence or carry on any such work until he has complied with the provisions of the two foregoing bye-laws.

4. The person to whom permission shall be granted to make an opening, excavation or trench in a public street or the person in charge of such work, shall cause any opening, excavation or trench made in a public street to be at all times fenced and guarded and in addition at night sufficiently lighted to the satisfaction of the Engineer.

5. The person to whom the written permission shall be granted under bye-law 1 of these bye-laws or the person in charge of the work shall complete it with all convenient speed and shall fill up any opening, excavation or trench and restore the surface of the street to its former condition and maintain it in such a condition for a period of three months and carry away all earth and rubbish occasioned by the work as quickly as possible, and in default the Engineer may cause a written notice to be served upon the party concerned requiring him to carry out such work to the satisfaction of the Engineer.

6. Any person who shall commit a breach of any of the provisions of the foregoing bye-laws shall be liable to a fine which may extend to Rs. 20, and, in the case of a continuing breach, to a fine which may extend to Rs. 10 for every day during which the breach continues after conviction for the first breach.

Bye-law under Section 559 (19) for the provision and maintenance of gutters and pipes for carrying and discharging water from buildings in public streets.

When any person has, whether before or after the passing of this bye-law, fixed, attached or connected any gutter or spout upon, to or with any building in such a manner as to project over any public street or in such a manner that the water which passes through such gutter, or which is discharged from such spout, falls upon a public street, the Chairman may, by written notice, require the owner or occupier of the building to which such gutter or spout belongs to remove such gutter or spout or to carry out such alterations as may appear

to the Chairman to be necessary, and any person who fails to comply with such notice shall be liable to a fine which may extend to Rs. 10, for every day after the date of the service of the notice during which such person shall continue to fail to comply with the same.

Bye-laws under Section 559 (26) specifying the manner in which stables, cattle-sheds and cow-houses kept for profit are to be constructed and connected with the Municipal drains.

1. Every stable, cattle-shed and cow-house kept for profit which, after the date when this bye-law comes into force, may be constructed, extended or materially altered, or the roof whereof may, after the date aforesaid, be removed, shall conform to standard type plans approved by the General Committee, copies of which can be had on application at the Municipal Office, or the district office of the district within which any such stable, cattle-shed or cow-house is situated, and on payment of a fee of rupee one.

2. Every stable, cattle-shed and cow-house shall be well paved by the owner with asphalt, stone, brick-on-edge with cement-pointing, flag-stones set in cement, or, with the approval of the Chairman, some other suitable impervious material, and the floor shall incline to a channel or gutter sloping towards and emptying directly into a gully, or in the unsewered area, a cesspool situated immediately outside the stable, cattle-shed or cow-house and the contents whereof shall be removable to a Municipal sewer, either by hand or by flow after filtration.

3. In the unsewered area such cess-pool shall be constructed of bricks set in cement and cement-plastered, or, with the approval of the Chairman, some other suitable impervious material and so constructed as not to admit of rain water.

4. Every stable, cattle-shed and cow-house shall be properly lighted and ventilated; an open space of not less than one foot in width below the junction of the eaves and the wall of the building shall be kept open on all sides for light and ventilation in addition to such other openings as may be required by the Chairman.

5. Every stable, cattle-shed and cow-house shall be provided by the owner with an adequate supply of filtered water for the cattle to drink and for washing utensils used for milk; an adequate supply of unfiltered water shall also be provided by the owner for flushing purposes, except in the case of cow-houses referred to in section 254 (1) of the Act.

6. No well shall be allowed on the premises occupied by a stable, cattle-shed or cow-house.

7. The owner of every stable, cattle-shed or cow-house shall provide in connection with the same a suitable receptacle protected from the rain, for dung, manure, soil, filth or other offensive or noxious matter which may from time to time be produced in such premises. He shall cause such receptacle to be constructed so that the bottom or floor thereof shall not in any case be lower than the surface of the ground adjoining such receptacle. He shall also cause such receptacle to be constructed in such a manner and of such materials and to be maintained at all times in such a condition as to prevent any escape of the contents thereof or any soakage therefrom into the ground or into the wall of any building. He shall, once at least every day, remove or cause to be removed all dung, manure, soil, filth or other offensive or noxious matter produced in or upon such stable, cattle-shed or cow-house and deposit it in such receptacle.

8. No person shall keep any horse or cattle or deposit the dung of any horse or cattle in such a situation or in such a manner as to pollute any water supplied for use, or used, or likely to be used by man for drinking or domestic purposes or for manufacturing ice or drinks for the use of man, or any water used or likely to be used in any dairy.

9. In case of the erection or material alteration of a stable, cattle-shed or cow-house, or in case of the removal of the roof, the total area covered by the whole of such stable, cattle-shed or cow-house shall not exceed two-thirds of the total area of the site. The remaining one-third of the site shall be kept open to the sky, and shall be paved throughout with impermeable material to be approved by the Chairman and shall be provided with a drain, such drain being constructed of brick masonry or concrete plastered with Portland cement or of natural or artificial stone or of glazed half round pipes, and being connected with a Municipal sewer through trapped inlets in the manner prescribed by the Act.

10. If on any site more than one range of stables, cattle-sheds or cow-houses be constructed, or materially altered, or if the roof of any such stables, cattle-sheds or cow-houses be removed, such stables, cattle-sheds or cow-houses shall be disposed so as to form three sides of a parallelogram, the fourth side being left open and the interior of the parallelogram being occupied by an open court-yard.

11. On every cow-house premises for keeping milch-cows or buffaloes, a separate shed or place shall be provided for the temporary storage of milk and the keeping of milk vessels, and no such shed or place shall communicate with a cow-house.

12. The Chairman, if he considers it necessary, may by written notice require the owner of any stable, cattle-shed or cow-house, abutting upon or within fifty feet of any open drain or footpath, to construct and maintain a crossing over such drain or footpath of such description and of such materials and of such dimensions as the Chairman may direct, and

any person who fails to comply with such notice shall be liable to a fine which may extend to Rs. 20, and in the case of a continuing breach shall be liable to a daily fine which may extend to Rs. 10 per diem for every day during which the breach continues after conviction.

13. Every person who shall offend against any of the foregoing bye-laws shall be liable for every such offence to a fine which may extend to Rs. 20, and, in the case of a continuing breach, to a fine which may extend to Rs. 10 for every day during which the breach continues after conviction for the first breach.

Bye-laws under Section 559 (55) for the purpose of carrying out the provisions and intentions of Section 14 (2) of the Calcutta Municipal Act, 1899.

1. The Chairman may prescribe during what hours any Municipal square or garden shall be open to the public, and when any Municipal square or garden is not left open by day and by night, a notice or notices shall be affixed at one or more of the entrances to such Municipal square or garden, stating at what hour the same will be opened and at what hour it will be closed.

No person other than an officer or servant of the Corporation, or a person or servant of a person employed by the Corporation in or about any work in connection with the laying out, planting, improvement or maintenance of a Municipal square or garden, shall on any day enter a Municipal square or garden before the time appointed for the opening thereof, or enter a Municipal square or garden or remain therein after the time appointed for the closing thereof.

2. No person shall enter or quit any Municipal square or garden otherwise than through some one of the gates, wickets, passages or openings appointed by the Corporation as the authorised means of entrance to or egress from the Municipal square or garden.

3. No person shall wilfully or improperly resume or displace any board, plate or tablet, or any support, fastening or fitting of any board, plate or tablet used or constructed or adapted to be used for the exhibition of any bye-law or notice and fixed or set up by the Corporation in any part of a Municipal square or garden, or in or upon any building or structure therein, or at or near to any one of the appointed means of entrance to or egress from a Municipal square or garden, or in or on any wall or fence enclosing a Municipal square or garden.

4. No person shall deface, injure or destroy any part of any wall or fence in or enclosing a Municipal square or garden, or any part of any building, barrier or railing, or of any fixed or moveable seat, or of any other structure or erection in a Municipal square or garden.

5. No person shall remove or displace any barrier, railing or post or any fixed or moveable seat, or any part of any building, structure or erection, or any monument, work of art, ornament, or decoration, or any implement, utensil, apparatus, appliance or article provided for use or used or adapted to be used in the laying out, planting, improvement or maintenance of any Municipal square or garden, or in the case of cultivation, or protection of any tree, sapling, shrub, underwood, fern, herb, or plant in a Municipal square or garden, or in a street or other public place.

6. No person other than an officer or servant of the Corporation, or a person or a servant of a person employed by the Corporation in or about any work in connection with the laying out, planting, improvement or maintenance of a public square or garden shall at any time ride, drive or bring or cause or suffer to be ridden, driven, or brought into a Municipal square or garden any beast of draught or burden.

7. No person shall drive or bring, or cause to be driven or brought into any Municipal square or garden, any bullock or cow, heifer, steer, calf, sheep, lamb, goat, hog, pig or sow, unless, in pursuance of an agreement with the Corporation, or otherwise in the exercise of any lawful right or privilege, such person shall be authorised to drive or bring any such animal or cause any such animal to be driven or brought into a Municipal square or garden for pasturage or any other lawful purpose.

8. No person other than an officer or servant of the Corporation, or a person or a servant of a person employed by the Corporation in or about any work in connection with the laying out, planting, improvement, or maintenance of a Municipal square or garden, shall at any time drive or wheel, or cause or suffer to be driven or wheeled into a Municipal square or garden, any barrow, truck, tricycle, bicycle or any vehicle of any kind whatever other than a vehicle propelled by hand and used for the conveyance of infants.

9. No person other than an officer or servant of the Corporation, or a person acting in pursuance of their directions in that behalf, shall affix, or post any bill, placard or notice to or upon any wall or fence in or enclosing a Municipal square or garden, or to or upon any part of any building, barrier or railing, or of any fixed or moveable seat, or of any other structure or erection in a Municipal square or garden, or to or upon any tree in a Municipal square or garden, or in a street or other public place.

10. No person, other than an officer or servant of the Corporation, or a person or a servant of a person employed by the Corporation in or about any work in connection with the laying out, planting, improvement or maintenance of a Municipal square or garden, or street or other public place shall at any time, in any part of a Municipal square or garden, or in any street or other public place, remove or disturb any part of the soil of any

flower-bed, or any soil under or about any tree, sapling, shrub, underwood, fern or plant, or any soil in course of preparation or cultivation as a flower-bed, or for the reception or growth of any tree, shrub, underwood, fern or plant.

11. No person other than an officer or servant of the Corporation, or a person or servant of a person employed by the Corporation in or about any work in connection with the laying out, planting, improvement or maintenance of a Municipal square or garden, shall at any time, in any part of a Municipal square or garden, walk or run over, or stand, sit or lie upon any part of any flower-bed, or any shrub, underwood, fern or plant, or any ground in course of preparation or cultivation as a flower-bed, or for the reception or growth of any shrub, underwood, fern or plant.

12. No person other than an officer or servant of the Corporation, or a person or a servant of a person employed by the Corporation in or about any work in connection with the laying out, planting, improvement, or maintenance of a Municipal square or garden or a street, or other public place, shall at any time, in any part of a Municipal square or garden, or in a street or other public place, cut or displace any turf, or uproot or displace any tree, sapling, shrub, underwood, fern, or plant.

13. No person shall at any time, in any part of a Municipal square or garden, or in any street or other public place, pluck any bud, blossom, flower or leaf of any tree, sapling, shrub, underwood, fern, or plant.

14. No person shall soil or defile any part of any wall, or fence in or enclosing a Municipal square or garden, or any part of any building, barrier or railing, or any fixed or moveable seat, or of any monument, work of art, ornament or decoration, or of any other structure or erection in a Municipal square or garden, or throw or deposit any filth, rubbish or refuse, or cause or suffer any filth, rubbish, refuse to fall, or to be thrown, or deposit upon any part of a Municipal square or garden.

15. No person shall throw or discharge in a Municipal square or garden any stone or other missile to the damage or danger of any person.

16. No person shall climb any wall or fence in or enclosing a Municipal square or garden or any tree in a Municipal square or garden, or in any street or other public place or any barrier, railing, or post in or enclosing a Municipal square or garden.

17. No person shall bathe, wade or wash in any tank, pond or other ornamental water in a Municipal square or garden, or wash clothes in, foul or pollute any such water, or take, injure or destroy, or attempt to take, injure or destroy, or disturb any fish in any such water.

18. No person shall cause or suffer any dog belonging to him or in his charge to enter or remain in a Municipal square or garden

19. No person shall play or take part in any game in or fly kites in any Municipal square or garden without the permission of the Chairman.

20. No person shall drink, or bring or cause or suffer to be brought any intoxicating liquor in a Municipal square or garden.

21. No person other than an officer or servant of the Corporation, or a person or a servant of a person employed by the Corporation, in or about any work in connection with the laying out, planting, improvement or maintenance of a public square or garden, shall, except as is hereinafter provided, erect any post, rail, fence, pole, tent, booth, stand, building or other structure in any part of a Municipal square or garden: provided that the foregoing prohibition shall not apply in any case whereupon an application to the Chairman for permission to erect any post, rail, fence, pole, tent, booth, stand, building or other structure in any part of a Municipal square or garden, upon such occasion and for such purpose as shall be specified in such application, the Chairman may grant, subject to compliance with such conditions as he may prescribe, permission to any person to erect such post, rail, fence, pole, tent, booth, stand, building or other structure.

22. No person shall in any part of a Municipal square or garden beat, shake, sweep, brush or cleanse any carpet, drugget, rug, mat or any other fabric retaining dust or dirt.

23. No person shall in any part of a Municipal square or garden hang, spread or deposit any linen or other fabric for the purpose of drying or bleaching.

24. No person shall deliver any public address in any part of a Municipal square or garden without the sanction of the Chairman.

Wanted Population.

A LARGE area of culturable land is lying uncultivated in Bhilsa and Esagarh districts of the Gwalior State for want of sufficient population; most of the land is black *mar*, which is without irrigation, fit for wheat growing in years of ordinary rainfall; in some districts the land is either *padua*, *dumat* or *rankad*; but it is fit for growing wheat by means of irrigation.

The cultivators who come to settle from outside and cultivate the land will be given the following concessions:—

(1) That the cultivator who cultivates 100 bighas of land will be given occupancy right in the land, and he will have to pay rent one anna less in the rupee than the rent ordinarily paid by other tenants.

(2) That the cultivators who cultivate more than 100 bighas of land will be given zamindari *huq* in the land, *i.e.*, he will have to pay rent according to the settlement rates which will be fixed at the time of the settlement.

(3) That the cultivator who populates a village and cultivates 1,000 bighas of land will be given zamindari *huq* in the village, and that a well for drinking purposes in the village will be sunk, if necessary, by the Durbar at its own cost.

(4) That any cultivator who desires to populate one or more depopulated villages may apply for special concessions which will be granted by the Durbar.

(5) That the cultivator who takes *patta* of the land is bound to bring ¼ of the land under cultivation within the first three years; ½ within the six years; and the whole of it, excepting the land under houses and that reserved for grazing, within ten years from the date of the *patta*.

(6) That the cultivator shall be charged nothing for the land which he brings under cultivation for the first six years; that one-half rent will be charged for the next three years; and that full rent will be charged thereafter.

(7) That the cultivator will be charged nothing for timber which he takes from the forest for building houses and making implements for cultivation; that the new settlers will be charged no *sayar* taxes on timber for six years; after that ½ anna *sayar* tax per cart of timber will be charged.

(8) For any further particulars application may be made to the Subha of the districts of Bhilsa and Esagarh or to the Secretary, Board of Revenue.

JAPAN—NAIKAI (INLAND SEA).

Hiro sima approach—Beacon constructing and provisional light at Nishinogoban sho.

THE British Admiralty has given notice (No. 597 of 1903) that a beacon from which it is intended to exhibit a light is now in course of construction on a 2½ fathoms patch, named Nishinogoban sho, situated about 14 cables S. 45° W from the south-western point of Kurahasi sima, in the approach to Hiro sima.

Approximate position, lat 34° 4′ N., long. 132° 26¼′ E.

During the construction of the beacon a provisional *red fixed* light, elevated 15 feet above high water, will be exhibited on a pole near the base of the projected beacon. This light will be unwatched and therefore unreliable.

(*Variation 4° Westerly in 1903.*)

Further Notice will be given when the beacon is completed and the light established.

NEW ZEALAND—NORTH ISLAND.

Port Nicholson entrance—Falcon shoals in fairway.

THE British Admiralty has given notice (No. 601 of 1903) of the existence of the undermentioned shoal heads in the fairway into port Nicholson, now named Falcon shoals, and of a shoal in Lyall bay:—

(1) A shoal, with a depth of 24 feet over it at low water, situated with the northern extremity of Ward island, bearing N. 30° E., distant 9 cables, and the outer extremity of the rocks off Kau point N. 65° W.

(2) A shoal, with a depth of 24 feet over it at low water, situated with the northern extremity of Ward island, bearing N. 34° E., distant 10¾ cables, and the outer extremity of the rocks off Kau point N. 59° W. This shoal is within the sector of white light shown from Somes island light.

(3) A shoal, with a depth of 23 feet over it at low water, situated with the northern extremity of Ward island, bearing N. 39° E., distant 11¾ cables, and the outer extremity of the rocks off Kau point N. 54° W.

(4) A shoal, with a depth of 26 feet over it at low water, situated with the northern extremity of Ward island, bearing N. 41° E., distant 14½ cables, and the outer extremity of the rocks off Kau point N. 40° W.

(5) A shoal, with a depth of 27 feet over it at low water, situated with the northern extremity of Ward island bearing N. 17° E., distant 11½ cables, and the outer extremity of the rocks off Kau point N. 58° W.

(6) A shoal, with a depth of 18 feet over it at low water, situated with the northern extremity of Ward island, bearing N. 2° E., distant 11½ cables, and the outer extremity of the rocks off Kau point N. 61° W.

(7) Hope shoal, 5 cables S. 41° W., from the northern extremity of Ward island, has a depth of 5 feet, at low-water springs, and not 10 feet, as shown on the Chart.

(8) There are several patches of from 7 to 10 feet between Hope shoal and Ward island.

(9) The depths in the passage eastward of Ward island between it and Robinson bay have decreased to 10 feet in places.

Lyall bay:—

A shoal, with a depth of 16 feet over it at low water, exists in Lyall bay, 4½ miles south-westward of Ward island, situated with the signal station bearing N. 46° E., distant 17 cables, and mount Albert N. 49° W. Foul ground, with depths of from 21 to 27 feet over it, extends for a distance of 1½ cables S.S.E. from this shoal.

Approximate position, northern extremity of Ward island, lat. 41° 17¼′ S., long. 174° 52¼′ E.

NEW ZEALAND—NORTH ISLAND, WEST COAST.

Kawhia harbour—Leading beacons and lights.

THE British Admiralty has given notice (No. 611 of 1903) that a beacon, 35 feet high, has been erected on the south-western extremity of Te Motu, and another, 26 feet high, on the rising ground 1¾ miles S 62 E from it. These beacons in line S. 62° E. lead over the bar in a depth of 12 feet at low water ordinary springs.

On and after 1st July 1903, when vessels are expected or leaving the harbour, a *white fixed* lantern light, elevated 13 feet above high water, will be exhibited from the front beacon, and a *white fixed* lantern light, elevated 60 above high water, from the rear beacon. These lights should be visible 2 miles outside the bar.

The former beacon on Te Motu and that on the rock off South head have been removed

Approximate position, lat. 38° 4¾′ S, long. 174° 49′ E.

MARINE DEPARTMENT.

Dated Calcutta, the 22nd August 1903.

RESOLUTION.

READ—

Letter No. 6314B., dated 20th July 1903, from the Board of Revenue, Lower Provinces, submitting the report on the working of the Shipping Offices at Calcutta Chittagong and the Orissa Ports during the year 1902-1903.

THE receipts of the Shipping Office, Calcutta, amounted, during the year under review, to Rs. 71,668, showing an increase of Rs. 2,602 over those of the previous year. This is due mainly to an increase in the income derived from the shipping and discharging fees. There was a decrease of Rs. 868 in the sale of discharge certificates, as fewer certificates were issued during the year, the majority of Indian seamen having previously provided themselves with them.

The new Branch Shipping Offices at Kidderpore will, it is hoped, be completed during the current year.

2. The expenditure aggregated Rs. 27,339, which is slightly more than in the previous year.

3. The Trust Funds showed an increase of Rs. 36,316 in the receipts during the year, the large portion of this increase being due to the Shipping Master insisting, before sanctioning the discharge of European seamen, on deposits being made by them to prevent their becoming a source of expense to the State. A sum of Rs. 1,171 lapsed to the State, and the undisbursed balance at the close of the year amounted to Rs. 12,643.

4. The number of seamen shipped and discharged were—

Shipped	36,724
Discharged	32,584

There was an increase of 134 in the number of seamen shipped under European Articles, while there was a decrease of 792 in the number shipped under Indian Articles. The numbers vary according to the requirements of the trade; 121 Eurasians were shipped and 273 discharged, against 134 and 281 in the previous year. A larger number and a better class of men are offering themselves as ordinary seamen, but it is difficult to find them suitable employment, as the demand is for able-bodied seamen.

Besides the above, 42 seamen were shipped and 59 discharged by Foreign Consuls.

5. The value of the money-orders sent by European seamen, which fell from Rs. 16,634 in 1900-1901 to Rs. 7,622 in 1901-1902, rose again to Rs. 16,154 during the year under review.

6. Forty-six men were sent home as distressed seamen, against 18 in the year before.

7. At the request of the Vice-Consul for Spain, the Shipping Master sanctioned the discharge of a Spanish lad from the S.S *Battersea Bridge* on the ground of ill treatment on board. The Consul took charge of the lad, but found him incorrigible, and the Shipping Master had to ship him again.

In his last report the Shipping Master expressed the opinion that Indian crews would gradually displace their European rivals. The present report, however, shows slightly in favour of the Europeans. The Shipping Master states that this is in some measure due to the fact that he required the payment of the passage of the European crew back to the United Kingdom before consenting to their discharge in India.

Chittagong.

8. At the port of Chittagong the number of seamen shipped and discharged were 32 and 366, against 161 and 539 during 1901-1902, and 45 and 13, respectively, in the year 1900-1901.

The receipts amounted to Rs. 690 against Rs. 1,314 in the previous year, the decrease being due partly to the smaller number of men engaged and discharged during the year and partly to a reduction in the receipts credited as overtime fees.

The disbursements represent three-fourths of the overtime fees paid to the Shipping Officers. Out of the fees thus earned, viz., Rs. 160, only a sum of Rs. 12 was paid in September 1902. The disposal of the balance has been postponed pending settlement of the general question of the distribution of these fees in accordance with the recent orders of the Government of India on the subject.

9. The receipts from Trust Funds, consisting of deposits on account of the balance of wages of seamen discharged, amounted to Rs. 25,130: the whole of this was disbursed.

Orissa Ports.

10. At the Orissa Ports no seaman was discharged during the year, while one British seaman was shipped at False Point. The Shipping Master inspected nine vessels at False Point, but received no complaints nor discovered any defects.

One lascar died at False Point: the balance of his wages was forwarded to the Shipping Master, Calcutta.

By order of the Lieutenant-Governor of Bengal,

W. A. INGLIS,

Offg. Secy. to the Govt. of Bengal.

REPORT ON THE ADMINISTRATION OF THE EXCISE DEPARTMENT IN THE LOWER PROVINCES, BENGAL, DURING THE YEAR 1902-1903.

The 25th August 1903.—The following extracts from the Report of the Commissioner of Excise and Salt, Bengal, on the Administration of the Excise Department in the Lower Provinces of Bengal during the year 1902-1903 as well as the letter from the Board of Revenue reviewing the report are published for general information.

L. P. SHIRRES,
Secy. to the Govt. of Bengal.

No. 6807½B., dated Calcutta, the 1st August 1903.

To—The Secretary to the Government of Bengal, Financial Department.

Member in charge:
THE HON'BLE MR. C. E. BUCKLAND, C.I.E.

I AM directed by the Board of Revenue to submit the report received from the Commissioner of Excise, Bengal, upon the administration of the Excise Department during the year 1902-1903. The review for the most part deals completely with the different features of interest during the year, and the comments which the Board have to make are few.

2. *Paragraph 17 of the Report.*—It appears that the large increase said to have been gained at the new triennial settlements in Calcutta, as reported in the preceding year, was subsequently discounted to some extent by the surrender and cancellation of licenses. There still, however, remained a substantial balance to the good. The increase of revenue obtained at the new settlements for 1903-1904 in Manbhum, would appear to have been quite abnormal, and the Board will make further enquiry as to the reason. The information so far furnished is somewhat general in form, namely, that the fees ruled higher, more especially in the case of outstills.

3. *Paragraphs 24—26 of the Report.*—The consumption of distillery liquor in Burdwan remained practically stationary; in Bankura, Midnapore and Hooghly, there was some increase recorded. In Bankura and Midnapore, the detective establishments seem to have been more active, though the same can scarcely be said of Hooghly, where a recent inspection by the Commissioner of Excise has demonstrated the need for closer supervision. In Burdwan the Raina thana still maintained a discreditable notoriety for the prevalence of the offence of illicit distillation, and the measures so far adopted seem to have had little result. The Board will enquire what further action can be taken, and will suggest to the Excise Commissioner that the co-operation of the local *zamindars* should be sought, or, in default, that their responsibilities under the law should be enforced. It is observed that in the district of Ranchi (*paragraph 54 of the Report*) useful assistance was thus derived from a proprietor of certain villages concerned in this illicit traffic.

Paragraphs 31 and 32 of the Report.—It is noted that the patrol establishments in Jalpaiguri for the prevention of the smuggling of liquor from Bhutan and Kuch Bihar are alleged to have effected good results. It is true that the revenue from license fees showed an improvement, but the consumption was practically stationary, while the number of prosecutions instituted for the illegal possession of foreign exciseable articles actually declined. The same also was the case in Darjeeling, though both consumption and revenue there showed a substantial advance. It is observed that in the district of Jalpaiguri the incidence of taxation per proof gallon of country liquor is the third highest in the Province. The Excise Commissioner will be asked to consider whether, under the circumstances, this is not excessive.

Paragraphs 45 and 46 of the Report.—The Board have already separately given their opinion that the success so far achieved in the Sonthal Parganas by the measures taken to check illicit distillation by improved facilities for the supply of licit liquor, is decidedly hopeful.

4. *Paragraphs 57—62 of the Report.*—The figures regarding the consumption of country rum continue to be somewhat difficult to understand, but there was some recovery in the revenue. The closure of the Albion Distillery (Howrah), preceded by the failure of that at Sakri (Darbhanga), does not seem to indicate a successful prospect for the trade, at any rate in Bengal.

5. *Paragraph 65 of the Report.*—It is noticeable that the districts of Burdwan, Khulna, Backergunge and Tippera, all show an increase in the license fees for imported liquor shops. It was observed in the preceding year that the taste for such brands appeared to be spreading in Eastern Bengal.

6. *Paragraphs 83 and 84 of the Report.*—The figures are interesting as illustrating the violent fluctuations in the area under *ganja* with its attendant produce and resultant prices. As the result of the bumper crop of 1901-1902, prices ruled much lower. The effect of the orders of the Government of India, restricting the cultivation to a maximum of 976 acres, has yet to be seen.

7. *Paragraph 99 of the Report.*—The Board will address the Commissioner of the Chota Nagpur Division regarding the introduction of the Kuch Bihar system of *ganja*-supply into the Tributary States of that Division.

8. *Paragraphs 115 and 116 of the Report.*—The results which have followed in the district of Chittagong from the abolition of the system of restricted sales of opium to individual shops, will form the subject of special enquiry by the Commissioner of Excise. The decline under the head of license fees was very marked, and the detective establishments seem unable to check the smuggling of the drug to Burma.

9. *Paragraph 122 of the Report.*—The Board are somewhat apprehensive regarding the large increase in the issue of licenses for the sale of cocaine. They note that the matter has the attention of the Commissioner of Excise, but the restriction of the abuse of cocaine cannot be satisfactorily enforced until the Excise Law is amended.

10. *Paragraphs 125 and 127 of the Report.*—The Board agree with the Commissioner of Excise that the detective work of Excise officers leaves much room for improvement, which can only be ensured by closer supervision being exercised by Collectors and Excise Deputy Collectors Mr. Badshah is giving special attention to the point in the course of his own district inspections.

There would seem to have been some want of discretion in the institution of numerous prosecutions in respect of the unlicensed manufacture and possession of *pachwai* in Dinajpur. The Excise Commissioner has recently brought it to the notice of the Board that the excise administration in this district has not been altogether satisfactory.

11. *Paragraphs 143 and 144 of the Report.*—The attention of the Commissioners of the Rajshahi and Chittagong Divisions and of the Collectors of the districts marginally noted, will be drawn to the omission in respect of the inspection of their subordinate Excise offices.

SECTION III.—RECEIPTS AND EXPENDITURE.

* * * * *

10. The excise revenue and charges of the province for the last five years are shown below:—

Total revenue and charges.

Period.	Revenue.	Charges.	Net revenue.	Percentage of charges.
	Rs.	Rs.	Rs.	
1898-99	1,34,27,290	6,74,503	1,27,52,787	5·02
1899-1900	1,39,66,984	6,86,984	1,32,80,000	4·91
1900-1901	1,46,48,419	6,73,358	1,39,75,061	4·59
1901-1902	1,50,25,317*	6,75,818	1,43,49,499*	4·49
1902-1903	1,57,87,729	7,72,606	1,50,15,123	4·89
Difference of the past two years ...	+ 7,62,412	+ 96,788	+ 6,65,624	+ ·4

* Revised figures.

The net revenue shows an increase of Rs. 6,65,624, or 4·6 per cent., over that of the previous year, and is the largest on record.

Excise charges.

14. The charges show an increase of Rs. 96,788. The increase of Rs. 75,223 under the head "Establishments" is due to the entertainment of new officers and their peons under the orders of the Secretary of State sanctioning the reinforcement and re-organisation of the Excise Preventive establishments in Bengal. The increase of Rs. 18,385 under the head "Travelling allowance" is attributed partly to increased establishments and partly to greater activity on the part of the inspecting and detective staff. The increase of Rs. 3,101 under the head "Supplies and Services" is partly due to the charges on account of uniforms supplied to jamadars and peons appointed recently and partly to the increased payments of rewards in consequence of the detection of important cases. The small increase of Rs. 79 under the head "Contingencies" is due to ordinary fluctuations. In Calcutta the entire cost of the establishment, whether employed in the Land Revenue, Stamps, or other departments, including the pay of the Superintendent of Excise Revenue and the Deputy Collector of Calcutta is charged to "Excise" under special orders.

SECTION IV.—DEMAND AND COLLECTION OF REVENUE.

Revenue under different heads.

15. The total revenue under the different heads of exciseable articles was Rs. 1,57,87,729 as against Rs. 1,50,25,317, in the previous year; showing an increase of Rs. 7,62,412, or 4·8 per cent. The increase was common to all but three districts. The largest increase (Rs. 1,82,305) took place in Calcutta. The increase was also considerable in Hazaribagh (Rs. 42,523), Sonthal Parganas (Rs. 36,927), Purnea (Rs. 35,888), Champaran (Rs. 33,957), Muzaffarpur (Rs. 32,283), and Ranchi (Rs. 30,089). On the other hand, the decrease was heavy in Gaya (Rs. 13,428). There was an increase under every head except miscellaneous, methylated spirit and beer. The largest increase occurred as in the previous year under the head "Country spirits," being Rs. 4,36,860. Ganja comes next with an increase of Rs. 1,74,466, followed by imported wines, pachwai, and opium which yielded an increase of Rs. 36,651, Rs 35,457 and Rs. 31,876 respectively. The largest decrease (Rs. 2,820) occurred under the head "Miscellaneous." The fluctuations in the revenue under the several heads of exciseable articles are discussed in the sections devoted to them.

SECTION V.—COUNTRY SPIRIT.

Licenses.

21. The number of outstills settled was 2,134, as against 2,128 in the previous year, showing an increase of six licenses. There was an increase of 10 in eight districts, and a decrease of four in as many districts. The number of licenses issued for the sale of distillery liquor was 1,237, as against 1,221 in the previous year, showing an increase of 16 licenses. There was an increase of 18 licenses in seven districts, and a decrease of two in as many districts.

Consumption of distillery liquor.

22. The consumption of distillery liquor in L. P. gallons rose from 610,354 to 652,009; there was thus an increase of 41,655 gallons. Of the 31 districts in which the distillery system is in force, there was an increase of 46,706 gallons in 20, and a decrease of 5,051 gallons in the remaining 11. The most noticeable increase took place in the Sonthal Parganas (12,590 gallons), Calcutta (10,862 gallons), Patna (10,507 gallons), Gaya (2,591 gallons), Hooghly (1,749 gallons), Puri (1,543 gallons), the 24-Parganas (1,357 gallons), Hazaribagh (1,088 gallons) and Howrah (1,040 gallons). The decrease was heavy in Monghyr (1,401 gallons) and Shahabad (1,278 gallons).

23. The receipts from outstills rose from Rs. 35,68,589 to Rs. 37,26,567, showing an increase of Rs. 1,57,978. The increase was large in Hazaribagh (Rs. 33,250), Ranchi (Rs. 24,722), Purnea (Rs. 21,206), Muzaffarpur (Rs. 15,751), Manbhum (Rs. 10,674), Champaran (Rs. 10,576), and Darjeeling (Rs. 19,015). On the other hand, there was a heavy decline in Patna (Rs. 25,254) and Gaya (Rs. 22,023). Of the 30 districts in which the outstill system is in force, there was an increase of Rs. 2,07,924 in 26 districts, and a decrease of Rs. 49,946 in the remaining four. The revenue from distillery liquor increased from Rs. 34,53,138 to Rs. 37,32,020, showing an increase of Rs. 2,78,882. The increase is marked in Calcutta (Rs. 1,61,219), Patna (Rs. 45,614), the Sonthal Parganas (Rs. 21,261), Hooghly (Rs. 11,033) and the 24-Parganas (Rs. 10,577). Of the 31 districts in which the distillery system is in force, there was an increase of Rs. 2,87,469 in 21, and a decrease of Rs. 8,587 in the remaining ten. The total receipts from outstill and distillery liquor amounted to Rs. 74,58,587 as against Rs. 70,21,727 in the previous year, showing an increase of Rs. 4,36,860.

Revenue from outstill and distillery liquor.

SECTION VI.—COUNTRY RUM.

57. Eleven licenses for the retail sale of rum only were taken out, of which ten were issued in Calcutta and one in Darjeeling, as in previous years. Rum is also sold under licenses for the sale of distillery spirit and imported liquors.

Licenses.

58. The receipts from license fees amounted to Rs. 24,737 against Rs. 26,160 in the previous year, showing a decrease of Rs. 1,423. The decrease in Calcutta was Rs. 1,263 and was due to one of the shops having remained unsettled for a part of the year. The decrease of Rs. 160 in Darjeeling was due to the settlement of the shop at reduced fees in the absence of competition.

License fees

59. Rum was supplied from the Albion Distillery at Sibpur in the district of Howrah, from the Rosa Distillery in the district of Shahjahanpur in the United Provinces, and from several distilleries in the Madras Presidency. The Albion Distillery at Sibpur has not been a paying concern for some time past, owing as it is reported to the large importation of country rum from Shahjahanpur and Madras, which is placed in the market at rates lower than those charged for the Albion rum. The proprietors, Messrs Ahmuty and Co., are therefore winding up their business, and the distillery will be closed as soon as the liquor in stock is cleared.

SECTION VII.—IMPORTED LIQUOR.

63. The following statement shows the total number of licenses, and the revenue derived from them, during the last three years:—

General

Year	Wholesale	Retail						Total wholesale and retail licenses	Revenue.
		Hotel	Railway Refreshment Room.	Dining Car	Steamer	General	Dak Bungalow		
									Rs.
1900-1901 ...	119	75	33	4	39	348	28	646	3,30,146
1901-1902 ...	119	75	35	4	30	351	30	646	3,37,424
1902-1903 ..	119	76	35	4	26	360	25	645	3,74,075

SECTION XII.—GANJA.

* * * * * * *

Statistics.

83. Statistics of the cultivation of ganja for the last five years are given below:—

Year.		Number of licenses issued	Quantity of land estimated to have been cultivated	Produce	Average produce per bigha
			B. C.	Mds. S.	Mds. S. CH.
1898-99	..	1,023	1,630 11	5 117 13	3 21 9
1899-1900	..	1,603	2,733 0	7 651 23	2 30 8
1900-1901	...	2,621	5,164 18	7,824 12	1 20 9
1901-1902	..	2,418	4,416 12	11,324 32	2 22 9
1902-1903	..	1,594	2 354 5	6,010 20	2 5 10

As there was a very large outturn in the preceding year, cultivation was restricted to a limited area, which was calculated to produce the estimated quantity of ganja required. The Supreme Government has been in favour of restricting cultivation, and orders were received during the year that only a limited area, not exceeding 976 acres, should be placed under ganja cultivation each season, and that this limit should not be exceeded without the previous sanction of the Government of India. The average outturn shows a decrease which is attributed to the ravages of insects before the crop was cut.

Total revenue.

93. The total receipts amounted to Rs. 32,62,120, as against Rs. 30,87,654 in the year 1901-1902, the net increase being Rs. 1,74,466. The increase was most marked in the districts of Calcutta (Rs. 26,441), Champaran (Rs. 22,228), Monghyr (Rs. 15,346), Muzaffarpur (Rs. 12,004), Purnea (Rs. 8,885), and Sonthal Parganas (Rs. 8,022). The increase in all these districts is both in license fees and duty, and in the district of Champaran it is mainly in duty.

SECTION XVI.—OPIUM.

Licenses for retail sale.

112. The total number of licenses issued for the retail vend of opium was 1,697 as against 1,651 in the previous year, showing an increase of 46. There was an increase of 51 shops in 16 districts, due to the opening of new shops in order to meet ascertained local demands and to check illicit practices, while there was a decrease of 5 shops in 3 districts in consequence of the closure of shops which appeared unnecessary. In the opium-producing districts of Gaya, Champaran, Muzaffarpur, Darbhanga, and Monghyr, 34 additional shops were opened for nominal fees in order to bring the licit drug within the easy reach of the consumers. In Bhagalpur two new shops were opened so as to check the smuggling of opium from Nepal.

Druggists' permits

113. The number of permits issued was 2,060 against 2,058 in the previous year. The increase is most marked in Nadia (40), Rangpur (24), the 24-Parganas (18), Monghyr (18), and Birbhum (16). The increase in Rangpur is attributed to steps being taken in time for the settlement of these licenses. In Monghyr the increase was due to the activity displayed by the Excise staff in enforcing the rules. There was a large decrease in Khulna (49), Noakhali (30), Mymensing (28), Jessore (22), Dinajpur (18), and Midnapore (15). The decrease in each case is attributed to the fact that several medical practitioners refused to renew their licenses on the ground that they did not use raw opium

for medicinal purposes. Under the rules, only medical practitioners are exempted from taking out permits for the sale of medicinal preparations containing opium imported from Europe. But, in practice, druggists are allowed to sell these preparations without a license except in the districts of Dacca and Jessore. The question of amending the rule is now under the consideration of the Board.

* * * * *

116. The quantity of opium sold increased from 2321 maunds, 17 seers, 9 chitaks to 2,351 maunds, 20 seers, 15 chitaks and the receipts from duty from Rs. 19,11,280 to Rs. 19,30,050, showing an increase of 30 maunds, 3 seers, 6 chitaks in the quantity sold, and of Rs. 18 770 in duty. The largest increase (52 maunds, 26 seers), took place in Chittagong, and was due to the abolition of the restrictive system. The Collector of Chittagong, Mr. Geake, writes as follows :—

Consumption and duty.

"It is evident that most of the opium shewn as consumed found its way somehow or other to Burma. The Excise Preventive Staff of the district was increased by the addition of

work. There has been an increase of 52 maunds, 26 seers in the sale of opium over last year Previous to the abolition of the restrictive issue of opium to shops, opium used to be transported from Backergunge, French Chandernagore and Calcutta by smugglers here for sale t Arracanese. Now owing to the abolition of the restrictive system smugglers got free suppl from our licensed vendors who readily share in the smuggling business.

In Cuttack there was an increase of 16 maunds, 19 seers which is attribute to the fact that, in consequence of the introduction of a few new vendors, there was an unhealthy competition during the first half of the year The increase of 6 maunds, 32 seers in Patna was due to the abolition of the restrictive system. In Malda the rise in consumption amounting to 6 maunds, 7 seers i attributed to brisk competition and the consequent lowering of the retail price The increase in Manbhum (5 maunds, 13 seers) was due to the increased suppl of opium taken by the Tributary States, and to increased consumption withi the district in consequence of the increase in the number of labourers in th coal mines. The decrease was heavy in Calcutta (83 maunds, 4 seers) which attributed to the withdrawal of the restrictive system in Chittagong. T Superintendent of Excise Revenue, Calcutta, reports that it is well know that a considerable portion of the opium annually issued from the treasu represented the quantity smuggled to Arracan and other places and that th decrease was due to the fact that the smugglers had shifted their business t Chittagong. There is also a growing suspicion that cocaine is to a certain extent displacing opium in Calcutta. In Balasore there was a decrease of 9 maunds, 8 seers, which was due partly to the fact that some retail vendors raised the selling price of opium owing to an increase in license fees and partly to insufficient crops in parts of the district. Of the 47 districts, there was an increase of 129 maunds, 4 seers, 6 chitaks in 38 districts and a decrease of 99 maunds, 1 seer, in 8 districts. In Noakhali the consumption was stationary.

117. The total receipts amounted to Rs 26,52,154, as against Rs 26,20,278 in the previous year, showing an increase of Rs. 31,876. Of this increase a sum of Rs. 13,106 was contributed by license fees and Rs. 18,770 by duty.

Total receipts.

WEATHER AND CROP REPORT.

For the week ending the 24th August 1903.

Burdwan.—Rainfall at Sadar 1·40, Kalna 2·10, Katwa 1·23, Raniganj ·56. Weather gloomy. Transplantation of *aman* continues. Condition of sugarcane, *aus*, jute, and indigo fair. Fodder sufficient. Water still insufficient in parts of thanas Katwa and Mangalkot. Condition of cattle good. More rain urgently wanted. Common rice sells at 10 seers per rupee.

Birbhum.—Rainfall at Sadar 2·61, Rampur Hât 0·86. Weather seasonable. Paddy seedlings are transplanted. More rain is wanted. Sugarcane crop is in good condition. Rice sells at 11 seers 14 chitaks a rupee. Fodder and water sufficient.

Bankura.—Rainfall at Sadar 1·45, Vishnupur ·26. Transplantation going on. Rice sells at 10½ seers a rupee. More rain wanted. Fodder and water sufficient.

Midnapore.—Rainfall at Sadar 0·94, Contai 2·84, Tamluk 1·66, Ghatal 1·52. Transplantation of paddy continues. Prospects improved, but more rain needed. All other crops thriving. Scarcity of steeping water delays jute harvest. Fodder sufficient. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	10	0	per rupee.
Contai	12	0	
Tamluk	10	10	
Ghatal	11	0	

Hooghly.—Rainfall at Sadar 0·66, Serampore 2·25, Arambagh 1·12. The rainfall has done much good to the standing crops in the Arambagh and Serampore subdivisions. More rain, however, is wanted for the *aman* crops, specially in the Sadar subdivision. Jute being cut, prospects of *aus* good. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	10	0	per rupee.
Serampore	10	1½	
Arambagh	9	11	

Howrah.—Rainfall at Sadar 1·03. Weather cloudy. Condition of standing crops good. Transplantation of *aman* paddy is nearly over. Sowing of jute over. Fodder and water sufficient. No cattle-disease reported. Common rice is selling at 10¼ seers per rupee.

24-Parganas.—Rainfall at Sadar 2·56, Barâsat 1·85, Basirhat 1·64, Diamond Harbour 3·14. Weather cloudy. Rainfall insufficient in the Sadar, Basirhat and Diamond Harbour subdivisions. *Aus*, jute and sugarcane doing well, as also *aman* sown broadcast on *bil* lands. Prospect of *aus* and jute good, but that of *aman* not favourable. Jute being cut and steeped. Transplantation of *aman* in fair progress everywhere, excepting in Basirhat, where it has been affected more or less by scanty rainfall. Common rice sells at 11¼ seers per rupee, except at Barasat and Diamond Harbour, where it sells at 10 seers per rupee. Condition of cattle good. Supply of fodder and water sufficient.

Nadia.—Rainfall at Sadar 0·36, Kushtia 0·81, Meherpur 1·10, Chuadanga 0·43, Ranaghat 0·05. Prospects of standing crops improved by recent rain except in Karimpur and Kushtia police-stations. More rain wanted. Harvesting of early *bhadoi* paddy commenced in places. Transplantation of *aman* still going on. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	0	per rupee.
Kushtia	11	0	
Meherpur	10	10	
Chuadanga	11	0	
Ranaghat	11	0	

Murshidabad.—Rainfall at Sadar ·97, Kandi ·75, Jangipur 1·08, Lalbagh ·95. Weather seasonable. Transplantation of *aman* going on, but more rain wanted. Standing crops doing well now. *Bhadoi* on *dearah* or low lands being harvested, and that on high lands ripening in Jangipur subdivision. No cattle-disease. Fodder sufficient. Common rice sells as follows:—

	Srs.	ch	
Sadar	11	0	per rupee.
Kandi	11	0	
Jangipur	12	0	
Lalbagh	11	4	

Jessore.—Rainfall at Sadar 1·05, Jhenida 2·63, Magura 0·26, Narail 0·52, Bangaon 0·24. Weather cloudy. Prospect of *aman* paddy greatly improved by recent rains. Its transplantation still going on. More rain wanted, especially for the Sadar and Bangaon subdivisions. Harvesting of *aus* going on. No cattle-disease reported. Fodder and water sufficient. Common rice sells as follows:—

				Srs.	ch.		
Sadar	...	...	...	13	0	(New *aus*)	per rupee.
Jhenida	...	...	...	12	0		
Magura	...	...	...	12	0		
Narail	...	...	...	12	5		
Bangaon	...	...	...	12	5		

Khulna.—Rainfall at Sadar 1·00, Bagerhat 3·27, Satkhira 0·84. Weather seasonable, but more rain is still urgently wanted, specially in the Satkhira subdivision. Transplantation of winter rice is still estimated at 65 per cent. Paddy plants are withering in some places for insufficient rainfall, but prospects generally somewhat improved by recent rains. *Til* sowing estimated at 80 per cent. Cattle-disease reported from Khulna, Dumuria, Kaligunge, and Budhatta. Fodder and water sufficient. Common rice sells as follows:—

					Srs.	ch.	
Sadar	...	...	...	...	12	0	per rupee.
Bagerhat	...	...	...	...	12	0	
Satkhira	...	...	...	...	10	8	

Rajshahi.—Rainfall at Sadar 0·38, Nator 0·65, Naugaon 0·51. Prospects of *aus* paddy better. Harvesting and steeping of jute continue. Transplantation of winter rice in progress. More rain wanted badly. Condition of cattle good. Fodder and water sufficient Common rice selling on an average at 13 seers per rupee.

Dinajpur.—Rainfall at Sadar 2·61. Fall in the district general, varying from 3·60 to ·40. Weather seasonable. Standing crops fair. More rain badly wanted. Steeping of jute and transplantation of winter rice going on. No cattle-disease. Fodder and water plentiful. Common rice sells at 13 seers per rupee.

Jalpaiguri.—Rainfall at Sadar 6·78, Alipur Duars ·23. Weather cloudy and hot with occasional showers. Transplantation of winter rice continues. Harvesting of *bhadoi* paddy going on. Cutting of jute commenced. Commonr ice sells at 11 seers a rupee. Fodder and water sufficient everywhere.

Darjeeling.—Rainfall at Sadar 3·91. Weather wet. *Hills—Bhutta*, potatoes, *bara* and *chota marua*, *bhadoi*, and winter rice progressing well. *Terai*—Transplantation of winter rice and reaping of jute going on. Prospects good. Coarse rice sells as follows:—

					Srs.	ch.	
Hills	...	...	...	...	9	0	per rupee.
Terai	...	...	...	...	12	0	

Maize sells at Darjeeling at 14 seers and at Kalimpong at 12 seers per rupee.

Rangpur.—Rainfall at Sadar ·48, Gaibanda ·06, Kurigram ·68, Nilphamari 6·01. Weather hot. Prospects of crops fair. Transplantation of *aman* and harvesting of *bhadoi* going on. Fodder and water sufficient. Common rice sells as follows:—

			Srs.	ch.	
Sadar	...	...	12	0	per rupee
Nilphamari	...	...	11	0	
Kurigram	...	...	12	0

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain gauge is one foot above the ground.

[Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.]

o, overcast; g, gloomy; p, passing temporary showers; t, thunder; d, drizzling rain.

Extract from the Proceedings of the Government of India in the Home Department (Public), under date Calcutta, the 8th December 1899

RESOLUTION.

THE Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject, and therefore entitled to a passport Appeals for assistance are also frequently addressed to His Lordship by destitute Indians who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education

2 In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, in the form appended to this Resolution, signed by the head of the district (in a Presidency Town, the Commissioner of Police) in the case of residents of British India and by the Political Officer in that of residents of Native States For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer (in a Presidency Town, the Commissioner of Police) or Political Officer, as the case may be

NOTIFICATION.

No. 338T.—P.—The 29th August 1903.—The following notification issued by the Hon'ble the Agent to the Governor-General in Baluchistan is republished for general information.

L. P. SHIRRES,
Secy. to the Govt. of Bengal.

No. 3881, dated Quetta, the 11th August 1903.

NOTIFICATION—By the Hon'ble the Agent to the Governor-General and Chief Commissioner in Baluchistan.

In supersession of the Regulations published with Notification No. 1482, dated the 2nd April 1903, and in exercise of the powers conferred by Foreign Department Notification No. 809I.A., dated the 1st March 1897, and by Home Department Notification No. 302, dated the 4th February 1897, the Hon'ble the Agent to the Governor-General and Chief Commissioner in Baluchistan is pleased to make the following temporary regulations under section 2, clause (1), and under section 2, sub-section 2, clause (*b*) of the Epidemic Diseases Act, 1897:—

I. Unless otherwise notified, the following will be the places of inspection, and, if necessary, segregation, in Baluchistan, for the period noted against each:—

(1) Sibi—15th October to 14th April, or such dates as may be notified by executive order.

(2) Hirok—15th April to 14th October, or such dates as may be notified by executive order.

II. Passengers by rail from India, except such Government and Railway servants travelling on duty as are exempted, are forbidden to alight—

(1) (When the inspection camp is at Sibi) at any station between Jhatpat and Mithri, both inclusive.

(2) (When the Camp is at Hirok) at any station between Jhatpat and Mach, both inclusive.

NOTE.—Government and Railway servants although travelling on duty, are not exempt from this restriction, unless they are in possession of certificates signed by a British Officer of their Department, that they have not visited a plague-infected place within the previous ten days.

III. No railway tickets shall be issued, without the written authority of the Political Agent, Thal Chotiali, or of the Plague Inspecting Medical Officer, from any of the stations between Jhatpat and Mithri, both inclusive, whether the Camp be at Sibi or at Hirok, except to Sibi and beyond on the Harnai line or on the Mushkaf-Bolan line.

NOTE.—Officials of the Sibi tehsil travelling on duty who hold a certificate to this effect from the Political Agent in Thal Chotiali are exempt from the provisions of this rule, as also the officials of His Highness the Khan of Kalat when covered by a certificate from the Political Agent in Kalat.

IV. All passengers from India having tickets for Sibi or other stations on the Harnai line or on the Mushkaf-Bolan line will be required to proceed to Sibi or Hirok, as the case may be, for medical inspection, before being allowed to proceed on their journey by railway or otherwise.

V. When the camp is at Hirok, passengers from Sibi and upwards must travel in the carriages to be attached to the train at Sibi for local traffic only. These passengers are free to alight at any station up to and including Mach.

VI. The Medical Officer in charge of the Plague Camp will allow due consideration to those passengers from India who are in possession of certificates signed by a British Officer, a first class Magistrate or a commissioned Medical Officer, that they have not visited a plague-infected place within the previous ten days. Such passengers, when travelling third class, will usually be disinfected.

No. 108Marine.—Under the provisions of section 10, sub-section (1) of the Indian Petroleum Act, 1899, the Lieutenant-Governor is pleased to appoint the Civil Surgeon of Chittagong to be the officer for testing samples of petroleum landed within the Port of Chittagong in accordance with rules made under section 9 of the Act.

W. A. INGLIS,
Offg. Secy. to the Govt. of Bengal.

The 1st September 1903.

No. 111 Marine.—Notification.—In exercise of the powers conferred on him by section 9 of the Indian Petroleum Act, 1899, and in supersession of the rules sanctioned under this Government Notification No. 62Marine, dated the 21st May 1895, which was published at page 504, Part I, of the *Calcutta Gazette* of the 22nd idem, the Lieutenant-Governor is pleased, with the previous sanction of the Governor-General in Council, to make the following rules for regulating the grant of licenses to possess and transport petroleum in the Lower Provinces of Bengal.

W. A. INGLIS,
Offg. Secy. to the Govt. of Bengal.

Preliminary.

1. The following rules shall extend to all the territories for the time being administered by the Lieutenant-Governor.

2. In these rules, including the forms annexed thereto,—

(I) "the town of Calcutta" means all places within the local limits of the original civil jurisdiction of the High Court of Judicature at Fort William in Bengal:

(II) "the Municipality of Calcutta" means the municipal limits of Calcutta as defined in the Calcutta Municipal Act, 1899:

(III) the expression "suburbs of Calcutta" means the local area for the time being excluded from the general police district of Bengal by notification under section 1 of the Calcutta Suburban Police Act, 1866: and

(IV) "petroleum in bulk" means petroleum in any vessel or receptacle having a capacity of 300 gallons and upwards.

Possession of Petroleum.

3. Licenses for the possession of Petroleum within the town of Calcutta shall be granted only when (1) the quantity of petroleum to be kept in one place does not exceed 50,000 gallons, and (2) the place intended to be used for the keeping of the petroleum fulfils the following conditions, namely: (*a*) if the quantity of petroleum to be kept in the place does not exceed 5,000 gallons the building itself shall be constructed of masonry with a terraced or iron roof, and the doorways and other openings of the building shall be built up to a height of not less than two feet above the level of the road or street, or the floor shall be sunk at least two feet below the level of the road or street, so that the petroleum cannot flow out of the place in case of fire; (*b*) if the quantity of petroleum to be kept in the place exceeds 5,000 gallons the building itself shall be constructed of masonry with a terraced or iron roof, and the doorways and other openings of the building shall be built up to a height of not less than three feet above the level of the road or street, or the floor shall be sunk at least three feet below the level of the road or street, so that the petroleum cannot flow out of the place in case of fire, and there shall be a clear open space of at least twenty feet round the building.

4. Licenses for the possession of petroleum *in places* outside the town of Calcutta and which are not situated within any municipal limits shall, if the quantity of petroleum to be kept in the place does not exceed 50,000 gallons, be granted on the same terms as those granted in the town of Calcutta for the possession in one place of not more than 5,000 gallons. If a license for the possession in one place of a larger quantity than 50,000 gallons be required, the license shall be granted on the same conditions as those granted in the town of Calcutta for the possession in one place of petroleum exceeding in quantity 5,000 gallons: provided that, if the place in which the petroleum is to be kept is situated within one hundred yards of the river Hooghly or Tolly's Nala or the Circular Canal, the building shall further be surrounded by a wall or earthen embankment not less than four feet high, with a trench close to, and completely surrounding, the building, of sufficient capacity to hold all the petroleum stored, and to prevent its escape beyond the limits of the trench in case of fire.

5. Licenses for the possession of petroleum are not required in places situated within municipal limits other than Calcutta.

6. Notwithstanding anything in rules 3 and 4 and subject to such conditions as may be prescribed in each case, a license may be granted for the possession of any stated quantity of petroleum in a place specially prepared for the storage of petroleum in bulk in accordance with plans and specifications approved by the Local Government. The capacity in gallons shall be conspicuously marked on every storage-tank or other receptacle in such place.

7. The District Magistrate, or in the town and suburbs of Calcutta, the Commissioner of Police, or any Police Officer of, or above the rank of head-constable appointed by the District Magistrate or the Commissioner of Police, as the case may be, in writing for this purpose, may enter any place in respect of which a license for the possession of petroleum has been granted, for the purpose of inspecting the same at any time after sunrise and before sunset.

8 The District Magistrate, Commissioner of Police or any Police Officer as aforesaid may require a sample to be delivered to him from any tank or other receptacle containing petroleum stored in any licensed premises. The procedure prescribed in sections 12 and 13 of the Act shall apply to any demand for samples made under this rule, and to the testing of such samples.

9. The following fees shall be charged for licenses for the possession of petroleum in places situated within the Municipality of Calcutta:—

Licenses for the possession of dangerous petroleum:—

	Rs.
When the quantity to be stored exceeds 40 gallons (section 5), for every 40 gallons or fraction of 40 gallons	5
When the quantity to be stored does not exceed 40 gallons (section 6)	

Licenses for the possession of other petroleum:—

	Rs.
When the quantity to be stored exceeds 500 but does not exceed 1,000 gallons ...	12
When the quantity to be stored exceeds 1,000 gallons but does not exceed 5,000 gallons ...	2 extra for each 1,000 gallons or part of 1,000 gallons in excess of 1,000 gallons.
When the quantity to be stored exceeds 5,000 gallons	4 for every (additional) 1,000 gallons or part of 1,000 gallons in excess of 5,000 gallons.

10. The fees for licenses for the possession of petroleum in places situated beyond the limits of the Municipality of Calcutta shall be half those prescribed in rule 9.

11. Every license for the possession of petroleum in any place shall specify the maximum quantity of petroleum which may be stored in that place.

12. Licenses for the possession of petroleum shall be in force for one year from the date of the grant of the license: provided that the Licensing Officer or the Local Government may, at any time, for good and sufficient reason, cancel a license.

13. Any premises belonging to the Commissioners of the Port of Calcutta and appertaining to the Budge-Budge Petroleum Depot, and any premises used by the Commissioners for the temporary storage of petroleum brought into the Port of Calcutta, shall be deemed to be places in respect to which licenses for the possession of petroleum have been granted under these rules.

14. Any tank or other receptacle for the storage of petroleum in bulk that may be erected on the land belonging to the Commissioners of the Port of Calcutta, and appertaining to the Budge-Budge Petroleum Depôt, shall be deemed to be a place in respect of which a license for the possession of petroleum has been granted under rule 6.

Transport of Petroleum.

15. (1) Licenses for the transport of petroleum other than dangerous petroleum in quantities exceeding 500 gallons may be either general or special. Licenses for the transport of dangerous petroleum shall be special only. The transport of dangerous petroleum in bulk is absolutely prohibited

(2) Licenses for the transport of petroleum, other than in bulk, shall only be granted if the petroleum to be transported is packed in air-tight tins or other vessels not easily broken or is contained in bottles securely stoppered and carefully packed so as to avoid risk of breakage or in air-tight tank carts of a pattern approved by an officer appointed by the Local Government in this behalf.

(3) Licenses for the transport of petroleum, other than dangerous petroleum in bulk, by railway may be granted, if the petroleum is contained in wagons approved by the railway administration over whose line it is proposed to transport it.

(4) (a) Licenses for the transport of petroleum other than dangerous petroleum in bulk, by steamer or barge may be granted if the vessel is certified to be fit for the service by an officer appointed by the Local Government in this behalf.

(b) The vessel, if a steamer, must possess a certificate of survey granted under the provisions of the Inland Steam-vessels Act, 1884.

(c) The vessel, if a barge, should be towed by a steamer.

(d) Vessels carrying petroleum in bulk shall not be allowed to carry other inflammable cargo at the same time, such as jute, cotton, straw, etc., nor passengers; and such vessels shall not be allowed to load any cargo after having discharged the petroleum, until the oil compartments have been thoroughly cleaned and certified by an officer of the Government to be quite free from petroleum.

(e) A steamer towing a barge carrying petroleum in bulk shall not be allowed to carry any such inflammable cargo, nor shall such steamer be allowed to have in tow at the same time any other vessel carrying such inflammable cargo.

(f) No naked lights shall be allowed on board any vessel carrying petroleum in bulk.

16. General licenses for a period of twelve months shall be issued for transport by cart only. Such licenses shall authorise the holders to transport by cart any petroleum, being their own property, without restriction as to destination or quantity.

17. The holder of a general license shall, with each consignment of petroleum conveyed under cover of this license, issue a pass in Form G appended to these rules, specifying the places from and to which the petroleum is to be conveyed and the quantity of petroleum covered by it. Each pass shall be numbered, and the number of the general license under cover of which the petroleum is transported shall be legibly marked on a conspicuous part of the last case on the cart. The person or persons in charge of the carts shall not permit them to be moved after sunset or before sunrise, or to carry any light, and shall not permit any smoking thereon.

18. Special licenses for the transport of petroleum shall be in force for such period not exceeding six months from the date of the grant of the license as may be specified in the license.

19. The Licensing Officer may, for special reasons to be reported to Government, refuse a license in any case. The reasons for refusing a license shall be communicated to the applicant, if a request to that effect is preferred by him.

20. (1) Every special license for the transport of petroleum shall specify the places from and to which, respectively, the petroleum is to be conveyed, the quantity of petroleum covered by the license, and the time for which the license is in force.

(2) Petroleum transported to Calcutta or Howrah under a license shall be conveyed by land and not by water between Garden House and Cossipore.

Explanation.—This sub-rule shall not apply to the conveyance of petroleum which is brought under a license from beyond the limits of Calcutta or Howrah, and is not intended to be landed within those limits.

21. Applications for special licenses for the transport of petroleum by rail, by cart, by boat, or by steamer, or by two or more of these modes of conveyance, shall specify the description and quality of petroleum to be transported, and the places from and to which, respectively, the petroleum is to be conveyed, and shall describe the receptacles in which it is to be contained, or, in the case of petroleum to be transported in bulk, shall state that the wagon or vessel in which it is to be carried has been approved or certified, as the case may be, as required by sub-rules (3) and (4) of rule 15. In the case of applications for licenses for the transport of dangerous petroleum under section 5 of the Act, the application shall also contain the particulars required by sub-section (2) of that section.

22. When a license has been granted under these rules for the transport of petroleum, the District Magistrate, or, in the town and suburbs of Calcutta, the Commissioner of Police, or any Police Officer of, or above, the rank of head-constable, appointed by the District Magistrate or the Commissioner of Police, as the case may be, in writing for this purpose, may, at any time after sunrise, and before sunset, and on or before the arrival of the petroleum at its place of destination, board any steamer or boat, or detain any cart, used for such transport, for the purpose of inspecting the license and seeing whether its provisions are being complied with.

23. The following fees shall be charged for licenses for the transport of petroleum under the Act:—

	Rs
Licenses for the transport of dangerous petroleum:—	
When the quantity to be transported exceeds 40 gallons (section 5), for every 40 gallons or fraction of 40 gallons	
When the quantity to be transported exceeds 3 gallons, but does not exceed 40 gallons (section 6)	
Special license for the transport of other petroleum:—	
When the quantity to be transported exceeds 500, but does not exceed 5,000 gallons	1
For every additional 5,000 gallons or part of 5,000 gallons ...	1
General license for the transport of petroleum by cart for twelve months	100

General.

24. Licenses for the possession or transport of dangerous petroleum in quantities exceeding 40 gallons, and licenses for the possession of petroleum in bulk, will be granted, subject to the provisions of section 5 of the Act in the case of dangerous petroleum, under the signature of an Under-Secretary to the Government of Bengal, on the recommendation of the Commissioner of Police, if the application for the license is made in the town and suburbs of Calcutta, or of the Commissioner of the Division, if the application is made elsewhere.

Application for such licenses should be made through the Commissioner of Police, Calcutta, or the Commissioner of the Division, as the case may be.

25. Licenses for the possession or transport of dangerous petroleum in quantities not exceeding 40 gallons, and licenses for the possession or transport of other petroleum, except

the possession of petroleum in bulk, will be granted in the town and suburbs of Calcutta by the Commissioner of Police, or Deputy Commissioner of Police, at Budge-Budge, by the Superintendent of the Petroleum Wharf, and elsewhere by the District Magistrate, or by such other officer as the Local Government may, by order in writing, appoint in this behalf.

26. Subject to the restrictions contained in section 5 of the Act and rules 3 and 4, the Licensing Officer may, in his discretion, grant a license for the possession or transport of such quantity of petroleum as he thinks fit

27. Licenses granted under these rules shall be in the forms and shall have endorsed on them the rules and conditions respectively prescribed for them in the schedule hereto annexed. Every such license shall, on the breach of any such condition, be liable to be forfeited.

28. Every application for the renewal of a license shall be made in the same manner as an application for an original license Every such application shall be made at a date not less than fifteen days before the date on which the original license expires. The same fee shall be charged for the renewal of a license as for a new license.

No 109Marine.—In exercise of the powers conferred upon him by section 6 of the Indian Ports Act, 1889, the Lieutenant-Governor is pleased to make the following rules for the control of vessels entering the Port of Calcutta with petroleum in bulk:—

1. No fire or lights (except the galley and engine-room fires and the electric light) shall be allowed on board any bulk oil steamer within Port limits until the vessel has been cleansed inside from oil and vapour of oil.

This rule shall also apply to all vessels or boats lying alongside any vessel discharging oil.

2. When the hatches are open or oil is being discharged, no smoking shall be allowed on board.

3. When the oil has been discharged, the vessel shall be transported, immediately the tide permits, to a fixed mooring on the side of the river opposite to the oil depôt for the purpose of cleansing.

This rule does not apply to vessels which do not proceed above Budge-Budge, but leave the Port in ballast without cleaning.

4. A bulk oil steamer shall not be taken amongst other shipping or into wet or dry docks unless the Conservator of the Port is satisfied that she is in a safe condition to be so placed.

5. No vessel having bulk oil on board shall proceed above Diamond Harbour until the pumping berth or other suitable double mooring at Budge-Budge is ready to receive her.

Office Memo. of the Inspector of Schools, Bhagalpur Division.

UNIVERSITY ENTRANCE EXAMINATION, 1904.

TEST-EXAMINATION OF PRIVATE STUDENTS.

1. A student who does not appear from any school, or who has been transferred since the 1st September next preceding the examination, without the consent of the Inspector, to the school from which he appears, will be treated as a private student.

2. All private students are required to appear at the test-examination of a zilla school. No private student will be admitted to the test-examination unless accompanied, for the purpose of identification, by some person known to the Head Master.

3. The first day of the test-examination in all zilla schools in the Bhagalpur Division will be the 14th December 1903.

4. Each private student will have to pay a fee of Rs. 2 for permission to appear at the test-examination to the Head of the institution at which he appears. The balance of fees, after payment of expenses (stationery, &c.), will go as remuneration to the examiners.

5. Candidates for the test-examination should apply to this office not later than the 9th November 1903. They should forward the certificates granted to them under the transfer rules by the Head Master of the school in which they last read. In the case of a candidate who had failed at a previous Entrance examination and did not join a school afterwards, the Registrar's receipt, in original, will be accepted in lieu of the transfer certificate.

6. A student who had failed to pass the annual examination for promotion to the first class at the end of session 1902-1903 and then left the school cannot under any circumstances be allowed to appear at the Entrance examination that will be held on the 7th March 1904 and following days.

7. Each candidate should submit with his application a statement showing—

(1) Age.
(2) Residence.
(3) Father's name.
(4) Second language, besides English.
(5) Whether he appeared at any previous Entrance examination.

8. *Bonâ-fide* teachers employed in any of the recognised schools in the Bhagalpur Division may be admitted to the test-examination on payment of the prescribed fee, provided they can produce certificates of service and character from their employers, or from the Deputy Inspector of the district concerned.

9. The forms of application for permission to appear at the Entrance examination will be signed by the Head Master of the zilla school at which the candidates have undergone the test, and will be forwarded by him to the Inspector for countersignature.

10. Applications and fees for admission to the Entrance examination must be forwarded to the Registrar of the Calcutta University by the private candidates themselves, so as to reach his office on or before the 25th January 1904.

F.A. AND B.A. EXAMINATIONS, 1904.

1. Deputy Inspectors of Schools, Sub-Inspectors of Schools, and *bonâ fide* teachers of recognised English schools in the Bhagalpur Division of two years' standing, *i.e.*, who have served as such for full two academical sessions, or for six months in the case of those who were admitted to a former examination of the same class, will be admitted to the above examinations. Those latter must have served for six months prior to the submission of their applications to the Inspector for countersignature. School-masters should produce certificates of character and length of service (with dates) from the Managers of the schools in which they are employed. Their applications must reach this office not later than the 4th January 1904

2. Candidates for the B.A. examination must forward with the applications their F.A. certificates, and those for the F.A. examination their Entrance certificates.

3. Candidates should read carefully the certificate which this office will have to sign, and must be careful to supply all information and documents required, without which the Inspector must decline to sign it.

4. The F.A. and B.A. examinations in 1904 will be held on the 21st March 1904 and following days.

5. Applications and fees for admission to the above examinations must be forwarded to the Registrar, Calcutta University, by the candidates themselves so as to reach his office on or before the 6th February 1904.

Letter to the Commissioner of the Presidency Division, No. 1765T.—M., dated the 16th September 1902.

So far back as February 1895 the Sanitary Commissioner, Bengal, after inspecting the town of Santipur, brought to notice the unsatisfactory nature of the conservancy arrangements of the municipality. He found that almost the whole of the night-soil of the inhabitants was received into well privies, of which there were about 4,000 in the town, and that the contents of the well-privies, which at the time of his inspection were in most cases from one half to three-fourths filled with sewage, had in them the germs of many diseases which were liable to pass from them through the pores of the soil into the neighbouring sources of the supply of drinking water. This report disclosed a very serious state of things, but at the same time it was reported by the Sanitary Commissioner that the Municipal Commissioners had resolved in March 1894 that "no new privies should be allowed to be dug, and that all old ones should be filled up gradually," and also that the Commissioners had reserved Rs. 1,000 for erecting, in the most crowded parts of the town, some public latrines, of which there were none at the time.

2. Little or no effect appears to have been given to this resolution, but in April 1898 the Commissioners resolved at a special meeting to apply to Government to extend to the town of Santipur the provisions of Part IX of the Bengal Municipal Act, 1884, giving powers for the cleansing of private privies and cess pools. Upon this the usual preliminary notification declaring the intention of Government to enforce Part IX in the municipality was published locally and in the *Calcutta Gazette*. Objections were raised to the measure by a number of rate-payers of the town, and although, in the opinion of the District Magistrate and of the Commissioner of the Division, the objections were groundless, the Commissioners were so far influenced by them that they rescinded their original recommendation for the enforcement of Part IX, and the proposal had, therefore, to be abandoned. In communicating orders, however, Government requested the Commissioner of the Division in Mr. Risley's letter No. 4832M., dated the 8th August 1898, to impress upon the Municipal Commissioners how greatly a town like Santipur, containing 30,137 inhabitants, stood in need of the systematic conservancy which Part IX of the Act is intended to provide, and he was also desired to induce the Commissioners to reconsider their decision so far as the older and more crowded portions of the town were concerned.

3. In August 1899 the Commissioner reported that although the necessity for the introduction of Part IX had been clearly impressed on them by their official Chairman, the Municipal Commissioners had, on a formal reconsideration of the matter in the previous month, resolved to adhere to their former resolution in favour of inaction. Thereupon, under instructions from Government, the town was inspected by the Deputy Sanitary Commissioner, Metropolitan and Eastern Bengal Circle, who considered the arguments offered against the measure to be untenable, and strongly advocated the introduction of Part IX of the Municipal Act. He was distinctly of opinion that the well-privies contaminated the adjoining wells in private compounds which formed the main source of the water supply of the areas situated at a distance from the river. Although, regarded from a purely hygienic point of view, there was no doubt as to the desirability of the measure, the Sanitary Commissioner so far

modified the recommendation of his subordinate as to suggest that the provisions of Part IX should be brought into force only in the three more populous centres of the municipality which are interspersed by areas of a more or less rural character When the matter was laid before the Lieutenant-Governor he noticed that the health of the town was actually less affected at the time than might have been anticipated from the sanitary defects disclosed in the report, since the rate of mortality at Santipur had been below the Provincial average during each of the three previous years. His Honour was therefore unwilling to exercise the summary powers conferred on him by the Epidemic Diseases Act to enforce the closing of the well-privies throughout the town, but nevertheless the Municipal Commissioners were invited in Government order No. 309M., dated the 20th January 1900, to the address of the Commissioner of the Division, to keep this object in view, and to take measures for the gradual introduction of proper latrines. The attention of the Commissioners was also drawn to the necessity of closing unwholesome wells under section 200 of the Act, and of providing pure sources of water-supply, and the Commissioner of the Division was at the same time asked to enforce proper action by exercising his powers of control over the budget estimates of the municipality under section 76 of the Act.

4. The floods of September 1900 were followed by an outbreak of cholera in Santipur, and immediately afterwards the Deputy Sanitary Commissioner again inspected the town. He found that the low-lying portion of the municipality, which was under water, and where the well water was consequently contaminated by admixture with the sewage from the well-privies, had suffered most from the epidemic, which carried off sixty-one persons in three weeks. The Deputy Sanitary Commissioner observed that "this mixing of sewage and drinking water is but an open example of what is secretly, but none the less surely, going on under the ground all the year round." His report disclosed the fact that no new public latrines had been constructed by the Commissioners during the previous year, and both the Deputy Sanitary Commissioner and the Sanitary Commissioner again recommended the extension of Part IX to the municipality. The Commissioner of the Division visited the town towards the beginning of 1901; he also found it in a very insanitary condition, and reported to Government in April 1901 that he had pointed out to the Commissioners that they had received warnings in the shape of a serious epidemic of cholera and in the outbreak of some cases of plague, and that they would incur very grave responsibility if they persisted any longer in refusing to introduce Part IX of the Bengal Municipal Act, and failed to adopt the other sanitary measures recommended by the Deputy Sanitary Commissioner.

5. In December 1901 the Deputy Sanitary Commissioner was again deputed to inspect the municipality and to pronounce on the quality of the water of the wells in the town. After doing so he again urged the necessity for closing the well-privies, and submitted for chemical and bacteriological examination twelve samples of water obtained from different wells in proximity to well-privies. The chemical examination showed that out of the twelve samples only one was "usable" and one "usable after boiling;" the rest being all "impure" or "suspicious." The bacteriological examination also proved the presence of *bacillus coli communis* in such small quantities of water as half-a-cubic centimeter, which served to prove recent fæcal contamination of a gross nature in nine out of the twelve samples. The remaining three samples were examined a few days after receipt, and the result of the examination was not, therefore, conclusive. The Commissioner of the Division was thereupon asked in Government order No. 1765T.—M., dated 16th September 1902, to move the Commissioners to take early steps to close the well-privies and to enforce Part IX in the town under their charge.

6. The Commissioner has now reported that, disregarding repeated warnings given by himself and the Magistrate of the district, by the Sanitary experts of Government, and by Government itself, and ignoring the serious increase of mortality in the town, as evidenced by the figures quoted in the margin, the Municipal Commissioners have again resolved, at their meeting held on 11th May 1903, that Part IX cannot be enforced in the

municipality. The Commissioners have also failed to enforce the provisions of section 200 of the Act in respect of the wells the water from which has been condemned and is injurious to health, and have contented themselves with resolving that these wells should be disinfected once every three months by permanganate of potash. Taxation is low in the municipality, and although the want of funds which impedes necessary improvements is remediable, the Commissioners have failed to secure a proper assessment of the holdings of the town. The local officers of Government are satisfied that no amount of persuasion will bring about even the smallest measure of improvement, and that it is only under the operation of the powers of control vested in Government by the Bengal Municipal Act that the most elementary rules of sanitation can be enforced at Santipur.

ORDER.

7. After giving the subject his careful and anxious consideration, the Lieutenant-Governor has come to the conclusion that a serious evil exists at Santipur, for which the law prescribes a remedy: he finds that the Municipal Commissioners have persistently made default in the performance of their duties and have also proved themselves incompetent, in that, having the power to impose additional taxation and to carry out the improvements urgently needed for the health and sanitation of the town, they have deliberately failed to exercise it, and although repeatedly and earnestly advised by the authorities best able to estimate their requirements, they have persistently refused to carry out the requisite reforms.

8. They have been treated for years with great patience and consideration, but their conduct has now become a public scandal, and Government must take action. In these circumstances, the Lieutenant-Governor is constrained to declare by this Order issued under section 65 of the Bengal Municipal Act, 1884, as amended up to 1st November 1896, that the Commissioners of the Santipur Municipality are incompetent to perform and persistently make default in the performance of their duties, and he directs that they be superseded for the period of one year with effect from the date of the publication of this Resolution in the *Calcutta Gazette*. In exercise of the powers conferred by section 66 of the Act, the Lieutenant-Governor further directs that all the powers and duties of the Commissioners shall, during the period of supersession, be exercised and performed by the Subdivisional Officer of Ranaghat for the time being.

9. The Lieutenant-Governor orders also that this Resolution be published in the *Calcutta Gazette*.

Secretary to the Govt. of Bengal.

APPENDIX XXX.

[See Chapter III, Rule 9.]

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plot of land, no longer required by Government, situated along the Barun-Daltonganj Railway, in the district of Gaya, will be put up to sale at 12 o'clock on Friday, the 18th September 1903, corresponding with the 13th Asin 1311 Fusli, at the Gaya Collector's Court.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the land closer than three feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of the original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

CORPORATION OF CALCUTTA.

In exercise of the powers conferred by section 565 of the Calcutta Municipal Act, 1899, it is hereby declared that the General Committee of the Corporation of Calcutta intend to submit the following draft bye-laws for the consideration of the Corporation.

Any person having any objection to the bye-laws should submit it in writing to the Chairman of the Corporation before the 1st October 1903:—

Bye-laws, section 559 (18), prohibiting or regulating the placing of obstructions, projections, or encroachments or the depositing of materials or goods, in a public street, or in or over any drain or aqueduct in a public street or on any land vested in the Corporation.

1. When any person has, whether before or after the passing of these bye-laws, placed or allowed to be placed any wall, fence, rail, post, platform, plank, culvert or other masonry or brick-work erection (not being a fixture attached to a building within the meaning of section 341 of the Act) or any structure, in such a position as to cause a projection, encroachment, or obstruction over or on any public street or over or in any drain or aqueduct in a public street or over or on any land vested in the Corporation, the Chairman may, by written notice, require the owner of, or the person who has erected such wall, fence, rail, post, platform, plank, culvert, erection or structure to remove the same, and any person who fails to comply with the terms of such notice shall be liable to a daily fine which may extend to Rs. 10 per diem for every day after the date of service during which he shall continue to fail to comply with the same.

2. No person shall place or leave any earth, rubbish, furniture, wares, merchandise, bale, bag, lamp, cask, tub, basket, pail, bucket, grain, timber (in the form of logs or scantling), scrap metal, goods or building materials, or place or use any standing place, stool, bench, stall, or show-board in any public street or in any drain or aqueduct in a public street or on any land vested in the Corporation, or shall place any blind, shade, covering, awning or other projection over or along any such public street, drain, aqueduct, or land vested in the Corporation without or otherwise than in conformity with the terms of a license granted by the Chairman in this behalf.

3. No person shall place, hang up, or otherwise expose for sale any goods, wares, merchandise, fruit, vegetables, matter or other article whatsoever, so as to cause a projection into or over any public street, drain or aqueduct in a public street or land vested in the Corporation, or so as to obstruct or incommode the passage of any person over or along a public street without or otherwise than in conformity with the terms of a license granted by the Chairman in this behalf.

4. No person shall place any line, cord, wire, pole or plank across any public street or hang or place anything thereon or erect any archway or gate over or upon any public street, drain or aqueduct in a public street or land vested in the Corporation without or otherwise than in conformity with the terms of a license granted by the Chairman in this behalf.

5. Any person who causes any obstruction, projection or encroachment in a public street in the manner indicated in bye-laws 2, 3 and 4 hereof shall cause the same to be lighted during the night to the satisfaction of the District Engineer, and shall take such precautions as the District Engineer shall deem fit for guarding against accident.

The Chairman may, by written notice, require any such person to provide such lights and to take such precautions as may be specified in the notice, and every person who fails to comply with such notice shall be liable to a daily fine which may extend to Rs. 10 per diem for every day after the date of the service of the notice during which he shall continue to fail to comply with the same.

6. No barber shall ply his trade in or upon any "public street" in such a manner as to obstruct or incommode the passage of any person over or along the same.

7. No person shall shoe or allow to be shod any horse, pony, donkey, mule, bullock, buffalo or other four-footed animal in or upon any "public street."

8. No person shall wash any carriage, cart, utensils, clothes or animal in or upon any public street.

9. No person shall tether or allow to be tethered or allow to stray any horse, pony, donkey, mule, bullock, bull, cow, calf, goat, sheep, buffalo or other similar animal in or upon any public street.

10. No person shall leave a carriage or cart standing in a public street unattended.

11. No person shall bathe or wash himself in a public street.

12. Any person who shall commit a breach of bye-laws 2, 3, 4, 6, 7, 8, 9, 10 and 11 hereof shall be liable to a fine which may extend to Rs. 20, and, in the case of continuing breach, to a fine which may extend to Rs. 10, for every day during which the breach continues after conviction for the first breach.

SCHEDULE A

The following fees shall be payable for licenses issued under Bye-laws 2, 3 and 4 hereof, and shall be payable in advance:—

1. Earth, rubbish, furniture, goods, wares, merchandises, bales, grain, timber, scrap iron, fruit, vegetables, building materials, standing place, stall, show-board, or any similar thing	One anna a month per superficial foot of the area occupied. In cases where the area occupied is greater than the area provided for in the license, the excess area shall be paid for at the rate of 10 annas a month per superficial foot. A fraction of a month shall be treated as an entire month.

2. Blind, shade, covering, awning or similar contrivance.	Two annas a month for every square foot. A fraction of a month shall be treated as an entire month. In cases where the contrivance used is larger than that provided for in the license, the excess portion shall be paid for at the rate of 10 annas a month for every square foot.
3. Bale, bag, lamp, cask, tub, basket, pail, bucket, stool or bench or similar article.	Two annas a month for each separate article. A fraction of a month shall be treated as an entire month.
4. Line, cord, wire, pole or plank or similar article.	Ditto ditto.
5. Archway, gate, or similar contrivance.	Rupees 5 per diem for every archway, gate, or similar contrivance.

CORPORATION OF CALCUTTA.

IN exercise of the powers conferred by section 565 of the Calcutta Municipal Act, 1899, it is hereby declared that the General Committee of the Corporation of Calcutta intend to submit the following draft bye-laws for the consideration of the Corporation.

Any person having any objection to the bye laws should submit it in writing to the Chairman of the Corporation before the 1st October 1903.

Bye-laws under Section 559 (34) for regulating the use of Municipal Slaughter-houses.

1 Butchers and others shall have access to a slaughter-house only for the purpose of slaughtering animals intended for human food and for the resulting purposes of skinning, cutting up and cleaning carcasses of animals slaughtered therein and on the conditions hereunder specified.

2. A person desirous of having the right to slaughter animals in a slaughter-house shall apply to the Chairman for a license. No person shall without or otherwise than in conformity with the terms of a license granted by the Chairman in that behalf have the

right to slaughter animals in a slaughter-house. The granting of a license shall be discretionary.

3. The license granted by the Chairman shall have effect and continue in force from the commencement to the end of the financial year on account of which it is granted, and shall state the name of the person to whom, and the slaughter-house in respect of which, it is granted and the place or portion of such slaughter-house assigned to the licensee, and shall state that it is granted subject to the terms of section 492 of the Act. There shall be paid for each license a fee of Rs 5.

4. A licensee shall apply to the Superintendent for a ticket for each person who is to act on his behalf or as his assistant in slaughtering animals. The ticket shall specify the name of the person in respect of whom it is issued and the place in or portion of the slaughter-house assigned to the licensee. The ticket shall be issued free of charge, and shall remain in force for the same period as the license granted to the licensee.

5. No license or ticket shall be transferable.

6. No place in or portion of a slaughter-house other than that assigned to the licensee and specified in the license shall be used by either the licensee or any assistant holding a ticket for slaughtering animals.

7. A licensee or ticket-holder shall produce his license or ticket, as the case may be, whenever he shall be required so to do by any Commissioner or by the Superintendent or other Municipal officer.

8. Animals shall be slaughtered in a slaughter-house only on such days and during such hours as shall from time to time be fixed by the Chairman by regulation made in accordance with section 488 of the Act. A notice signed by the Superintendent and countersigned by the Health Officer shall be affixed in a conspicuous place in the slaughter-house naming such days and hours.

9. None but licensees, ticket-holders, Municipal Commissioners and Municipal Officers shall have access to a slaughter-house during the hours fixed for slaughtering animals and during the process of skinning, cutting up, cleaning and stamping the carcasses.

10. Every animal brought to a slaughter-house shall be placed at such place within the premises as the Superintendent shall direct, and shall be secured in such manner as shall effectually prevent it from breaking loose or causing injury to other animals and in such a manner as to avoid causing unnecessary suffering to the animal itself.

11. No animal other than an animal which is dying from injury sustained in an accident and which is brought to the slaughter-house immediately after the accident and which shall be killed at once, shall be slaughtered until after the lapse of 24 hours from the time it is brought to the slaughter-house, and during the period an animal is confined in a slaughter-house the Superintendent shall see that it is provided during such confinement with a proper supply of wholesome water.

12. All animals brought to a slaughter-house shall be carefully examined by the Superintendent, and no animal shall be slaughtered there until it has been so examined and pronounced by the Superintendent to be free from disease.

13. No person shall bring a diseased, *dying* or dead animal to a slaughter-house.

This bye-law shall not apply in the case of an otherwise healthy animal which is *dying* from injury sustained in an accident and which is brought to the slaughter-house immediately after the accident.

14. No animal which upon examination is found to be diseased or shows symptoms of or is suspected of being diseased shall be slaughtered at a slaughter-house.

15. A special pen shall be attached to every slaughter-house premises for the segregation of animals which are found to show symptoms of or are suspected of being diseased, and every animal which upon examination is found to show symptoms of or be suspected of being diseased shall be at once removed to such special pen, and there kept under observation for such period as may be necessary to ascertain whether it is diseased or not. The cost of the maintenance of any animal kept in the special pen shall be paid *by the person bringing the animal* to the slaughter-house.

16. Every animal which shall be found to be suffering from an infectious or contagious disease shall forthwith be seized by the Superintendent and removed to the Municipal Knackery, or such other place as the Chairman may from time to time appoint, to be there destroyed and disposed of in such manner as to prevent any portion of the carcass being used as human food. A report of every such case shall be made to the Chairman forthwith.

17. A dying or dead animal brought to a slaughter-house shall be treated as an animal suffering from an infectious or contagious disease, provided that an animal which is dying as the result of accident and is brought to a slaughter-house immediately after the accident, may, if upon examination it be found to be free from any disease, be allowed to be slaughtered for human food.

18. No animal that is, or is suspected to be, with young shall be slaughtered at a slaughter-house.

19. The carcass of every animal which has been slaughtered in a slaughter-house shall be immediately skinned and cleaned by the person who slaughtered it, and shall after it has been skinned be carefully examined by the Superintendent to ascertain if it is free from disease. The skin shall likewise be carefully examined by the Superintendent to ascertain if it is free from disease.

20. Every carcass which upon examination is found to be diseased shall be seized by the Superintendent and with the consent of the owner, or the person who

brought the animal to the slaughter-house, be forthwith destroyed in such manner as to prevent its being used for human food, or if in any case such consent be not obtained, then, if the carcass is, in the opinion of the Chairman, the Health Officer or District Health Officer, diseased, it may be destroyed as aforesaid. The expenses incurred in destroying such animal shall be paid by the person in whose possession it was at the time of its seizure.

In any case when either the skin or carcass shall show symptoms of a contagious disease the skin shall be destroyed by the Superintendent; in all other cases the skins shall remain the property of the owner. In the event of any dispute between the Superintendent and the owner of a carcass or skin as to whether a carcass or skin is deseased or not, the matter shall be referred to the Health Officer whose decision shall be final.

21. All meat and offal which upon examination are found to be diseased or are unfit for human food shall be seized and dealt with in the same manner as a diseased carcass.

22. Immediately after examination, every skinned carcass, which is found to be free from disease and fit for human food, shall be stamped over the body by the Superintendent, before the carcass is quartered or cut up. Such stamping shall be done with such stamp and dye, as may be from time to time prescribed by the Health Officer, with the Chairman's approval.

23. Skinned carcasses qualified for stamping shall be divided into three classes, numbered 1, 2 and 3, according to the quality of the meat, and stamps shall be provided for each class, and every carcass shall be stamped with the stamp designating the class to which the carcass is assigned. The Superintendent shall decide to what class each carcass is to be assigned, and, in the event of any dispute, the matter shall be referred to the Health Officer, whose decision shall be final.

24. No person shall blow by insufflation or any other process, the carcass of any animal slaughtered for human food and every person assisting in this process shall be held to have committed an offence under these regulations.

25. Every animal slaughtered in a slaughter house shall be slaughtered in such a manner as to prevent the blood of the animal from flowing over the floor.

26. The skins, entrails and offal of slaughtered animals, which have been found to be free from disease, shall be removed to a special offal room in the slaughter-house, which will be provided for the purpose, and shall be washed and cleaned there before their removal.

27. All refuse and offal rejected by the owners of slaughtered animals, shall be deposited by them or their assistance in a Municipal offal truck, which will be provided for the purpose, and shall be disposed of, as the Chairman may direct.

28. The solid contents of the entrails of slaughtered animals shall not be washed into the sewers, but shall be removed by the persons who slaughtered the animals or their assistants, and deposited in a Municipal offal truck, which will be provided for the purpose and shall be disposed of as the Chairman shall direct.

29. Every person who slaughters an animal in a slaughter-house shall cause that portion of the floor of the slaughter-house, where the animal has been slaughtered and any adjoining wall to be thoroughly washed and cleansed immediately after the slaughter of the animals, so as to prevent the absorption therein of any blood or liquid refuse or filth, which may be spilled or splashed therein or any offensive or noxious matter which may be deposited thereon or brought in contact therewith.

30. All skins, offal and entrails, etc, left at a slaughter-house after such hour as the Superintendent shall, with the sanction of the Chairman, prescribe, shall be considered to be refuse, and shall become the property of the Corporation, and shall be disposed of as the Chairman shall direct.

31. No person shall sell meat in retail on the premises of a slaughter-house. Skins and offal may be sold in the yard of a slaughter-house, but no purchaser of any skins or offal shall on any pretext enter any portion of the slaughter-house or any building forming part thereof.

32. All meat, entrails and offal, which are fit for human food and are permitted to be removed from a slaughter-house, shall be removed in covered baskets and carts, which, together with their covers, shall be at all times kept clean, and shall be produced daily to the Superintendent or his assistants, whose duty it shall be to inspect them and see that they are kept clean.

33. Every person who slaughters in a slaughter-house any animal the carcass whereof is found to be free from disease, and fit for human food, shall every day, before leaving the slaughter-house, obtain from the Superintendent a receipt stating the number and class of the animals slaughtered by him, and the date and time when they were slaughtered, and the name of the person who slaughtered the animals, and counterfoils of all such receipts shall be filed in and kept by the Superintendent.

34. No person suffering from leprosy, sores or any disease of the skin or any contagious or infectious disease, shall enter a slaughter-house or any part of the premises.

35. No dog shall be admitted into a slaughter-house. Every dog found in a slaughter-house, shall be at once made over to the police to be dealt with as a stray dog.

36. No animals other than those which the Superintendent or his Assistant has passed as fit for slaughter and which are intended for immediate slaughter, shall be brought into that portion of the slaughter-house, which shall be set apart for the slaughter of the animals.

37. All animals brought to a slaughter-house, and which are not intended for immediate slaughter, shall be kept in pens attached to the slaughter-house, until such time as they are

required, and permitted to be slaughtered, but no animal shall be so kept for more than 48 hours or such shorter period as may be necessary, subject to the provisions of Bye-law No. 11, for the purpose of preparing such cattle, by fasting or otherwise, for the process of slaughtering.

38. The owner of an animal kept in any pen for any purpose, shall bear all charges for its keep, and he shall be allowed to feed it, and to employ his own servants, if necessary, for that purpose, and shall obey all orders and directions given by the Superintendent.

39. No animals other than those which the Superintendent has passed as fit for slaughter, and which are intended for immediate slaughter, shall be brought into that portion of the slaughter-house, which shall be set apart for the slaughter of the animals.

40. No person shall make a noise, fight, or quarrel or use insulting, abusive or obscene language in a slaughter-house. Persons contravening this regulation may be summarily ejected by the Superintendent or his assistants.

41. No employé of the Corporation shall ask for or receive any gratuity in money or otherwise from any person making use of a slaughter-house.

42. No person except an employé of the Corporation appointed or other person authorised for the purpose, and placed under the control of the Health Officer, shall be permitted to perform any religious rites or duties connected with the slaughtering of animals, having regard to the views of the religious community to which he belongs.

43. The fee payable to the Corporation for the slaughtering of each animal in a slaughter-house shall be, as detailed in the following Schedule:—

	Rs.	A.	P.
Cows, bullocks and buffaloes (1st class) ...	0	4	0
Cows, do. do. (2nd class) ...	0	2	0
Calves	0	1	0
Sheep	0	2	0
Goats	0	2	0
Kids	0	1	0
Pigs	0	2	0

44. Every person who shall offend against any of the foregoing Bye-laws, shall be liable, for every such offence, to a fine which may extend to twenty rupees, and in the case of a continuing breach, to fine which may extend to ten rupees for every day during which the breach continues after conviction for the first breach.

Section 559 (36) for preventing persons suffering from any loathsome disease from keeping stalls, in or being employed in preparing or selling article of food in any market, or from entering any Municipal Market or touching any article brought thereto for sale, and for authorising the expulsion of such persons from any Municipal Market.

(1) No person suffering from leprosy or any other contagious or dangerous disease shall enter or live or carry on business or be employed in or be allowed to enter or live or carry on business or be employed in any market building, market-place, market, bazar or slaughter-house.

(2) In any case where a person suffering from any such disease enters or lives in or carries on business or is employed in any such market building, market-place, market, bazar or slaughter-house, the owner, occupier, farmer or person having the control thereof shall be deemed to have allowed such person to enter or live in or carry on business or to be employed in such place as aforesaid, unless he can prove that he has taken reasonable care and precaution to prevent such breach. Any person who offends against the preceding Bye-law hereof, may be immediately ejected by any Municipal Officer or Police Officer.

(3) No person shall sell, store, manufacture or deposit or be allowed to sell, store, manufacture or deposit any articles of human food or drink or drug or keep or be allowed to keep, any utensil or article necessary for the manufacture or carriage or storage of any such food, drink or drug in any part of any market building, market-place, market, bazar or slaughter-house, in which any person suffering from leprosy or any other contagious or dangerous disease has entered or lived or carried on business or been employed, until such part has been certified by the District Health Officer to be free from infection.

If any person uses for any of the said purposes any part of any market building, market-place, market, bazar, or slaughter-house, in which any person suffering from leprosy or any other contagious or dangerous disease has entered or lived or carried on business or been employed before such part has been certified by the District Health Officer to be free from infection, the owner, occupier or person having the control thereof, shall be deemed to have allowed the use of the said part.

Penalty Section.

Any person who shall commit a breach of any of the provisions of this Bye-law, shall be liable to a fine which may extend to twenty rupees, and in the case of a continuing breach of a fine which may extend to ten rupees, for every day during which the breach continues after conviction for the first breach.

Bye-laws under section 559 (37) for preventing persons suffering from any infectious or contagious disease living in places where food or drugs is or are sold, stored or prepared, and for disinfecting the place when any such case has occurred.

1. No person suffering from leprosy or any other loathsome, infectious or contagious disease shall live in or remain in or be permitted to occupy any place in which food or drugs is or are sold, exposed for sale, stored or prepared.

2. No owner or other person having the control or management of any place in which food or drugs is or are sold, exposed for sale, stored or prepared shall cause or permit any person suffering from leprosy or any other lothsome, infectious or contagious disease to live therein.

3. If a case of leprosy or any other leothsome, infectious or contagious disease occurs in any place in which food or drugs is or are sold, exposed for sale, stored or prepared, the owner, occupier or other person having the control or management of such place shall, within three hours from such occurrence, give information thereof to the Health Officer or a District Health Officer, and shall permit the Health Officer, District Health Officer or other Municipal Officer to enter into every part of the said place or building, and to disinfect the same, and to take such other measures as in the opinion of the Health Officer, District Health Officer or other Municipal Officer shall be necessary or desirable to prevent the spread of such disease beyond such place.

4. No person shall sell, expose for sale, store or prepare any food or drugs in any place in which any case of leprosy or other leathsome, infectious or contagious disease has occurred, until such place is certified by the Health Officer or District Health Officer to be free from infection.

5. All food and drugs, in or about any place in which food or drugs are sold, exposed for sale, stored or prepared at the time when any case of leprosy or other loathsome, infectious or contagious disease occurs shall be deemed to be unfit for human food or for medicine.

6. Every person who shall offend against any of the foregoing Bye-laws shall be punishable for every such offence with fine which may extend to twenty rupees, and, in the case of a continuing breach, with fine which may extend to ten rupees for every day during which the breach continues, after conviction for the first breach.

QUESTION AND ANSWER.

MUNSIFS' RESIDENCES.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—

In paragraph 48 of the Explanatory Notes on the Bengal Financial Statement for 1902-1903, it is stated that the allotment for original works includes a grant of Rs. 40,000 for Munsifs' residences. Will the Government be pleased to inquire and state whether the whole of this sum was spent during the year 1902-1903? If not, what is the reason? Will the Government be pleased to specify the names of the places where such residences were built during the year 1902-1903 out of this grant of Rs. 40,000?

The Hon'ble MR. INGLIS replied:—

"The actual expenditure incurred during the year 1902-1903 was Rs. 39,603 on residences for Munsifs at the places named below:—

1.	Gumla.	9.	Hathazari.
2.	Cox's Bazar.	10.	Kishoreganj.
3.	Chandpur.	11.	Hajipur.
4.	Patya.	12	Patuakhali.
5	Perozepore.	13.	Hatya.
6.	Bhola.	14.	Thakurgaon.
7.	Atia	15	Kishenganj.
8.	Bagerhat.	16	Jamalpur.

THE CHOTA NAGPUR TENANCY (AMENDMENT) BILL, 1903.

The Hon'ble MR. SLACKE moved that the Report of the Select Committee on the Bill to amend the Chota Nagpur Landlord and Tenant Procedure Act and the Chota Nagpur Commutation Act, 1897, be taken into consideration.

The Motion was put and agreed to.

The Hon'ble MR. SLACKE also moved that the clauses of the Bill be considered in the form recommended by the Select Committee.

The Motion was put and agreed to.

Clause 2.

The Hon'ble MR. SLACKE also moved that the following be inserted after clause *(g)* in clause 2 *(2)* of the Bill, namely:—

'*(h)* "Mundari khunt-kattidari tenancy" means the interest of a Mundari khunt-kattidar.'

He said:—"The reason for this amendment will, I think, be obvious to the Council. In several sections of the Bill reference is made to a Mundari khunt-kattidari tenancy, but no definition of this has been provided. It seems therefore necessary to provide for this defect, and accordingly I would suggest the adoption of this amendment."

The Motion was put and agreed to.

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, moved that, in sub-clause *(h)* of clause 2 *(2)* of the Bill, the words "any Act for the time being in force for the registration of documents" be substituted for the words "the Indian Registration Act, 1877." He said:—

"This definition is given in the Bengal Tenancy Act, and I think it is more comprehensive than in the present Act, and could, with advantage, be adopted."

The Hon'ble MR. SLACKE said:—"I have nothing to urge against the acceptance of this amendment."

The Motion was put and agreed to.

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, also moved that in line 5 of sub-clause (*n*) of clause 2 (*2*) the word "raiyats" be subtituted for the word "tenants." He said:—

"This was the subject of some discussion in the High Court, and I fear that the use of the word 'tenants' might create some confusion. I therefore submit that we should substitute the word 'raiyats' for the word 'tenants.'"

The Hon'ble MR. SLACKE said:—"I am unable to support this amendment, and that for two reasons. In the first place, I am unable to satisfy myself that there is any definite ground for departing from the wording given in section 5 of the Bengal Tenancy Act, from which this was taken, and, *secondly*, because I am at a loss to understand why a tenure-holder should be deprived from creating an under-tenure, which would be the effect if this amendment were adopted. For these two reasons, I cannot recommend to the Council the acceptance of this amendment."

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, in reply, said:—"After the expression of opinion we have just heard from the Hon'ble Member in charge of the Bill, I do not desire to press my amendment."

The Motion was then, by leave of the Council, withdrawn.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, moved that to sub-clause (*o*) of clause 2 (*2*) of the Bill the following be added, as Explanation II, the Explanation which is already attached to the sub-clause being made "Explanation I," namely:—

'*Explanation II.*—A person acquiring at the same time a right to hold land both for the purpose of cultivating it by himself or by members of his family or by hired servants or with the aid of partners, and for the purpose of collecting rents or bringing it under cultivation by establishing tenants on it, or partly for one such purpose and partly for the other, is not a "raiyat" within the meaning of this definition.'

He said:—"In moving this amendment, I must say that I do not question the correctness of the definition of 'tenure-holder' in sub-clause (*n*) or that of 'raiyat' in sub-clause (*o*), so far as they go; but what I want, and I must insist upon, is an addition by way of explanation which will enable raiyats, tenure-holders, superior landlords and the Courts that may have to deal judicially in regard to questions arising before them to understand correctly the relative rights of such raiyats, tenure-holders and superior landlords. I must say also, Sir, that it will be dangerous to leave sub-clauses (*n*) and (*o*) alone without an Explanation."

"In venturing to support the amendment I have proposed, I must place before the Council certain facts which are material for arriving at a conclusion. The raiyati right must necessarily owe its origin to a contract, expressed or implied. I hold in my hand a paper-book of the High Court in a case which went from Hazaribagh to that Court in regular appeal. There are numerous farming leases, or counterparts of such leases, in this paper-book, all of which contain conditions to the following effect:—

'The farmer or the lessee shall cultivate lands by himself and cause lands to be cultivated by others. He shall collect rents from raiyats.'

"I have another paper-book in my hand which relates to a case that came to the High Court from the district of Bhagalpur. The lease in this case contains a condition as follows:—

'The lessee shall cultivate lands by himself. He shall maintain raiyats in possession, and shall collect rents from them.'

"I here crave leave to appeal to your Honour's experience in Bihar generally for a period of upwards of 20 years to bear me out, that the system of grant of farming known as *mostajir* leases are very common in that Province. My native home is in the district of the Sonthal Parganas, and I am connected with the district of Monghyr in several ways. These districts

are next-door neighbours to the district of Hazaribagh, in the Ranchi Division. I do possess some knowledge of the habits and customs of the people of some portions of the Ranchi Division. In all these places, so far as I know, farming leases and their counterparts are systematically exchanged. The land tenures in India are well understood at the present day. But when we deal with them in legislative measures and undertake to define the rights of the holders thereof, it is desirable to give a complete, or at any rate sufficiently comprehensive, shape to the definitions to prevent difficulties and litigations in future. In the absence of an explanation of sub-clauses (*n*) and (*o*), the difficulty that I have met with in very many cases since the Bengal Tenancy Act came into operation justifies the amendment I propose. Suppose, Sir, on the expiry of the term of a farming lease, when the out-going farmer, who has succeeded in bringing under his cultivation a large area during his possession, sticks to the possession of such area and refuses to quit possession thereof, saying 'I acquired right to cultivate lands in the estate.' 'I have cultivated lands.' 'I have paid rents for the same.' 'I am legally entitled to hold on.' 'I am a raiyat with or without right of occupancy.' 'I was not a tenure-holder in respect of such lands, and I am not bound to quit possession thereof otherwise than in due course of law'.

"I submit, Sir, under these circumstances that with the definitions in sub-clauses (*n*) and (*o*), the superior landlord will find difficulty in turning him out of possession of such lands, standing alone, and at all events a wide door to serious litigation will be opened in Chota Nagpur, as has been done in places where the Bengal Tenancy Act is in force.

"It is not a difficult task for the farmers and *mostajirs* to bring under their grasp large areas by dispossessing poor raiyats in Chota Nagpur, or otherwise bringing waste lands, easy of reclamation, lying in the estates under their *khas* possession. They will make encroachments upon the village rights—rights and privileges of raiyats which were recognized during the time of the Hindus and the Muhammadan Government, and which, up to the present day, have been recognized by the British Government. Our Statutes have proceeded throughout on the lines of the ancient rights and privileges of the raiyats and the customary incidents attaching thereto. If the definition of a raiyat in the Bill be not made sufficiently comprehensive and clear, the result will be to leave the parties, their advocates and the Court to straining, turning, twisting and torturing of the words used in sub-clauses (*n*) and (*o*) without being able to arrive at any reasonable and fair conclusion."

The Hon'ble MR SLACKE said:—"I cannot, Sir, advise the Council to accept this amendment. In the first place, the object of the amendment is to prevent farmers of rents, *thikádár* and such like persons from acquiring, during the currency of their leases, a right of occupancy in the lands let to them under such leases. When introducing the Report of the Select Committee on this Bill, I pointed out that, owing to the absence of the necessary data, which cannot for some years be furnished by the Settlement Officer, we were now unable to deal satisfactorily with the question of occupancy right as a whole. *Secondly*, although the subject-matter of this Bill has been under discussion for a very long time, not one single zamindar has pointed out the necessity of having such a clause in the Bill. In the absence, therefore, of any such proved need, to accept this amendment would, in effect, be to abandon the principle that guided the Select Committee in dealing with the Bill. It would also be very dangerous to deal any further with the question of occupancy right when, as I have already pointed out, we lack the requisite information on the subject.

"Should, however, events occur which, in the opinion of the local officers, would require action to be taken to prevent by law farmers, etc., from acquiring occupancy rights in the lands covered by their leases and, if such need arise, before the Act as a whole could be revised, the Government can, by extending section 22 (*3*) of the Bengal Tenancy Act to Chota Nagpur, provide a sufficient remedy at once.

"I would therefore suggest that this amendment be rejected."

The Hon'ble BABU CHATURBHOOJ SAHAY said:—"The amendment which is sought to be introduced by the Hon'ble Rai Tarini Pershad, Bahadur, is that in cases where one and the same person has got two functions as it were, namely, that of a raiyat and that of a tenure-holder, then so far as he cultivates land by himself or by hired labourers, he should not be deemed a raiyat within the meaning of this sub-clause (*o*). But, then, the amendment that he moves seems to be unnecessary, as will be seen if we refer to the following portion of sub-clause (*o*): 'A person shall not be deemed to be a raiyat unless he holds land either immediately under a proprietor or immediately under a tenure-holder, or immediately under a Mundari khunt-kattidar.' Let us suppose that *A* takes a lease from the proprietor of a village, and that he is also permitted to cultivate a portion of the land in the village as a raiyat. Now he cannot be a raiyat unless he holds immediately under the proprietor; but he does not hold immediately under the proprietor because the village has been leased, nor immediately under the tenure-holder because he does not hold under the tenure-holder, he being himself the tenure-holder. So such a person cannot be a raiyat because he would be holding under himself, he himself being the tenure-holder. Therefore that part of my friend's amendment seems to be covered by the paragraph that appears after the Explanation to sub-clause (*o*). He cannot be a raiyat because a raiyat has to pay rent to the zamindar or *málik*, and he cannot pay either to himself or to the *málik*, because the *málik* is the lessor of the land. Under these circumstances, the amendment seems to me to be unnecessary."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"The amendment moved involves a serious question of principle, and I do not intend to record a silent vote against it. It seems to me quite clear that, as a matter of principle, this amendment ought not to be accepted. A tenure-holder under the Act means primarily a person who acquires land not for the purpose of cultivating it himself, but for the purpose of settling tenants on it and collecting rents from them. A raiyat, on the other hand, is defined to be primarily a person who acquires land for the purpose of keeping it himself and cultivating it either by himself, or by the members of his family or by his servants, or with the aid of partners. My hon'ble and learned friend is contemplating the case of a person who acquires land for both these purposes, or partly for one of these purposes and partly for the other, and wants us to hold that his function is that of a riayat, and that he should not be regarded as a tenure-holder. I submit that this is entirely wrong on principle. Suppose a man acquires 100 bighas, and in his lease it is stated that he may either cultivate it himself or settle tenants thereon; if he cultivates the entire 100 bighas himself, I take it that the inference should be that he is a raiyat. If, on the other hand, he settles tenants on the 100 bighas, he should be regarded as a tenure-holder. My hon'ble and learned friend says: 'No, if he has a lease in which it is stated that he may use it in either way, he can never be regarded as a raiyat although he cultivates the land himself.' In the same way if he takes 50 bighas and settles tenants thereon and takes another 50 bighas for cultivating it himself, my hon'ble and learned friend says he cannot be regarded as a raiyat in respect of the one and as a tenure-holder in respect of the other. I submit this cannot possibly be a correct view of the matter."

The Hon'ble BABU KALI PADA GHOSH said:—"I submit that I cannot support the amendment of my hon'ble and learned friend for two reasons. In the first place, in considering the circumstances of Chota Nagpur, it is not an urgent amendment, and, in the second place, the object contended for by my hon'ble and learned friend is very well met by another amendment which he subsequently moves and with which I have every sympathy."

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, said:—"I am also opposed to this amendment on this simple ground that, if carried, it would limit the meaning of the word 'raiyat.' I would like to see the meaning of 'raiyat' to be as wide as possible, and do not think it should be restricted in the way proposed by this amendment."

The Hon'ble RAI TARINI PERSHAD, BAHADUR, in reply said:—"When we are defining 'tenure-holder' and 'raiyat,' we must not leave the definitions defective. I submit, Sir, for the reasons I have already given, they should be

made clear. The necessity for definition of 'raiyat' and 'tenure-holder' has arisen, and they should be defined clearly, and what I want falls clearly within the legitimate scope of the Bill. I, therefore, must say that the Council should see their way to accept the amendment I have moved."

The Motion was then put and lost.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, also moved that after sub-clause (o), in clause 2 (2) of the Bill, the following be inserted, namely:—

'(p) "Under-raiyat" means a tenant holding, whether immediately or mediately, under a raiyat.'

He said:—"I thought there would be some difficulty if, in the Bill as it stands, an Explanation of this sort was not inserted, but having had the benefit of a discussion with the Hon'ble Member in charge of the Bill, and having regard to the fact that the Bill does not deal with 'under-raiyats,' I have considered it proper to withdraw this amendment, and I accordingly do so."

The Motion was then, by leave of the Council, withdrawn.

New Clauses.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA, by leave of the Council withdrew the following motions, of which he had given notice, namely:—

(1) "That after clause 2 of the Bill the following be inserted, namely:—

'2A. In section 5 of the said Chota Nagpur Landlord and Tenant Procedure Act, after the word "raiyat," the words "and every Mundari khunt-kattidar" shall be inserted.'

(2) "That the following be inserted, namely:—

'2B. (1) In section 6 of the said Chota Nagpur Landlord and Tenant Procedure Act, after the words "twelve years" the words "and every Mundari khunt-kattidar who has cultivated land for a period of twelve years" shall be inserted.

'(2) In the same section, after the word "raiyat," in the second place in which it occurs, the words "or Mundari khunt-kattidar" shall be inserted.'

He said:—"The Hon'ble Member in charge of the Bill has satisfied me that these amendments are not required, and I beg leave to withdraw them."

Clause 3.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA, by leave of the Council, also withdrew the following motions, of which he had given notice, namely:—

(1) "That in the first paragraph in the new clauses in clause 3 of the Bill, after the word 'raiyat' the words 'or Mundari khunt-kattidar' be inserted."

(2) "That in the second paragraph in the new clauses in clause 3 of the Bill, after the word 'holds' the words 'and every Mundari khunt-kattidar who cultivates' be inserted."

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, moved that the following be inserted in clause 3 of the Bill, namely:—

'The words "so long as he pays the rent payable on account of the same," in section 6 of the said Chota Nagpur Landlord and Tenant Procedure Act, are repealed.'

He said:—"I may remind Hon'ble Members that these words 'so long as he pays the rent payable on account of the same' are to be found in Act X of 1859, but they were subsequently omitted, and I must say advisedly omitted in the Act of 1885. It appears to me, however, that these words in the clause are ambiguous and meaningless. If they are allowed to stand, a tenant who has acquired a right of occupancy by holding for 12 years may lose his right if he fails to pay rent for a year or two. I may also tell the Council that the right of ejectment was given to landlords, but in the present Act that right has been taken away. Therefore I submit that these words, 'so long as he pays the rent payable on account of the same', should be omitted."

The Hon'ble MR. SLACKE said:—"I have nothing to say against the proposed amendment."

The Hon'ble BABU CHATURBHOOJ SAHAY said:—"I am afraid I must oppose this amendment. My hon'ble and learned friend says that these words find a place in Act X of 1859. I may go further and state that they were also reproduced in Act VIII of 1869. Then my hon'ble friend quotes the authority of the Bengal Tenancy Act, and says that it is not to be found there. But I do not see that anything that is to be found there or not to be found there should be our guide in legislating for the Chota Nagpur Division. Chota Nagpur, as we all know, is not so advanced as the rest of Bengal, and what would apply to Bengal proper might not apply in any way to Chota Nagpur, and hitherto this has been the law that has prevailed there without any complaint, and without anything in fact to disturb the relations between the landlord and tenant on this point. Therefore I submit that a law that has existed up to now without having given rise to any friction should not be taken away. The principle of the amendment was not recognized in the original Bill, nor is it in the revised Bill, but now my hon'ble and learned friend is seeking to amend section 6 of Act I of 1879 in this way, and I think that this is not the proper time or the proper place to change a portion of the law which has answered very well up to this time. Why then deprive the zamindar of this privilege or this benefit of section 6 that he has enjoyed so long? My hon'ble friend will bear me out that there is no justification for seeking to introduce this amendment at this stage, and I also submit that it is not required either for the exigencies of the State or for any administrative purposes."

The Hon'ble MR. GUPTA said:—"I am afraid that the Hon'ble Babu Chaturbhooj Sahay is under a slight misapprehension in opposing this amendment. It is true that these words did occur in the older Act and not in the Act that we are now going to amend. The landlord had the right of ejecting the tenant on failure to pay rent, and there was no sale of his occupancy rights. Therefore it was rightly stated there that he forfeits his occupancy rights on failure to pay rent, thereby giving the landlord the right to eject him. But in the present Bill, we take away the right of ejectment and we make the occupancy right saleable. Therefore, if we say that on failure to pay rent he loses his occupancy rights, what shall the landlord sell? If he has defaulted for two years and the landlord gets a decree for arrears of rent, and under this clause the tenant shall have forfeited his right of holding, and if he has forfeited his right, how can that right be sold? Since we are taking away the right of ejectment and giving landlords the right of selling occupancy holdings, we should make the Act consistent with that. I think that the alteration of the law that we have made by this Bill necessitates this change in order to make the Act consistent in itself."

The Hon'ble BABU KALI PADA GHOSH said:—"I am strongly in favour of the amendment which will meet the position, instead of placing landlords in the worst position possible as proposed by the Hon'ble Babu Chaturbhooj Sahay. Now in this Bill we make occupancy rights saleable in execution of a decree for arrears of its own rent. Under the late Act, which we are amending, the zamindar's only remedy was by ejectment, and that right has been taken away in the case of occupancy holdings and this right substituted, and, as has been very rightly pointed out by the Hon'ble Legal Remembrancer, unless we accept the amendment, it can be very well contended that, in not paying arrears of two or three years' rent, the raiyat has lost his occupancy right, and therefore there being no right, the occupancy holding cannot be put up for sale as the Bill now provides. I therefore hope that the amendment will be carried."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"I am strongly in favour of this amendment for the reasons stated by the Hon'ble Mr. Gupta."

The Motion was then put and carried.

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, also moved that the words "so long as he pays the rent payable on account of the same" in clause 3 of the Bill, be struck out.

The Hon'ble MR. SLACKE said:—"I have nothing to urge against this amendment."

The Motion was put and agreed to.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, moved that the following be added at the end of clause 3 of the Bill, namely:—

'Any person holding land as a farmer or other tenure-holder shall not, while so holding, acquire a right of occupancy in respect of any land comprised in his farm or tenure, even though he may have cultivated it by himself or by members of his family or by hired servants or with the aid of partners.

'*Explanation.*—A person having a right of occupancy in land does not lose it by subsequently holding the land in farm or tenure.'

He said:—"I submit that this amendment is necessary and desirable. A similar provision in the Bengal Tenancy Act is my justification for bringing forward this motion. A farmer or *mostajir* cannot acquire raiyati right by holding land while he holds the farm. If he, while holding as a farmer or *mostajir*, acquires occupancy right by purchase or other mode of transfer, he is welcome to it. A provision such as I seek by my amendment is desirable."

The Hon'ble MR. SLACKE said:—"I am unable to advise the Council to accept this amendment. The reasons which I gave with regard to item 6 in the agenda apply equally to the present amendment proposed. In the first place, it is not a matter of urgency at all. None of the zamindars, or those who have property in Chota Nagpur, have ever asked that this should be brought into the present Bill. In the second place, we are dealing with a subject, as I remarked before, about which we stand at present in a great deal of ignorance. Whenever necessity should arise, the Executive Government can by notification extend the operation of section 22 (*2*) of the Bengal Tenancy Act to Chota Nagpur or any portion thereof. This is a point which has not yet arisen. For these reasons, I cannot accept the adoption of this amendment."

The Hon'ble BABU KALI PADA GHOSH said:—"I feel bound to say that I am in favour of this amendment; but if you ask whether I consider it one of extreme urgency, I say no; but this raises a question so well established that I am strongly in favour of this amendment. Whenever such cases arise in Chota Nagpur, we are obliged to look for all the cases on the subject. This point has been decided by the High Court, and this amendment does not make any change in the existing law, but its object is simply to codify the cases. That being so, I am bound to support the amendment."

The Hon'ble MR. GUPTA said:—"The reasons which have been adduced by the Hon'ble Babu Kali Pada Ghosh are the very reasons for which I beg to oppose the amendment, because the law is so clearly established independent of any express provision that we do not require this express provision in the Act. This provision has been no doubt inserted in the Bengal Tenancy Act, but in so doing the Legislature only recognised the case-law as it stood then, and, as far as the cases go back, even under the Act of 1859 (Act X of 1859), it was held by the High Court that a farmer who cultivates land for himself cannot acquire the right of occupancy. I believe the reason is this,—that the right of occupancy is a right really adverse to the landlord. It is a right acquired in derogation to the proprietor's right. The right of occupancy means that the raiyat says: 'I hold this in spite of you.' Now, if a farmer holds land under himself, he cannot acquire a right adversely to himself. He cannot acquire any right in derogation of his own right. It is upon this principle that it has always been held that a farmer cannot acquire any right of occupancy in any land which he himself cultivates. That being the state of the law, what is the necessity of introducing this amendment into a simple Act of this kind, when we are dealing with a non-regulation province, where we want to make everything as

simple as possible? Of course, there are many excellent principles in the Bengal Tenancy Act, which might, with advantage, be extended to this Act, but we have not thought it proper to do so, *firstly*, because there is no necessity for it, and, *secondly*, if any necessity is proved, the Government has power to extend any provisions of the Bengal Tenancy Act to Chota Nagpur. My hon'ble friend has not shown that the introduction of this principle into Chota Nagpur is necessary; but as soon as it is shown that it is necessary, the local authorities have only to move the Government in order to extend this particular provision of the Tenancy Act into Chota Nagpur. That is to say, if the Courts of Chota Nagpur pass any decision contrary to the principle, the interference of the Government will be necessary. Legislation will not be necessary. It will only be necessary to extend the provisions of the Tenancy Act into Chota Nagpur by a notification in the Government Gazette. The Hon'ble Babu Kali Pada Ghosh, whose experience in Chota Nagpur has been very long, does not say that the Courts of Chota Nagpur have ever given a decision that is contrary to the case-law on the subject. Therefore, if the case-law on the subject is clear and there is no necessity for this amendment, I think we ought to leave it alone."

The Hon'ble MR. PUGH said:—"I also think that the amendment ought not to be accepted. I think it is extremely undesirable to put in any clauses from the Bengal Tenancy Act into this Act for which there is no sufficient reason made out. Although the Bengal Tenancy Act says that a tenure-holder cannot acquire a right of occupancy under certain circumstances, I venture to think it is unnecessary to insert such a provision here.

"There is another objection from my point of view, and that is the wrong use of the word 'farmer' here. You speak correctly in saying a farmer of taxes or a farmer of leases, but when you speak of a man as a farmer of land, it means one who farms land, that is to say, a cultivator. That is the meaning of the word in the English language, but here it means only a person who is a farmer of land. A man who holds land as a cultivator is a farmer, and a farmer in that sense of the word is not a tenure-holder.

"But apart from that objection which is a mere matter of language, I think the amendment ought not to be accepted as it is unnecessary."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"I cannot support the amendment. No doubt it is right in principle, but the principle is so firmly established that nobody can question it. It was laid down by the High Court so far back as 1864, and it was confirmed by the Judicial Committee of the Privy Council in the case of Messrs. Jardine, Skinner & Co. in 1878. Consequently it seems to be absolutely unnecessary to accept this amendment. Besides, if Hon'ble Members will compare it with section 22 of the Bengal Tenancy Act, they will find that the two are identical, with this difference only that the Hon'ble Member has not incorporated the Explanation to that section: 'A person having a right of occupancy in land does not lose it by subsequently becoming jointly interested in the land as proprietor or permanent tenure-holder or by subsequently holding the land in *ijara* or farm.' If we accept the amendment, the question might arise as to what was to happen in the case of a person who had a right of occupancy and subsequently held in *ijara*. I think that section 22, clause (*3*), might be introduced into the Chota Nagpur Act, but then that is not really necessary having regard to the case-law on the subject."

The Hon'ble BABU CHATURBHOOJ SAHAY said:—"I am afraid I cannot give my vote in favour of the amendment. It is said that there is a provision in the Bengal Tenancy Act, and this salutary provision ought to be put into this Act. This is no reason why we should accept this amendment or incorporate this principle of law into the Chota Nagpur Act. It is admitted that the Chota Nagpur Act is very different in many respects and at present a great many changes are not desirable, and we were told in the Select Committee that it was limited in its scope, and that no new principle should be introduced unless an urgent case was made out. We should not alter the law unnecessarily. The case-law on the subject establishes beyond all possible doubt that a farmer

or *ijaradar* cannot have rights of occupancy in any land comprised within his lease, so whether we borrow this section from the Tenancy Act or not, it is all the same, and it does not affect the well-recognised principle of law that an *ijaradar* cannot acquire rights of occupancy. Therefore, unless we are prepared to borrow or incorporate other sections of the Bengal Tenancy Act, there is no use of adopting this one."

The Hon'ble RAI TARINI PERSHAD, BAHADUR, in reply said:—"Notwithstanding what has been said, I would press my amendment."

The Motion was then put and lost.

New clause.

The Hon'ble MR. SLACKE moved that after clause 3 of the Bill the following be inserted, namely:—

'3A In section 7 of the said Act, before the words "the last preceding section" the words "the first two paragraphs of" shall be inserted.'

He said:—"By this Bill we have added two new paragraphs to section 6. Previous to that addition there was no reason to alter the wording of section 7 of Act I of 1879, but owing to the addition of these two paragraphs, it has become necessary to insert these words. Unless this be done then the effect will be that contracts can be entered into which in effect will deprive raiyats of the rights conferred on them by the two new paragraphs which the Bill proposes to add to section 6 of the Act. To allow such to occur would be highly inadvisible, and for this reason I would ask the Council to accept this amendment."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"I am in some difficulty about this amendment, but I take it, it has been rendered necessary by the addition of two new paragraphs to section 6. Section 7 now says: 'Nothing contained in the last preceding section shall be held to affect the terms of any writtten contract for the cultivation of land entered into between a landholder and a raiyat when it contains any express stipulation contrary thereto.' No doubt this was applicable to section 6, to which two new paragraphs have since been added, and the effect of the amendment proposed would be to make the exception in section 7 inapplicable to the new paragraphs. If this is the intention, I do not see any objection to the amendment."

[At this stage, with the leave of the President, the Member in charge conferred with the Hon'ble Dr. Asutosh Mukhopadhyaya on this point, with the result that the latter expressed himself satisfied.]

The Motion was put and agreed to.

Clause 4 (section 10A).

The Hon'ble RAI TARINI PERSHAD, BAHADUR, moved that for proviso (*b*) in section 10A, in clause 4 of the Bill, the following be substituted, namely:—

'(*b*) Nothing in this section shall affect the right to execute a decree for sale of a holding passed, or the terms or conditions of any contract registered, before the first day of January, 1903.'

He said:—"I submit that nothing can be put forward by way of objection with regard to the principle which underlies the provision here. What I submit for the consideration of the Council is, that sub-clause (*b*) ought to be amended so as to include any decree which has already been passed for sale of a holding. That is my object. The Bill already provides that nothing in this section shall affect the terms or conditions of any contract registered before the first day of January, 1903. Evidently that refers to contracts like simple mortgages which authorise the mortgagee to sell the property. Speaking here of decrees, which have already been passed, it may be said that the provision already made in respect of contracts registered before the 1st January will protect decrees which have been already passed upon mortgages executed

before the 1st of January, 1903; but I submit that, having regard to the provisions of the Registration Act, there are cases in which mortgages are as valid and as good as registered mortgages, provided the value of the mortgage security on land does not exceed Rs. 100. Therefore, it is quite possible to see that there might be decrees already passed, based upon mortgages of Rs. 100 or less, which ought to be protected on the same ground as contracts registered before the 1st January, 1903."

The Hon'ble MR. SLACKE said:—"I have nothing to say against the proposal."

The Motion was put and agreed to.

Clause 4 (section 10B).

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, moved that sub-section (2) in section 10B in clause 4 of the Bill be struck out. He said:—

"I submit that section 10B gives no right of transfer to a tenant except a very limited right and for a limited period, namely, that a tenant has no right to transfer his holding or tenure except this, that he may lease or mortgage for a term not exceeding five years. But that limited right under this section is made subject to the consent in writing of the zamindar. If the sub-clause (2) be allowed to remain as it is, the result will be that this right to transfer will be practically *nil*. In fact, it will be almost impossible to get the written consent of the landlord. The amendment will not prejudice the landlord, because under the law the arrears of rent has been made the first charge; but if this clause is allowed to stand, it will deprive the tenant of the benefit which this section is intended to give."

The Hon'ble MR. SLACKE said:—"I am unable, Sir, to support this amendment. In the first place, the inability which the learned and hon'ble Member who moved the amendment considers would attach to the raiyat if this sub-section be retained will not in practice exist. The right of a raiyat to transfer his holding or part of it is, at present, not binding on the landlord unless the latter's consent to the same is obtained. In spite, however, of this, numerous transfers are now made, and thus it will be seen that the raiyat will be in no way penalized should this sub-section be retained. Furthermore, I am unable to understand why an arrangement made between two persons should be binding on a third party who has had no cognizance of it, and when no custom can be pleaded in support."

The Hon'ble BABU CHATURBHOOJ SAHAY said:—"I submit, Sir, that the amendment is not necessary, and the absence of the landlord's consent in writing will not debar the raiyat from transferring his right in his holding for a limited period. One raiyat may transfer his holding to another, but it is not necessary that the landlord should be bound to accept it. The transfer between raiyats *inter se* is one thing, and its acceptance by the *malik* is another, but the absence of the *malik's* consent would not in any way interfere with the transfer of the holding to another raiyat at all. There are various reasons why the *malik* may object to recognise the transfer. The holding itself may not be transferable; but when one raiyat chooses to transfer to another, it does not concern him to inquire into the question at all as to whether the tenure is saleable or not; but in order to carry on agricultural pursuits he may transfer, but then it is another thing that the landlord should recognise such transfer. Therefore there may be a transfer, but that transfer will not be binding on the landlord unless his consent is given."

The Hon'ble BABU KALI PADA GHOSH said:—"I regret I cannot support this amendment. I was unable to follow my hon'ble friend, the mover of this amendment, when he said that if this clause is allowed to stand, the

effect will be that no transfers can be made by a raiyat, unless he gets the previous consent of the landlord. The section as it stands does not lay down such a thing. It simply lays down that no transfer by a raiyat of his holding shall be binding on the landlord, unless he has obtained the landlord's consent in writing. It is one thing to make it binding on the landlord, and it is another thing to allow the raiyat to transfer his holding. Sub-clause (*3*) is as follows:—

'No transfer in contravention of sub-section (*1*) or sub-section (*2*) shall be registered or shall be in any way recognised or acted upon by any Court, whether in the exercise of civil, criminal or revenue jurisdiction.'

"Now if this was allowed to stand, what my hon'ble friend apprehends might happen, but I understand sub-clause (*3*) is to be amended in the next motion by striking out the words 'or sub-section (*2*).' I do not think it can be contended that a raiyat in making a transfer would be put to the necessity of obtaining his landlord's consent, but the only effect will be that unless it is made with the landlord's consent, it will not be binding upon him. My hon'ble friend was contemplating the case in which he said that the occupancy rights would be sold, and the rent would be the first charge; but he lost sight of the fact that these mortgages and leases can be granted also in non-occupancy holdings. There also the remedy is by ejectment. The landlord cannot avoid this lease or this mortgage unless he makes the lessees or mortgagees parties, and that would certainly bring in an obligation which it would be next to impossible for a landlord to comply with. I do not think that this sub-clause, as it stands, will in any way hamper the raiyat in making a transfer."

The Hon'ble MR. MACPHERSON said:—"This, Sir, seems to be a difficult question. Under the Bengal Tenancy Act, the right of transfer by an occupancy raiyat of his entire holding is left to custom. Under section 88 of the Bengal Tenancy Act the subdivision of a holding is not binding on a landlord unless he gives his consent in writing; but section 85 declares certain powers of sublease.

"Now by this Bill, we are limiting, as several speakers have said, the right to transfer by the raiyat very considerably. Clause (*1*), sub-clause (*1*) of section 10B leaves the raiyat a very modified right of transfer. Then sub-clause (*2*) goes on to say that exercise even of that modified right shall not be binding on the landlord, unless his consent has been obtained in writing. This does not mean that the raiyat will not be able to exercise the modified right of transfer at all without the landlord's consent. It means only that the transferree will take the holding or part of the holding or field at the risk of the landlord's refusal to recognise the transfer. We have gone considerably further than the Tenancy Act in this matter; and if I thought that there was any serious danger to the raiyat that he would be seriously impeded in his agricultural credit, I should vote against the sub-clause under discussion. Take again, for instance, the case of a poor woman making a sub-lease of her lands which she is not able to cultivate, her husband having died. It is very common in such cases for land to be sublet for a term until the children are grown up and able to cultivate. If I thought that such an arrangement would really be impeded by this sub-clause, I should vote against the sub-clause. But we have gone far in sub-clause (*1*) to modify and limit any rights of transfer which may exist by law or custom in Chota Nagpur at this moment; and I think that the further step taken in sub-clause (*2*) may be approved subject to re-consideration when with fuller knowledge we again revise the law. I ask myself what grievance the transferrer or transferree would have if the landlord refused to recognise the transfer? What could the landlord do? How could he treat the transferree who has been put in possession for the short term of five years defined by sub clause (*1*)? Could he treat the transferree as a trespasser, and is there any likelihood of any hardship arising? I think that if the transferree takes care that the rent is paid to the landlord, the landlord will not be able to touch him. In this belief I agree to let the sub-clause stand, and I shall vote against the amendment."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"I entirely agree in the observations of the Hon'ble Member who spoke last. The question raised by this amendment is no doubt one of very great difficulty, but after anxious consideration I have come to the conclusion that it ought not to be accepted. Under the Bengal Tenancy Act the question whether a raiyat is entitled to transfer his holding or not depends upon whether there is a custom of transferability or not. If there is a custom he has the right, otherwise not. It has been said that by section 10B of the Act we are going to restrict the right of transfer, but I submit that this is hardly a correct view to take. This assumes that raiyats and *ijaradars* are entitled to transfer, and of course if they are so entitled, the provisions embodied in section 10B may be correctly described as a restriction on their rights. But, I take it, the truth is that raiyats are not entitled to transfer, although in some places they endeavour to do so. I take it, therefore, that the correct view of section 10B is that it accurately defines the position of the raiyat so far as the question of transfer is concerned; it lays down that he is entitled to transfer under certain circumstances, that is to say, in the first place, he is entitled to lease out his holding, provided the lease is for not more than five years, and in the second place, he is entitled to execute a *bhagut bandha* mortgage, if the period does not exceed five years. If the raiyat does either of these two things, there is no reason why the landlord, behind whose back the transfer takes place, should in any way be bound by the transaction. In fact, the question of the landlord being not bound by the transaction ought not to arise if the transferree is cautious. The question of the landlord being bound only arises if the landlord seeks to eject the transferree, and that contingency can only arise if the rent is not paid. Therefore if the rent is paid in, if the *bhagut bandha* mortgagee is careful to see tha the landlord gets his rent, the question of the transaction being binding on tht landlord will never arise. On the other hand, if he is not careful to see thae the rent is paid, the landlord is entitled to say, 'I am not bound by yourt transfer, my rent is in arrears, and I am entitled to proceed against the holding.'"

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, in reply said:—"I do not think I should take up the time of the Council by making a long reply, but I would only point out that from the Report of the Select Committee it appears that the wording of this clause has been taken from the Bengal Tenancy Act, section 88. The Select Committee say: 'We have also provided, on the analogy of section 88 of the Bengal Tenancy Act, that no transfer of a raiyat's rights shall be binding on the landlord, unless it is made with his consent in writing.' Well, that section 88 of the Bengal Tenancy Act refers only to the subdivision of the holding. It says: 'A division of a tenure or holding or distribution of the rent payable in respect thereof, shall not be binding on the landlord unless it is made with his consent in writing.' This section 10B goes a great deal beyond the Bengal Tenancy Act in putting restrictions on the raiyat in the transfer of his holding or tenures. Some of the Hon'ble Members have said what will be the effect of this section and how the transferree will be hampered and how the tenant will be hampered. It appears that this modified right of transfer is given to the tenant to enable him to raise a loan in a time of emergency, but I submit that when it is found that it is subject to the landlord's consent, the tenant or raiyat will not be able to raise the money, as no *mahájan* will give a loan and take a mortgage when he finds that it is subject to the landlord's consent. I humbly submit that this section will defeat the object of the Legislature, that object being to enable poor tenants to raise a loan on a *bhagut bandha* mortgage, limited to a period of five years. Therefore I submit that, in spite of the weight of authority being against me, I feel that it will be disastrous to allow this section to remain as it stands, as it will in effect prejudice the tenant's rights."

The Motion was then put and lost.

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, also moved that the words "or sub-section *(2)*," in sub-section *(3)* of section 10B, in clause 4 of the Bill, be struck out.

The Hon'ble MR. SLACKE said:—"I support this amendment, Sir, for it is the same as the one that stands against my name in item 19 of the List of Business."

The Motion was put and agreed to.

The Hon'ble MR. SLACKE, by leave of the Council, withdrew the following motion, of which he had given notice, namely;—

"That the words 'or sub-section (2),' in sub-section (3) of section 10B, in clause 4 of the Bill, be struck out."

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, moved that the word "criminal," in sub-section (3) of section 10B, in clause 4 of the Bill, be struck out He said:—

"I submit that although a document or deed be not stamped, it may be admissible in certain criminal cases which are set forth in the Stamp Act. If I remember rightly, although such documents are not admissible in certain Courts, they may be admissible in criminal cases. Therefore I submit that the Council should accept this amendment."

The Hon'ble Mr. SLACKE said:—"I strongly oppose this amendment. The result, Sir, of accepting the amendment in question would be to frustrate the object for which section 10B has been framed. If such transfers are to be recognised or acted upon by Criminal Courts, then it will be perfectly clear to any one who has had experience of criminal law that persons can be maintained in possession of lands beyond the periods laid down in this section. I would further add that the word now objected to was inserted in the sub-clause on the advice of Mr. F. B. Taylor, who for many years was Judicial Commissioner of Chota Nagpur, and was eventually a Judge of the High Court. For these reasons, Sir, I would ask that this amendment may be negatived."

The Hon'ble RAI TARINI PERSHAD, BAHADUR, said:—"I beg to strongly oppose the amendment of my hon'ble and learned friend. With reference to this, Sir, I beg to submit that no question of admissibility arises here. Under the Bill as it stands certain transfers shall not be recognised or acted upon.

"Clause (3) of section 10B says:—

'No transfer in contravention of sub-section (1) or sub-section (2) shall be registered, or shall in any way be acted upon by any Court, whether in the exercise of civil, criminal or revenue jurisdiction.'

"Section 33 of the Stamp Act does not touch the question of recognition of a transfer or of its being acted upon. Section 33 says:—

'(1) Every person having by law or consent of parties authority to receive evidence, and every person in charge of a public office, except an officer of police, before whom any instrument chargeable, in his opinion, with duty is produced or comes in the performance of his functions, shall, if it appears to him that such instrument is not duly stamped, impound the same

'(2) For that purpose every such person shall examine every instrument so chargeable and so produced or coming before him in order to ascertain whether it is stamped with a stamp of the value and description required by the law in force in British India when such instrument was executed or first executed:

Provided that—

(a) nothing herein contained shall be deemed to require any Magistrate or Judge of a Criminal Court to examine or impound, if he does not think fit so to do, any instrument coming before him in the course of any proceeding other than a proceeding under Chapter XII or Chapter XXXVI of the Code of Criminal Procedure, 1898; V of 1898.

(b) in the case of a Judge of a High Court, the duty of examining and impounding any instrument under this section may be delegated to such officer as the Court appoints in this behalf.

'(3) For the purposes of this section, in cases of doubt,—

(a) the Governor General in Council may determine what offices shall be deemed to be public offices; and

(b) the Local Government may determine who shall be deemed to be persons in charge of public offices.'

"This section would not allow an unstamped document to be let in evidence in proceedings of a *quasi*-civil nature under Chapters XII and XXXVI. If Criminal Courts be struck out from the category of Courts which should not recognise such transfers, it would be open to Magistrates to recognise these documents even in cases which are of a *quasi*-civil nature, and therefore it would be dangerous to allow the amendment proposed by my hon'ble and learned friend."

The Hon'ble MR. PUGH said:—"With reference to this amendment, I feel the difficulty which has occurred to the hon'ble mover. I think at the same time that the amendment will go too far, because in Criminal Courts we have not only the trial of criminal offences, but we have also cases with regard to possession, cases particularly relating to land, and it will never do to have this clause amended in this way. At the same time I would suggest to my hon'ble friend, the Member in charge of the Bill, that this section does at present go too far. Now as regards such an instrument not being recognised or acted upon by a Criminal Court, supposing the question turns upon a charge of murder, or on a charge of forgery, or on various other charges, you must recognise it, and act upon it, and rely upon it, but you need not recognise it as valid. Therefore what I would venture to suggest to the Hon'ble Member in charge of the Bill is, that you should alter the wording here by putting in after the word 'recognise' the words 'as valid,' leaving out the words 'or acted upon.' I hope that will also meet the views of my hon'ble and learned friend, the mover."

The Hon'ble MR. SLACKE said:—"I am willing to accept the amendment proposed by the Hon'ble the Advocate-General on the wording of sub-clause (*3*) of section 10B."

The Hon'ble the PRESIDENT said:—"I think that the amendment proposed by the Hon'ble the Advocate-General amounts to a substantive amendment of the clause, and that it must therefore be separately considered: the proper procedure will be to first take the decision of the Council on the amendment as put forward by the Hon'ble Maulvi Seraj-ul-Islam, Khan Bahadur"

The Motion was then put and lost.

The Hon'ble MR. PUGH, by leave of the Council, moved that in sub-section (*3*) of section 10B, in clause 4 of the Bill, the words "as valid" be substituted for the words "or acted upon."

The Hon'ble the PRESIDENT said:—"I understand that the Hon'ble Member in charge of the Bill accepts the amendment proposed by the Hon'ble the Advocate-General. Sub-clause (*3*) will then read:—

'No transfer in contravention of sub-section (*1*) or sub-section (*2*) shall be registered or shall in any way be recognised as valid by any Court, whether in the exercise of civil, criminal or revenue jurisdiction.'"

The Motion was put and agreed to.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, moved that the following be added to section 10B, in clause 4 of the Bill, namely:—

'(*5*) Nothing in this section shall affect the validity of any transfer (not otherwise invalid) of a raiyat's right in his holding or any portion thereof made *bonâ fide* before the first day of January, 1903.'

He said:—"The Bill provides for giving effect to contracts registered before the 1st of January, 1903. My amendment for a similar protection of decrees passed before that date has just been carried, and my present amendment seeks similar protection for transfers (not otherwise invalid) made *bonâ fide* before the same date. There is no reason why this should not be allowed."

The Hon'ble MR. SLACKE said:—"I would, Sir, accept this amendment."

The Motion was put and agreed to.

Clause 5.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, also moved that to section 11, in clause 5 of the Bill, the following be added, namely:—

"(3) The officer referred to in sub-section (1) may award to the landlord such sum as he thinks fit, not exceeding Rs. 25, as compensation, if in his opinion an application made by a tenant under this section is frivolous and vexatious."

He said:—"You have provided for penalties against zamindars in cases of illegal exaction and for refusal to grant receipts to tenants for payments made by them. In holding the balance evenly, you should provide for a penalty if raiyats resort to frivolous and vexatious complaints against the zamindars. A one-sided legal remedy for a legal wrong is not desirable. I submit that there should be a penalty against raiyats in such cases, and that it should be in the shape of a compensation, the maximum of which should not exceed Rs. 25. That seems to me to be a very equitable provision. Of course, there is a provision in section 182 of the Indian Penal Code, but that would be very much out of the way, and that section makes provision in respect of false informations evidently to the criminal authorities and relates to criminal matters. The Deputy Commissioner should be empowered under some provision like the one proposed, when he finds that any false or vexatious complaint has been brought by a raiyat, to fine him Rs. 2 or Rs. 5, or any sum up to Rs. 25. This would save time and trouble and expense to the parties concerned; otherwise raiyats may be induced or instigated to make false complaints, because if they succeed, well and good, and if they do not succeed, they go scot-free. I submit there is no harm in making a provision of this kind, and urge it upon the consideration of the Hon'ble Member in charge of the Bill and the other Hon'ble Members in Council."

The Hon'ble MR. SLACKE said:—"This amendment is not one I am prepared to accept. The point is one which was most carefully considered by the Select Committee, who were of opinion that the provisions of section 182 of the Indian Penal Code were quite sufficient to meet any such evil, and I am unable to see any cause to differ from this opinion. To accept this amendment would also be likely to create a scare amongst these aboriginal raiyats, which in my opinion would be injudicious. I would therefore suggest that this amendment might be rejected and that it be left to time to show whether any further safeguard is needed than that which is provided by section 182 of the Indian Penal Code. Not one single zamindar has ever thought it worthwhile to ask that a provision of this kind should be drafted into the Bill. It is clear then that the zamindars themselves do not consider that there is any necessity for a provision of this nature. Under these circumstances, I am unable to advise the Council to accept this amendment."

The Hon'ble BABU CHATURBHOOJ SAHAY said:—"When this matter was being discussed in Select Committee, I was in favour of having a provision like this put in the Bill, so that it might prove a check to evil-minded raiyats against their lodging complaints without any foundation whatever. No doubt, when the Bill was introduced, we heard that the relations between landlord and tenant there were to a certain extent strained. No wonder then that the raiyats might be putting forward frivolous complaints to harass the landlords and put them to trouble as much as possible. It might be that he would get himself exculpated or acquitted, but in the meantime he is put to trouble and annoyance and expense, and so I submit that, when this matter is being reconsidered, it would be better if this amendment were adopted."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"I am unable to accept this amendment, and for this reason. Section 11, as it now stands, is a counterpart of section 75 of the Bengal Tenancy Act, which also provides a penalty for exactions by landlords from tenants in excess of rent lawfully payable. So far as the tract of country to which the Bengal Tenancy Act is applicable is concerned, no one has ever suggested that tenants are in the habit of laying false charges for the purpose of harassing landlords, and I believe there is no

foundation for the suggestion that tenants in Chota Nagpur may take to this course. I take it that our duty is to legislate for the actual needs of the society in which we live, and not to anticipate imaginary evils and provide for them."

The Hon'ble BABU KALI PADA GHOSH said:—"If the Hon'ble Members would refer to section 11, which lays down that in certain cases of exaction raiyats 'shall be entitled to recover from the person receiving such rent damages not exceeding double the amount so exacted or paid,' they will find that this is not a new thing which has been inserted: we had it under the old law, but the old law was found inoperative as it stands. Under the old law, the raiyat in such cases was obliged to bring a suit in the Revenue Court, and he could not bring this to the notice of the Court by application, as is now provided in the present Bill. The conditions of Chota Nagpur are such that it is very likely that many vexatious cases might arise and landlords might be harassed, and certainly it might be that there is much force in the arguments in favour of the amendment, but having regard to the different local conditions, I think all those who have local experience are agreed that section 11 should be amended in the way provided for in the Bill. There are a large number of landlords who treat their raiyats exceedingly well, but there are also other classes of landlords in Chota Nagpur who are in the habit of making these extortions from raiyats, and that was considered one of the principal grounds upon which these amendments were made. It was for this reason thought highly desirable to have such a section whereby these raiyats can come to the Court without being obliged to incur the expense of a suit, and therefore we thought it necessary to amend section 11. The original section 11, as it was drafted in the Bill, came to the Select Committee with a maximum penalty of Rs. 500. That was considered too high, and the Select Committee very properly reduced it to Rs. 200. I think, having regard to the requirements of the district, section 11 should be allowed to be amended as provided in the Bill, and I cannot therefore support this amendment."

The Hon'ble MR. MACPHERSON said:—"I think, Sir, that the amendment proposed is a reasonable one, that it is fair to landlords, and that it might be useful to put this power in the hands of Revenue-officers to prevent and punish frivolous and unfounded agitation. For these reasons I shall vote for the amendment."

The Hon'ble MR. PUGH said:—"For my own part I do not think it desirable to encourage people to come forward with these claims for Rs. 25, or whatever the compensation may be. What we have in the Bengal Tenancy Act is, that a tenant in these circumstances has a right to bring a suit.

"You have a provision in the Penal Code which provides for these things. There is section 182, under which a man is liable, and I object also altogether upon principle to make a man doubly liable, under the Penal Code, to a certain penalty and under this Act to a fine of Rs. 25. Therefore upon these grounds I trust that the Council will throw out this amendment."

The Hon'ble RAI TARINI PERSHAD, BAHADUR, in reply said:—"This amendment has been opposed by several Members who, while admitting the correctness of the principle, observed that the provision sought is not urgently required. With regard to that I must say that I feel grievously embarrassed when want of necessity and want of urgency is made the ground of opposition. How can we settle the matter so far as necessity goes? I submit these are matters with regard to which provision would be necessary in Chota Nagpur as well as in other places, because, wherever there are landlords and tenants and the relations of landlords and tenants, the necessity like this would arise. We have, I submit, a provision to the effect that if a landlord extort money from the tenant in an illegal manner, he is liable to a penalty. We have a provision that if a zamindar receives rent from a tenant and does not give a receipt, he is liable to penalty. Then why should not there be a penalty for improper conduct on the part of the tenant? From what has fallen from my learned

friend on my right, who has no doubt very much better experience than myself, necessity like this exists. It is simply a matter of common sense. The person exercising this power will always be a competent officer, and he will not exercise this power until he finds it necessary. Unless there is a check like this, much harm will be done. The Hon'ble Dr. Asutosh Mukhopadhyaya says that complaints have not come to him: he has not heard of complaints like this from zamindars. I say with great submission and great respect that such an argument would be very much like an argument in a circle. We have to judge upon facts, and we already know the conditions of the country that we have to deal with, and in these circumstances I submit that a provision like this is necessary."

The Motion was then put and lost.

Clause 6.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA moved that in sub-section (*1*) of section 12, in clause 6 of the Bill, after the word "rent" the words "or interest due thereon" be inserted. He said:—

"This is a very small amendment, and it obviously brings section 12 into line with section 11. The first paragraph of section 11 says:—

'A landlord who, except under any special enactment for the time being in force, levies from a tenant any money in excess of the rent legally payable with interest thereon or any *rakumats* or predial services, to which he is not legally entitled, shall, on application to the tenant, be liable.'

"Section 12 says:—

'Every tenant who makes a payment on account of rent to his landlord shall be entitled to obtain forthwith from the landlord or his agent a receipt signed for the same in a form prescribed by the Local Government from time to time by notification in the Calcutta Gazette.'

"Therefore I submit that the words 'or interest due thereon' ought to be inserted."

The Hon'ble MR. SLACKE said:—"I would, Sir, accept this amendment."

The Hon'ble RAI TARINI PERSHAD, BAHADUR, by way of amendment, moved that the words "or both" be inserted after the word "thereon in the above motion." He said:—

"I would support the amendment, but I think there ought to be the words 'or both' added after 'thereon,' so that it would run in this way: 'Every tenant who makes a payment on account of rent or interest thereon or both, etc.' There are many cases in which rent is paid and principal is paid, or there may be cases in which only interest is paid, and again there may be cases in which both are paid."

The Hon'ble DR ASUTOSH MUKHOPADHYAYA said:—"I am quite willing to accept the suggestion."

The Motion was then put in the amended form and carried.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA also moved that in clause (*a*) of sub-section (*4*) of section 12, in clause 6 of the Bill, for the words "for rent paid by the tenant" the words "as aforesaid" be substituted. He said:—

"This is a purely verbal amendment necessitated by the amendment which has just been carried."

The Hon'ble MR. SLACKE said:—"I have no objection to offer."

The Motion was put and agreed to.

Clause 7.

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, moved that the following be added at the end of clause 7 (3) of the Bill, namely:—

'or (c) when the tenant entertains a *bonâ fide* doubt as to who is entitled to receive the rent.'

He said:—"The reason for this amendment is that this proviso finds a place in the Bengal Tenancy Act, section 61, from which it is taken. Clause (a) says that when an under-tenant, raiyat or Mundari khunt-kattidar who is bound to pay money on account of rent has reason to believe, owing to a tender having been refused, or a receipt withheld on a previous occasion, that the person to whom his rent is payable will not be willing to receive it or to grant him a receipt for it, he may deposit the money. The next clause is with reference to the case where rent is payable to co-sharers jointly. These are the two cases in which he is allowed to deposit the rent. Now in section 61 of the Bengal Tenancy Act there are four clauses, namely:—

'(a) when a tenant tenders money on account of rent and the landlord refuses to receive it or refuses to grant a receipt for it;

(b) when a tenant bound to pay money on account of rent has reason to believe, owing to a tender having been refused or a receipt withheld on a previous occasion, that the person to whom his rent is payable will not be willing to receive it and to grant him a receipt for it;

(c) when the rent is payable to co-sharers jointly, and the tenant is unable to obtain the joint receipt of the co-sharers for the money, and no person has been empowered to receive the rent on their behalf; or

(d) when the tenant entertains a *bonâ fide* doubt as to who is entitled to receive the rent.'

"Of these clauses, (a), (b) and (c) are covered by section 13, clause 7, sub-clause (3) (a) and (b), of the Bill, but (d) is omitted. I submit that (d) ought to be embodied and inserted after clause (b) of section 13 (3). My reason is that this Bill recognises the right of intervenors. Where a zamindar brings a suit for rent, an intervenor may claim that rent, and a tenant may be in doubt as to whether the rent should be paid to *A* or *B*. Therefore I submit that where a tenant has a *bonâ fide* doubt as to whom he should pay the rent to, he ought to be given the option of depositing the money."

The Hon'ble MR. SLACKE said:—"I am, Sir, unwilling to accept this amendment, since to do so would be violating the principle that guided the Select Committee in dealing with the provisions of the Bill. Nothing exists to show that there is any necessity for accepting this amendment, and should any such fact hereafter arise, it can be promptly dealt with by the issue of a notification extending to Chota Nagpur the appropriate sub-clause of the Bengal Tenancy Act."

The Hon'ble RAI TARINI PERSHAD, BAHADUR, said:—"My hon'ble learned friend has no doubt the Bengal Tenancy Act, in justification of the amendment moved by him. But my experience has shown me that in cases of doubtful title, where several persons claim the same right, a deposit by the raiyat always proves infructuous. No doubt he finds different claimants claiming rent from him. He does not know, it is true, who is the party entitled to rent from him. But who is the judge in the question? The tenant is certainly not expected to be so. It is not easy for him to decide. It is a matter for *a forum*. If he deposits his rent in Court on the grounds of *bonâ fide* doubt as to who is entitled to receive the rent, the Court in which the rent is deposited is unable to pay to anybody until the question of title is settled in a Court of Justice. I must, however, notice that there is another ground of justification of my hon'ble friends movement. It is this. If the raiyat deposit the rent, he can tell the claimants he has already deposited the rent due by him in Court, which might in some cases save him from the botheration of demands by the claimants. But if we weigh the *pros* and *cons*, the scale of reasonableness will preponderate rather in favour of the Bill as it stands than in favour of the amendment moved. I therefore cannot support the amendment."

The Motion was then put and lost.

Clause 9.

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, by leave of the Council, withdrew the following motion of which he had given notice, namely:—

"That to clause 9 of the Bill the following be added, namely:—

'In the same section, after the word "rent" the words "(other than the amount deposited)" shall be inserted.'

Clause 10.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA moved that to clause 10 of the Bill the following be added, namely:—

'In section 17 of the said Act, after the word "rent" the words "or interest thereon" shall be inserted'

He said:—"I need not repeat the reasons urged by me in support of my amendment No. 23 on the list, which has been already carried. They apply equally to this amendment."

The Hon'ble MR. SLACKE said:—"I would, Sir, accept this amendment."

The Motion was put and agreed to.

New clause.

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, moved that the following be inserted after clause 10 of the Bill, namely:—

'10A. (*1*) Before the proviso to section 24 of the said Act the following shall be inserted, namely:—

"Provided that if the Deputy Commissioner, when passing a decree for enhancement, considers that the immediate enforcement of the decree in its full extent would be attended with hardship to the under-tenant or raiyat, he may direct that the enhancement shall be gradual, that is to say, that the rent shall increase yearly by degrees for any number of years not exceeding five until the limit of the enhancement decreed has been reached."

'(*2*) After the word "Provided," in the same section, the word "also" shall be inserted.'

He said:—"I submit that this would be for the benefit of the tenant. This has been taken *verbatim* from section 36 of the Bengal Tenancy Act, and I submit that it would be for the benefit of the tenant if such a power were given to the Deputy Commissioner who could, in certain circumstances, direct that there should be a gradual enhancement instead of granting the enhancement at once."

The Hon'ble MR. SLACKE said:—"For two reasons, Sir, I am not in favour of accepting this amendment. In the first place, it deals with the subject of the enhancement of rent. Admittedly the Act is defective with regard to the safeguards relating to enhancement; but, as I have already pointed out, we cannot, owing to the lack of the requisite data, say what these safeguards should be. *Secondly*, the section of the Act in which the learned and hon'ble Member would wish to include this amendment does, as it stands, enable the Deputy Commissioner to provide for the very object which the Hon'ble Member contemplates by his amendment, for it says that the Deputy Commissioner 'may otherwise alter or vary the rent for such land as to him may seem fair and reasonable.'

"That being so, it seems to me unwise to tamper with the question of enhancement when confessedly we are not in possession of the requisite data. For these reasons I would ask the Council to reject the amendment."

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, in reply said:—"I do not think the law, as it stands, covers a case like that. The present section 24 no doubt gives the Deputy Commissioner wide discretionary power to fix whatever rent he thinks fair and reasonable, but I submit that this does

not give power to direct that the enhancement should be gradual. Of course, if the Hon'ble Members think that the law, as it stands, covers the case, I do not think it necessary to go on with this."

The Motion was then put and lost.

Clause 11 (section 28B).

The Hon'ble BABU KALI PADA GHOSH moved that the words "or the holding of an under-raiyat having occupancy rights," and the words "or the holding of an under-raiyat not having occupancy rights," in section 28B (*1*) in clause 11 of the Bill, be struck out. He said:—

"The expression 'under-raiyat' is to be found nowhere in this Act, nor is it defined in the Act. Section 28B has been copied from the Bengal Tenancy Act, and is a mere reproduction of section 113 of that Act. Of course the section of the Bengal Tenancy Act contains these two expressions, but in this Act this expression will have no meaning and may lead to complications. Therefore, I submit, their retention is not desirable, and they may be struck out."

The Hon'ble MR. SLACKE said:—"I have nothing to urge against this amendment."

The Motion was put and agreed to.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, by leave of the Council, withdrew the following motion of which he had given notice, namely:—

"That the words 'or the holding of an under-raiyat having occupancy rights,' in section 28B (*1*), in clause 11 of the Bill, be struck out.

In doing so, he said:—"I beg leave to withdraw this amendment, as it is fully covered by the amendment which has just been moved and carried."

The Hon'ble RAI TARINI PERSHAD, BAHADUR, by leave of the Council, also withdrew the following motion of which he had given notice, namely:—

"That at the end of sub-section (*2*) of section 28B, in clause 11 of the Bill, the following be added, namely:—

'or from the date of the final decision in any suit, or of any order in any other proceeding, referred to in section 28A, altering the said record-of-rights'

In doing so, he said:—"I will not press this amendment. I have had the benefit of a discussion with the Hon'ble Member in charge of the Bill, and I have in consequence decided to withdraw it. I accordingly ask permission to withdraw this amendment."

New clause.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA, by leave of the Council, withdrew the following motion of which he had given notice, namely:—

"That after clause 11 of the Bill, the following be inserted, namely:—

'11A. In section 29 of the said Act, after the word "raiyat," in both places in which it occurs, the words "or Mundari khunt-kattidar" shall be inserted.'

In doing so, he said:—"The Hon'ble Member in charge of the Bill has satisfied me that this amendment, as well as the one which stands in my name and is No 35 on the agenda, that in section 32A, in clause 14 of the Bill, after the word 'raiyat' the words 'or Mundari khunt-kattidar' be inserted, are not required, and therefore I withdraw them."

Clause 13.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, moved that in section 31, in clause 13 of the Bill, the words "or *Sambat*" be inserted after the word "Bengali." He said:—

"This is simply a verbal amendment, and it is necessary. So far as I know, there should be no discussion about this matter, as it is identical with an amendment, moved by the Hon'ble Member in charge of the Bill."

The Hon'ble MR. SLACKE said:—"This amendment, Sir, is the same as the one standing against my name in the next item of business, and I would therefore accept it."

The Motion was put and agreed to.

The Hon'ble MR. SLACKE, by leave of the Council, withdrew the following motion of which he had given notice, namely:—

"That in section 31, in clause 13 of the Bill, the words 'or *Sambat*' be inserted after the word 'Bengali.'"

Clause 14.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA, by leave of the Council, withdrew the following motion of which he had given notice, namely:—

"That in section 32A, in clause 14 of the Bill, after the word 'raiyat' the words 'or Mundari khunt-khattidar' be inserted."

Clause 16.

The Hon'ble MR. SLACKE moved that in section 34 (*4*), in clause 16 of the Bill, after the word "paid" the words "or tendered" be inserted. He said:—

"The object of this amendment is to prevent a transferree being harassed by his landlord. If the words in question be not added, it will be open to a landlord to refuse to accept payment of the fee, and thereby to restrain the transferree from bringing any rent suit. This power is clearly not one which should be given the landlord, and I would therefore ask that this amendment may be adopted."

The Motion was put and agreed to.

The Hon'ble MR. SLACKE said:—"It is now, Sir, for me to move that after section 34 (*4*), in clause 16 of the Bill, the following be inserted, namely:—

'(*4a*) In the case of any such transfer made after the commencement of the Chota Nagpur Tenancy (Amendment) Act, 1903, if a longer period than one year has elapsed between the date of the transfer and the date of the application for the registration thereof, the transferree or his successor in title shall not be entitled to recover as aforesaid any rent payable as aforesaid for any period longer than one year.

'(*4b*) In the case of any such transfer made before the commencement of the Chota Nagpur Tenancy (Amendment) Act, 1903, if an application for the registration thereof be not made within one year from such commencement, and if a longer period than one year has elapsed between such commencement and the date of the application for registration, the transferree or his successor in title shall not be entitled to recover as aforesaid any rent payable as aforesaid for any period longer than one year.'

"But I have to-day had the advantage of learning the opinion of the Hon'ble Dr. Asutosh Mukhopadhyaya on this amendment, and in lieu of my own wording I would beg to be allowed to substitute the following, which has been drafted by the learned and Hon'ble Member and which embodies the principle I have in view more strongly than what my own draft does, namely:—

'That for sub-section (*4*) of section 34, in clause 16 of the Bill, the following be substituted, namely:—

"(*4*) Every application for the registration of a transfer under sub-section (*1*) must be made, in the case of a transfer which occurred before the commencement of the Chota Nagpur Tenancy (Amendment) Act, 1903, within one year from such commencement, and, in the case of a transfer occurring after such commencement, within one year from the date of the transfer.

"(*4a*) If application for the registration of any transfer of a tenure or portion thereof is not made, and the registration-fee paid or tendered, as hereinbefore prescribed, the transferee or his successor in title shall not be entitled to recover, by suit or other proceeding, any rent payable to him as the holder of the tenure or portion which may have accrued due between the date of the transfer and the date of the application for registration."'

"The object of section 34 (*4*) is to put pressure on transferrees to register their transfers in the *sarishta* of the landlord, by enacting that as long as such registration is not applied for and the requisite fee not tendered, the transferree can bring no rent suit against his tenants. I have never been satisfied with regard to the efficacy of this provision. In the Land Registration Act we know that in spite of the fines which can be inflicted on proprietors of estates for non-registration of transfers, the provisions of that Act are constantly neglected. It is impossible for me to suggest that a landlord should be allowed to fine a transferree of a tenure for neglecting to register the transfer in his *sarishta*, and I have been considering what addition could be made to this sub-clause with a view to strengthen the pressure which it is designed should be brought to bear on the transferree to register the transfer. Obviously, inability to sue the raiyat for arrears of rent is very weak. In a very large number of instances the relations between the transferree and his tenants are harmonious, and consequently no need to sue them would arise. Under such circumstances, it would be useless for the superior landlord to tell the transferree's tenants not to pay, as the transfer not having been registered, they would not be sued. The result would be that the transferree would apply for registration and tender his fee, and bring the requisite suits. Then the tenants would discover that their refusal to pay had resulted in their having to meet the costs of the suits, and that they were at their own expense fighting the superior landlord's battle. Lately it was suggested to me that if provision was made to prevent the transferree recovering by suit any amount of rent that had accrued to him for the period between the date of transfer and the date of application for registration in excess of one year's demand, then transferrees would quickly register their transfers in the zamindar's *sarishta*. This suggestion appeared to me to provide for the want I felt, and it has therefore been embodied in the present amendment."

The Hon'ble the PRESIDENT said :—"As I understand the Hon'ble Member in charge of the Bill, the amendment as it stands in the list of agenda is withdrawn, and he desires in its place to move the following :—

'(*4*) Every application for the registration of a transfer under sub-section (*1*) must be made, in the case of a transfer which occurred before the commencement of the Chota Nagpur Tenancy (Amendment) Act, 1903, within one year from such commencement, and, in the case of a transfer occurring after such commencement, within one year from the date of the transfer.

'(*4a*) If application for the registration of any transfer of a tenure or portion thereof is not made, and the registration-fee paid or tendered, as hereinbefore prescribed, the transferree or his successor in title shall not be entitled to recover, by suit or other proceeding, any rent payable to him as the holder of the tenure or portion which may have accrued due between the date of the transfer and the date of the application for registration.'"

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"I entirely agree with the observations which have fallen from the Hon'ble Member in charge of the Bill; but, with reference to this amended amendment, I may be permitted to point out that if only a slight verbal change is made, it will be possible for us not only to omit (*4a*) and (*4b*), but also to omit the whole of paragraph 4 itself."

The Hon'ble the PRESIDENT said:—"As this is an important amendment and has been sprung upon the Council without time for consideration, I think the best course will be to leave the consideration of this amendment till the end of the day."

The consideration of the revised amendment was postponed till later in the day.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, moved that in sub-section (*5*) of section 34, in clause 16 of the Bill, the following be inserted before the existing sub-clause (*i*), namely :—

'to affect the validity of a transfer of any tenure or portion thereof when the name of the transferree or his successor in title has not been registered in the *sarishta* of the zamindar or superior tenant, or the aforesaid registration-fee has not been paid, if such

transfer has been recognized by the zamindar or superior tenant by instituting a suit for the recovery of rent due in respect of the tenure or portion, or if the transfer has taken place in execution of a decree for arrears of rent due in respect of the tenure or portion.'

He said:—"When a landlord sues a transferree for rent, though he has not been registered and has not paid the landlord's fee, he virtually admits his position, which admission amounts to a definite recognition of the transfer. The transferree is brought into the same position when the landlord himself brings the property transferred to sale in execution of his own decree for rent. There may be a small question for consideration in this connection. The section under consideration deals with the right of the transferree to recover rents from his tenants, and not with the question of the validity or otherwise of the transfer. Therefore I submit that there ought to be a provision in the law to the effect that if the landlord himself has brought a suit against the transferree for arrears of rent, or if a transfer has taken place at the instance of the superior landlord in execution of a decree for arrears of rent, no objection to the validity of a transfer like this could be taken only upon the ground that it has not been registered, and only upon the ground that the landlord's fee has not been paid. The landlord can always enforce his claim. Under these circumstances, I think the amendment ought to be accepted. Of course there may be a little difference as regards the wording, and if any Hon'ble Member would prefer to say that instead of the words 'to affect the validity of a transfer' the words 'to affect the right of a transferree to recover rent' be substituted, I have no objection. Perhaps my amendment would meet with approval if altered in this way."

The Hon'ble MR. SLACKE said:—"I am not prepared, Sir, to accept this amendment. I am unable to see any need for it or to recognise that it meets any existing want, nor can I see why such persons should be exempted from paying the registration-fee due to the superior landlord."

The Hon'ble BABU KALI PADA GHOSH said:—"I regret I cannot support this amendment, which as it stands presupposes that a landlord, having brought a rent suit against a transferree or having put the tenure to sale and the purchaser having purchased the tenure, admits the transfer, and therefore it is not necessary that this class of transferrees should register their names in the landlord's *sarishta* under the new law. I beg to submit that section 34 deals with a particular class of tenures in Chota Nagpur, which are called *jágir* tenures, and the circumstances of these tenures are quite different from permanent tenures in Bengal. The purchaser of these tenures was under the old law obliged to register his name in the *sarishta* of the superior landlord, and I would refer my hon'ble and learned friend to section 35 of the old Act which has been repealed by the present Bill. Section 35 ran thus:—

'The provisions of the last preceding section shall also be applicable to the sale of such under-tenures as are mentioned in section 123, and to the sale of the right and title of any person under section 124.'

"This practically means that the purchasers in sales held under sections 123 and 124 of the Act now being amended were under the necessity of registering their names in the *sarishta* of the superior landlord, and the mere fact that the superior landlord put the property to sale did not exonerate them from registration. So, if we accept my hon'ble friend's amendment, it will have this effect—that the transfers which took place by execution sale before the commencement of the new Act will not be registered in the *sarishta* of the superior landlord, and section 35 of the Act would be made nugatory to that extent."

The Hon'ble MR. PUGH said:—"I would venture to appeal to the hon'ble mover to relieve the Council from further discussing this amendment by withdrawing it. If a man sues the transferree, it is perfectly impossible that he should say afterwards, 'I question the transfer to him,' and if this amendment is at all necessary, then it will follow that a man might sue the transferree first, and then afterwards take objection to the validity of the transfer. I do not think such a thing can ever happen."

The Hon'ble RAI TARINI PERSHAD, BAHADUR, in reply said:—"The High Court has held that the moment a suit is brought for recovery of arrears of rent against a transferree, the suit itself amounts to a recognition of the title of the transferree. However, if there be any difficulty in the acceptance of this amendment, I leave it there."

The Hon'ble the PRESIDENT said:—"As the amendment has not been withdrawn, it will be put to the Council."

The Motion was then put and lost.

Clause 18.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA moved that in clause 18 (2) of the Bill for the words "or other person in actual possession of the tenure" the words "or his successor in title" be substituted. He said:—

"I need not give any reason for this amendment other than the one that the words which I propose to substitute better express the meaning than the words in the section."

The Hon'ble MR. SLACKE said:—"I would, Sir, accept this amendment."

The Motion was put and agreed to.

The Hon'ble BABU KALI PADA GHOSH, by leave of the Council, withdrew the following motion of which he had given notice, namely:—

"That in clause 18 (2) of the Bill for the words 'or other person in actual possession of the tenure' the words 'or his successor in title' be substituted."

In doing so, he said:—"I beg, Sir, to withdraw this amendment, which is identical with the one just accepted."

Clause 19.

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, moved that in clause (a) of section 36A, in clause 19 of the Bill, for the words "lease of" the words "interest in" be substituted. He said:—

"This clause has been taken from the Sale Law (Act XI of 1859), section 37, clause (4), and the words 'any lease of land' have been the subject of many decisions of the High Court, and the object of the Legislature appears to be to protect from ejectment persons who hold land on which a 'dwelling-house, manufactory or other permanent building has been erected' and so on. I may remind the Council that the Sale Law entirely sets aside and frees purchasers from encumbrances except in these cases. I submit that these words 'interest in' should be substituted for 'lease of.'"

The Hon'ble MR. SLACKE said:—"I am, Sir, unable to adopt this amendment. The point is one which was very carefully considered by the Select Committee, the legal members of which, among whom was the learned Advocate-General, were unanimously of opinion that no such alteration as the one now proposed was required."

The Hon'ble RAI TARINI PERSHAD, BAHADUR, said:—"I regret that I have to oppose this amendment. There seems to be a little difference here as regards conveyancing. So far back as 1859, we find that this word was adopted in the Revenue Sale Law, and my hon'ble and learned friend says we should use the words 'interest in' in preference to the words 'lease of.' I submit that the word 'lease,' which means nothing more or less than the letting of land, is more appropriate and at the same time more comprehensive than the word 'interest.' We also find that the word 'lease' has been in fact recognised and accepted and approved ever since it was brought into the Revenue Sale Act (XI of 1859). I do not see any reason for making this particular alteration which has been suggested."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"I feel bound to oppose this amendment, as the word 'lease' is a well understood legal expression. Apart from that, the words 'any interest in land' will have a much wider meaning than the words 'any lease of land.' For instance, if my hon'ble friend's amendment is accepted, protection will be extended to mortgages if only within the mortgaged premises there is a dwelling-house. I submit that in such instances we shall be going much further than the Revenue Law or the Bengal Tenancy Act, and I do not think any case has been made out for such extension."

The Hon'ble BABU KALI PADA GHOSH said:—"I also oppose the amendment on the ground put forward by my hon'ble friend."

The Motion was then put and lost.

Clause 20.

The Hon'ble MR SLACKE moved that in clause 20 of the Bill, for the words "or on account of the refusal of receipts for rent paid," the following be substituted, namely:—

'on account of the illegal exaction of rent or of any unauthorised cess or impost, or on account of the refusal of receipts for rent paid, or,'

He said:—"The reason for this is the same as that which induced the Select Committee to suggest that from this very clause, *viz.*, (*2*) of section 37 of the Act, should be omitted the words 'or on account of the refusal of receipts for rent paid.' The Bill in the section to be substituted for section 11 of the existing Act provides a new remedy, apart from that by suit, for the prevention of illegal exaction of rent. It is not desirable, therefore, that the remedy by suit, which exists in the present Act, should be retained. In the first place, two remedies are not required, and, in the second place, for an aboriginal, a remedy by suit is practically no remedy at all."

The Hon'ble BABU CHATURBHOOJ SAHAY said:—"I would, Sir, support this amendment."

The Hon'ble RAI TARINI PERSHAD, BAHADUR, said:—"I would also support this amendment, because the next amendment which stands in my name is identical with this."

The Motion was then put and carried.

The Hon'ble MR. SLACKE also moved that the following be added to clause 20 of the Bill, namely:—

'After the words "extortion of rent," in the same clause, the words "or interest thereon" shall be inserted.'

He said:—"This, Sir, is a consequential amendment and should be accepted, since the amendment against Item No. 23 in the List of Business has been adopted."

The Motion was put and agreed to.

The Hon'ble MR. SLACKE also moved that the following be added to clause 20 of the Bill, namely:—

'After clause (*5*) of the same section, the following shall be inserted, namely:—

"(*5a*) all suits to eject a raiyat on account of the use of land comprised in his holding in a manner which renders it unfit for the purposes of the tenancy."'

He said:—"Clause 14 of the Bill provides for the insertion in the Act of a section which renders liable to ejectment a raiyat who uses the land of his holding in a manner which renders it unfit for the purposes of the tenancy. Unless the amendment I have just proposed be adopted, there will be no means available to the landlord for enforcing this penalty."

The Hon'ble RAI TARINI PERSHAD, BAHADUR, said:—"I support this amendment with pleasure, because it will relieve me from the necessity of moving an amendment on precisely the same lines, which stands against my name."

The Motion was then put and carried.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, by leave of the Council, withdrew the following motion of which he had given notice, namely:—

"That the following be added to clause 20 of the Bill, namely:—

'At the end of clause (5) of the same section the following shall be added, namely.—

"or on account of the use of the land by a raiyat in a manner which renders it unfit for the purposes of the tenancy."'

New clause.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, by leave of the Council, also withdrew the following motion of which he had given notice, namely:—

"That the following be inserted in the Bill, namely:—

'20A. In section 38 of the said Act, after the word "suit" the words "or other proceeding" shall be inserted.'

In doing so, he said:—"Having had the advantage of a consultation with the Hon'ble Member in charge of the Bill, I have come to the conclusion that I should withdraw this amendment.'

Clause 22.

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, moved that sub-clause (b) in clause 22 of the Bill be struck out. He said:—

"The proviso to section 44, as it stands, runs as follows: 'Provided that if the suit be for recovery of rent at a higher rate than was payable in the previous year, such rent not having been enhanced by the Deputy Commissioner under this Act, the suit shall be instituted within three months from the end of the Bengali or Sambat year, or the month of Jeth of the Fasli or the Wilayati year, on account of which such enhanced rent is claimed.' The application referred to here is an application under section 155 of the Bill, which gives the zamindar the right of realising rent under the certificate procedure. That right is an extraordinary right which is not given anywhere else, but is given here to landlords; but that right is to be exercised in cases where the rent is fixed, where the rent has been found by the Settlement Officer and recorded as rent for which there is no dispute. But here this section, if it is allowed to stand, would permit of a certificate procedure application being made for recovery of rent at a higher rate. I submit that it was never intended by the Legislature that the certificate procedure should be resorted to for realising at an enhanced rate, and therefore I trust this amendment will be accepted."

The Hon'ble MR. SLACKE said:—"I am unable, Sir, to accept the amendment. The retention of the words objected to is necessary in view of the procedure that has been devised in the Bill for the realisation of arrears of rent from the holders of Mundari khunt-kattidari tenures for which a survey and record-of-rights has been made, and were for this purpose so inserted by the Select Committee."

The Hon'ble RAI TARINI PERSHAD, BAHADUR, said:—"I beg to say, Sir, that the amendment moved by my hon'ble and learned friend is necessary, and I say so for the reasons put forward by him."

The Motion was then put and lost.

Clause 26.

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, also moved that the following be added to clause 26 of the Bill, namely:—

'The words "and satisfies the Deputy Commissioner that there has been a failure of justice," in the same section, are repealed.'

He said:—"On a reference to section 66 of the Act you find that this section provides that when a suit is decreed *ex-parte* the defendant may within 30 days apply for a rehearing of the appeal on the ground that summons was not served him, and if he can show sufficient cause for non-appearance, then the Court restores the case. But here a condition is attached, and that condition is, that he must show sufficient cause for his previous non-appearance and satisfy the Deputy Commissioner that there has been a failure of justice. That means that the applicant will have to go into the merits of the case and satisfy the Deputy Commissioner that there has been a failure of justice. The first thing that he has to do is to satisfy the Deputy Commissioner if there is sufficient reason for non-appearance, and he must go into the merits of the case to show that there has been a failure of justice. In no Civil Court is it necessary that the parties should go into the merits of the case. If he cannot give sufficient reasons his application is dismissed, and if he satisfies the Court, then a day is fixed and the parties are allowed to go on with the case. I submit that the words 'and satisfies the Deputy Commissioner that there has been a failure of justice' should be struck off."

The Hon'ble MR. SLACKE said:—"The words, Sir, which the learned and Hon'ble Member would wish to strike out are part of the existing law and have been in force for 25 years. Nothing has been alleged to show that they in any way are objectionable in practice or have led to any hardship, and that being so, acting on the principle adopted by the Select Committee, I am averse to the acceptance of this amendment."

The Hon'ble BABU KALI PADA GHOSH said:—"I submit that there has not been much practical difficulty on this point, and I do not therefore consider it a question of great urgency. On that ground I do not support the amendment."

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, in reply said:—"The reasons urged against this amendment are not very forcible, namely, that these words have found a place in the Act for fifteen years and that no inconvenience has resulted. These are not sufficient reasons for not striking these words out. My hon'ble friend on my right says there is no urgency, but if he agrees with me on principle that these words should not be there, I do not see what harm there would be in deleting these words. I submit that the want of urgency is no reason for allowing a provision to remain which is decidedly objectionable."

The Motion was then put and lost.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, moved that the following be inserted in clause 26 of the Bill, namely:—

'For the first paragraph of section 66 of the said Act the following shall be substituted, namely:—

"No appeal shall lie from a judgment against a plaintiff by default for non-appearance; but an appeal shall lie from a judgment passed *ex-parte* against a defendant who has not appeared, if presented within thirty days from the date of the judgment.'

'In the second paragraph of the same section, for the words "But in all such cases" the words "In all cases referred to in the first paragraph of this section" shall be substituted.'

He said:—"An appeal should be allowed against judgment passed *ex-parte*. The Bill does not allow it. The predecessors of the present Code of Civil Procedure did not allow such appeal, but the necessity for it was at last found and such appeal was allowed. This provision in the Civil Procedure Code works well. The remedy to people against whom judgments *ex-parte* are passed find in an appeal a much simpler remedy than otherwise. This would show ample justification for the amendment I move."

The Hon'ble MR. SLACKE said:—"Nothing, Sir, has been shown by the learned and Hon'ble Member of this amendment which can lead anyone to think that the change suggested is one urgently required, and on that ground I would ask that this amendment may not be accepted."

The Hon'ble BABU KALI PADA GHOSH said:—"I sympathise with the object of this amendment, but the scope of this Bill is limited. I understand that unless a matter is very urgent, it cannot be inserted in the present Bill. In this matter it cannot be said that there is any such practical difficulty, and therefore it would be better if it was allowed to stand over till some future time. I cannot support the amendment."

The Motion was then put and lost.

Clause 27.

The Hon'ble BABU KALI PADA GHOSH moved that after sub-clause (*1*) in clause 27 of the Bill the following be inserted, namely:—

'(*2*) In the same paragraph, after the words "is subordinate" the words "or by any other person whom the Deputy Commissioner may deem fit" shall be inserted.

'(*3*) In the second paragraph of the same section, after the word "officer" the words "or other person" shall be inserted.'

He said:—"This is only a simple change. Section 82 of the old Act provides for local inquiries and lays down that such local inquiries can only be made by the Deputy Commissioner himself or by any officer subordinate to him or by any other officer of Government with the consent of the authority to whom such officer is subordinate. This causes great practical difficulty, because Government officers are not always available for such inquiries, and it is highly necessary that persons other than Government officers should be deputed for such inquiries, and that the Deputy Commissioner should have power to depute such persons."

The Hon'ble MR. SLACKE said:—"I would, Sir, support this amendment."

The Motion was put and agreed to.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, by leave of the Council withdrew the following motion of which he had given notice, namely:—

"That after sub-clause (*1*) in clause 27 of the Bill the following be inserted, namely:—

'(*2*) In the same paragraph, after the words "is subordinate," the words "or by any competent person other than an officer of Government" shall be inserted'

In doing so, he said—"The amendment just carried is identical with the one I was to have moved, so I beg leave to withdraw it."

Clause 29.

The Hon'ble MR. SLACKE moved that the words "to be recorded in writing" be inserted after the words "for special reasons" in clause 29 (*4*) of the Bill." He said.—

"As the clause now stands, the Court may for special reasons extend the period of 30 days mentioned in this section. It can be easily imagined that some Courts may not put their reasons down on paper, and since it is obviously necessary that this should be done for the purpose of removing any doubt on the subject, I propose that these words 'to be recorded in writing' be inserted after the words 'for special reasons.'"

The Hon'ble BABU CHATURBHOOJ SAHAY said:—"I support this amendment."

The Motion was put and agreed to.

New Clauses.

THE Hon'ble RAI TARINI PERSHAD, BAHADUR, moved that after clause 29 of the Bill the following be inserted, namely:—

'29A. After section 94 of the said Act the following shall be inserted, namely:—

"94A. The following rules shall apply in the case of every raiyat ejected from a holding, namely:—

Rights of raiyat when ejected from holding.

(a) when the raiyat has, before the date of his ejectment, sown or planted crops in any land comprised in the holding, he shall be entitled, at the option of the landlord, either to retain possession of that land and to use it for the purpose of tending and gathering in the crops, or to receive from the landlord the value of the crops, as estimated by the Court executing the decree for ejectment,

(b) when the raiyat has, before the date of his ejectment, prepared for sowing any land comprised in his holding, but has not sown or planted crops in that land, he shall be entitled to receive from the landlord the value of the labour and capital expended by him in so preparing the land, as estimated by the Court executing the decree for ejectment, together with reasonable interest on that value,

(c) a raiyat shall not be entitled to retain possession of any land or receive any sum in respect thereof under this section where, after the commencement of proceedings by the landlord for his ejectment, he has cultivated or prepared the land contrary to local usage;

(d) if the landlord elects under this section to allow a raiyat to retain possession of the land, the raiyat shall pay to the landlord, for the use and occupation of the land during the period for which he is allowed to retain possession of the same, such rent as the Court executing the decree for ejectment may deem reasonable."'

He said:—"In moving this amendment I observed that in all matters of new legislation *necessity is the touchstone.* Act X of 1859 and Bengal Act VIII of 1869 had no provision like the one in section 156 of the Bengal Tenancy Act, owing to which, after delivery of possession to landlords of the holdings of raiyats after their ejectment, serious litigation ensued, ending sometimes in breaches of the peace. To obviate such and similar difficulties, the provisions I am seeking became law, forming part of the Bengal Tenancy Act. This provision should be made in the Bill under consideration."

The Hon'ble MR. SLACKE said:—"For two reasons this amendment is not one that I can support. In the first place, there is nothing to show that it deals with a matter that requires an immediate remedy and, *secondly*, the proposal is not one that should be provided for by substantive law, but by rules having the force of law When the necessity arises for the need of any such rules, the Government already possesses the power to make them."

The Hon'ble BABU KALI PADA GHOSH said:—"This amendment is based upon the interlinked section of the Bengal Tenancy Act, and I should say that no one would be more glad than myself to have this section of the Bengal Tenancy Act, but I was told that we must wait for it till the consolidating Bill is before the Council, and that in the present Bill we can only have such amendments as are urgently necessary. Although I agree with the principle of the amendment, I cannot see the urgency of it. I cannot, therefore, support the amendment."

The Motion was then put and lost.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA, by leave of the Council withdrew the following motion of which he had given notice, namely:—

"That after clause 29 of the Bill the following be inserted namely:—

'29A In section 98 of the said Act, after the word "Act," the words "and to all applications under section 155" shall be inserted.'

In doing so, he said:—"I have been assured by my hon'ble friend to my left that if this amendment is accepted it will cause great hardship to raiyats, and therefore, I do not think I should be justified in pressing it."

The Hon'ble BABU KALI PADA GHOSH moved that after clause 29 of the Bill the following be inserted, namely:—

'29A. For section 105 of the said Act the following shall be substituted, namely:—

"105. No process of execution of any description whatsoever shall be issued on any decree or order passed under this Act unless an application be made within three years from—

Application for execution to be made within three years.

(a) the date of the decree or order, or

(b) where there has been an appeal, the date of the final decree or order of the Appellate Court, or

(c) where there has been a review of judgment, the date of the decision passed on the review."'

He said:—"My amendment is connected with section 105 of the Act, which lays down the period of limitation with regard to execution matters. I submit, Your Honour, that this section is not happily worded. It says: 'No process of execution of any description whatsoever shall be issued on a judgment under this Act unless an application be made within three years from the date of such judgment.' I am not aware of any law, in this or any other country, under which an 'execution on judgment' is taken out. The usual expression is 'execution of decree': this is the expression which occurs in the Civil Procedure Code, the Bengal Tenancy Act, and in all other Acts. To bring this section in conformity with the law in other parts of the country, I submit that the word 'judgment' be struck out and the words 'decree or order' be substituted. Practically we do little more than to make the section conform with the Bengal Tenancy Act on the subject. By this Bill we have given a higher right of appeal. Previously there was no right of appeal after execution proceedings. This Bill provides for that, and it is very desirable that the section should be made to conform with this. Even where appeal is allowed, execution should be taken out within three years of the final decree."

The Hon'ble MR. SLACKE said:—"I would, Sir, ask that this amendment may be accepted."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"I support the amendment, but I have to point out that although we are amending section 105 by this amendment, it will not affect section 103 and other sections in which, I believe, the same expressions are to be found."

The Hon'ble RAI TARINI PERSHAD, BAHADUR, said:—"I agree to this amendment, subject to the restriction proposed."

The Hon'ble the PRESIDENT said:—"I think we may take it as a part of your substantive motion that wherever the word 'judgment' occurs in this connection, the words 'decree or order' should be substituted, that is to say, if the amendment is carried."

The Hon'ble BABU KALI PADA GHOSH said:—"Yes, Your Honour."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA then, by leave of the Council, moved that, in sections 103 and 104 of Bengal Act I of 1879, where process of execution is mentioned as being issued upon a "judgment," the words "decree or order" should be substituted for the word "judgment."

Both Motions were put and carried.

Clause 34.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, moved that sub-section (1) of section 130A, in clause 34 of the Bill, be altered as follows, namely:—

"130A. (1) When a tenure or holding has been sold for an arrear of rent due thereon or when any other immoveable property has been sold under section 129, any person who owns the tenure or holding or the said immoveable property, or who has an interest therein under a title lawfully acquired before the sale, may, at any time within a period of thirty days from the date of the sale, apply to have the sale set aside on his depositing in Court—

Application to set aside sale of tenure, holding or other immoveable property.

(a) for payment to the purchaser, a sum equal to five *per centum* of the purchase-money, and

(b) for payment to the decree-holder, the amount specified in the proclamation of sale as that for the recovery of which the sale was ordered, less any amount which may, since the date of such proclamation and sale, have been received by the decree-holder.'

He said:—"The provisions made in section 130A, sub-section (1), ought to include a remedy to the judgment-debtors whose other immoveable property under section 129 have been sold. There is no reason why they should be left without remedy."

The Hon'ble MR. SLACKE said:—"This amendment, Sir, might be accepted."

The Motion was put and agreed to.

Clause 37.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, also moved that in clause 37 (1) of the Bill the words "section 119, section 120 or section 130" be substituted for the words "section 119 or section 120." He said:—

"The principle underlying orders under section 119 and section 120 stand on all-fours with the principle on which an order under section 130 is based. The inquiry under all these sections is of a similar character. Therefore an order under section 130 should not be made appealable to the Commissioner."

The Hon'ble MR. SLACKE said:—"I have nothing to say against this amendment."

The Hon'ble BABU KALI PADA GHOSH said:—"I have great pleasure in supporting this amendment."

The Motion was put and agreed to.

New clauses.

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, moved that after clause 38 of the Bill the following be inserted, namely:—

'38A. In section 137 of the said Act, after the word "thereto" the words "or a question of a right to enhance or vary the rent of a tenant or a question of the amount of rent annually payable by a tenant," shall be inserted.'

He said:—"This is a very important amendment if I might say so, because if the object of the Legislature is to give a right of appeal, then unless his condition is improved, there will be no appeal. These words are taken from section 153 of the Bengal Tenancy Act. I may appeal to my hon'ble friends here that the only sort of case that comes up for appeal is when there is a dispute about the enhancement or varying of rent. There are few cases where there are questions of detail between the conflicting parties. If these words are not added, there will practically be no appeal. Therefore, I submit, these words which are to be found in section 153 of the Bengal Tenancy Act should be added."

The Hon'ble MR. SLACKE said:—"I am averse to this amendment, Sir, on the ground that to accept it will be contrary to the principle which guided the Select Committee, inasmuch as there is nothing to show that the proposal meets an existing urgent need."

The Hon'ble MR. PUGH said:—"I should support this amendment supposing it was with reference to a province like Bengal, but what we have to consider is that Chota Nagpur is not suited for this kind of legislation, and I think it would be better for the circumstances of Chota Nagpur if these questions arising between landlord and tenant were not subject to appeal. That was the conclusion we arrived at in Select Committee, and that I think is the right conclusion, having regard to the circumstances of Chota Nagpur."

The Motion was then put and lost.

Clause 16.

The Hon'ble the PRESIDENT said:—"The Council will remember that Item No. 37 on the List of Business was postponed for further consideration till the end of the day, when the Hon'ble Dr. Asutosh Mukhopadhyaya suggested an amendment which would have the effect of obviating the necessity of the amendment of the Hon'ble Member in charge of the Bill. The Hon'ble Member in charge of the Bill and the Hon'ble the Advocate-General have considered the wording of the suggested amendment, and I understand that the Hon'ble MR. Slacke is now prepared to bring forward an amendment to the following effect:—

'(4) Every application for the registration of a transfer under sub-section (1) must be made, in the case of a transfer which occurred before the commencement of the Chota Nagpur Tenancy (Amendment) Act, 1903, within one year from such commencement, and, in the case of a transfer occurring after such commencement, within one year from the date of the transfer.

'(4a) If application for the registration of any transfer of a tenure or portion thereof is not made, and the registration fee paid or tendered, as hereinbefore prescribed, the transferee or his successor in title shall not be entitled to recover, by suit or other proceeding, any rent payable to him as the holder of the tenure or portion which may have accrued due between the date of the transfer and the date of the application for registration.' "

The Hon'ble MR. SLACKE said:—"I am willing, Sir, to accept the amendment as now altered by the Hon'ble DR. Asutosh Mukhopadhyaya. It will take the place of the existing sub-clause (4) in the section."

The Hon'ble BABU KALI PADA GHOSH said:—"I understand that sub-clause (4) will go out. It is understood that this will be substituted for the entire amendment which is down in the name of the Hon'ble Mr. Slacke."

The Hon'ble DR ASUTOSH MUKHOPADHYAYA said:—"I take it that it will take the place of sub-clauses (4a) and (4b)."

The Hon'ble the PRESIDENT said:—"That being so, sub-clauses (4) and (4a) will now stand as follows:—

'(4) Every application for the registration of a transfer under sub-section (1) must be made, in the case of a transfer which occurred before the commencement of the Chota Nagpur Tenancy (Amendment) Act, 1903, within one year from such commencement, and, in the case of a transfer occurring after such commencement, within one year from the date of the transfer.

'(4a) If application for the registration of any transfer of a tenure or portion thereof is not made, and the registration-fee paid or tendered, as hereinbefore prescribed, the transferee or his successor in title shall not be entitled to recover, by suit or other proceeding, any rent payable to him as the holder of the tenure or portion which may have accrued due between the date of the transfer and the date of the application for registration.'

"These sub-clauses will take the place of sub-clauses (4), (4a) and (4b) of the Hon'ble Mr. Slacke's amendment."

The Motion was put and agreed to.

Clause 39.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, by leave of the Council, withdrew the following motion of which he had given notice, namely:—

"That in clause 39 of the Bill after the word 'decree' the words 'or order' be inserted."

The Hon'ble BABU KALI PADA GHOSH moved that after clause 38 of the Bill the following be inserted, namely:—

'38A. Section 138 of the said Act is repealed.'

He said:—"I think it would be better if this item was considered after item 60, which stands in my name, is disposed of."

The Motion was allowed to stand over as requested.

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, moved that after clause 38 of the Bill the following be inserted, namely:—

'38B. At the end of section 138 of the said Act the words "or upon any other sufficient ground" shall be added.'

He said:—"This amendment will simply give the Deputy Commissioner wide discretionary powers for granting a review. Here the grounds upon which a review may be admitted are limited: they are limited only to the ground of the discovery of some new evidence or matter. What I propose is to give wider discretionary power to the Deputy Commissioner to re-hear cases where injustice has been done, or for other reason. These words are also to be found in section 623 of the Civil Procedure Code. I submit it will be for the ends of justice if the amendment is accepted."

The Hon'ble MR. SLACKE said:—"I would suggest, Sir, subject to the consent of the Hon'ble Mover, that this amendment may be considered after Item No. 57 in the List of Business has been disposed of, because, if that amendment be accepted, this one must necessarily be abandoned."

The Motion was allowed to stand over as requested.

New clauses.

The Hon'ble BABU KALI PADA GHOSH moved that after clause 40 of the Bill the following be inserted, namely:—

'40A. After section 145 of the said Act the following shall be inserted, namely:—

"145A. (1) The provisions of section 561 of the Code of Civil Procedure shall, so far as applicable, apply to all appeals under this Act.

Application of certain provisions of the Code of Civil Procedure.

"(2) The provisions of the Code of Civil Procedure relating to the amendment of plaints, the amendment of decrees, the substitution of parties, and review of judgment shall, so far as they are not inconsistent with this Act, apply to all suits and proceedings under this Act."'

He said:—"The object of the amendment is to introduce some of the provisions of the Civil Procedure Code. In moving this amendment, I do not lose sight of the fact that the present Bill is limited to very urgent matters. The procedure of the Chota Nagpur Rent Act is very defective. Great practical difficulty is experienced in working out the procedure law, and in this connection I would simply read a passage from the report of the Deputy Commissioner of Hazaribagh. He reports in connection with the Bill:—

'I may mention that I have had it argued before me that a Court cannot review its own judgment or order, and in a case when I appointed a Receiver, the legality of my action was called in question.'

"I am aware that several suits in the Ranchi Courts have been dismissed on the ground that there is no provision in the law for the substitution of parties after death. This will surprise men who are accustomed to law in other parts of the country. I have, therefore, confined my amendment to this very urgent matter. By the present Bill a second appeal to the High Court is allowed in certain cases, but our Act does not provide for what we call technically 'cross appeals:' that is, when an appeal is filed by one of the parties, the respondent has also a right to appeal on certain portions of the lower Court's judgment. Section 561 provides for this, but great difficulty is experienced, as some of the Judicial Commissioners have held that under the existing law there is no right of cross-appeal. Then there are some other things which I pray for, namely, that the provisions of the Civil Procedure Code relating to the amendment of plaints, the amendment of decrees, the substitution of parties and review of judgment, so far as they are not inconsistent with this Act. These are very necessary matters. There is at present no provision in the Act, and the Courts have refused to correct the patent errors We shall have great practical difficulty unless this remedy is given. Therefore I submit that the Council should consent to this amendment."

The Hon'ble MR. SLACKE said:—"I am, Sir, wholly in favour of this amendment, which will remedy existing grievances and get rid of certain hardships."

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, said:—"I have much pleasure in supporting this amendment. I have only to point out that it might be as well to add the word 'appeals' after the word "suits" in the above section 145A (2)."

The Hon'ble BABU KALI PADA GHOSH said:—"I accept the suggestion."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"I have much pleasure in supporting this amendment, as it covers to some extent the same ground as an amendment which stands in my name. I would suggest that not only the word 'appeals' but also the words 'and addition' be inserted after the word "substitution" in the said section."

The Hon'ble BABU KALI PADA GHOSH said:—"I accept the addition."

The Motion was then put in its amended form and carried.

The Hon'ble BABU KALI PADA GHOSH moved that after clause 38 of the Bill the following be inserted, namely:—

'38A. Section 138 of the said Act is repealed'

He said:—"There can be no objection to this being carried, because it follows as a sequence. Section 138 provides for review in one case only; and as we have got the general section for review, there is no necessity for this section. The whole covers a part."

The Hon'ble MR. SLACKE said:—"I agree to the proposal of the Hon'ble Mover of the amendment. Item No. 60 having been adopted, it is no longer necessary to retain this section."

The Motion was put and agreed to.

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, by leave of the Council, withdrew the following motion of which he had given notice, namely:—

"That after clause 38 of the Bill the following be inserted, namely:—

'38B. At the end of section 138 of the said Act the words "or upon any other sufficient ground" shall be added'

In doing so, he said:—"The last two amendments being carried, it is not necessary for my amendment to be put. This is covered by item No. 60."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA, by leave of the Council, withdrew the following motion of which he had given notice, namely:—

"That after clause 40 of the Bill the following be inserted, namely:—

'40A. After section 145 of the said Act, the following shall be inserted, namely:—

"145A. The provisions of sections 206, 373, 374, 375 and 561, and Chapter XLVII of the Code of Civil Procedure shall apply to suits and appeals under this Act."'

Clause 41 (section 151).

The Hon'ble MR. SLACKE moved that the words "such persons" be substituted for the words "such kattidars" in section 151, in clause 41 of the Bill. He said:—

"My reason for this is that the word 'kattidars' is meaningless. Khunt-kattidars would have been the appropriate word, but to prevent repetition, the word 'persons' will be sufficient here."

The Motion was put and agreed to.

Clause 41 (section 152).

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA moved that the words "when granted in respect of land of a village or tola of a village owned by a group of joint Mundari khunt-kattidars," in sub-section (4) of section 152, in clause 41 of the Bill, be struck out.

"Section 152, clause (4), reads in this way:—

'No lease of a Mundari khunt-kattidars tenancy or any portion thereof shall be valid except a lease of one or other of the following kinds, when granted in respect of land of a village or tola of a village owned by a group of joint Mundari khunt-kattidars, namely:—

'(a) mukarrari leases of uncultivated land when granted to a Mundari or a group of Mundaris for the purpose of enabling the lessees or the male members of their families to bring suitable portions of the land under cultivation;

'(b) leases of uncultivated land when granted to a Mundari cultivator to enable him to cultivate the land as a raiyat.'

"Two kinds of leases are here described; the words which I have mentioned, if left in, will lead to the inference that if there is a village not owned by a group of Mundari khunt-kattidars, no lease whatever in such a village can be valid; but as that could never have been intended, I propose that these words be left out."

The Hon'ble MR. SLACKE said:—"I would, Sir, accept this amendment."

The Hon'ble BABU KALI PADA GHOSH said:—"I beg to support the amendment. Unless these words are struck out, very great difficulty will arise, because the section, as it stands, does not provide for power to lease in cases of what we call the individual khunt-kattidars. It is not intended that they should be deprived of the right of giving leases."

The Motion was then put and agreed to.

The Hon'ble BABU KALI PADA GHOSH, by leave of the Council, withdrew the following motion of which he had given notice, namely:—

"That the words 'when granted in respect of land of a village or tola of a village owned by a group of joint Mundari khunt kattidars,' in sub-section (4) of section 152, in clause 41 of the Bill, be struck out."

In doing so, he said:—"This item is identical with the one that has just been carried."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA moved that to sub-section (4) of section 152, in clause 41 of the Bill, the following be added, namely:—

'(c) raiyati leases of cultivated land which is part of a village or tola of a village not owned by a group of joint Mundari khunt-kattidars;

'(d) raiyati leases of cultivated land in a village owned by a group of joint Mundari khunt-kattidars, when such land is not in the occupation of the group or any member thereof and the lease is granted to a Mundari or a group of Mundari raiyats.'

He said:—"I believe the Hon'ble Member in charge of the Bill is quite in agreement with the principle which underlies the Bill, but he seems to think that the addition is not necessary. I shall therefore explain to the Council the grounds upon which I venture to think that the additional clauses are necessary. Clause (4) of section 152 deals with the validity of leases of khunt-kattidari tenures. Clauses (a) and (b) both deal with the case of leases of uncultivated lands. Clause (a) speaks of the *mukarrari* lease of uncultivated land when granted to a Mundari or group of Mundaris for the purpose of enabling the lessees or the male members of their families to bring suitable portions of the land under cultivation. Clause (b) deals with the case of leases of uncultivated lands when granted to a Mundari cultivator to enable him to cultivate the land as a raiyat. No provision therefore is apparently made for leases of cultivated lands. By cultivated lands I mean lands which have been brought under cultivation, but which are not in actual occupation of tenants.

For instance, take the class of cases in which a tenant has brought a jungle into cultivation and then subsequently abandons it. That will not be such land as that covered by clauses (*a*) and (*b*). My hon'ble friend the Member in charge of the Bill says that that land may properly be described as uncultivated land, because it is not for the time being cultivated by any body. I submit that uncultivated land properly means land that has never been cultivated; if a land has once been brought under cultivation, and the tenant has simply vacated his holding, it cannot be said that it is uncultivated land. At least that is the way that people understand it."

The Hon'ble MR. SLACKE said:—"The Hon'ble Dr. Asutosh Mukhopadhyaya has given fully the reason which has led me to refuse my support to this amendment, because I hold that the clause, as it stands, provides for this case. You have only three classes of land—cultivated land, uncultivated land and unculturable land. There can be no other kind of land. If a holding is cultivated, it is cultivated land; if it is not under cultivation, it is uncultivated land. Therefore this meets the whole case. If the Council are not of that opinion, then I think that clause (*c*) of the amendment will require a little alteration so as to make it quite clear that this class of leases cannot be granted to anybody but a Mundari. Otherwise you will let in the *baniyas*, and thereby work a great deal of evil to Mundari khunt-kattidars. I would suggest that the amendment should not be accepted, because the clause, as it stands, amply meets all classes of holdings."

The Hon'ble MR GUPTA said:—"I do not know whether it would meet the objection of my hon'ble and learned friend Dr. Asutosh Mukhopadhyaya if from the second clause (*b*) the word 'uncultivated' is taken out and the clause made to run thus: '(*b*) leases of land, when granted to a Mundari cultivator to enable him to cultivate the land as a raiyat?'"

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"Omit the word 'uncultivated' in both clauses (*a*) and (*b*)."

The Hon'ble Mr. SLACKE said:—"I would not omit it, because it would give facilities to some members of the brotherhood to damage the interests of their weaker brethren. Uncultivated lands are lands in nobody's possession."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"The whole difficulty may be avoided if we adopt the words 'land which has been brought under cultivation but which is not at the time cultivated.'"

The Hon'ble MR. SLACKE said:—"I am perfectly willing to adopt that."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"If you adopt that, I am quite willing to withdraw my amendment."

The Hon'ble the PRESIDENT said:—"The Hon'ble Member desires to withdraw his amendment as it stands at present and substitute the following, namely:—

"That the following be inserted after sub-section (*4*) of section 152, in clause 41 of the Bill, namely:—

'*Explanation.*—The expression "uncultivated land," as used in this sub-section, includes land which, though formerly cultivated, is not at the time the lease is granted either under cultivation or in the occupation of the lessee for purposes of cultivation.'"

The Motion was put and agreed to.

The Hon'ble BABU KALI PADA GHOSH moved that to sub-section (*4*) of section 152, in clause 41 of the Bill, the following be added, namely:—

'(*c*) raiyati leases of cultivated land.'

He said:—"It strikes me that there may be cases which might make it necessary to add this clause to section 152 (4). What I mean is that clause (4) of section 152 which has been amended will certainly cover the cases of joint Mundari khunt-kattidari tenancies, but there will be what we call Mundari khunt-kattidari tenancies which may be held by one individual Mundari, such as the ordinary *jaigirdar* of Chota Nagpur. In those cases the raiyats who cultivate the villages are not all Mundari raiyats; they are people such as Swasis, and many other castes. I think we ought to have the power the amendment gives. Section 152, as it stands, says: 'No lease of a Mundari khunt-kattidari tenancy or any portion shall be valid' The whole village is Mundari khunt-kattidari tenancy, but no portion of land from there may come under this sub-clause (4), even if that land is in the possession of a non-Mundari raiyat. So I do not think clause (4) of section 152 will cover such a case, but I say so subject to correction by the Hon'ble Member in charge of the Bill. If section 152 covers such cases, I will withdraw my amendment, but if it does not, I hope the matter will be carefully considered, because there are many villages in Chota Nagpur in which there are a very large portion of non-Mundari raiyats. I submit that the clause proposed by me should be inserted in the Bill, because, unless the meaning is very, very clear, much practical difficulty will be experienced."

The Hon'ble MR. SLACKE said:—"I am unable to accept the amendment. Everything that has come to our notice shews that there is great danger in a non-Mundari having anything to do permanently with land in a Mundari khunt-kattidari tenancy. I submit that there is no hardship or difficulty at present, but if in the future anything should transpire to shew that there is such hardship, it can be remedied when we again deal with this matter in a few years."

The Hon'ble BABU KALI PADA GHOSH in reply said:—"On hearing what the Hon'ble Member in charge of the Bill has stated, I desire to withdraw this amendment."

The Motion was then, by leave of the Council, withdrawn.

The Hon'ble MR. SLACKE moved that at the end of section 152, in clause 41 of the Bill, the following be added, namely:—

'(7) Nothing in the foregoing sub-sections shall affect any sale, or, except as declared in the proviso to sub-section (1), any mortgage, or any lease, made before the commencement of the Chota Nagpur Tenancy (Amendment) Act, 1903.'

He said:—"This is merely a protective amendment designed to protect rights that have already accrued, and therefore will, I trust, be approved by the Council."

The Hon'ble BABU KALI PADA GHOSH said:—"I have pleasure in supporting this amendment. In sections 10A and 10B some such provision has been made, and it is therefore necessary that this amendment should be put in under section 152. This provision regarding Mundari khunt-katti dari being a new insertion in the Bill, it might cause some misapprehension in the minds of people, and it is therefore very desirable that the matter should be as clear as possible."

The Hon'ble BABU CHATURBHOOJ SAHAY said:—"I support this amendment because it is in keeping with the transfer of occupancy holdings and other transfers. So the principle which underlies this amendment has already been recognised by us in the foregoing part of the Bill."

The Motion was then put and carried.

Clause 41 (section 153).

The Hon'ble BABU KALI PADA GHOSH moved that in section 153, in clause 41 of the Bill, before the words "no suit" the words "if the tenancy was, before such possession was obtained, entered as a Mundari khunt-kattidari tenancy in a

record-of-rights finally published under section 103A, sub-section (2), of the Bengal Tenancy Act, 1885," be inserted. He said:—

"I submit that this insertion is absolutely necessary, and for these reasons: section 153 provides that:—

'If any person, after the commencement of the Chota Nagpur Tenancy (Amendment) Act, 1903, obtains possession of a Mundari khunt-kuttidari tenancy, or any portion thereof, in contravention of the provisions of section 152, the Deputy Commissioner may eject him therefrom; and no suit shall be maintainable in any Court in respect of such ejectment; but an appeal shall lie to the Commissioner, if presented within three months from the date of the ejectment, and his decision shall be final.'

"This ejectment will certainly be in a summary procedure. What I submit is that before the publication of the record-of-rights there will be nothing to shew what tenancy is a Mundari khunt-kattidari tenancy, and a man might not know that he was dealing with a Mundari khunt-kattidari tenancy, and he might purchase such a tenancy, and then if he is summarily ejected by the Deputy Commissioner, and if no right by a civil suit is given, it will be a very great hardship. After the preparation and publication of the record-of-rights there will be a safe guide for people to know what is a Mundari khunt-kattidari tenancy, and that one should not therefore deal with it, and that if he does so it will be at his own risk. I submit that before the preparation and publication of the record-of-rights there should certainly be the power to contest the summary order for ejectment by a civil suit, and that in this particular case it is absolutely necessary, otherwise this section will lead to great hardship."

The Hon'ble Mr. SLACKE said:—"I am, Sir, in favour of this amendment. If the provisions of the section were not so curtailed, a Deputy Commissioner could put the section into operation with regard to a tenancy for which no record-of-rights had been prepared. In such a case the objection would certainly be made that the tenancy was not a Mundari khunt kattidari one, and this should not be decided summarily."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"I support this amendment, as it is identical with my amendment No. 69 on the List of Business."

The Motion was then put and carried.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA, by leave of the Council, withdrew the following motion of which he had given notice, namely:—

"That in section 153, in clause 41 of the Bill, before the words 'no suit' the words 'if the tenancy is recorded as a Mundari khunt-kattidari tenancy in a record-of-rights finally published under section 103A, sub-section (2), of the Bengal Tenancy Act, 1885,' be inserted.'

Clause 41 (section 154).

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA, by leave of the Council, withdrew the following motions of which he had given notice, namely:—

"(1) That to section 154, in clause 41 of the Bill, the following be added, namely:—

'(4) The provisions of sections 27 and 28 relating to the abatement of rent shall be applicable to Mundari khunt-kattidari tenancies.'"

"(2) That in the marginal note to section 154, in clause 41 of the Bill, after the word 'enhancement' the words 'or abatement' be inserted."

"(3) That to section 154, in clause 41 of the Bill, the following be added, namely:—

'(5) When the rent of a Mundari khunt-kattidari tenancy is entered in a record-of-rights as finally published under section 103A, sub-section (2) of the Bengal Tenancy Act, 1885, then, notwithstanding anything contained in the foregoing sub-sections,

'such rent shall not, except on the ground of a landlord's improvement or of a subsequent alteration in the area of the tenancy, be enhanced for five years,

'and no such rent shall be reduced within the period aforesaid, save on the ground of alteration in the area of the tenancy or on the ground that the soil of the tenancy has, without the fault of the Mundari khunt-kattidar, become permanently deteriorated by a deposit of sand or other specific cause, sudden or gradual.

'(6) The said period of five years shall be counted from the date of the final publication of the said record-of-rights.'"

Clause 41 (section 155).

The Hon'ble MR. SLACKE moved that after the words "*per annum*" in section 155 (*1*), in clause 41 of the Bill, the following be inserted, namely:—

'or, in the case of money recoverable under the Cess Act, 1880, with simple interest at twelve and-a-half *per centum per annum*.'

He said:—"The object of this amendment is to prevent anomaly, for unless it is accepted, the landlord would be unable to obtain the amount of interest which, under the Cess Act, he would be entitled to, and which, but for the present Bill as it stands, he would obtain."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"I have much pleasure in supporting this amendment."

The Motion was then put and carried.

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, moved that after the figures "33" in sub-section (*4*) of section 155, in clause 41 of the Bill, the following be inserted, namely:—

'and, when any standing crops are sold in execution of a certificate made under this section, the provisions of section 21 of the said Public Demands Recovery Act, 18?5, shall also be applicable as if such crops were immoveable property.'

He said:—"I may remind the Council that standing crops under the present Act are not immoveable property. Under section 21 of the Public Demands Recovery Act, a debtor has a right to deposit the money within thirty days to have the attachment on his immoveable property set aside. That right is not given under this section. I submit it will be a very great hardship if this right is not given to the tenants here. I submit this right should be granted and this section put in in conformity with section 21 of the Public Demands Recovery Act."

The Hon'ble MR SLACKE said:—"I am given to understand that standing crops when attached are not sold until after they have been converted into moveable property, that is to say after being cut. They are reaped and threshed, and then they are sold. That is what I have been given to understand is the practice in Chota Nagpur; therefore, there is no object in adopting this amendment. I have, however, nothing to urge against the amendment, save that as there is no practical difficulty felt in Chota Nagpur, I do not see any necessity for it."

The Hon'ble BABU KALI PADA GHOSH said:—"They are not sold when they are standing in the field, but after they are cut. I submit that there is hardly any necessity for this provision. Even supposing they are sold when they are standing in the field, it may not be practicable to apply the provision to set aside the sale, because by the time the attachment is set aside the crops may be destroyed or damaged. I do not really see how this amendment will have any beneficial effect. I see no reason for the acceptance of this amendment."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"I am unable to support this amendment. I cannot believe that my hon'ble friend has foreseen what the consequence will be. He assumes that these crops are sold as standing crops, and he says that the judgment-debtor should be allowed thirty days to deposit the amount for which attachment is taken, so that the judgment-creditor will be bound to allow the standing crops to remain standing for thirty days. I submit that there would be great risk in that. If they cannot be reaped when necessary, they may be damaged or destroyed, and if the judgment-debtor is allowed to gather in his crops, I do not know what the effect may be."

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, in reply, said:—"I did not quite follow the reasoning of my hon'ble and learned friends who contend that the creditor has every right to cause the sale of these standing crops. I do not know what the practice is in Chota Nagpur, but if standing crop is moveable property, the creditor has every right to attach and sell it. Now what is the effect of that? Supposing a tenant has got some standing crops worth Rs. 100 we will say. The judgment-creditor can attach and sell it, and it may fetch only Rs. 10, the amount for which attachment is taken, and the creditor become the purchaser. The debtor should have the right to deposit the Rs. 10 within thirty days and release his standing crops, otherwise the result will be that the whole of the crops will be taken away. Then my hon'ble and learned friend sees a difficulty about letting the crops stand for thirty days. It is not that they must stand thirty days: he has to pay in the money within thirty days: he can pay it in the next day or the day after or in one week. I submit that you have changed the definition of the words 'standing crops' and made them moveable property, and I consider it nothing but fair and just to give them this privilege."

The Motion was then put and lost.

The Hon'ble MR. SLACKE moved that in proviso (*a*) to section 155 (*4*), in clause 41 of the Bill, for the words "two or all" the words "two or more" be substituted.

He said:—"By this clause four means for realising his dues are given the landlord. But as the clause is now worded, the landlord could ask to have one or two, or all, but not three of these means put into force. The amendment is therefore designed to enable the landlord to utilise any or all of the means provided and to remove the restriction I have alluded to."

The Motion was put and agreed to.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA moved that in sub-clause (*iii*) of section 155 (*4*), in clause 41 of the Bill, the following amendments be made, namely:—

(*1*) *for* the words "a cultivator" *substitute* the words "such third person;"

(*2*) *for* the words "arrear accrued" *substitute* the words "certificate has been made;" and

(*3*) *strike out* the words "and that the judgment-debtor has other moveable property or assets from which the sum due can be realised."

He said:—"If clause (*3*) of the proviso is amended in the way I suggest, it will practically assume a shape in which it will be acceptable to my hon'ble friend to my left, who proposes to add sub-clause (*4*), and the whole question between us is whether clause (*3*) is to stand, and there should be an additional fourth sub-clause identical with my amendment, or whether clause (*3*) is to be amended as I suggest, and there need not be a fourth sub-clause.

"I would appeal to the Hon'ble Member in charge of the Bill, and submit that clause (*3*), as it stands, can have no possible application at all, and that if the clause is added, as suggested by my hon'ble friend, we shall have left in clause (*3*) which means nothing and cannot apply to any concrete case. I submit that clause (*3*) ought to be amended, and it is unnecessary to have clause (*4*)."

After a short conference with the Hon'ble Member in charge of the Bill, the Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"I beg leave to withdraw my amendment."

The Motion was then, by leave of the Council, withdrawn.

The Hon'ble BABU KALI PADA GHOSH moved that after sub-clause (*iii*) of section 155 (*4*), in clause 41 of the Bill, the following be inserted, namely:—

'(*iv*) an objection, by such third person, that the land on which such crops were or are standing is entered in the record-of-rights as being in the possession of himself or of some person from whom he has lawfully acquired possession, and that such land does not form part of the tenancy in respect of which the certificate was made.'

Impérieuse rock—Buoy marking the rock placed to the north-eastward.

WITH reference to Notice to Mariners No. 273, dated 14th August 1903, issued by this office, the British Admiralty has given further notice (No. 614 of 1903) that the rock situated three-quarters of a cable north-eastward of Impérieuse rock has been marked by a black conical buoy, surmounted by staff and ball, moored in a depth of 6½ fathoms a quarter of a cable eastward of the rock, with Cornwallis stone bearing N. 64° E., distant 3¼ cables Vessels should pass to the eastward of this buoy.

Approximate position, lat. 24° 26′ N, long. 118° 4¾′ E

The previous information received and published in the last of the abovementioned Notices that this buoy marked the Impérieuse rock is therefore erroneous.

Notice is also given that a pinnacle rock, with a depth of 15 feet over it at low water, exists about 50 yards north-eastward of Impérieuse rock, situated with Cornwallis stone bearing N. 67° E., distant 4 cables.

Guam island—Banks to the south-westward.

The British Admiralty has given notice (No. 622 of 1903) that the following banks were found by Lieutenant F. H. Schofield, commanding U.S.S. *Supply*, when searching for Galvez and Santa Rosa reefs, to the south-westward of Guam island:—

(1) A bank, about $2\frac{1}{4}$ miles long in an easterly and westerly direction, and $1\frac{1}{2}$ miles broad, with depths of from 23 to 40 fathoms over it, the centre being approximately lat. 12° 58′ N., long. 144° 22′ E.

(2) A bank of small extent, with depths of from 22 to 32 fathoms over it, in approximately lat. 13° 2′ N., long. 144° 26′ E.

(3) A bank, extending about $1\frac{3}{4}$ miles in a northerly and southerly direction, with depths of from 28 to 46 fathoms over it, in approximately lat. 13° 4′ N., long 144° 25′ E.

AUSTRALIA—Torres strait, western approaches

Proudfoot shoal light ship removed.

The Portmaster, Brisbane, has given notice (No. 7 of 1903) that on and after 31st January 1904, the light exhibited from the Lightship at Proudfoot Shoal, Western Approach to Torres Strait, will be discontinued, and the Lightship will be withdrawn.

The shoal patch of $1\frac{1}{2}$ fathoms marked P.D. on charts south-easterly from the Lightship is believed to be identical with the Bramble Patches. There is no evidence to the contrary, the report of its existence being extremely vague.

Masters of vessels approaching Torres Strait from the westward are recommended to get on the parallel of 10 degrees 45 minutes south before reaching the 20-fathom contour, and continue on that parallel until Booby Island is visible bearing north-easterly, then to steer to pass 2 miles to the north of the Island and thence continue as hitherto.

Vessels bound to the westward after passing Booby Island are recommended to steer south-west magnetic 16 miles, then to steer west half south until a safe direction can be made for their destined port.

NOTE.—Booby Island is visible a distance of 14 or 15 miles; the light (a second order) is visible 17 to 19 miles by night from an ordinary ship's bridge.

Port Adelaide river—Alterations consequent on Light's Passage Harbour Works, being in progress.

THE President, Marine Board, Port Adelaide, has given notice (No. 4 of 1903) that in consequence of the Light's Passage Harbour Works being now in progress, the following alterations will be made on or about the 20th August next :—

No. 1 Leading Beacon and No. 2 Light Beacon will be removed altogether.

In lieu thereof two Beacons showing Green Lights will be placed on the North Bank, one near the present Reflecting Beacon and the other opposite the present No. 1 White Light.

Two Light Beacons (both red) will be placed on the North Bank, which, when in line, will lead through the Cutting to the Bend.

Two Beacons, having White Lights, will be placed on the South Bank, which, when in line, will show the Bend in the Channel.

Sailing Directions.—To enter the River pass the Occulting Buoy at a distance of about 50 feet, and steer between the White Light on a Pile abreast of the old Lighthouse and the first Green Light, which is placed between the Reflecting Beacon and the Cutting, on a N.E. by E. course, passing the second Green Light at a similar distance until the New Lead on the North Bank (now No 1 Lead) comes in line. Keep them in line until the two lights on the South Bank are in line, then steer for No. 3 as before.

Batticaloa—Red buoy marking "Kandalla" rock not in position.

THE Master Attendant, Batticaloa, has given notice, dated 24th July 1903, that the Red Buoy at the Batticaloa Bar marking the Kandalla Rock will not be in position for some time, being under repair.

Hiro sima approach—Beacon constructing and provisional light at Nishinogoban sho.

THE British Admiralty has given notice (No. 597 of 1903) that a beacon from which it is intended to exhibit a light is now in course of construction on a 2½ fathoms patch, named Nishinogoban sho, situated about 14 cables S. 45° W. from the south-western point of Kurahasi sima, in the approach to Hiro sima.

Approximate position, lat. 34° 4′ N., long. 132° 26½′ E.

During the construction of the beacon a provisional *red fixed* light, elevated 15 feet above high water, will be exhibited on a pole near the base of the projected beacon. This light will be unwatched and therefore unreliable.

(Variation 4° Westerly in 1903.)

Further Notice will be given when the beacon is completed and the light established.

RESOLUTION REVIEWING THE COMMISSIONERS' REPORTS ON THE WORKING OF THE PURI LODGING-HOUSE ACT DURING THE YEAR 1902-1903.

MUNICIPAL DEPARTMENT—MUNICIPAL.

Darjeeling, the 28th August 1903.

RESOLUTION—No 3028T—M

READ—

The Reports from the Commissioners of Divisions on the working of the Puri Lodging-house Act, IV (B.C.) of 1871, as amended by Acts II (B.C.) of 1879 and I (B.C.) of 1884, during the year 1902-1903 in the various places to which it has been extended.

Read also—

The Resolution reviewing the Commissioners' Reports on the working of the Act during the year 1901-1902.

THE Puri Lodging-house Act (Bengal Act IV of 1871), as amended by Bengal Acts II of 1879 and I of 1884, was in force during the year under review in the same towns and areas as in the preceding year, with the exception of Ulubaria, in the Burdwan Division, from which the provisions of the

Act were withdrawn towards the close of the year. The provisions of the Municipal Act have since been extended to this town.

2. There were 3,038 lodging-houses licensed, with accommodation for 72,426 lodgers, the numbers in the previous year having been 1,912 and 68,500, respectively. There are considerable fluctuations from year to year owing to particular occasions being more or less auspicious, or to special reasons, such as the occurrence of plague during the last two years at Deoghur; but apart from such variations there is also a steady progressive change attributable to the extension of the railway system, which is causing a transformation of the conditions under which pilgrimages are performed. Owing to the railways the halting-places *en route* are now less frequented by pilgrims than they used to be, and this has led to the closing of the lodging-houses in Ulubaria, and to a falling off in the income at all the places in the Burdwan Division at which the Act is in force. On the other hand, the number of persons actually present at the various shrines has largely increased, and devout pilgrims are able, in a comparatively short space of time, to visit a larger number of shrines in different districts.

3. The rapidity with which persons who have attended at the shrines can be conveyed to distant parts of the Province, and even to other Provinces, has made the sanitary condition of the places of pilgrimage a matter of more than merely local importance, while at the same time the difficulty of maintaining proper sanitation has been increased by the greater influx of pilgrims on special occasions. For this reason the arrangements at Puri for dealing with the pilgrim traffic and the sanitation of the town itself engaged the special attention of the Lieutenant-Governor during the year under review. In March last His Honour visited Puri, and after personally inspecting the locality and consulting the local officers, he issued instructions with the object of effecting a gradual systematic improvement in the general sanitation of the town. A broad distinction was drawn between the ordinary administration of the Municipality on the one hand, and on the other the special arrangements which are necessitated by the fact that Puri is visited from time to time by large numbers of pilgrims, who come for the most part at a very unhealthy season of the year and are often very poor. A programme of municipal reform was outlined, and a grant of Rs. 5,000 was made to meet the cost of a survey preliminary to the preparation of a complete drainage system. To provide for the requirements of the pilgrim traffic, the heads of a separate programme were indicated. His Honour was glad to notice that the pilgrim sheds erected in Puri two years ago were of much use to the poorer pilgrims who could not pay the high rates charged by the lodging-house-keepers, and that private charity had already stepped in to provide free accommodation on approved sanitary principles. The good example set in this respect by Babus Kanai Lal Bogla and Duli Chand, of Calcutta, and the late Babu Kanai Lal Pundit, of Cuttack, will, His Honour hopes, appeal to the practical generosity of other wealthy Hindus.

4. The health of the places where the Act was in force appears to have been on the whole fair. In Orissa, however, there were 442 deaths from cholera, which broke out during the Car festival in spite of strict sanitary precautions. In Nadia also there were 92 cases of cholera, which is stated to have been imported by pilgrims from Puri. The Lieutenant-Governor has enjoined the adoption of certain simple measures of precaution for the prompt detection of such cases and the prevention of the spread of the disease in future. The occurrence of plague at Deoghur has already been referred to. Only nine deaths were, however, attributed to this cause.

5. The total income of the year under review was Rs. 94,437 against Rs. 63,106. The total expenditure was Rs. 60,041 against Rs. 57,415 in 1901-1902. The bulk of the increased income accrued in Puri and in the *chattis* on the Jagannath Road in Jajpur, and it is mainly due to the larger demand for accommodation on the occasion of the Car festival during the year under review. Compared with the receipts, the amount expended by the Puri Lodging-house Fund, especially on conservancy, was disappointingly small.

The unexpended balance will, however, provide a useful nucleas for the large expenditure which will inevitably be required for the improvement of the sanitation of the town.

6. The Act has worked satisfactorily during the year in all places in which it was in force.

ORDER.—Ordered that a copy of the Resolution be submitted to the Government of India in the Home Department, and that copies be forwarded to the Commissioners of the Burdwan, Presidency, Chittagong, Patna, Bhagalpur, and Orissa Divisions for information.

Ordered also that a copy of the Resolution be communicated to the Sanitary Commissioner, Bengal, and to the Sanitary Board, and that it be published in the *Calcutta Gazette* for general information.

Secretary to the Govt. of Bengal

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; d, drizzling rain; t, thunder; p, passing temporary showers.

In the weekly abstract from 2nd to 8th August 1903 read 14·8 for 4·8 as range of temperature of the 8th August 1903.

NOTIFICATION.

No. 2839J.D.—The 7th September 1903.—In exercise of the powers conferred by section 5 of the Indian Explosives Act (IV of 1884), and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to substitute the following rule for rule 17 (2) (*f*) of the Rules for the manufacture, possession and sale of explosives in the Lower Provinces in Bengal:—

On the completion of the enquiry, the District Magistrate or Commissioner of Police shall forward the application and draft license with his recommendation, to the Chief Inspector of Explosives, who will forward to the applicant a statement in Form H, showing the distances which should, in his opinion, be kept clear round the magazine. The form shall then be returned, with the third column duly filled in by the applicant, to the Chief Inspector of Explosives, who shall submit it to the Local Government with his recommendations and with the draft license and Schedule A, showing the distances which, in his opinion (after considering any representation made by the applicant in returning Form H to him) should be kept clear round the magazine. The Local Government may thereupon grant the license as applied for or with such modifications or restrictions as may be deemed proper, or may reject the application. The table of distances which will ordinarily be followed is attached to these rules.

No. 113Marine.—The following notification by the Government of India, publishing rules for regulating the carriage of petroleum in native passenger ships, is republished for general information.

W. A. INGLIS,
Offg. Secy. to the Govt. of Bengal.

No 5100S.R , dated Simla, the 20th August 1903.

NOTIFICATION—By the Government of India, Finance and Commerce Dept.

IN exercise of the powers conferred by section 53 of the Native Passenger Ships Act, 1887 (X of 1887), the Governor-General in Council is pleased to make the following rules regarding the carriage of petroleum in ships to which the said Act applies:—

1. No petroleum which is dangerous within the meaning of the Indian Petroleum Act, 1899 (VIII of 1899), shall be shipped on board any ship proceeding or departing from British India, and no other petroleum shall be carried on board such a ship otherwise than in accordance with the following conditions, namely,—

(*a*) The master, owner or agent shall give notice to the Chief Customs officer or such other officer as the Chief Customs officer may nominate in this behalf, before permitting any petroleum to be shipped.

(*b*) Each consignment of petroleum shipped shall be covered by a declaration made and signed by the shipper in Form A (hereto annexed), if the petroleum has been imported into British India, and otherwise in Form B.

(c) Petroleum shall be shipped either in tins enclosed in outer wooden cases or in hermetically sealed iron or steel drums.

(d) The nature of every consignment of petroleum shipped shall be marked on the outside of the package containing it.

(e) Petroleum shall be stored separate from all other cargo and as far as possible away from lights or fires, and none shall be stored in any hold adjoining an engine or boiler.

(f) There shall be a water-tight bulkhead between the engine-room and any hold in which petroleum is stored, and the sluice-valves of such bulkhead shall be shut down and padlocked.

(g) Save where electric light is used, no petroleum shall be shipped or discharged except between sunrise and sunset; no lights other than electric lights shall be lit in a hold in which petroleum is stored; and no smoking shall be permitted in or near any such hold.

(h) No person shall otherwise than along with, or with the authority of, an officer of the ship, be permitted to visit a hold in which petroleum is stored.

(i) No more passengers shall be carried than can with safety be accommodated in the ship's boats in case of accident, unless the vessel is a coasting one proceeding on a short voyage and there are provided life-belts sufficient for such passengers as cannot be accommodated in the boats.

(j) At any port in which a ship carrying petroleum is for the time being, the Chief Customs officer, or such other officer as the Chief Customs officer may nominate in this behalf, may take and test any consignment of such petroleum or any single case or drum thereof.

(k) If any petroleum tested under clause (j) is found to be dangerous petroleum defined as aforesaid, the whole consignment of which the petroleum tested formed a part shall be liable to confiscation

2. The officer authorised to grant a certificate in respect of a ship under sections 7 and 12 of the Native Passenger Ships Act, 1887 (X of 1887), shall, if there is petroleum on board, not grant the same without the consent of the Chief Customs officer or such other officer as the Chief Customs officer may nominate in this behalf.

3. Whoever commits a breach of any of these rules shall be punishable with fine which may extend to two hundred rupees, and, when the breach is a continuing one, with a further fine which may extend to twenty rupees for every day after the first during which the breach continues.

FORM A.

We hereby do declare that the cases and drums marked as follows—

The examinations will begin as stated above, and each private student will pay a fee of Rs. 2 to the head of the institution at which he appears for examination. The balance, after payment of expenses (stationery, etc), will go as remuneration to the examiners. No private student will be admitted to the test examination unless accompanied, for the purpose of identification, by some person known to the Headmaster of the institution at which he appears.

3. Applications for permission to appear must be sent so as to reach *this office* not later than the 15th November, with the following information, etc.:—

(*a*) The name of the school in which the candidate last studied.
(*b*) The transfer certificate (in original) granted to the candidate from the same; or
(*c*) in the case of a candidate who previously appeared at the Entrance examination, the Registrar's receipt (in original) for the fee paid.
(*d*) Age of the candidate.
(*e*) In the case of schoolmasters, a certificate of good conduct from the Secretary or proprietor of the school in which the candidate is serving.

4. If this office is satisfied that all is in order, the Inspector will countersign and return the application, and this then will be the candidate's passport for admission *to the test examination*.

5. The Headmaster of an institution (one of those named above) should direct private students to appear before him not later than the 12th January with their applications for admission to the Entrance examination; and in the case of those candidates who have satisfied the test, he will cause them to sign their application forms in his presence, and will grant the necessary certificates, and then forward the applications to this office for countersignature, after which they will be sent by the Inspector *direct* to the candidates.

6. Expedition is necessary in carrying out all these instructions, and candidates should be *most careful* to give their names and addresses written legibly and distinctly, so that no mistake may be likely to occur.

7. *Under no circumstances should the entrance fee be sent to this office*, but it should be sent to the Registrar by the candidates themselves, together with the countersigned applications, which will be returned to the respective Headmasters for delivery to candidates.

8. Private students will understand that the test examination of any schools other than those named above will not be accepted by this office.

9. Addresses of private students should be supplied to this office.

10. The Entrance examination in 1904 will be held on the 7th March 1904 and following days. Applications and fees for admission must reach the office of the Registrar on or before the 25th January 1904.

F.A. AND B.A. EXAMINATIONS.

1. Deputy Inspectors of Schools, Sub-Inspectors of Schools and *bonâ fide* masters of English schools who have served as such for the full period of two academical years, or of six months after the examination of the same class last held by the University in the case of those only who were admitted to a former examination of that class, will be admitted to the abovementioned examinations.

2. Candidates for the F.A. and B.A. examinations must produce certificates of character and length of service from the Secretaries of their respective schools, together with their *Entrance* or *F.A.* certificates. Those candidates who have been admitted to a former examination must produce the Registrar's receipt in addition.

3. The printed form of application should be carefully filled up, and submitted to this office *on or before the 20th January 1904*, together with other papers as mentioned in rule 2, after which no applications will be received.

4. By *bonâ fide* masters of schools are to be understood masters who hold regularly paid appointments in English schools, teaching at least the M. E. course.

5. The F.A and B.A. Examinations in 1904 will be held on the 21st March 1904 and following days. The applications and fees for admission must reach the office of the Registrar on or before the 6th February 1904.

QUESTION OF THE FUTURE ORGANIZATION OF THE CANTONMENT MAGISTRATES' DEPARTMENT.

Nos. 1507—1521, dated Simla, the 24th August 1903.

RESOLUTION —By the Government of India, Home Department.

THE Government of India have recently considered, in communication with the Secretary of State, the question of the future organization of the Cantonment Magistrates' Department. The difficulty of obtaining a regular supply of efficient Cantonment Magistrates does not now come before the Government of India for the first time. Attempts have been made to remove it by various systems of recruitment, all of which have proved more or less unsatisfactory. Before the year 1864 Military Officers had been employed as Magistrates and Superintendents of Abkari and Bazars in Cantonments; but in that year the passing of Act XXII (an Act to make provision for the administration of Military Cantonments) afforded new reasons for requiring from such officers special qualifications for their civil duties. It was accordingly ruled that they should pass the examination prescribed for officers entering the Staff Corps through the Civil Department, and that they should be regarded as officers in civil employ, liable to the departmental examination for civil officers, and eligible for general promotion in the Civil Department. Cantonment Magistracies were then divided into two grades, on a consolidated pay of Rs. 1,000 and Rs. 700 a month respectively. The tenure of the post was unlimited, and the holder vacated it on being admitted to Colonel's allowances or on attaining the age of 55 years. This scheme failed to afford an inducement to officers to enter the Department. By the year 1875 no appointments had been made in the ordinary civil line from among Cantonment Magistrates in the North-Western Provinces and the Punjab, and only one such appointment had been made in Bengal. In consequence of a representation made by the Commander-in-Chief in 1886, that the system was working badly mainly because unsuitable officers had been appointed as Cantonment Magistrates and could not be removed, the Government of India, in August 1887, ordered, as a provisional arrangement, that the tenure of Cantonment Magistracies should in future be limited to five years, with a possible extension to seven years. The consolidated rates of pay fixed in 1864, which would have been needlessly high for officers appointed for this limited period, were revised as follows:—

Rank of officer.	Initial pay.	On passing the Higher Standard Examination.
	Rs.	Rs.
Subaltern	600	700
Higher rank	700	800

To meet the objection arising from the periodical ission to civil employ of untrained Military Officers, who would be engaged in important gisterial work, candidates for the Cantonment Magistrates' Department were required t s a qualifying examination in the Civil and Criminal Procedure Codes, the Indian Pe Code, and other laws commonly administered by Cantonment Magistrates. These ord ad not been in force for more than three years when Lord Roberts, who was then Com er-in-Chief in India, took strong exception to the new arrangement. The main objection urged from a military point of view was that officers lost in efficiency through absence from military duty, and, after having been for five years in an independent civil position, were disinclined for such duty on their return. From the civil point of view it was represented that an officer had barely time to become an efficient Cantonment Magistrate before he had to make way for an inexperienced successor. It was then decided to abandon the system tentatively introduced in 1887 and to revert to the one previously existing, with the important difference that, whereas the highest pay (Rs. 1,000) under the earlier system had proved insufficient to induce competent officers to adopt the career permanently, the pay of the higher grades was to be so regulated as to make the appointments sufficiently attractive for this purpose. With the same object it was resolved to reserve the appointments in the Judge Advocate-General's Department preferentially (though not exclusively) for qualified Cantonment Magistrates. It was also arranged that officers appointed as Cantonment Magistrates should be seconded in the Military Department after a year, and should, after five years, either return to their regiments or be struck off the strength. The following allowances were provided in addition to Staff Corps pay of rank:—

	Rs.
On first appointment	200
On passing the Departmental Lower Standard Examination ...	250
On passing the Departmental Higher Standard Examination ...	300
After five years' substantive service as Cantonment Magistrate ...	400
After ten years' substantive service as Cantonment Magistrate ...	500

2. These conditions of service, which were approved by Lord Kimberley in October 1892, have remained in force up to the present day. Experience has shown that they do not ordinarily secure a suitable stamp of officer for the Department, and great difficulty has been experienced in recruiting, especially in the case of leave vacancies. The system is defective in failing to provide a stimulus to effort and a check upon inertness, in the shape of promotion by selection. Good work is done in individual cases, but speaking generally the Government of India observe a tendency among officers to assume that their position is assured, and that further advancement is only a matter of length of service, with the inevitable result that the energies of the Department as a whole are impaired. The reluctance of Military Officers to enter the Department under existing conditions has made it almost impossible to replace an officer taking leave except by another simultaneously returning. In some cases it has been possible either to depute a civil or a regimental officer to perform the Cantonment Magistrate's duties in addition to his own, or even to leave the Cantonment Magistracy unfilled for a time. Such arrangements are not satisfactory, but, in many recent cases, even their adoption was impossible, and the leave applied for had to be postponed or refused altogether. Further, the Government of India have received a representation from the Military authorities that the executive duties of Cantonment Magistrates are either neglected or inefficiently performed, owing to the appointment of incompetent officers.

3. In these circumstances the Government of India determined to refer the whole question of the constitution of the Cantonment Magistrates' Department and the causes of its unpopularity and inefficiency to a competent Committee, consisting or Mr. J. P. Hewett, then Home Secretary, Major-General G. Henry, then Quartermaster-General in India, and Lieutenant-Colonel H. B. Thornbill, then Cantonment Magistrate of Bareilly. The Committee considered that, in order to attract officers with the necessary qualifications to the Cantonment Magistrates' Department, it was essential that the prospects of the Department should be improved. In order to effect the required improvement, they recommended—

(*a*) the addition of two new grades of selected Cantonment Magistrates, viz. :—

	Officers.	Staff pay.
		Rs.
1st grade	3	700 a month,
2nd grade	6	600 a month ;

(*b*) the creation of a reserve consisting of two officers ;

(*c*) the creation of five new appointments of Assistant Cantonment Magistrates at Umballa, Meerut, Mhow, Poona-Kirkee, and Quetta ;

(d) the creation of two new appointments of Cantonment Magistrate at Nowshera and Jubbulpore; and

(e) the appointment of an Inspecting Officer of Cantonments on a staff pay of Rs. 1,000 a month.

4. These recommendations have been accepted by the Secretary of State, except that the appointment of an Inspecting Officer of Cantonments has been sanctioned, in the first instance, for a period of five years; and in promulgating them for general information, the Government of India invite attention to the following remarks and instructions regarding the several matters referred to by the Committee.

5. The Government of India trust that the improved prospects which these arrangements offer will attract suitable officers to the Department. In future promotion to the two highest grades, which carry a staff pay of Rs. 700 and Rs. 600 a month respectively, will be made entirely by selection, vacancies, whether permanent or temporary, being filled as a rule by officers who have completed ten years' departmental service. Cantonment Magistrates of ten years' service will ordinarily, unless adversely reported on, be eligible for a staff pay of Rs. 500 a month. Recommendations for the grant of this rate of pay, as well as for promotion to the grades of Rs. 600 and Rs. 700, permanent or temporary, will be made by the Quartermaster-General in India (who receives the confidential reports regarding the administrative capacity and judicial work of Cantonment Magistrates) to the Government of India, by whom they will be carefully considered, first in the Military Department and then in the Home Department. The Government of India will examine separately, in consultation with the Quartermaster-General in India and Local Governments, the claims of officers to promotion to the two highest grades, and of officiating officers to confirmation in the Department in connection with the new appointments which have been sanctioned.

6. The object of the creation of a reserve of officers is to provide for leave vacancies; but it is obvious that no reserve of reasonable strength will serve this purpose if an unlimited number of officers are simultaneously allowed to avail themselves of leave. The Government of India have accordingly decided that the number of Cantonment Magistrates who may be on furlough in future shall not exceed 20 per cent. of the cadre posts and that all applications for ordinary furlough in excess of this proportion must be refused. To facilitate the making of the necessary arrangements for the grant of leave, officers should be required to intimate to the Local Government at a date not later than the 1st March their intention to apply for leave during the ensuing hot weather, and Local Governments should give demi-official intimation of the fact to the Government of India. Such intimation is indeed already required by existing orders, but these are not always complied with: and the Government of India desire it to be known that omission to give notice as directed will, unless satisfactory explanation of such omission accompanies the leave application, in future prejudice the officer's chances of obtaining leave.

7. Officers appointed to be Assistant Cantonment Magistrates will receive staff pay as if they were Cantonment Magistrates up to a maximum of Rs. 300 a month, and their services as Assistants will count towards their staff pay when confirmed as Cantonment Magistrates. Regarding appointments to the newly-sanctioned Cantonment Magistracies at Jubbulpore and Nowshera and to the five new Assistant Cantonment Magistracies further orders will be issued subsequently.

8. The appointment of an Inspecting Officer of Cantonments has been decided on, with a view to the improvement of the standards of executive and sanitary work in Cantonments throughout India. The cost of the appointment will be debited to the Military estimates, and the officer will be under the orders of the Commander-in-Chief and attached to the Department of the Quartermaster-General in India, being graded as a Deputy Quartermaster-General; but he will be selected from among the senior Cantonment Magistrates in the Department. The Inspecting Officer will spend the greater part of the year on tour, examining the working of Cantonments, co-ordinating results so that the experience gained in one place may be utilized elsewhere, and advising the Military authorities generally as an expert in matters of Cantonment administration. He will also be expected to acquaint himself with the financial position of Cantonments generally and to advise how that position may be improved. It must be clearly understood, however, that he will inspect and report only on the executive work of Cantonment Magistrates, and that his concern with their judicial work will be restricted entirely to the question of how far its nature or amount may interfere with their other duties.

APPENDIX XXX.

[See Chapter III, Rule 9.]

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plot of land, no longer required by Government, situated along the Barun-Daltonganj Railway, in the district of Gaya, will be put up to sale at 12 o'clock on Friday, the 18th September 1903, corresponding with the 12th Asin 1311 Fusli, at the Gaya Collector's Court.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the land closer than three feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of the original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

Proceedings of the Bengal Legislative Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

Abstract of the Proceedings of the Council of the Lieutenant-Governor of Bengal, assembled under the provisions of the Indian Councils Acts, 1861 and 1892.

THE Council met in the Council Chamber on Saturday, the 8th August, 1903.

Present:

The Hon'ble MR. J. A. BOURDILLON, C.S.I., Acting Lieutenant-Governor of Bengal, *presiding*.
The Hon'ble MR. L. P. PUGH, *Offg.* Advocate-General of Bengal.
The Hon'ble MR. C. E. BUCKLAND, C.I.E.
The Hon'ble MR. B. L. GUPTA.
The Hon'ble MR. L. HARE, C.I.E.
The Hon'ble MR. W. C. MACPHERSON, C.S.I.
The Hon'ble MR. L. P. SHIRRES.
The Hon'ble Mr. A. EARLE.
The Hon'ble MR. W. A. INGLIS.
The Hon'ble MAHARAJA MANINDRA CHANDRA NANDY, of Cossimbazar.
The Hon'ble MR. H. ELWORTHY.
The Hon'ble MR. A. A. APCAR.
The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR.
The Hon'ble RAI TARINI PERSHAD, BAHADUR.
The Hon'ble NAWAB BAHADUR KHWAJA SALIMULLAH, of Dacca.
The Hon'ble BABU KALI PADA GHOSH, M.A., B.L.
The Hon'ble DR. ASUTOSH MUKHOPADHYAYA, M.A., D.L., F.R.A.S., F.R.S.E.

NEW MEMBER.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA took his seat in Council.

QUESTIONS AND ANSWERS.

THE BHABUAH SUB-DIVISION OF SHAHABAD.

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, in the absence of the Hon'ble BABU CHATURBHOOJ SAHAY asked :—

Will the Government be pleased to state how the matter of providing the Bhabuah Sub-division in the Shahabad district stands with reference to the following points:—

(*a*) The recommendations of the Irrigation Commission.

(*b*) Orders of the Government of India, if any, on the subject.

(*c*) Action taken or proposed to be taken by the Bengal Government in the matter with the result in the former case?

The Hon'ble MR. INGLIS replied :—

"The Answer to the Hon'ble Member's questions is as follows:—

(*a*) The report of the Irrigation Commission has not yet been published.

(*b*) No orders have been passed by the Government of India on the subject.

(*c*) A preliminary survey has been made of the valley and catchment of the river Karmanassa. It has been ascertained that there is a possible site for a reservoir of considerable capacity. It is, however, doubtful whether the reservoir could be made within limits of cost proportionate to the value it would have as a protective work. The question is at present under inquiry."

PILFERING OF PARCELS ON RAILWAYS.

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, asked :—

Has the attention of Government been called to an article in the "Moslem Chronicle" of the 1st August, 1903, headed "Pilfering of parcels on our Railways"?

Will the Government be pleased to direct the Railway Authorities to take steps to redress the grievance so generally complained of?

The Hon'ble MR. INGLIS replied :—

"The Lieutenant-Governor has seen the article referred to, and is aware that complaints of pilfering are frequently made. The Railway Authorities also are keenly alive to the existence of petty thieving and are doing what they can to stop it. In the absence of specific statements which can be verified, no useful action can be taken by Government."

TUTORS EMPLOYED TO TEACH ENGLISH AND LITERATURE IN COLLEGES IN BENGAL.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA asked :—

(*a*) Will the Government be pleased to state the names of the gentlemen employed to teach English language and literature to students in the F.A., B.A., and M.A. classes of *first-grade* and *second-grade* Colleges under the Government of Bengal in the month of July, 1903?

(*b*) Will the Government be pleased to specify the Colleges in which no Europeans are employed to teach English language and literature in the F.A., B.A., and M.A. classes? In the case of each of the other Colleges, will the Government be pleased to specify how many European and how many Indian Professors are employed to teach English?

(*c*) Will the Government be pleased to state the names of the Professors or Lecturers in the Presidency College who are employed to teach English and the respective classes taught by them?

The Hon'ble MR. EARLE replied:—

"A statement giving the information asked for is laid on the table."

The following is the statement referred to:—

THE BENGAL SETTLED ESTATES BILL, 1903.

The Hon'ble MR. BUCKLAND moved for leave to introduce a Bill to facilitate the family settlement of estates in Bengal. He said:—

"The Bill with the Statement of Objects and Reasons was, Sir, under your orders published in the Calcutta Gazette a few weeks ago, so that Hon'ble Members and the public have already had an opportunity of studying it. But I cannot rely upon the formal publication of the Bill as relieving me of the duty of offering an explanatory statement to the Council in making the motion which stands in my name. For some years past the British Indian Association have been applying to Government to legislate for the purpose of maintaining the position of the noble and wealthy families of Bengal, which, under the existing law of the Province, have been liable to fall into decay, owing, among other causes, to the division of estates, and many of which have, in fact, been thereby disintegrated. An incomplete list of the names of 25 such families was prepared without difficulty. The application of the landowners has met with the general approval of successive Lieutenant-Governors of Bengal and their advisers, and after a prolonged correspondence with the Government of India and the Secretary of State (which will show that the subject has been thoroughly discussed), the desirability of undertaking legislation for the family settlement of immoveable and moveable property in Bengal, with the object of preserving old or wealthy families from decay, maintaining their territorial influence and preventing the subdivision of estates of historical and political importance, has been acknowledged by all the authorities, and has found expression in a definite shape in this Bill. In other words, the object of the Bill is to make provision, in special cases approved by Government, for preserving the continuity of noble and influential families whose estates are not protected by the existing law from division on the decease of the proprietor.

"There are several main points to which I desire toinvite the attention of the Council. There is perhaps no sentiment more universal in civilized human nature than that of family pride, and it is only a natural consequence of this sentiment that heads of wealthy families should adopt all the measures in their power to found a family (as it is called), to preserve the continuity of the family, and to improve its status. Thus, in some cases in Bengal, and conspicuously so where there is an impartible Raj, the custom of primogeniture has prevailed, and it has been asserted that in former times large

zamindaris could be willed, and descended, when there was no will, to the eldest son exclusively, subject to the rights of other sons to maintenance. The number, however, of cases of indivisibility of property in a family has not been large in Bengal. Speaking generally, Hindu Law makes for the division of estates. That is the character of the local Law of Succession. In cases of intestacy the property must be divided among all the sons. The direct effect of the *Dayabhaga* Law which prevails in Lower Bengal is to partition and break up landed property on the death of an owner among all his sons. Its principle is that every son should have a share of the father's property, whether ancestral or self-acquired: at the same time it allows the holder of the property for the time being to give away the property by gift or otherwise to any one of his sons to the exclusion of the rest, or even to a stranger. The power of making one son the heir is not exercised generally, because it can only be exercised for one life, and in its operation there is no security against alienations either by sale or mortgage. The universal effect is the division of estates.

"The *Mitakshara* Law is somewhat different, but, whenever joint-property is divided, all the sons take equally. Under the *Mitakshara* Law, a father cannot settle property on any one of his sons. Under the *Dayabhaga* Law, a father, as the sole owner of what he has acquired by inheritance or otherwise, has full power to dispose of it by deed or will in favour of his eldest or another son to the exclusion of the remaining sons; but, as was settled more than 30 years ago in the great Tagore Will case (which judgment did not deal with family settlements), he cannot settle it in favour of a son or remoter issue not born at the time of the settlement.

"The result, therefore, is that unless the Legislature intervenes, no Hindu head of a family can make a settlement of his property for the purpose of maintaining or improving the position of the family.

"So, also, the Muhammadans have a law of inheritance, which, it is true, is not peculiar to Bengal, but the effect of which is the universal disintegration of the Muhammadan families. That the Muhammadan community appreciate the ill-effects of the Muhammadan law of inheritance appears from their evasion of the law by the device of a family entail under the name of a religious endowment. This device has been declared by the Privy Council to be invalid. Therefore, unless the Legislature provides a means, the Muhammadans are left without resource. It has therefore been decided to legislate by a permissive measure to give both Muhammadans and Hindus the power, which they have shown themselves desirous of possessing, of making a family settlement of their property. No one can be called upon to take advantage of its provisions against his will. It has been decided also not to insist or rely in any way on primogeniture as the sole condition upon which immoveable property may be settled. The object is to preserve the continuity of the family in the possession of the settled estates, and for this purpose the succession of members of the family other than the eldest son may, within certain limits, properly be recognised.

"And here I would take the opportunity of observing that, though this is a Government measure in one sense, it is not a measure which Government bring forward for their own purposes. It is understood that the principle of the creation and preservation of a body of influential and powerful landed gentry is one which commands the sympathy of the Government of India, and, no doubt, it is to the interest of Government, who are responsible for the maintenance of law and order, to have the native leaders of society attached to them by some form of gratitude. Land-owners all over the world are a loyal and conservative body. This is so even where their tenures are the growth of ancient law and custom. And there are no firmer ties than that of land in India, where many of the tenures are the creation of the Imperial power. On occasions of plague, famine, religious and other disturbances, it is to the heads of the community that Government must turn, and experience shows that their influence can be best maintained, as a rule, by their position as landed proprietors. The heads of families who have a great stake in the country and have, in fact, claimed to be not only important factors in the social economy, but also the real pillars of the State, may be expected, in times of trouble and disturbance, to rally to the side of Government rather than to espouse the cause of its enemies.

"Moreover, wealthy and settled families may be expected to show more consideration to their subordinate tenure-holders and tenants than proprietors who acquire subdivided estates by the partition law or as money-lenders, and look more to making profit out of the land than to the maintenance of position and dignity by possessing it. It is a great satisfaction to Government to see a prosperous and contented peasantry. But what I wish to emphasise is that, though there may be incidental gains which may accrue to the State from the passing of this permissive measure, they are not the objects for which the Bill is being introduced. That the Bill is not a necessity for Government is clear for two reasons. The power of Government is sufficiently strong and established already: on the other hand, there is no ground for making any general charge of discontent or disloyalty against the land-owners of Bengal as necessitating such a measure. The Bill may be useful to Government as an auxiliary support, it is not an indispensable element of strength.

"It has, indeed, been decided by Government that it is impossible to grant in full the application of the Bengal landowners, which originally aimed at obtaining legislation to permit the settlement of estates in perpetuity. It has long been the settled policy of the Statute Law of England to forbid perpetuities. This policy has been accepted in most civilised countries, and is based on the recognition of the principle that economically it is not expedient to fetter the free transfer of property. Departures from this principle can only be supported on the ground of strong political necessity. Exceptions have been made, indeed, from the settled policy of the Government of India and the Secretary of State in favour of certain tulukdars of Oudh and in respect of certain ancient zamindaris in the Madras Presidency. But it has been ruled that there is no such necessity for a similar exception to the general policy of the Government of India being granted to the zamindars of Bengal. The law against perpetuities, as it works in England, means that property can be settled for a life or lives in being and 21 years. It has been decided, by slightly varying the English practice, to allow settlements of moveable and immoveable property to be made in Bengal, limited to three generations, not to three lives, and to allow each successive proprietor on succeeding to the property as tenant for life to make a new settlement, should he wish to do so. The right to make a new settlement is to be specifically granted afresh by the Local Government. The rights to be created by or under the family settlement are to prevail over rights derived from family custom or from the general law of succession to which the parties are subject. While a settlement will not have effect beyond the period authorized in the Bill, the opportunity to be given for re-settlement from time to time can be taken if the tenants for life so desire.

"If the Council have borne in mind what I said a few minutes ago about the present requirements of the Hindu and Muhammadan Laws, it will be obvious that this permissive Bill will give the heads of wealthy and influential families in Bengal power to make settlements of property which they cannot at present make. Though such settlements will be of a limited character—not in perpetuity—there will be nothing to prevent the settlement being continued to infinity, if the successive tenants for life are actuated by a becoming family pride and desire to maintain and improve the position of the family according to the provisions of the Bill. In England the settlements of land are strictly limited by law, but they have answered their purpose very well. In the case of almost every great English estate, it is protected by a deed which has no operation beyond the lives of the parties and their children. The main object of the deed is to keep the *corpus* of the property intact in the hands of the eldest son; the subsidiary object is to provide for the maintenance of widows and younger children. The settlement is renewed once in a generation, usually when the eldest son comes of age, or marries. The backbone of the English law of settlement is the rule against perpetuities, to which I have alluded. The question which Government has had to consider has been whether it would be possible to devise a form of settlement which would enable land-owners in Bengal to do for themselves what English land-owners have been doing for many generations. The present Bill is the solution of the question offered. Its provisions I propose to deal with more fully when speaking to the motion for referring the Bill to a Select Committee.

"At present, Sir, I have the honour to move for leave to introduce the Bill to facilitate the family settlement of estates in Bengal."

The Motion was put and agreed to.

The Hon'ble MR. BUCKLAND also applied to the President to suspend the Rules of Business for the purpose of introducing the Bill and referring it to a Select Committee.

The Hon'ble the PRESIDENT having declared the Rules suspended—

The Hon'ble MR. BUCKLAND introduced the Bill and moved that it be read in Council.

The Motion was put and agreed to.

The Bill was read accordingly.

The Hon'ble MR. BUCKLAND also moved that the Bill be referred to a Select Committee, consisting of the Hon'ble Mr. Pugh, the Hon'ble Mr. Gupta, the Hon'ble Mr. Hare, the Hon'ble Maharaja Manindra Chandra Nandy, of Cossimbazar, the Hon'ble Rai Tarini Pershad, Bahadur, the Hon'ble Nawab Bahadur Kwaja Salimullah, of Dacca, the Hon'ble Dr. Asutosh Mukhopadhyaya and the Mover, with instructions to report at the next meeting of the Council. He said:—

"Sir, I said just now that in speaking to this motion I should deal more fully with the provisions of the Bill. The Bill itself is based partly upon the Oudh Settled Estates Act, 1900, so far as regards procedure and powers of alienation, and partly upon the Indian Perpetuities Bill in the form originally submitted by the British Indian Association. Many of the provisions of the Oudh Act which appear superfluous and unsuitable to Bengal have been omitted. The framework of the Bill may be briefly described. After the usual preliminary sections containing the title and definitions, there follow sections 3 to 6 which deal with the manner in which applications are to be made for permission to make a settlement and with the preliminary inquiries which are required before Government passes final orders on an application unless it is summarily rejected. Sections 7 to 16 deal with the provisions of such settlements, and explain how they are to be notified, how they may be modified or revoked and what is to be their effect. Sections 17 to 20 explain certain restrictions of the powers of the tenants for life, while sections 21 and 22 are intended to prevent the defeat of settlements under this measure by the operation of the Revenue Sale Law. Sections 23 and 24 deal with notifications and empower Government to make rules under the Act. Such is, speaking broadly, the framework of the Bill. I now turn to particular sections.

"In section 2 a change in the definition of the word 'estate' has recently been introduced by which that word has been made to include not only immoveable property, but also money and jewellery or other moveable property which should, in the opinion of the Local Government, be treated as heirlooms. Sections 3 and 4 particularly avoid specifying any classes of landholders who may be supposed to be entitled to make settlements and leave the power to grant such a concession entirely within the discretion of the Local Government. Section 5 provides for the issue of notifications for the purpose of giving full and free publicity to important transactions of the nature of such a settlement, so that objections may be filed and considered in time. It is thought that, unless such notifications are published, it will be impossible for Government to ascertain the actual financial position of an estate. Section 6 deals with the rejection or approval of applications after notifications have issued.

"Sections 7 and 8 deal with the order of succession. They are intended to provide for settlement for three generations, *i.e.*, (1) the original settlor, the first tenant for life, (2) the second tenant for life, and (3) the ultimate holder.

It is in this section that the variations from the present Hindu law are introduced, as the terms of the section allow a settlement of property upon one son only and upon a person yet unborn. The same section 7 provides that the settlement shall usually follow the natural course of succession, but a departure from this rule may be sanctioned by the Local Government for sufficient reason. There is nothing in the section which can be construed as allowing an estate to be settled away from the family in any case. From the reports that have already reached my hand it is evident that there is a considerable difference of opinion about this section which will require to be very carefully considered by the Select Committee. By a definition in the Bill the word 'son' includes an adopted son, and the Hindu practice of adoption makes it unlikely that settlors will often die without heirs. But section 8 makes provision for this extreme case by requiring that every settlement should contain provisions for further remainders.

"Under section 9 all incumbrances have to be specified in the settlement. Then provision has to be made for the discharge of incumbrances, for the payment of interest, for the maintenance of the widows, unmarried daughters and relatives (other than the second tenant for life) of the settlor. The same section provides for management in possible cases of minority. No restrictions on management, such as are found in English law, are imposed on an adult tenant for life in view of the strong opinion expressed by the British Indian Association in favour of giving the tenant for life absolute control over the property, subject of course to the provisions of sections 17 and 19, which impose restrictions on alienation and leases by the tenant for life.

"Section 10 provides for additions to the settled estate at any time and for the making of a fresh settlement either by the original settlor or by a subsequent tenant for life. The expression used in the Bill is that the fresh settlement is to be in supersession of the former settlement. It is not quite clear to me whether it is meant that the fresh settlement must contravene the former one, or whether it really means that a continuation or renewal of the former settlement will amount to a fresh settlement. I think this point requires examination.

"Sections 11, 12 and 13 state the formalities which must be observed before a settlement can take effect. It will be observed that section 12, sub-section (2), provides that every such deed of settlement should bear a stamp of a value equivalent to one-fourth of the annual net profits of the estate comprised in the settlement, and such stamp-duty is made payable within three years. I am afraid that this provision of the Bill will be regarded as a severe tax by intending settlors, but it has been inserted by the Government of India as the condition on which the privilege of making such settlements is accorded, and it is perfectly clear that, if the condition is not accepted, the Bill, though passed by this Council, will not be approved by the Government of India. There is no alternative between accepting the provision and wrecking the Bill.

"Section 14 contains provisions necessary to prevent the ordinary law of the country or a special custom from operating to defeat settlements made under the Bill. Sections 15 and 16 provide for the revocation and cancelment of a settlement, for it seems proper that it should be possible under due safeguards, such as the sanction of Government, to terminate a settlement at any time.

"Sections 17 to 20 limit the powers of the tenant for life and save the provisions of the Bengal Tenancy Act of 1885. They also contain provisions that, when any portion of an estate is sold or when any premium or fine is taken for a lease, the proceeds shall accrue through official channels to the benefit of the estate, and not to the personal benefit of the tenant for life for the time being. Under the English law, as altered by modern legislation, the life owner of a great estate is usually invested with extensive powers of management: he may, for example, mortgage or sell the estate or part of it, but any capital sums which he may realize by the exercise of those powers are paid over to trustees and held by them on the same trusts as the land. The system works well in England, because it is not difficult to find good trustees. In India it may not be possible to find satisfactory trustees to act without remuneration, so that it is considered necessary, in such matters as the

alienation or lease of a portion of a settled estate, to empower some officer of Government to perform the duties of a trustee.

"Sections 21 and 22 deal with the recommendations made by the British Indian Association, that a settled estate should be protected from sale under the Revenue Sale Law for default in the payment of land revenue. If it were possible for a tenant for life to default in the payment of the land revenue of an estate and thereby bring an estate to sale, it would be possible for him, unless otherwise prevented, to pocket the surplus proceeds of the sale. It is well known that in most cases there is a handsome surplus of the sale-proceeds after the arrear of Government revenue has been satisfied in a revenue sale. It has, therefore, been provided that such surplus of the sale-proceeds shall accrue to the benefit of the estate, and not to the personal profit of the tenant for life. The latter will, therefore, have no object in voluntarily incurring an arrear of land revenue so as to bring the estate to sale. Section 21 contains also a proviso to guard against the danger of *benami* purchases at sales for arrears of revenue. There is nothing more to be said about sections 23 and 24 of the Bill.

"These observations will, I trust, have put the Council in possession of all the points of the Bill which are worthy of their present notice."

The Hon'ble BABU KALI PADA GHOSH said:—"I do not think the Bill, so far as its main principle is concerned, can be open to any serious objection. It proposes to ensure permanence and stability of the ancient aristocracy of the Province, and as such it will be generally regarded as a wholesome measure. But it cannot at the same time be denied that the Bill will make a rather violent change in the existing Law of Succession. Under the *Dayabhaga* School of Hindu Law, one can bequeath his properties by a testamentary disposition or make a gift thereof in favour of any individual he chooses, and can even disinherit his own issues, but the gift must be to a person in existence and capable of taking effect at the time of the gift. Section 7 of the Bill, however, shows that a person making a settlement of his estate will be entitled to make such settlements in favour of an unborn son and even the son of an unborn son. The change will appear all the more striking in a case where a family is governed by the *Mitakshara* School of Hindu Law. In such a case a son by his very birth acquires a right to the ancestral property, and the father has not the power to dispose of the property either by will or gift, but under the provisions of the Bill, all the sons except one may be excluded from their legitimate shares in the ancestral property. This is certainly a point deserving of serious consideration, and I do not think it can possibly be intended that the Bill should go so far as to entitle a person to make settlement of a property over which he has no right of disposal under the principles of ordinary law. It seems to me to be desirable that the applicability of the provisions of the Bill should be restricted to large estates, and a pecuniary limit for this purpose should, if possible, be fixed.

"The objectionable feature of the Bill is, however, redeemed to a certain extent by the fact that it is a purely permissive measure, and in its practical application can affect only a few families in the whole of the Province, and that in the case of such as would voluntarily avail themselves of its provisions.

"In matters of detail the Bill is open to objection in several other respects, but I do not think I should be justified in taking up the time of the Council by dwelling upon such questions at this stage, as it will be for the Select Committee to carefully consider all questions of details."

The Hon'ble RAI TARINI PERSHAD, BAHADUR, said:—"I heartily thank His Excellency the Viceroy and Your Honour's Government for the measure which has just been introduced by the Hon'ble Member in charge of it. I must say, Sir, that in the new measure I am not personally interested, for I have no property which is either large or of any importance which will in any way personally interest me in the new legislation. I, however, feel rejoiced at this occasion, as when it becomes law it will be a boon to those who are looking forward to it with unsavoury hearts.

"I must also say that if such a measure had ripened into law much earlier, many estates belonging to ancient families would have avoided a shipwreck and continued at least much longer than they did—many estates of considerable value and extent would have avoided change of hands and dismemberment.

What the Hon'ble Member in charge has with Your Honour's permission introduced into the Council is nothing like anything unknown to this country. It owes its origin to long-established usages and customs existing from time immemorial, Regulation XI of 1793 and subsequent Regulations and the decided cases of the highest Courts testifying to the fact of the existence of such usages and customs.

"I would beg to lay before Your Honour a small mistake in the reply sent by the Bhagalpur Landholders' Association. They were under a wrong impression when considering the Bill that it will generally apply to Bengal proper and to the whole Presidency. It applies really to the whole Presidency, and it is all right.

"The provision in the Bill for stamp duty is looked upon by the public as a very harsh measure, and if it be not in the province of the Local Government and the Council to bring down the rate to a more reasonable and fair level, it had better be left alone, and the Bill, I hope, with certain improvements will become law.

"Another matter I beg to notice is that the definition of 'estates' should be made definite and final once for all, subject only as usual to be modified later on if necessary."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"Sir,—Under the Rules for the conduct of Legislative Business in this Council, when a motion is made that a Bill be referred to a Select Committee, the principle of the Bill and its general provisions may be discussed; I trust, therefore, I may, without impropriety, submit to the Council, at this stage, some observations on the measure now before us.

"In the first place, I may be permitted to observe that the proposed legislation is of a very exceptional character. It restricts, in some measure, the operation of the rule against perpetuities and of the other wholesome rules which regulate the creation of future interests and the imposition of restraints on the alienation of property. It is too late in the day to question the policy which underlies these rules, and which has stood the test of criticism for centuries. Any legislative measure which purports to interfere with these rules, and which renders it possible that a considerable proportion of the land and capital of the community may be put in fetters, requires to be jealously scrutinised, and, I may say without hesitation, that if the measure now before us had gone much further than it does, had been of unrestricted application, and had not contained the safeguards to be found in the Bill, I should have found it extremely difficult to give it even my qualified support.

"The principle, however, which underlies the Bill, namely, the preservation of the ancient and aristocratic families of this Province from decay, has my unqualified approval, and, in so far as the provisions of the Bill are calculated to attain that object, they have my hearty support. I am afraid, however, that the extent to which by this Bill a concession is made in favour of our landed aristocracy has been misunderstood and to some extent exaggerated. Under the law as it has now been settled by judicial decision, a Hindu is entitled to deal with his property freely if the estate which he creates is, in respect of quality and quantity, such as is recognised in Hindu law and is not opposed to any principles of public policy. As pointed out by the Judicial Committee in the celebrated case of Tagore *vs.* Tagore, a Hindu is entitled to create a succession of life estates, provided the donee is a person in existence at the date of the gift. If, therefore, a landowner has his son and grandson alive, he is entitled to give a life-interest in his properties to his son, and subject to such life-estate, an absolute interest to his grandson. The Bill in substance provides that this may be lawfully done even if the son and the grandson are not in existence.

"To this extent the Bill abrogates the rule that the donee must be in existence capable of taking at the time when the gift is made; to the same extent, also, the Bill makes the rule against perpetuities inapplicable; subject in each instance to the restriction that the donee is selected with reference to the rule of primogeniture. The exception, therefore, which is made to the ordinary law of the land in favour of the aristocracy is of a limited character and ought to meet with our approval. In the absence of any provision in the law similar to those contained in the Bill, our ancient and wealthy families must ultimately be ruined; their estate must in each generation be divided amongst the owners,

and cons diminishe prestige and territorial influence considerably

"The observations I have made are applicable primarily to Hindu families, but they apply with still greater force to the Muhammadan nobility, who live under a law which allows upon the death of a proprietor, not merely his sons, but a number of relations, more or less remote, to partake in the inheritance. Indeed, I may be permitted to observe that so far as these Muhammadan families are concerned, the Bill in one sense comes too late for families in which a number of heirs has already succeeded to the inheritance, and I am happy to find that my views are in entire agreement with those of my hon'ble friend, the Nawab Bahadur of Dacca, when I say that it would have been more satisfactory if some scheme had been devised and embodied in the Bill for vesting the management of the entire estate belonging to such noble Muhammadan families in the eldest male member, who might rightly be regarded as the head of the family, and would be able to maintain its dignity and traditions.

"In the second place, Sir, I may be permitted to point out that the legislation is of a purely permissive character. The provisions of the Bill when passed into law will not be forced upon any of His Majesty's subjects, and it is idle to say that it interferes with the personal law of any member of the community, be he Hindu or Muhammadan. It is entirely optional with a landowner to say whether he will take advantage of the provisions of the Act or not. If he chooses to avail himself of the provisions of the Act, his choice will have to be approved by the Local Government before the settlement can be effected. I hope I am not making too great an assumption when I say that the Local Government may be trusted to exercise the discretion so vested in it fairly and wisely. At any rate, I have seen no substantial reasons advanced as to why such discretion should not be vested in the Local Government.

"I do not, Sir, at this stage propose to detain the Council with an examination of the various provisions of the Bill, but I may be permitted to point out that the details will have to be carefully examined. I may indicate, for instance, one question which will have to be faced, namely, the applicability of the Bill to the great landowners of Bihar, who are governed by the *Mitakshara* law. Other points which will require careful consideration will be, the number of generations to which the settlement should be limited, the provisions which must be adequate and effective for the maintenance of the relations of the settlor, the payment of the stamp duty on the settlement, the effect of this Bill upon existing laws and customs, and last, but not least, the question of the satisfaction of the debts due to creditors, raised in the very important letter from the Secretary to the Trades Association, which was placed in our hands last night. These and various other questions will have to be carefully considered and minutely scrutinised. I may be permitted, therefore, to express the hope that adequate time will be given to the Select Committee for the fullest discussion of every point connected with the Bill, and for the amplest consideration of representations which may be made by persons interested in or affected by a measure of such vital importance. Though I do not profess to be wholly unfamiliar with the subject, it seems to me that adequate time is absolutely necessary for the consideration of the details of this Bill in their various aspects."

The Hon'ble MAHARAJA MANINDRA CHANDRA NANDY, of Cossimbazar, said:—"I beg fully to support the Hon'ble Dr. Asutosh Mukhopadhyaya. I also thank the Government for the introduction of this Bill, which will be a great boon to noble families of Bengal. There are many matters in this Bill that will require to be carefully considered and discussed, and I beg also that sufficient time be given for this discussion."

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, said:—"The policy that underlies this measure seems to me to be a sound and wholesome one, and the object of the Bill is to preserve the continuity of influential zamindar families, both Hindu and Muhammadan.

"From the Muhammadan point of view, Sir, I may submit that there seems to be no objection to the principle of the Bill, inasmuch as this principle is recognised in the Muhammadan Law itself and is known as Wakf Alal Aulad, or settlement on children. Although unfortunately the Privy Council has given an adverse decision on this point, but a large proportion of Muhammadan lawyers and authorities do not agree with the view of the Privy Council, and

maintain that the Muhammadan law recognises this principle in our Wakf Alal Aulad, or settlement on children. That being so there will be no objection from the Muhammadan point of view to the principle of the Bill. No doubt it appears that the Bill trenches on the doctrine of perpetuity, but under section 2, clause (*d*), of the Transfer of Property Act, the Muhammadan Law is saved from the law of perpetuity. In other words, a Muhammadan can create a perpetuity even in spite of that law, as he is saved by section 2, clause (*d*). But, Sir, I quite agree with my hon'ble and learned friend, Dr. Asutosh Mukhopadhyaya, that this Bill does not go far enough, and I venture to urge that, unless the suggestion of the Hon'ble Nawab Bahadur of Dacca is adopted, and if this Bill is passed into law as it stands, it will be almost a dead-letter, because there is hardly one Muhammadan property in Bengal of which one person is the sole proprietor. The Bill provides only for cases in which there are no co-sharers, where a man is the sole proprietor, and therefore Muhammadans will hardly be able to avail themselves of the benefits this measure is designed to confer. I trust that this matter will be carefully considered by the strong Select Committee that has been formed, and I hope they will see their way to giving the Bill a wider scope, for otherwise it will be of no avail to the Muhammadans in the Province.

"There is another point to which I should like to refer, and that is with reference to the stamp duty. The Council are no doubt aware that there is a consensus of opinion against the provisions of section 12 as regards the stamp duty, and there also seems to be objection as to whether the power of revocation ought to be given. I commend these matters to the careful consideration of the Select Committee, and while supporting the Bill submit that it ought to have a wider scope."

The Hon'ble the PRESIDENT said:—"Before putting this motion I desire to advert for one moment to the remarks which have fallen from some Hon'ble Members to the effect that full time should be given for the consideration of this Bill before the Select Committee submit their Report. As Hon'ble Members will see the terms of the motion which I have to put before the Council are that the Bill be referred to a Select Committee with directions to report at the next meeting of the Council, and the present intention is that the next meeting of the Council shall be on Friday next. I see that this announcement has been received with some surprise, and I therefore proceed to explain what the reasons are for calling a meeting of the Council at such an early date.

"In the first place, this Council will shortly disperse and the members of Government who compose it will be leaving Calcutta. During the week that is before us it is the intention of the Member in charge of the Bill to have several meetings of the Select Committee so that the work may be got through as quickly and as thoroughly as possible, and that their Report may be prepared by next Friday. After that if the Report is prepared and presented, my intention is that it should be published for thorough and extensive criticism by all those concerned, and that the Select Committee's Report should not be taken up for consideration till some date at the beginning of the cold weather, so that six weeks or two months will be given for a complete study of that Report. Another reason is that it seems most likely that several important matters will be brought forward in Select Committee, and it may be necessary to refer some of them to the Government of India. If the Select Committee submit their Report next Friday, there will be time to submit those matters to the Government of India and to receive their reply before the next meeting of the Council.

"These are the reasons which have led me to think that this Report should be submitted at such an early date. I desire to add that it is always in the power of the Select Committee to submit a supplementary or additional report after receiving further suggestions."

The Motion was then put and agreed to.

The Council was adjourned to Friday, the 14th August, 1903, at 11 A.M.

QUESTIONS AND ANSWERS.

EXPENDITURE FOR EDUCATIONAL REFORMS.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—

In the Bengal Financial Statement for 1902-1903, under head 22—Education, Rs. 42,42,000 was budgeted, including an Imperial grant of Rs. 10,00,000, for educational reforms.

(*a*) Will the Government be pleased to furnish details showing in what manner the normal grant of Rs. 32,42,000 and the special grant of Rs. 10,00,000 were actually spent between the 1st April, 1902, and the 31st March, 1903?

(*b*) Will the Government be pleased to state how much of such expenditure under each head was incurred between the date of the preparation of the Bengal Financial Statement for 1903-1904 and the 31st March, 1903?

(*c*) Will the Government be pleased to state the substance of any instructions given by the Government of India as to the manner in which the Imperial grant of Rs. 10,00,000 was to be spent, contained in their letters dated the 10th March, 1902, 10th May, 1902, and any other letters on the subject?

(*d*) Is it true that the Imperial grant of Rs. 10,00,000 was intended to meet, in part, the expenditure which will be the outcome of the recommendations of the Educational Conference held at Simla in September, 1901? If so, will the Government be pleased to state what are the recommendations of the Conference which have been so carried out?

(*e*) Will the Government be pleased to state what sum out of the ordinary Education grant of Rs. 32,42,000, and what sum out of the Imperial grant of Rs. 10,00,000, included in the Financial Statement of 1902-1903, actually remained unexpended on the 31st March, 1903? Will the Government be pleased to state whether such unexpended balance lapsed to Government?

The Hon'ble MR. EARLE replied:—

"(*a*) The statistical information asked for in clause (*a*) of the Hon'ble Member's question is furnished, as far as it is available, in a statement which is laid on the table. The replies to the remaining clauses of the question are as follow:—

"(*b*) No reply can be given to this question, because, as a matter of fact, the Bengal Financial Statement is under preparation during the month of March: in the current year it was presented on the 27th of that month.

"(*c*) and (*d*) (*i*) The Government of India, in their letter of the 10th March, 1902, referred to by the Hon'ble Member, stated that they had decided to make a recurring grant of Rs. 10,00,000 to Provincial Revenues to meet increased expenditure under Education, while in their letter of the 10th May, 1902, they stated that the grant of ten lakhs was intended to meet, in part, the expenditure which would be the outcome of the recommendations of the Educational Conference held at Simla in September, 1901, and should not be generally utilised for charges falling outside that expenditure. No further instructions have been given with regard to this subject by the Government of India.

"(*ii*) The Lieutenant-Governor is not able to furnish information showing which of the recommendations of the Educational Conference, held at Simla in 1901, have been carried out, because the proceedings of that Conference are still treated as confidential.

"(*e*) A sum of Rs. 2,07,774 out of the Provincial grant of Rs. 32,42,000 and a sum of Rs. 2,05,409 out of the Imperial grant of Rs. 10,00,000 remained unexpended on the 31st March, 1903. The unexpended balances lapsed to Government."

The following is the statement above referred to:—

* THE actual expenditure out of the sum of Rs. 42,42,000 provided in the Education Budget was Rs. 38,28,837, as shown below:— *

			Rs.

* The information available does not show separately and in detail the items of expenditure of the grant of Rs. 32,42,000 and of the Imperial grant of Rs. 10,00,000. Approximately, the expenditure incurred from the former amounted to Rs. 30,34,246, and that from the latter to Rs. 7,94,591.

REDUCTION OF GOVERNMENT SCHOLARSHIPS.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA asked:—

(*a*) Will the Government be pleased to state whether the junior Government scholarships awarded upon the results of the Entrance Examination of the Calcutta University and the senior Government scholarships awarded upon the results of the F. A. Examination of the Calcutta University have been reduced both in number and amount? If so, will the Government be pleased to state the extent of such reduction?

(*b*) Will the Government be pleased to state in what year the amount of each scholarship, which has now been reduced, was originally fixed? Will the Government be pleased to state for how many years the number which is now reduced has continued unchanged?

(*c*) Will the Government be pleased to state (1) the number of candidates who appeared at the Entrance and F. A. Examinations of the Calcutta University in 1903; (2) the number of junior and senior scholarships awarded upon the results of such examinations and the value of each of such scholarships; (3) the number of candidates who appeared at the Entrance and F. A. Examinations of the Calcutta University in the year in which the number and value of the junior and senior scholarships were fixed at the figures which were in force up to 1902; (4) the number and value of each of such scholarships in the year just mentioned?

(*d*) Will the Government be pleased to state whether it is true that some of the junior scholarships previously awarded upon the results of the University Entrance Examination have been diverted for the encouragement of students passing by the B and C standards under the new bifurcation scheme? If so,

will the Government be pleased to state the number and value of the scholarships so diverted? Will the Government be pleased to state the number of students who have appeared, or are likely to appear, at the B and C standard examinations and to whom the competition for the diverted scholarships is confined?

(e) Is the Government aware that though the ordinary monthly tuition fee in the Presidency College is Rs. 12, an exception has hitherto been made in the case of students holding junior scholarships who are required to pay only Rs. 10, being the amount of the junior scholarship of the lowest grade? Inasmuch as the value of the junior scholarship of the lowest grade is now reduced from Rs. 10 to Rs. 8, will the Government be pleased to consider whether the tuition fee in the Presidency College should not be reduced from Rs. 10 to Rs. 8 in the case of students holding junior scholarships?

(f) Has the attention of the Government been drawn to paragraphs 71 to 75 of the Report of the Indian Universities Commission relating to the raising of fees in Colleges and the establishment of a "comprehensive and liberal system of scholarships" for the benefit of "poor but really able students"? Will the Government be pleased to consider whether it is advisable to reduce the number and value of the scholarships when the question of raising the fees and establishing a liberal system of scholarships is under the consideration of the Government of India?

(g) Will the Government be pleased to state the reasons for the reduction in the *value* of the scholarships? Will the Government be pleased to state what is the amount saved annually by such reduction?

The Hon'ble MR. EARLE replied:—

"The statistical information asked for by the Hon'ble Member, under heads (a) to (d) of this question, is given in a statement which is laid on the table. The replies under heads (e), (f) and (g) are as follow:—

"(e)—Government is aware that junior scholars reading in the Presidency College are required to pay Rs. 10 a month as tuition fees. The question of a reduction of these fees, in the case of these scholars, who now receive stipends amounting to Rs. 8 *per mensem* only, was fully considered in the year 1902, but it was decided that no change should be made.

"(f) and (g)—Government is fully aware of the remarks recorded in paragraphs 71 to 75 of the University Commission's report, to which the Hon'ble Member has alluded, and those observations are still under consideration. The reduction in the number and value of the scholarships now under discussion was made at the instance of the Government of India, who, in reviewing the Report on the Progress of Education in India from 1892-93 to 1896-97, observed that the amount spent on junior and senior scholarships in Bengal had exceeded the 2 *per cent.* limit fixed by the Education Commission of 1881. A reduction was, accordingly, effected in the manner above shown, the whole of the amount thus set free (Rs. 14,376 *per annum*) being allotted for the creation of additional primary scholarships."

The following is the statement above referred to:—

(a)—The number of Junior Government Scholarships awarded upon the results of the Entrance Examination of the Calcutta University has been reduced by 18, but no reduction has been made in the number of Senior Government Scholarships awarded upon the results of the F. A. Examination. The values of both the Junior and Senior Scholarships have been reduced, as shown below:—

JUNIOR SCHOLARSHIPS.

1st grade.

6 Scholarships from Rs. 20 to Rs. 16 a month.

2nd grade.

41 Scholarships from Rs. 15 to Rs. 12 a month.

3rd grade.

87 Scholarships from Rs. 10 to Rs. 8 a month.

SENIOR SCHOLARSHIPS.

1st grade.

10 Scholarships from Rs. 25 to Rs. 20 a month.

2nd grade.

40 Scholarships from Rs. 20 to Rs. 16 a month.

(*b*)–The values and number of these scholarships were originally fixed in the year 1889. No change was made in the number of these scholarships till the year 1902.

(*c*) (1)—The number of candidates who appeared at the Entrance and F. A. Examinations of the Calcutta University in the year 1903 from schools or colleges in Bengal, exclusive of private candidates, who are ineligible for scholarships, was 5,693 and 3,552, respectively.

(2) The number of Junior Scholarships awarded on the result of the Entrance Examination, exclusive of 3 special scholarships for females and 20 special scholarships for Muhammadans, was 134, while the number of Senior Scholarships awarded on the result of the F. A. Examination, exclusive of 2 scholarships for females and 20 special scholarships for Muhammadans, was 50. The values of these scholarships were as shown under (*a*) above. The values of special scholarships for girls are the same as those of scholarships for boys, while the values of the special Senior Scholarships for Muhammadans are Rs. 10, or Rs. 7 a month, respectively (10 at Rs. 10 and 10 at Rs. 7), and those of special Junior Scholarships for Muhammadans are Rs. 7 a month.

(3) The number of candidates who appeared at the Entrance and F. A. Examinations of the Calcutta University in the year 1889 from the schools or colleges in Bengal, exclusive of private candidates, who are not eligible for scholarships, was 4,761 and 2,099, respectively.

(4) In the year 1889 there were 152 Junior Scholarships, exclusive of 3 special scholarships for females and 20 special scholarships for Muhammadans, and 50 Senior Scholarships, exclusive of 2 special scholarships for girls and 20 special scholarships for Muhammadans. The values of the Junior Scholarships were Rs. 20, Rs. 15 and Rs. 10, and those of the Senior Scholarships Rs. 25 and Rs. 20, respectively. The values of the special scholarships for girls were the same as those of scholarships for boys, while those of special scholarships for Muhammadans were as shown in *c* (2) above.

(*d*)–Four Junior Scholarships of the first grade, 6 of the second grade, and 8 of the third grade, of the values of Rs. 16, Rs. 12 and Rs. 8, respectively, previously awarded upon the result of the Entrance Examination, have been transferred to students passing by the B and C standards under the new bifurcation scheme. The number of students who appeared at the recent B and C examinations was 84.

PLACING OF GOVERNMENT COLLEGES UNDER INDIAN PROFESSORS.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA asked :—

In paragraph 864 of the Bengal Administration Report for 1901-1902, page 313, it is stated that "the policy of Government of placing certain of the Government Colleges entirely under Indian Professors is being gradually carried out."

(*a*) Will the Government be pleased to state when the policy referred to in the preceding extract was inaugurated, and specify what steps have been taken to give effect to such policy?

(*b*) Will the Government be pleased to specify the names of the Government Colleges which are *now entirely* under Indian Professors, and also the names of the Colleges which are intended to be placed under Indian Professors?

(*c*) Will the Government be pleased to state whether it is intended to include the Presidency College in this category? Will the Government be pleased to state the number of Professors and Lecturers now employed in the Presidency College, and specify how many of these are Indian and how many non-Indian?

(*d*) In the case of Government Colleges which have already been placed *entirely* under Indian Professors, will the Government be pleased to state whether it is true that such Indian Professors belong, in the majority of instances, to the Provincial Service, whereas the European Professors whom they have replaced belonged generally to the Imperial Service? Will the Government be pleased to state whether it is true that such employment of Indian Professors has resulted in a substantial saving in the cost of management of such Colleges?

(*e*) Will the Government be pleased to state whether these Indian Professors, who are on a lower grade and draw a lower salary than the European Professors whom they have replaced, are carrying on educational work with equal efficiency?

The Hon'ble MR. EARLE replied:—

"(*a*) and (*b*) The policy of placing certain of the Government Colleges entirely under Indian Professors emanated from a recommendation made by the Public Service Commission in the year 1886-87, to the effect that the English agency employed in the Educational Service should be reduced. This recommendation was, however, qualified by an expression of opinion that there should be, in each Presidency, at least one College with a staff of Professors capable of teaching up to the highest European standards, under a European Principal, and that the same object should, as far as possible, be kept in view as regards the smaller Colleges. In pursuance of this policy, while several officers of the Indian Educational Service have always been attached to the Presidency College, and the Dacca and Patna Colleges have each been provided with a Principal and a Professor belonging to that Service, the Colleges at Hooghly, Krishnagar, Rajshahi, Cuttack and Chittagong, and the Sanskrit College, Calcutta, have usually been manned by officers of the Provincial Educational Service, which consists almost entirely of Indian gentlemen. All the last-named Colleges, with the exception of the Hooghly College, are at present entirely officered by Indian Professors. There is no proposal to increase the number of Colleges which are entirely placed under such Professors.

"(*c*) As shown above, it is not intended to include the Presidency College in the category of those institutions which are to be placed entirely under Indian Professors. There are at present attached to the Presidency College 15 Indian and 7 European Professors. Owing to the absence, on deputation and leave, of four European Professors from this College, there has recently been some temporary reduction in the number of such officers and a corresponding increase in the number of Indian Professors.

"(*d*) In the case of Government Colleges, which have been placed entirely under Indian Professors, such Professors usually belong to the Provincial Service. According to present arrangements, however, the Dacca College will shortly be entirely manned by Indian Professors, two of whom will be in the Indian Educational Service. Inasmuch as the rate of pay in the Provincial Service is lower than that which prevailed in the former superior graded service, from which the European Professors were previously drawn, the substitution of Indian for European Professors has resulted in a substantial reduction in the cost of maintaining the Colleges under consideration.

"(*e*) In order to institute the comparison between the educational work of the Indian Professors and that of the European Professors whom they have replaced, as desired by the Hon'ble Member, it would be necessary to call upon the Director of Public Instruction for a full report. The Lieutenant-Governor is not disposed to take this step."

THE BENGAL SETTLED ESTATES BILL, 1903.

THE Hon'ble MR. BUCKLAND presented the Report of the Select Committee on the Bill to facilitate the family settlement of estates in Bengal.

The Hon'ble the PRESIDENT said:—"Since we last met in this Council Chamber, the Select Committee on the Bill for the family settlement of estates in Bengal have worked with such assiduity that the Hon'ble Mr. Buckland has been able to present to-day their Report on the Bill.

"It will be recollected, however, that on Saturday last I mentioned that there might be certain matters in the Report which might necessitate a reference to the Government of India. I have perused the Report which the Hon'ble Mr. Buckland has just presented, and I find that my expectations have been fulfilled. There are several modifications of importance which the Select Committee have felt themselves obliged to recommend. Therefore, in accordance with the provisions of Rule 7 of the Instructions of the Government of India regarding legislation in Local Councils, I consider it necessary to delay the further progress of this Bill until these matters have been laid before the Government of India and their instructions have been received.

"In these circumstances the Report will not be published at present, and the further consideration of the Bill, to which it refers, will be postponed till some later date."

The Council was adjourned *sine die*.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 28th August, 1903:

NO. 13 OF 1903.

A Bill to amend the Indian Official Secrets Act, 1889.

XV of 1889. WHEREAS it is expedient to amend the Indian Official Secrets Act, 1889; It is hereby enacted as follows:

Short title.

1. This Act may be called the Indian Official Secrets (Amendment) Act, 1903.

Amendment of section 3, Act XV, 1889.

XV of 1889. 2. In section 3 of the Indian Official Secrets Act, 1889, the following alterations shall be made, namely:

(*a*) in sub-section (*1*), sub-head (*a*), for the words "for the purpose of wrongfully obtaining information" the words "without lawful authority or permission (the proof whereof shall be upon him)" shall be substituted;

(*b*) in clause (*ii*) of the same sub-section and sub-head,—

(*i*) after the words "obtains" and "obtain" the words "or attempts to obtain" and "or any copy of any such document, sketch, plan or model," respectively, shall be inserted, and

(*ii*) the words "without lawful authority" shall be omitted;

(*c*) in clause (*iii*) of the same sub-section and sub-head, the words "without authority given by or on behalf of Her Majesty" shall be omitted; and

(*d*) in sub-head (*c*) of the same sub-section and in sub-section (*2*), for the words "naval or military" the words "naval, military or civil" shall be substituted.

Substitution of sections for section 5, Act XV, 1889.

3. For section 5 of the said Act the following sections shall be substituted, namely:

Offences under Act cognizable and non-bailable.

"5. Notwithstanding anything in the Code of Criminal Procedure, 1898, every offence against this Act shall, for the purposes of the said Code, be deemed to be cognizable and non-bailable. V of 1898.

Procedure after arrest on charge of certain offences punishable under Act.

"6. (*1*) Notwithstanding anything contained in section 59 or section 60 of the said Code, any private person or police-officer who has arrested any person on a charge of an offence under section 3, sub-section (*1*), sub-head (*a*), and any police-officer to whom any person arrested on any such charge has been made over, may, instead of making over the person so arrested to a police-officer or taking him to the nearest police-station or taking or sending him before a Magistrate having, subject to the provisions of section 7, jurisdiction in the case or before the officer in charge of a police-station, as the case may be, take or send him before the commanding officer for the time being of the nearest military station or such other officer as the Local Government or the Governor General in Council may, by general or special order, direct in this behalf.

(2) Where any person has been taken or sent before the commanding or other officer in accordance with sub-section (1), such officer may, if he thinks fit, discharge such person, but, if he does not discharge him, shall, without unnecessary delay, take or send him to the nearest police-station or to any Magistrate having, subject to the provisions of section 7, jurisdiction in the case.

(3) Where any person has been taken or sent to a police-station or to a Magistrate under sub-section (2), the provisions of the Code of Criminal Procedure, 1898, shall, save as otherwise provided by section 7, apply to him as though he had been taken to such police-station or Magistrate without being taken or sent before the officer commanding the station or other officer. V of 1898.

Restriction on trial of offences.

"7. No Magistrate or Court shall proceed to the trial of any person for an offence against this Act except with the consent of the Local Government or the Governor General in Council."

STATEMENT OF OBJECTS AND REASONS.

THE present Bill is designed to remedy certain defects disclosed by experience in the Indian Official Secrets Act, 1889 (XV of 1889), and tending to render it less effective for the objects which it had in view.

Clause 2.—The criminality of the acts specified in section 3 should be made to depend less on the purpose with which they are done—which is hardly susceptible of proof—than on the fact that they are committed "without lawful authority or permission"; the burden of proof as to the grant of such authority or permission being placed on the person charged as a matter especially within his knowledge. It should also be made clear that the section applies to the divulging of secret information connected with the civil administration as well as naval and military affairs, and it is proposed to extend it so as to cover attempts, and further to apply to copies of documents the provisions at present limited to originals.

Clause 5 introduces certain amendments which are necessary to permit of offenders being arrested without delay and to authorise Courts to take preliminary action in cases brought before them in anticipation of Government sanction being obtained to a prosecution. At the same time facilities are introduced by which a person who is arrested may be taken at once before some superior and responsible officer, who will discharge him unless he sees reason for taking the matter into Court.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 28th August, 1903:

No. 14 OF 1903.

A Bill to give effect to the Foreign Marriages Order in Council, 1903.

WHEREAS it is expedient to give effect to the Foreign Marriages Order in Council, 1903; It is hereby enacted as follows:

Short title, extent and application.

1. (*1*) This Act may be called the Indian Foreign Marriage Act, 1903.

(*2*) It extends to the whole of British India, inclusive of British Baluchistan, the Santhal Parganas, the Shan States, and the Pargana of Spiti; and

(*3*) It applies also to all British subjects and to all servants of the King, whether British subjects or not, in the territories of any Native Prince or State in India.

Notice of marriage intended to be solemnized under 55 & 56 Vict., c. 23.

55 & 56 Vict., c. 23.

2. (*1*) Notice in writing of a marriage which it is intended to solemnize under the Foreign Marriage Act, 1892, may be given by one of the parties intending such marriage, to—

XV of 1872.

(*a*) a Marriage Registrar appointed under the Indian Christian Marriage Act, 1872, where either of such parties is a person professing the Christian religion;

(*b*) a District Magistrate, Chief Presidency Magistrate or Political Agent, where neither of such parties is a person professing the Christian religion:

Provided that the party giving such notice as aforesaid shall have had his usual place of abode for not less than three consecutive weeks immediately preceding the giving of notice within the local limits of the area for which the Marriage Registrar, Magistrate or Political Agent to whom the notice is given, is appointed.

(*2*) Every notice given under this section shall state—

(*a*) the name and description of each of the parties intending marriage;

(*b*) the residence of each of them;

(*c*) the time during which each of them has dwelt there; and

(*d*) the place in which the intended marriage is to be solemnized;

and it shall contain a declaration by the party giving the notice to the effect that he believes that there is no impediment of kindred or affinity or other lawful hindrance to the solemnization of the said intended marriage.

(*3*) A copy of every notice given under this section shall be published by being affixed in some conspicuous place in the office of the officer to whom the notice is given.

(*4*) On the expiration of four clear days after such notice as aforesaid has been published in the manner prescribed by sub-section (*3*), the officer to whom the notice is given, unless he is aware of any impediment of kindred or affinity or other lawful hindrance to the solemnization of the said intended marriage, shall, on payment of such fee (if any) as the Governor General in Council may fix in this behalf, furnish the party by whom the notice was given, with a certificate, under his hand and seal, to the effect that the notice has been so given and published.

STATEMENT OF OBJECTS AND REASONS.

THE Foreign Marriages Order in Council, 1903, directs that, if a marriage officer proceeding under the Foreign Marriage Act, 1892 (55 & 56 Vict., c. 23), is satisfied that such notice of an intended marriage has been given by a party dwelling in India as may be required by any law of the Governor General in Council giving effect to that Order, such notice shall be sufficient for the purposes of the Statute; and it is further explained that a law of the Indian Legislature shall be deemed to give effect to the Order if it provides—

(1) that notice of a marriage intended to be solemnized under the Statute referred to may be given by one of the parties intending such marriage, who has had his or her usual place of abode for three consecutive weeks immediately preceding in some place in India, to such marriage registrar or other officer as may be designated by the law in this behalf;

(2) that such notice shall be published either by proclamation of banns or in such other manner as the law may provide; and

(3) that such marriage registrar or other officer, unless he is aware of any impediment or objection which should obstruct the solemnization of the marriage, shall, on payment of such fee, if any, as the law may fix, give a certificate that the said notice has been so given and published as aforesaid.

The present Bill is intended to give effect to this Order in Council.

The 21st August, 1903. A. T. ARUNDEL.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 28th August, 1903

NO. 15 OF 1903.

A Bill further to amend the Lepers Act, 1898.

WHEREAS it is expedient further to amend the Lepers Act, 1898, by providing for the segregation and medical treatment in British India of lepers belonging to Native States; It is hereby enacted as follows:

III of 1898.

Short title.

1. This Act may be called the Lepers (Amendment) Act, 1903.

Addition of new section after section 18, Act III, 1898.

2. After section 18 of the Lepers Act, 1898, the following section shall be added, namely: III of 1898.

Lepers from Native States.

"19 The Governor General in Council may, by notification in the Gazette of India, direct that any leper or class of lepers, with respect to whom an order for segregation and medical treatment has been made by a Magistrate having jurisdiction within the territories of any Native Prince or State in India, may be sent to any leper-asylum specified in such order; and thereupon the provisions of this Act and of any rules made thereunder shall, with such modifications not affecting the substance as may be reasonable and necessary to adapt them to the subject-matter, apply to any leper sent to a leper-asylum in pursuance of such notification as though he had been sent by the order of a Magistrate having jurisdiction under this Act."

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is, as stated in the preamble, to provide, by an amendment of the Lepers Act, 1898 (III of 1898), for the segregation and medical treatment of lepers belonging to Native States. The Act extends as a territorial law only to British India, a person brought from a Native State in police custody is not a "pauper leper" within the meaning of section 2, and a Local Government cannot, under section 3 as it stands, specify local areas in Native States from which lepers may be sent, for the purposes of the Act, to a British Indian leper-asylum.

Impérieuse rock—Buoy marking the rock placed to the north-eastward.

With reference to Notice to Mariners No. 273, dated 14th August 1903, issued by this office, the British Admiralty has given further notice (No. 614 of 1903) that the rock situated three-quarters of a cable north-eastward of Impérieuse rock has been marked by a black conical buoy, surmounted by staff and ball, moored in a depth of 6¼ fathoms a quarter of a cable eastward of the rock, with Cornwallis stone bearing N. 64° E., distant 3¼ cables. Vessels should pass to the eastward of this buoy.

Approximate position, lat. 24° 26′ N., long. 118° 4¼′ E.

The previous information received and published in the last of the abovementioned Notices that this buoy marked the Impérieuse rock is therefore erroneous.

Notice is also given that a pinnacle rock, with a depth of 15 feet over it at low water, exists about 50 yards north-eastward of Impérieuse rock, situated with Cornwallis stone bearing N. 67° E., distant 4 cables.

Kao Tao islands—Dangers between—.

The British Admiralty has given notice (No. 616 of 1903) of the existence of the undermentioned dangers between the Kao Tao islands:—

(a) A shoal, with a depth of 2 fathoms over it, situated with the northern extremity of Tsham shao bearing N. 73° E., distant 1¾ miles, and the western extremity of Tankan shao N. 33° W.

(b) A shoal, with a depth of 2 fathoms over it, situated with the cone (541 feet) on Sha Pak Wan island bearing S. 87° W., distant 2$\frac{6}{10}$ miles, and the eastern extremity of Afo shao N. 21° W.

(c) A shoal, with a depth of 2 fathoms over it, situated with the cone (541 feet) on Sha Pak Wan island bearing N. 79° W., distant $2\frac{5}{10}$ miles, and the eastern extremity of Afo shao N. 13° W.

(d) A rock awash, situated with the cone (541 feet) on Sha Pak Wan island bearing S. 15° E., distant $2\frac{1}{4}$ miles, and the northern extremity of Uli pai N. 85° W., distant $1\frac{6}{10}$ miles.

Guam island—Banks to the south-westward.

The British Admiralty has given notice (No. 622 of 1903) that the following banks were found by Lieutenant F. H. Schofield, commanding U.S.S. *Supply*, when searching for Galvez and Santa Rosa reefs, to the south-westward of Guam island:—

(1) A bank, about $2\frac{1}{4}$ miles long in an easterly and westerly direction, and $1\frac{1}{2}$ miles broad, with depths of from 22 to 40 fathoms over it, the centre being approximately lat. 12° 58′ N., long. 144° 22′ E.

(2) A bank of small extent, with depths of from 22 to 32 fathoms over it, in approximately lat. 13° 2′ N., long. 144° 26′ E.

(3) A bank, extending about $1\frac{3}{4}$ miles in a northerly and southerly direction, with depths of from 28 to 46 fathoms over it, in approximately lat. 13° 4′ N., long. 144° 25′ E.

Proudfoot shoal light ship removed.

The Portmaster, Brisbane, has given notice (No. 7 of 1903) that on and after 31st January 1904, the light exhibited from the Lightship at Proudfoot Shoal, Western Approach to Torres Strait, will be discontinued, and the Lightship will be withdrawn.

The shoal patch of $1\frac{1}{2}$ fathoms marked P.D. on charts south-easterly from the Lightship is believed to be identical with the Bramble Patches. There is no evidence to the contrary, the report of its existence being extremely vague.

Masters of vessels approaching Torres Strait from the westward are recommended to get on the parallel of 10 degrees 45 minutes south before reaching the 20-fathom contour, and continue on that parallel until Booby Island is visible bearing north-easterly, then to steer to pass 2 miles to the north of the Island and thence continue as hitherto.

Vessels bound to the westward after passing Booby Island are recommended to steer south-west magnetic 16 miles, then to steer west half south until a safe direction can be made for their destined port.

NOTE.—Booby Island is visible a distance of 14 or 15 miles; the light (a second order) is visible 17 to 19 miles by night from an ordinary ship's bridge.

Port Adelaide river—Alterations consequent on Light's Passage Harbour Works, being in progress.

THE President, Marine Board, Port Adelaide, has given notice (No. 4 of 1903) that in consequence of the Light's Passage Harbour Works being now in progress, the following alterations will be made on or about the 20th August next:—

No. 1 Leading Beacon and No. 2 Light Beacon will be removed altogether.

In lieu thereof two Beacons showing Green Lights will be placed on the North Bank, one near the present Reflecting Beacon and the other opposite the present No. 1 White Light.

Two Light Beacons (both red) will be placed on the North Bank, which, when in line, will lead through the Cutting to the Bend.

Two Beacons, having White Lights, will be placed on the South Bank, which, when in line, will show the Bend in the Channel.

Sailing Directions.—To enter the River pass the Occulting Buoy at a distance of about 50 feet, and steer between the White Light on a Pile abreast of the old Lighthouse and the first Green Light, which is placed between the Reflecting Beacon and the Cutting, on a N.E. by E. course, passing the second Green Light at a similar distance until the New Lead on the North Bank (now No 1 Lead) comes in line. Keep them in line until the two lights on the South Bank are in line, then steer for No. 3 as before.

Port Nicholson entrance—Falcon shoals in fairway.

THE British Admiralty has given notice (No. 601 of 1903) of the existence of the undermentioned shoal heads in the fairway into port Nicholson, now named Falcon shoals, and of a shoal in Lyall bay:—

(1) A shoal, with a depth of 24 feet over it at low water, situated with the northern extremity of Ward island, bearing N. 30° E., distant 9 cables, and the outer extremity of the rocks off Kau point N. 65° W.

(2) A shoal, with a depth of 24 feet over it at low water, situated with the northern extremity of Ward island, bearing N. 34° E., distant 10¾ cables, and the outer extremity of the rocks off Kau point N. 59° W. This shoal is within the sector of white light shown from Somes island light.

(3) A shoal, with a depth of 23 feet over it at low water, situated with the northern extremity of Ward island, bearing N. 39° E., distant 11¾ cables, and the outer extremity of the rocks off Kau point N. 54° W.

(4) A shoal, with a depth of 26 feet over it at low water, situated with the northern extremity of Ward island, bearing N. 44° E., distant 14½ cables, and the outer extremity of the rocks off Kau point N. 40° W.

(5) A shoal, with a depth of 27 feet over it at low water, situated with the northern extremity of Ward island bearing N. 17° E., distant 11½ cables, and the outer extremity of the rocks off Kau point N. 58° W.

(6) A shoal, with a depth of 18 feet over it at low water, situated with the northern extremity of Ward island, bearing N. 2° E., distant 11½ cables, and the outer extremity of the rocks off Kau point N. 61° W.

(7) Hope shoal, 5 cables S. 41° W., from the northern extremity of Ward island, has a depth of 5 feet, at low-water springs, and not 10 feet, as shown on the Chart.

(8) There are several patches of from 7 to 10 feet between Hope shoal and Ward island.

(9) The depths in the passage eastward of Ward island between it and Robinson bay have decreased to 10 feet in places.

Lyall bay:—

A shoal, with a depth of 16 feet over it at low water, exists in Lyall bay, 4½ miles south-westward of Ward island, situated with the signal station bearing N. 46° E., distant 17 cables, and mount Albert N. 49° W. Foul ground, with depths of from 21 to 27 feet over it, extends for a distance of 1¼ cables S.S.E. from this shoal.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE POLICE DEPARTMENT IN BENGAL FOR THE YEAR 1902.

RESOLUTION—No. 2707J.—D.

POLICE.

Dated Darjeeling, the 31st August 1903.

READ—

The Report on the Administration of the Police Department for the year 1902.

Read also—

The Report for the year 1901 and the Resolution of Government recorded thereon.

Mr. W. R. Bright, C.S.I., was in charge of the office of Inspector-General of Police from the 1st January to the 14th April 1902. Mr. A. V. Knyvett officiated as Inspector-General from the 15th April to the 30th April 1902, and again from the 6th December to the end of the year, while for the remainder of the period under review Mr. R. W. Carlyle, C.I.E., the permanent incumbent of the post, was in charge.

2. The total strength of the Police force, officers and men, in 1902, exclusive of the village watch, was 24,742. There was no change in the strength of the superior police staff during the year, but 2 Sub-Inspectors, 6 head-constables, 123 constables, and 1 town chaukidar were added to the subordinate staff. The inadequate strength of the present superior staff is admitted. In consequence of this inadequacy it was, unfortunately, often necessary last year to place Inspectors in charge of districts; and the Inspector-General complains that officers of this class were frequently not available for the investigation of important and difficult cases. The Inspector-General agrees in his predecessor's opinion that the present system by which a certain number of Sub-Inspectors are recruited by open competitive examination has proved a failure. Orissa no longer sends candidates for this examination, as it was found that they were always below the requisite standard, and the Lieutenant-Governor notices that a sufficient number of qualified candidates did not present themselves at the examination held at Patna, and also that the candidates recruited by open competition have often proved unsatisfactory; he is inclined to agree with the Inspector-General that the results of this system have, on the whole, been disappointing. His Honour, however, defers dealing with this question, as with many other questions of police reform, in view of the fact that the conclusions arrived at by the Police Commission will shortly be known. The continued development of the Bhagalpur Training School is a satisfactory feature of the year's work.

3. The discipline of the police force in the year under review has, on the whole, been satisfactory, and in considering the number of charges brought against police officers and the punishments imposed, the figures with regard to total strength should be borne in mind. Cases of police oppression show a slight decrease on the figures of the preceding year. Serious charges of torture have fallen from 18 to 8, and in one case only was a judicial conviction for torture obtained. In 19 cases, charges of extortion were proved, while in over 50 per cent. of the charges under this head, the Courts found the complaint to be groundless. The work and conduct of the police have recently received the fullest examination from the Police Commission; and the Lieutenant-Governor will content himself with saying on the present occasion that while it must be admitted that the Bengal Police too frequently fall short of a reasonable ideal in honesty and thoroughness of work, there has been during his experience in Bengal steady improvement of police administration under all heads. To quicken this improvement must be the earnest care of Government and its officers: the public also can take a part in this amelioration if they will place fewer temptations in the way of the police, and if they will bring cases of misconduct to the notice of the proper authorities, instead of indulging in vague and indiscriminate condemnation. His Honour notices with regret that it was necessary during the year to punish departmentally as many as 20 per cent. of the officers of the force. It is true that this figure compares favourably with 42 per cent. punished in 1893, but the lower figure is still excessive whether it be taken as indicating that the standard of work falls short of what can reasonably be expected or that unduly harsh treatment of subordinates prevails in some districts. The subject of departmental punishments requires the Inspector-General's closest attention, for though they are doubtless often necessary to enforce discipline, nothing is more exasperating to the force or a more fruitful source of discontent than numerous petty punishments.

4. The improvement of the village chaukidars continues. The Inspector-General's remarks as to the manner in which the administration of this force varies from district to district merit attention. In some districts panchayats are appointed for much larger circles than in others; in some districts the Subdivisional Magistrates give more assistance to the District Superintendent of Police, and the District Magistrate in appointing, dismissing, punishing and rewarding chaukidars than elsewhere; and in some districts the assessment of the chaukidari tax on rules prescribed for the guidance of panchayats has been enjoined. The field of work here is almost boundless, and the Lieutenant-Governor commends it again, as it has often been commended before, to the best efforts of the District and Subdivisional Officers and District Superintendents.

Mr. Bourdillon has not failed to notice that much has been recently written in the vernacular press as to the severe incidence of the chaukidari-tax. It is the duty of Magistrates to limit the number of chaukidars to strict requirements, and to take opportunities such as those afforded by vacancies for reducing and amalgamating charges. It is also even more important that the incidence of the tax should be fair; and that the poor, when not exempted altogether, should be taxed as lightly as possible. In this respect the Lieutenant-Governor is forced to admit that the present system is not perfect: much attention has been paid to the subject of late years, and a scrutiny of the chaukidari assessment is one of the matters which is particularly enjoined upon officers when on tour. His Honour has for some time had under consideration a scheme under which a selected Deputy Magistrate should be put on special duty in each Division for the sole purpose of examining into the chaukidari assessments, and he is convinced that much benefit would result from regularising and equalising these assessments.

It is satisfactory to observe that the admonitions of Government with regard to adequately rewarding chaukidars for good services have borne fruit. The total amount of rewards paid to chaukidars has increased from Rs. 55,655 in 1901 to Rs. 62,813, and the total number rewarded has risen from 17,021 to 18,863. There remain some districts in which the orders of Government with reference to rewarding of chaukidars have received insufficient attention; and these districts are also among the districts in which the general results of police work during the year are worst. In the districts of Rangpur and Pabna large balances—Rs. 7,974 and Rs. 8,201, respectively—stood to the credit of the District Chaukidari Reward Fund at the commencement of the year, which at the close of the year had increased to Rs. 10,901 and Rs 9,351 respectively. In both these districts there can be little doubt that the authorities would have been justified in giving rewards to chaukidars more freely; and the attention of the Commissioner of Rajshahi is drawn to the fact that the total of the balances of the chaukidari fund to the credit of the districts in his Division is almost equal to that of any two other Divisions put together. The districts of Midnapore, Murshidabad, and Malda are also remarkable for the small sums distributed in rewards, and it is unsatisfactory to find that, in the district of Murshidabad, out of 2,942 chaukidars, only 25 were departmentally rewarded. It can hardly be that in all the districts named the work of the chaukidars has been so consistently undeserving as the figures would seem to show, and Mr. Bourdillon desires once more to remind District Officers that judicious rewards afford as potent a stimulus to good work as rigorous punishments, and that these two incentives must be employed together.

5. Turning to examine the statistics of crime in 1902, the Lieutenant-Governor observes that 177,335 cognizable offences were reported, or 1,311 fewer than in the preceding year. The percentage of convictions shows an increase.

An increase in the number of offences against property is attributed by the Inspector-General to better reporting, which has been the result of a large increase in refusals to investigate in petty cases. The percentage of refusal to investigate has risen in house-breaking cases from 20·5 to 35·2, and in theft cases from 14·1 to 20. The late Lieutenant-Governor attached much importance to lightening the labours of an overburdened investigating staff by excusing them from the task of taking up cases of theft and house-breaking without theft in which no offender is named or suspected. Mr. Bourdillon fully shares this view, though he considers that the working of section 157 of the Code of Criminal Procedure requires close and incessant scrutiny.

Considerable variation is observable in the figures with regard to enquiries refused when examined Division by Division. The percentage of refusals varies, in house-breaking cases, from 22·1 in the Orissa Division to 41·5 in the Bhagalpur Division; in theft cases from 6·8 in the Patna Division to 40·2 in the Orissa Division. No explanation of the variations has been suggested. The Lieutenant-Governor has no wish to lay down any numerical standard; but it appears to him that a much greater approach to a normal standard is both possible and desirable.

6. The number of cases declared to be maliciously false has fallen from 5,190 to 4,671. The figures under this head show a progressive and steady decrease during the last 20 years. The Inspector-General thinks that Magistrates are becoming more reluctant to declare a case maliciously false on account of the long and tedious proceedings which are likely to result from such a course, but His Honour trusts that the desire to avoid trouble will not prevent Magistrates from doing their obvious duty by denouncing such cases when they really occur, and thus indirectly protecting innocent persons from the danger of a false charge. Prosecutions were instituted in 551 cases declared maliciously false (13 per cent. of the total number); and the results cannot be called satisfactory, as only 204 convictions were obtained. The number of occasions on which recourse was had to section 250, Criminal Procedure Code, by which compensation can be awarded to an accused dragged before the Court on a false or vexatious and frivolous charge, fell from 541 to 476. His Honour trusts that the provisions of this most salutary section will not be overlooked, and that Magistrates will not hesitate to avail themselves of the power thus given to them of checking the harrassment of innocent persons.

7. The number of cases tried by Courts of Sessions was 1,422, and the percentage of convictions was very nearly the same as in 1901, being 70·1 as against 71·9. It is noticed that the results of Sessions trials were unsatisfactory in Bankura, Pabna, Bogra, Faridpur, and Rangpur, where the percentage of convictions was in all cases below 40 per cent. The Inspector-General suggests that an examination of the results of Sessions trials should be omitted from future reports, as it is impossible, in his opinion, to discuss them satisfactorily without touching on matters which should not be introduced into reports which are made public. The Lieutenant-Governor cannot agree, however, in the view that the results of Sessions trials should pass unscrutinized in a report of this character. It is by the results of their efforts to cope with heinous crime that the police must mainly be judged, and Government has the best opportunity of forming this judgment from observation of the judicial results of Sessions trials. While agreeing with Mr. Carlyle that any comments on the manner in which such cases are tried would be out of place in a police report, His Honour will be glad if the Inspector-General will separately analyse in some detail the very unfavourable results in the districts named above in order that it may be seen whether bad police work was responsible for the frequent failures in cases prosecuted before the Sessions Courts. It is to be noticed that four of these districts—Rangpur, Bogra, Pabna, and Faridpur—are adjacent one to another. His Honour requests that the Inspector-General of Police and the district authorities will give specially careful supervision to police investigations in cases of heinous crime in these districts.

8. In examining the detailed heads of the crime of the year, an undesirable increase in the number of true cases, relating to coins, stamps, and currency notes, is observable. A case from the Khulna district, mentioned by the Inspector-General, in which 125 counterfeit coins were produced, appears to show that coining on a considerable scale is going on in the Sundarbans. The careful attention of Police officers should be given to crimes of this nature, which, in the present state of the silver market, must be extremely profitable, and which might become a serious danger.

It is gratifying to notice that riots continue to decrease. True cases of rioting and unlawful assembly were fewer than in any previous year since 1884. The diminishing figures for the Backergunge district, in which last year there was no riot attended with loss of life, are especially satisfactory. The Presidency Division has now taken the place formerly held by the Dacca Division, and holds the unenviable pre-eminence of having the largest number of rioting cases. The diminution of cases under section 107, Criminal Procedure Code, in the Faridpur district may have led to an increase in the number of riots in that district. The more sparing use of this section in some districts is alleged to be the result of a High Court ruling bearing on the application of section 107, Criminal Procedure Code, in land disputes. The total number of cases under this section instituted in the Province, however, in 1902 largely exceeded the figures of previous years, being 3,190 as against 2,639 of the preceding year, chiefly owing to a large increase in the Dacca Division.

9. Crimes of violence against the person showed a small decrease. The very unsuccessful results attending the investigation of murders by poisoning are an unsatisfactory feature in this class of crime; 25 persons out of 30 who were sent up on such charges were acquitted.

The steady increase of cases of administering stupefying drugs with the intention of causing hurt is noticeable. These cases have increased since 1899, when there were 21 cases, to 34 cases in the year under review. This increase may possibly be due to better reporting, but the attention of the police force is required to the fact that offences of this nature are often perpetrated by professional criminals, and, unless checked with a strong hand, they may lead to gangs of professional poisoners being formed in Bengal, as has been the case in other Provinces.

10. There has been a large decrease in the total number of burglaries reported in the Province. This decrease is due, in a very large measure, to the smaller figures for the Patna Division, and is especially to be traced to the district of Gaya, where it is to be feared that bad reporting, rather than a real decrease in crime, is the explanation. A considerable increase in the Dacca Division, accounted for by the returns from the district of Mymensingh, is disclosed. From the report it appears that the Inspector-General is making special enquiries as to the causes of the increase in this district.

Remarkable figures are reported from the district of Monghyr, which has no large city like Patna to swell its returns of burglaries. In this district no fewer than 2,133 burglaries were reported as against 1,164 in the 24-Parganas, 1,160 in Bhagalpur (an adjoining district), and 491 in Cuttack, all of which are districts of approximately the same population and area. Out of this enormous number of cases in Monghyr only 72 were prosecuted to conviction. It is evident that the strenuous efforts of the district authorities are necessary to deal with this class of crime, and the preventive sections of the Criminal Procedure Code should be vigorously employed. The Lieutenant-Governor is inclined to think that these sections may have been somewhat neglected in the past, for in the districts of Mymensingh and Patna, the only two districts where burglary returns approximate to those of Monghyr, 148 and 335 bad-livelihood prosecutions were instituted as against 79 in the district of Monghyr.

11. The number of cases dealt with by the Railway Police increased from 5,952 to 6,777. This increase is mainly due to the returns from the East Indian Railway under the head of minor offences against property. There can be little doubt that better reporting accounts for these results. In view of the frequent complaints of persons sending goods by railway, that consignments, especially of perishable articles, are tampered with, special attention has been paid to the investigation of cases where goods were reported to be missing. No fewer than 259 of such cases turned out on investigation to be cases of theft. The work of the Railway Police shows marks of distinct progress in the year under review, and His Honour has much pleasure in reading the favourable remarks of the Inspector-General on the work of Mr. Fasson, the Assistant Inspector-General at Howrah.

12. The number of bad-livelihood cases instituted has fallen from 3,782 in 1901 to 3,432, but prosecutions have been more successful, and an improvement has taken place in the number of cases under this section, which have been tried locally. In the districts of Birbhum and Puri, which had respectively only 4 and 5 cases, this section appears to have been used very sparingly. It is probable that these figures indicate apathy on the part of the district police, more especially as there appears to be no lack of offences against property in either district. Last year the Lieutenant-Governor drew attention to the extraordinary discrepancy between the Divisional figures showing the proportions of persons who furnish security under this section and those who are unable to do so. This discrepancy is as marked as ever. In the Patna Division 753 cases ended in conviction, and in 705 cases either no security was offered, or, if offered, was refused. In the Bhagalpur Division 340 persons were called upon to give security, and all without exception failed to furnish it. In the Presidency Division 280 cases resulted in conviction, and the security of 63 persons was accepted. It is no doubt the case that in the districts of Bihar many persons belonging to wandering tribes are dealt with under this section; but making due allowance for this fact, these figures prove the need

of careful scrutiny by District Magistrates of the cases in which security is offered but refused.

13. The number of remands granted by the Courts in the disposal of police cases shows an unsatisfactory increase. The percentage of cases disposed of at the first two hearings has fallen steadily during the last four years from 54·6 in 1899, 53·3 in 1900, 49·2 in 1901 to 48·6 in the year under review; and in 8·4 per cent. of the total disposals six or more remands were granted. The Lieutenant-Governor is disposed to attach more importance to the scrutiny of delays in the disposal of cases where remands are large in number than to merely considering the cases where there are more than two remands; for in many border districts it is often impossible to trace the antecedents of the accused by the date on which the case is submitted for trial, and in such circumstances remands are unavoidable. This probably explains the low percentage of disposals in two hearings in the districts of Shahabad and Saran. His Honour, however, on consideration of all those figures, and after making all due allowance for local circumstances, is constrained to say that he detects a growing tendency for Courts to be more and more dilatory in the disposal of police cases. This is a matter that appears to him of vital importance, and the tendency must be rigidly repressed. Undue delay in the disposal of police cases is a matter which paralyses the administration of criminal justice. It is unfair to the accused, it unduly hampers the police in the execution of their duty, it harasses the complainant, and inflicts a grievous wrong upon the witnesses, who, often with no personal concern in the case, find themselves withdrawn day after day from their normal avocations; in an agricultural country such interruptions of the daily task are ruinous. In this connection it is lamentable to observe that in the district of Monghyr out of 781 A forms, no fewer than 102 were remanded more than six times. These figures are so much worse than those of the remaining districts of the Province that special enquiries must be made as to the cause of such excessive delay in the disposal of police cases in this district. On the other hand, Mr. Bourdillon observes that in the district of the 24-Parganas, out of 1,435 A forms, only 25 were remanded more than six times. It does not appear at all likely that the disposal of cases in the 24-Parganas is more easy or less subject to delays than in the district of Monghyr.

14. The percentage of reconvictions (13·1) is the highest on record. It is evident that old offenders, owing to the finger-impression system, have now much less chance of escaping detection. The district of Darbhanga exhibits an extraordinarily small percentage of reconvictions as compared with the other districts of the Patna Division. The Inspector-General does not comment on the figures for this district, but there is no ground for believing that old offenders habitually refrained from committing crime in Darbhanga; nor is the amount of professional or semi-professional crime small in this district. For these reasons it would seem advisable that special care should be taken in scrutinizing the work of the Darbhanga police in respect of the ascertainment and verification of the antecedents of offenders.

15. An unsatisfactory feature of the working of the police is the increase in the number of absconders entered on the police registers. There is an increase for the whole Province from 2,979 to 3,184, and the results in certain districts are particularly bad. In Dacca alone 339 persons are borne on this register. There can be no greater encouragement to the criminal classes, no more unsettling factor in district police work, and no clearer indication of inefficiency than the existence of a large number of absconding accused whom the police are either unable or unwilling to arrest.

16. The Lieutenant-Governor thanks Mr. Carlyle and Mr. Knyvett for their zealous and efficient administration of the Police Department, and his acknowledgments are also due to Mr. Carlyle for a concise and careful report.

ORDER.—Ordered that copies of this Resolution be forwarded to the Inspector-General of Police, the Commissioner of Police, Calcutta, and all Commissioners of Divisions for information.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

W. C. MACPHERSON,

Offg. Chief Secy. to the Govt. of Bengal.

WORKING OF THE BENGAL LICENSED WAREHOUSE AND FIRE-BRIGADE ACT IN THE COSSIPORE-CHITPUR, MANIKTALA, AND GARDEN REACH MUNICIPALITIES DURING THE YEAR ENDING THE 31ST MARCH 1903.

No. 84M., dated Calcutta, the 22nd July 1903.

FROM—P. C. LYON, Esq., Offg. Commissioner of the Presidency Division,
To—The Secretary to the Government of Bengal, Municipal Department.

WITH reference to the orders of Government, No. 1810M., dated the 8th July 1903, I have the honour to submit herewith copies of the reports on the working of the Bengal Licensed Warehouse and Fire-Brigade Act, I of 1893, for the year ending 31st March 1903, in the Cossipore-Chitpur, Maniktala, and Garden Reach Municipalities, as received from the Chairmen of those Municipalities.

No. 1262M., dated Alipore, the 15th July 1903.

From—C. J. STEVENSON-MOORE, Esq., C.S., Magistrate of the 24-Parganas,
To—The Commissioner of the Presidency Division.

WITH reference to your letter No. 159M., dated the 6th July 1903, calling for submission of the report on the working of the Bengal Licensed Warehouse and Fire-Brigade Act for the year 1902-1903, I have the honour to submit herewith copies of the reports, together with copies of necessary statements, as received from the Chairmen of the Cossipore-Chipur, Maniktala, and Garden Reach Municipalities.

No. 141,G.M., dated Garden Reach, the 9th July 1903.

From—The Chairman, Garden Reach Municipality,
To—The Magistrate of the 24-Parganas.

WITH reference to your circular memorandum No. 28M., dated the 7th instant, I have the honour to submit the following report on the working of the Bengal Licensed Warehouse and Fire-Brigade Act in this Municipality for the year 1902-1903.

2. The annexed statement will show the number of warehouses within the Municipality and the amount of fees received from them during 1902-1903. The Municipality contributed Rs. 416 towards the maintenance of the Metropolitan Fire-Brigade. The amount of fees levied was not equal to the amount of the contribution made, owing to the fact that some of the wood depôts ceased to exist, and that Messrs. Macneill & Co. paid six months' fees in respect of the two jute godowns for 1902-1903 in advance during 1901-1902.

3. No fire was reported to have broken out during the year under report.

No. 368., dated Narikeldanga, the 10th July 1903.

From—R. D. MEHTA, ESQ., C.I.E., Chairman, Maniktala Municipality,
To—The Magistrate of the 24-Parganas.

WITH reference to your circular memorandum No. 28M., dated 7th July current, forwarding copy of Divisional Commissioner's letter No. 159M. of the 6th idem, calling for a report on the working of the Bengal Licensed Warehouse and Fire-Brigade Act for the year 1902-1903, have the honour to submit as follows.

1. The Fire-Brigade Budget for the year under report was prepared by the Commissioner of Police under section 26 (i) of the Act I of 1893, and, so far as it related to this Municipality, was accepted by the Commissioners at their meeting held on the 21st February 1902.

2. The proportionate share of contribution at 1 per cent. of the estimated amount of Rs. 83,295 towards the maintenance of the Fire-Brigade establishment for the year 1902-1903, viz., Rs. 833, was paid in two instalments. The total amount realised as fees from the warehouses under the Act was Rs. 1,559-14-6, against Rs. 1,428-7-6 of the preceding year. The increase of Rs. 131-7 was due to certain trades of description other than jute warehouses, such as depôts of *durmah* mats, fire-wood, etc., having newly opened during the year under report.

3. Licenses for 9 jute warehouses and 89 trades in other inflammable materials, such as firewood, hay, straw, *golpatta*, packing-case depôts, saw-mills, etc., were issued during the year under report, against 9 and 81 of the preceding year.

4. License fees on jute warehouses were levied at 4 and 6 per cent. on the annual value of holdings as assessed for municipal taxes, and at 10 per cent. on trades of other descriptions mentioned above.

5. All the owners of the warehouses paid their license fees in due time, except five whose names as defaulters had been sent to the Commissioner of Police, as asked for in his letter No. 2070, dated 27th February 1903.

6. The jute godowns and firewood, packing-case depôts, etc., are mostly situated near the Circular Canal, which forms the western boundary of this Municipality. The Surah Jute Mills are the only mill, within the Municipality for the manufacture of gunny-bags, situated on the north side of Narikeldanga main road.

7. I am happy to report that no conflagration took place within the Municipality during the year under report, and the assistance of the Fire-Brigade was not required.

No. 879, dated Talla, the 10th July 1903.

From—BABU BENODE BIHARI MUKHERJEE, Chairman, Cossipore-Chitpur Municipality,
To—The Magistrate of the 24-Parganas.

WITH reference to your circular memorandum No. 28M., dated the 7th July 1903, I have the honour to submit the following report under section 41 of Act I (B.C.) of 1893 of the jute warehouses, etc., in the Cossipore-Chitpur Municipality for the year 1902-1903, for submission to the Local Government.

2. During the year of report, licenses were granted to 126 jute presses and warehouses, including roperies, firewood and straw depôts, etc., as detailed below, and the total amount of license and mutation fees realised was Rs. 12,124-12-6:—

MUNICIPAL OFFICE,
TALA,
The 10th July 1903.

AUKHOY COOMAR CHATTERJEE,
Secretary.

ANNUAL REPORT ON THE GOVERNMENT CINCHONA PLANTATION AND FACTORY IN BENGAL, FOR THE YEAR 1902-1903.

The 2nd September 1903.—The following extracts from the Annual Report on the Government Cinchona Plantation and Factory in Bengal for the year 1902-1903, are published for general information.

L. P. SHIRRES,
Secy. to the Govt. of Bengal.

No. 2056—54C., dated Royal Botanic Garden, Sibpur, the 13th July 1903.

From—MAJOR D. PRAIN, M.B., I.M.S., Superintendent, Royal Botanic Garden, Calcutta, and of Cinchona Cultivation in Bengal, and Government Quinologist,

To—The Secretary to the Government of Bengal, Financial Department.

I HAVE the honour to submit the report of the Cinchona Plantation and Factory for the official year 1902-1903.

Forty-first Annual Report of the Government Cinchona Plantation in Sikkim, being that for the financial year 1902-1903, and also the Report of the Factory for the same year, by MAJOR D. PRAIN, I.M.S., *Superintendent of Cinchona Cultivation in Bengal, and Government Quinologist.*

1. *Weather and general.*—The rainfall during the year was much above the normal; 171·46 inches as against an average of 122·62 for the preceding 28 years. The heaviest fall occurred on 27th September 1902 when 14·7 inches were measured. Although the total was so much greater than during the year 1901-1902 when only 92·69 inches fell, and exceeded the fall registered in any of the preceding 28 years, there was little damage done by landslides on the plantation. Munsong, the new extension in the Dumsong forest, shared in the excessive rainfall, there 106·54 inches fell, as against 88·42 in 1901-1902. The heaviest fall at Munsong, 8·83 inches, also occurred on 27th September 1902.

2. *Plantation and crop.*—The number of plants put out during the year was 458,927. These included 402,343 *Ledgeriana*, 26,459 *Succirubra*, 29,360 *Hybrid No. I*, and 765 *Hybrid No. II*.

The area planted at the head-quarters plantation (Mungpoo and Sittong) was 91·06 acres; here 160,967 *Ledgeriana* plants, all the *Succirubra* and all the *Hybrid No. I* plants were put out. At Munsong 89·1 acres were planted with 241,376 *Ledgeriana* and all the *Hybrid No. II* plants.

The nursery stock of seedlings on 31st March 1903 was 155,328. The stock included 8,000 more *Hybrid No. I*, 2,500 more *Succirubra*, and 123,386 more *Ledgeriana*, but 58 fewer *Hybrid No. II* seedlings than were in the lines on 31st March 1903, indicating that about 134,000 more plants had to be put out after 1st April 1903 than was the case at the same date in the preceding year. The delayed planting season which these figures indicate was due to the severe and continued drought that began in October 1902 and had not broken at the close of the year under review.

The total number of living trees of all kinds in the permanent plantations on 31st March 1903 was 3,015,600. Of these 1,977,315 were at Mungpoo (including Rungbee and Labdah) and 208,331 were at Sittong. At Munsong, in the Dumsong Forest, there were 829,954. The trees included 2,308,656 *Ledgeriana*, 256,711 *Succirubra*, 2,130 *Officinalis*, 439,903 *Hybrid No. I* and 8,200 *Hybrid No. II*. The increase as compared with 31st March 1902 was 252,314.

Planting at Munsong, notwithstanding the unusual drought, has been more successful than during 1901-1902. The unfavourable planting conditions have, however, prevented the complete fulfilment of the year's programme

prior to 31st March 1903, since only 89·1 acres out of 100 acres prepared for planting had been put out at the close of the year. This will, of course, be recorded as completed in the opening months of 1903-1904. But the dryness of the planting season has made it further impossible to overtake entirely the filling up of the vacancies due to the casualties explained in last annual report. After a close personal examination of the extensions and careful discussion with the Deputy Superintendent of this subject in all its bearings we are agreed that in the interests of the extension the programme of work for 1903-1904 must be modified slightly. Instead of attempting to put out the full extension of 100 acres for that year, it will be necessary to be contented with a smaller area and devote the seedlings which otherwise would have filled the complete extension to the replacement of the 1901-1902 vacancies. The factor which renders this decision essential is the labour one; this, as regards Munsong, is not capable of temporary modification.

During the year 600 maunds of bone meal at the rate of 10 maunds per acre were applied to other sixty acres of 4-year old cinchona. The application of this manure is now beginning to show its effects on the plants previously so treated, their foliage being decidedly more abundant and healthy looking; their stock of fresh surface-feeding roots more plentiful; and their growth, except in trees already diseased, more vigorous. The results are such as to amply justify an increase in future of the quantity of bone-manure applied, and an extension of the acreage annually so treated. The method of deep trenching and more intensive cultivation systematically adopted during the past few years is now showing its full effects in a diminished mortality among the young cinchonas and a marked decrease in the amount of canker present in the extensions, and great credit is due to the Deputy Superintendent, Mr. Pantling, for the care and energy with which he has carried out this improved method of cultivation. Early planting, in years when it can be carried out, appears entitled to credit for a share in this improvement. Unfortunately, however, early planting is not always possible and has its own special risks which are however, on the whole, well worth incurring. Grafting experiments have been continued by Mr. Green, Nursery Assistant, with hopeful results.

The crop taken from the plantation during the year has been 235,605lbs. of dry bark. From Mungpoo the quantity taken was 209,219lbs.; from Sittong, 25,781 lbs.; 605 lbs. were also taken from thinnings at Munsong. The crop has been composed of 140,669 lbs. *Ledgeriana*, 12,580 lbs. *Succirubra*, and 82,356 lbs. *Hybrid No. I.* The whole of the bark thus harvested has been made over as usual to the Quinologist.

3. *Factory and Outturn.*—Work in the factory has gone on throughout the year without accident or delay. The systematic examination of the arrangement and method of working in connection with the separation of quinine has now been completed and the renewals and additions to factory plant mark the close, for the present, of this stage of enquiry and improvement, for carrying out which great credit is due to Mr. R. Pantling, Deputy Superintendent of the Plantation. Considerable advance has been made with the next stage of the enquiry which will incidentally involve a recasting of the methods adopted for the preparation of cinchona febrifuge.

The raw material worked up during the year included 392,250lbs of *Ledgeriana*, *Hybrid No. I*, and *Officinalis* bark which provided 11,927¼lbs. sulphate of quinine, the average yield being 3·04 per cent., the residual alkaloids left over in the process, accounted for during the year, amounted to 3,516 lbs. In addition to the foregoing quantity of bark 84,800 lbs. of mixed *Succirubra* and *Hybrid* bark, to which 3,036 lbs. of residual alkaloids were added, yielded 4,343 lbs. of cinchona febrifuge. The total outturn of manufactured products for the year has thus been 16,275 lbs. 4 oz., an increase as compared with the previous year of 2,840 lbs. 8 oz. This increased quantity included 1,916 lbs. 8 oz. of sulphate of quinine and 924 lbs. of cinchona febrifuge.

4. *General charges.*—The charges debitable against the department as a whole have amounted to Rs. 21,604-6-9 as against Rs. 25,632-7-11. These charges include pay of clerical and menial establishment Rs. 4,962-10-3; postal and telegraph charges Rs. 507; advertising manufactured articles Rs. 680; and

taxes (road and public works cesses) Rs. 1,475. They include, besides, the expenditure incurred in adding to factory plant and appliances; the charges under this heading amounted to Rs. 3,908-2-9. Besides the above, Rs. 1,000 were expended in constructing a new road to the Sonada station of the Darjeeling-Himalayan Railway.

5. *Plantation charges.*—The charges debitable against the plantation have been Rs. 85,285-12-4 as against Rs. 73,126-13-6 for 1901-1902. The increased expenditure has been mainly on labour utilized in more effective and thorough cultivation. Against this outlay has to be placed the harvest, 235,605 lbs. of dry bark obtained during the year.

6. *Factory charges.*—The expenditure incurred in connection with the factory was Rs. 86,429-4-4. Of this sum Rs. 38,000 represents the purchase money and Rs. 1,557-12-2, the cost of carriage to the factory of 84,301 lbs. 12 oz. of cinchona bark acquired from private growers; the actual working expenses of the factory for the year were therefore Rs. 46,871-8-2 being Rs. 39,903-0-2 incurred in the manufacture of sulphate of quinine and Rs. 6,968-8 for the manufacture of cinchona febrifuge.

In order to produce 11,927 lbs. 4 oz. of sulphate of quinine, 205,348 lbs. of *Ledgeriana* bark, 46,368 lbs. of *Hybrid No. I* bark, and 70,576 lbs. 8 oz. of *Officinalis* bark from the stock held on April 1st, 1902 were used. The value of this bark was Rs. 46,602-5-2. In addition 69,957 lbs. 8 oz. of *Officinalis* bark purchased during the year for Rs. 31,918-1-9 were employed. The total value of bark used was thus Rs. 78,520-6-11. Of the residual alkaloids left as a bye-product in the manufacture of quinine 3,036 lbs. treated along with 84,800 lbs. of *Succirubra* and *Hybrid No. I* bark provided 4,343 lbs. of cinchona febrifuge. The value of the bark used was Rs. 7,047-6-4; of the residual alkaloids Rs. 2,877-14.

7. *Issues of manufactured articles.*—The issues of sulphate of quinine for the year amounted to 10,950 lbs. 5 oz., an increase of 1,157 lbs. 2 oz., as compared with 1901-1902. There was an increased demand for 800 lbs. on the part of Medical Depôts, for 523 lbs. 2 oz. in connection with pice-packet system and for 46 lbs. on the part of the Inspector-General of Jails, Bengal, but a decrease of 213 lbs. 10½ oz. on the part of Government dispensaries.

The issues of chinchona febrifuge for the year amounted to 4,505 lbs. 12 oz., an increase of 835 lbs. 8 oz., as compared with 1901-1902. There was an increase in the demand on the part of the public generally of 329 lbs., the Principal Veterinary Surgeon, South Africa, received 500 lbs., as compared with 300 lbs. in the preceding year.

8. *Receipts.*—The receipts for the year have amounted to Rs. 2,11,784 8-4, as compared with Rs. 1,91,922-5-2 for the preceding year. Cash receipts have amounted to Rs. 81,438-11 and include, besides the receipts for manufactured articles (quinine Rs. 47,088-15 and cinchona febrifuge Rs. 32,441-8), the sum of Rs. 1,799-7 as receipts for crude products (bark Rs. 269-7, seed Rs. 190, and residual alkaloids Rs. 1,340) and the sum of Rs. 108-13 as receipts for miscellaneous articles (empty soda-drums, old gunny-bags, &c). The book credits for the year amounted to Rs. 1,30,345-13-4 and have included Rs. 36,670-8 for issues in connection with the pice-packet system, with an additional credit as regards Bengal, reported by the Accountant-General, Bengal of Rs. 6,403-15-3; Rs. 85,783-5-4 for issues to Medical Depôts; Rs. 400 for issues to the Inspector-General of Civil Hospitals, Bengal; Rs. 2,452 for issues to the Inspector-General of Jails, Bengal; Rs. 5,000 for issues to the Principal, Veterinary Surgeon, Cape Town; and Rs. 90 for issues to the Colonial Secretary, Sierra Leone. The outstandings representing cash issues made during the last few days of the financial year, the transactions in connection with which were not completed on 31st March 1903, amounted to Rs. 5,709-4. It has been necessary, under the advice of the Government Solicitor, to write off as a bad debt Rs. 24 of the outstandings on 31st March 1902; the remainder of the outstandings at that date were recovered in due course.

9. *Stock account.*—The manufactured articles in stock on 31st March 1902 consisted of 3,924 lbs. 14 oz. of Sulphate of Quinine and 2,377 lbs. of Cinchona Febrifuge; their respective values were: Quinine Rs. 59,023-2 and Febrifuge Rs. 23,770, these sums representing the average price at which stock of similar

quality was sold during the year. Raw material and unmanufactured products included 230 lbs. of residual (amorphous) alkaloids in stock at Calcutta, valued at Rs. 218-0-4 and 1,238,903 lbs. 15 oz. of dry Cinchona bark, valued at Rs. 2,32,527-3-6. The value of stores in stock was Rs. 1,989-10-8, consisting of oils Rs. 1,071-9-6, chemicals, Rs. 577-14-5, sundries (charcoal for purification) Rs. 340-2-9.

* * * * *

10. *Balance sheet.*—* * * * As directed by the Government of India the stocks of Bark, Quinine, and Febrifuge are valued at the average price at which stock of similar quality was sold during the year. This involves an enhancement of the stocks held at the close of the year by Rs. 1,20,771-12-7; at the same time, as directed by the Government of India, non-recurrent general charges, which amounted for the year to Rs. 4,908-2-9, are excluded from the debit side of this account. The balance on this account is thus Rs. 1,74,088-4-6. Excluding this enhancement in the value of the stock, which is due mainly to a different method of calculation, and allowing for the non-recurrent charges, the net surplus for the year amounts to Rs. 48,408-5-2.

11. *Sale of Quinine at Post Offices.*—The quantity of quinine issued to the Jail Department during 1902-1903 was 2,529 lbs., being 518 lbs. in excess of the supply during 1901-1902, but still nearly 1,000 lbs. below the quantity issued for this purpose during 1900-1901. This falling off proves, on enquiry, to be due to the diminished prevalence of malaria in the Lower Provinces and Assam.

12. *Miscellaneous*—(*a*) *Fuel Plantation.*—Fifteen acres of the Khasia Oak plantation were coppiced during the year. The yield was 27,603 maunds or 1,840 maunds per acre; of this, 24,103 maunds consist of oak fellings or 1,606 maunds per acre of firewood of the highest quality. The eight acres coppiced during the previous year have produced a healthy growth and all vacancies have been filled up.

(*b*) *Land Rent.*—The revenue collected from settlers within the Cinchona reserves for grazing and land rent amounted to Rs. 3,429-1-6, being Rs. 117-10-3 less than the previous year's revenue. This sum was, according to custom, paid into the treasury at Darjeeling, no credit being taken for it in the accounts of the Cinchona Department.

WEATHER AND CROP REPORT.

For the week ending the 7th September 1903.

Burdwan.—Rainfall at Sadar 1·37, Kalna 1·75, Katwa 1·75, Raniganj 0·43. Weather sultry with occasional showers of rain. Autumn rice not in good condition in Sadar. Transplantation of *aman* still continues in some parts of the district. Indigo and sugarcane fair. *Aus* is being reaped in Kalna subdivision. Fodder sufficient. Water still insufficient for transplantation in some places of thanas Katwa and Mangalkot. Rain wanted generally. Common rice sells as follows:—

	Srs.	ch.	
Sadar	10	0	per rupee.
Kalna	10	0	
Katwa	11	0	
Raniganj	11	0	

Birbhum—Rainfall at Sadar ·68, Rampur Hât return not received. Weather seasonable. More rain wanted. Sugarcane crop in good condition. Rice sells at 12 seers per rupee. Fodder and water sufficient.

Bankura.—Rainfall at Sadar 0·19. More rain wanted for the standing crops. Rice sells at 12 seers a rupee. Fodder and water sufficient.

Midnapore.—Rainfall at Sadar 3·01, Contai 4·92, Tamluk ·80, Ghatal 3·82. More rain wanted except in Ghatal. Prospect of winter crops fair. Fodder sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	9	0	per rupee.
Contai	12	0	
Tamluk	10	10	
Ghatal	10	8	

Hooghly—Rainfall at Sadar 0·71, Serampore 0·96, Arambagh 1·84. More rain wanted everywhere. Transplantation of winter paddy nearly completed in Arambagh subdivision, still continuing in Sadar and Serampore subdivisions. Standing crops fair. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar ...	10	0	per rupee.
Serampore ...	10	0	
Arambagh ...	10	7	

Howrah—Rainfall at Sadar 2·09. Weather seasonable. Transplantation of *aman* paddy nearly finished. The cutting of jute going on briskly. Agricultural prospects good. Fodder and water sufficient. No cattle-disease reported. Common rice is selling at 10½ seers per rupee.

24-Parganas.—Rainfall at Sadar 1·41, Barasat 0·67, Basirhat 0·78, Diamond Harbour 1·77. Weather cloudy and cool. Rainfall insufficient in the Diamond Harbour subdivision and in thanas Hasnabad and Baduria in the Basirhat subdivision. *Aus*, jute and sugarcane doing well. Prospect of *aus* and jute good, and that of *aman* tolerable. Jute being cut and steeped. Harvesting of *aus* has commenced. Transplantation of *aman* going on briskly, and nearly completed in most places. Common rice sells at 11¾ seers except in Barasat and Diamond Harbour, where it sells at 10 seers per rupee. Condition of cattle good. Supply of fodder and water sufficient.

Nadia.—Rainfall at Sadar 0·81, Kushtia 0·65, Meherpur 1·37, Chuadanga 0·29, Ranaghat 2·30. The rainfall has proved beneficial. More rain wanted. Harvesting of jute and *aus* going on. Standing crops doing fairly. Lands are being prepared for *rabi* crops. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	0	per rupee.
Kushtia	12	0	
Meherpur	12	4	
Chuadanga	12	4	
Ranaghat	11	0	

Murshidabad.—Rainfall at Sadar 2·12, Kandi 2·5, Jangipur 1·12, Lalbagh 1·95. Weather seasonable. Transplantation of *aman* still going on, but more rain wanted. *Bhadoi* being harvested in some parts of the district. Jute being cut and steeped in Jangipur. Standing crops doing well. No cattle-disease. Fodder sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	0	per rupee.
Kandi	11	0	
Jangipur	12	0	
Lalbagh	11	8	

Jessore.—Rainfall at Sadar 1·04, Jhenida 1·21, Magura 1·93, Bangaon 1·14, Narail report not received Weather cloudy with slight rainfall. Prospects of *aman* good. Recent rains serve only to keep the plants alive. More rain wanted. Harvesting of *aus* going on. No cattle-disease reported. Fodder and water sufficient. Common rice sells as follows:—

		Srs.	ch.	
Sadar	...	13	0	per rupee.
Jhenida	...	13	8	
Magura	...	13	8	
Narail	Not reported.			
Bangaon	...	12	5	

Khulna.—Rainfall at Sadar 0·83, Bagerhat 3·26, Satkhira 0·86 Weather seasonable, but more rain is still wanted in the Satkhira subdivision. Transplantation of winter rice is now estimated at 73 per cent. Prospects generally improved. Cattle-disease reported from Khulna, Dumuria, Morelganj, Kaliganj and Budhata. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	8	per rupee.
Bagerhat	12	0	
Satkhira	10	0	

Rajshahi.—Rainfall at Sadar 2·08, Nator 1·19, Naugaon 1·43. Harvesting of *aus* and jute going on. Transplantation of winter rice in progress. Condition of cattle good. Fodder and water sufficient. Common rice selling on an average 13 seers per rupee.

Dinajpur.—Rainfall at Sadar 1·48, Thakurgaon 9·33. Fall in the district general. More rain wanted in the Sadar subdivision. Weather seasonable. Harvesting of *bhadoi* and steeping of jute continuing. Transplantation of winter rice in progress. No cattle-disease. Fodder and water plentiful. Common rice sells at 12 seers on an average.

Jalpaiguri.—Rainfall at Sadar 12·93, Alipur Duars 13·40. Weather seasonable. Transplantation of *haimanti* paddy nearly finished. Harvesting of *bhadoi* paddy continues. Cutting and steeping of jute going on. Common rice sells at 11 seers a rupee. Fodder and water sufficient everywhere.

Darjeeling.—Rainfall at Sadar 2·58. Weather wet. *Hills*—Maize, potato, *phapor*, *kagni*, *bhadoi dhan*, *chota marua*, and winter rice doing well. *Terai*—Transplantation of winter rice and reaping of jute continue. Prospects fair. Common rice sells as follows:—

		Srs.	ch.	
Hills	...	9	0	per rupee.

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for the 24 hours preceding 8 A. M. of that day.

o, overcast; p, passing temporary showers; d, drizzling rain; t, thunder.

(h) the special conditions and incidents, if any, of the tenancy;
(i) if the land is claimed to be held rent-free, whether or not rent is actually paid, and if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority;
(j) the name of each proprietor, with the character and extent of his interest, and the situation, quantity, and one or more of the boundaries of each proprietor's private lands, as defined in Chapter XI of the Act.

Faridpur.

No. 1914T.R.—The 8th September 1903.—Whereas an application has been made by the proprietor of estate Maulvi Tafazzal Ali, tauzi No. 1530, in the district of Faridpur, for a survey and preparation of a record-of-rights in respect of all lands appertaining to the estate, and whereas he has deposited the estimated cost of the operations:

In exercise of the powers conferred by section 101 (2) (a) of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B.C.) of 1898, the Lieutenant-Governor of Bengal is pleased to direct that a survey shall be made and a record-of-rights prepared in respect of all lands within the boundaries of the said estate in the district of Faridpur.

The particulars to be recorded in the survey and record-of-rights shall be the following:—

(a) the name of each tenant or occupant;
(b) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat; and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure;
(c) the situation and quantity and one or more of the boundaries of the land held by each tenant or occupier;
(d) the name of each tenant's landlord;

(e) the money-rent payable at the time the record-of-rights is being prepared, or if a produce-rent, the fact that a produce-rent is paid;
(f) the mode in which that rent has been fixed, whether by contract, by order of a Court, or otherwise;
(g) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases;
(h) the special conditions and incidents, if any, of the tenancy;
(i) if the land is claimed to be held rent-free, whether or not rent is actually paid; and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority;
(j) the name of each proprietor, with the character and extent of his interest, and the situation, quantity and one or more of the boundaries of each proprietor's private lands, as defined in Chapter XI of the Act.

No. 1915T.R.—The 8th September 1903.—Whereas an application has been made by the proprietor of estate Jaker Majumdar, tauzi No. 3879, for a survey and preparation of a record-of-rights in respect of all lands appertaining to that estate, in the district of Faridpur, and whereas he has deposited the estimated cost of the operations:

Faridpur.

In exercise of the powers conferred by section 101 (2) (a) of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B.C.) of 1898, the Lieutenant-Governor of Bengal is pleased to direct that a survey shall be made and a record-of-rights prepared in respect of all lands situated within the boundaries of the said estate.

The particulars to be recorded in the survey and record-of-rights shall be the following:—

(a) the name of each tenant or occupant;
(b) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat, and, if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure;
(c) the situation and quantity and one or more of the boundaries of the land held by each tenant or occupier;
(d) the name of each tenant's landlord;
(e) the money-rent payable at the time the record-of-rights is being prepared, or if a produce rent, the fact that a produce rent is paid;
(f) the mode in which that rent has been fixed—whether by contract, by order of a Court, or otherwise;
(g) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases;
(h) the special conditions and incidents, if any, of the tenancy;
(i) if the land is claimed to be held rent-free, whether or not rent is actually paid, and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority;
(j) the name of each proprietor, with the character and extent of his interest, and the situation, quantity, and one or more of the boundaries of each proprietor's private lands, as defined in Chapter XI of the Act.

No. 1916T.R.—The 8th September 1903.—Whereas an application has been made by the proprietors of Estate Hara Nanda Roy, tauzi No 2462, for a survey and preparation of a record-of-rights in respect of all lands appertaining to the said estate situated in mauzas (1) Amgram, (2) Bahirbhag, (3) Bhatpara, (4) Haridaspur, (5) Jhalmal Beel, (6) Kapasatia, (7) Kalaran, (8) Chunikhali and (9) Kuchiagram, in the district of Faridpur, and whereas they have deposited the estimated cost of the operations:

Faridpur.

In exercise of the powers conferred by section 101 (2) (a) of the Bengal Tenancy Act, VIII of 188', as amended by Act III (B.C.) of 1898, the Lieutenant-Governor of Bengal is pleased to direct that a survey shall be made and a record-of-rights prepared in respect of all lands situated within the boundaries of the said estate.

The particulars to be recorded in the survey and record-of-rights shall be the following:—

(c) the situation and quantity and one or more of the boundaries of the land held by each tenant or occupier;
(d) the name of each tenant's landlord;

(e) the money-rent payable at the time the record-of-rights is being prepared, or if a produce-rent, the fact that a produce-rent is paid;
(f) the mode in which that rent has been fixed, whether by contract, by order of a Court, or otherwise;
(g) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases;
(h) the special conditions and incidents, if any, of the tenancy;
(i) if the land is claimed to be held rent-free, whether or not rent is actually paid; and if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority;
(j) the name of each proprietor, with the character and extent of his interest, and the situation, quantity, and one or more of the boundaries of each proprietor's private lands, as defined in Chapter XI of the Act.

Faridpur.

No. 1917T.R.—The 8th September 1903.—Whereas an application has been made by the proprietors of estate Raj Mohan Chakrabaty, tauzi No. 1277, for a survey and preparation of a record-of-rights in respect of all lands situated in mauzas (1) Dangabati Mohan, (2) Barigram and (3) Moreghar, appertaining to the said estate, in the district of Faridpur, and whereas they have deposited the estimated cost of the operations:

In exercise of the powers conferred by section 101 (2) (a) of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B.C.) of 1898, the Lieutenant-Governor of Bengal is pleased to direct that a survey shall be made and a record-of-rights prepared in respect of all lands situated within the boundaries of the said mauzas:—

The particulars to be recorded in the survey and record-of-rights shall be the following:—

(a) the name of each tenant or occupant;
(b) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat, or under-raiyat; and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure;
(c) the situation and quantity and one or more of the boundaries of the land held by each tenant or occupier;
(d) the name of each tenant's landlord;
(e) the money-rent payable at the time the record-of-rights is being prepared, or if a produce rent, the fact that a produce rent is paid;
(f) the mode in which that rent has been fixed, whether by contract, by order of a Court, or otherwise;
(g) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases;
(h) the special conditions and incidents, if any, of the tenancy;
(i) if the land is claimed to be held rent-free, whether or not rent is actually paid, and if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority;
(j) the name of each proprietor with the character and extent of his interest, and the situation, quantity, and one or more of the boundaries of each proprietor's private lands, as defined in Chapter XI of the Act.

Murshidabad.
Birbhum.

No. 2098T.R.—The 12th September 1903.—Sub-Deputy Collector Babu Charu Chandra Chowdhury is authorised, under section 3 (17) of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B.C.) of 1898, to discharge the functions of a Revenue officer in respect of mauza Mahugram appertaining to estate No. 1132 in the district of Murshidabad and to estate No. 13 in the district of Birbhum, but situated in the district of Birbhum, under the provisions of that Act so far as they relate to Revenue officers.

He is also vested with the powers of a Settlement Officer under Rule I, Chapter VI of the Government Rules under the Bengal Tenancy Act.

Midnapore.

No. 2091T.R.—The 11th September 1903.—An application having been filed under section 18 of Act II (B.C.) of 1882 for the construction of a sluice at the 15th mile of the Kalinagar Hasia embankment in the Contai subdivision of the Midnapore district, the Collector of the district, after holding the necessary enquiry into the matter under sections 10 and 18 of the Act, has submitted a report in favour of the proposal, which has received the support of the Commissioner of the Burdwan Division and of the Board of Revenue, by whom it has been submitted to Government for orders. The Lieutenant-Governor having considered the report and the Board's recommendation of the project is pleased to order, under section 14 of the Act, that the sluice shall be constructed at an estimated cost of Rs. 1,687 in accordance with the plans and specifications which have been approved by the Chief Engineer, Irrigation Department, Bengal.

No. 2093T.R.—The 12th September 1903.—The Lieutenant-Governor is pleased to direct that, with effect from the 1st April 1904, the following revised rules shall be substituted for those published at pages 1015-1031, Part I of the *Calcutta Gazette* of the 7th October 1896 with the Government Notification No. 3946L.R., dated the 6th idem, on the subject of the payment of land revenue and cesses by means of postal money-orders.

RULES RELATING TO REVENUE MONEY-ORDERS.

1. These rules are divided into four parts:—

PART I.—Form of Revenue Money-order.
PART II.—Issue of Revenue Money-orders.
PART III.—Payment of Revenue Money-orders.
Section A.—Payment from Disbursing Offices at the Head-quarters of Districts.
Section B.—Procedure to followed in the Collectorate.
PART IV.—Disposal of Acknowledgments.

2. The forms in use are given in Appendix D.

PART I.

THE FORM OF REVENUE MONEY-ORDERS.

The form.

1. There are two forms of Revenue Money-order, viz., Form $\frac{1}{\text{R. M. O.}}$ on white paper fo land revenue and zamindar dâk cess, and form $\frac{1A}{\text{R. M. O.}}$ on pink paper, for Road and Public Works cesses. Each of these forms is divided into four parts, viz. :—

(*a*) The Money-order.
(*b*) Lower portion of Money-order, or the Receipt.
(*c*) The Coupon or Chalan.
(*d*) The acknowledgment.

2. Parts (*a*) and (*b*) require no description, as they are exactly like the corresponding portions of the ordinary Inland Money-order form. Parts (*c*) and (*d*) are considerably larger than the Coupon and Acknowledgment of an ordinary Money-order. Part (*c*) contains on one side all the particulars required by the Treasury, and on the reverse instructions for remitters of Revenue Money-orders. Part (*d*) is on one side a duplicate of the Chalan and is returned to the remitter as his receipt; on the reverse of this part are the remitter's name and address.

Not to be used for any other purposes.

3. From $\frac{1}{\text{R. M. O.}}$ is to be used for remittances of land revenue and zamindari dak cess and Form $\frac{1A}{\text{R. M. O.}}$ for remittances of Road and Public Works cesses, and for no other purpose.

To be freely distributed.

4. The forms of Revenue Money-order should be freely distributed among the revenue-paying classes, and no restrictions whatever should be placed in the way of zamindars obtaining these forms.

Supply of forms.

5. Every Postmaster, Sub-Postmaster, and Branch Postmaster will be personally responsible that a sufficient supply of Revenue Money-order forms of each kind is always available in his office. In cases of emergency, supplies may be obtained by telegraph direct from the Stock Depôt of the Circle. Divisional Superintendents and Inspectors, when visiting post-offices, will see that a sufficient supply of Revenue Money-order forms of each kind is available, and mention in their diaries and inspection reports that they have done so.

5A. The Revenue Money-order system does not apply to remittances of revenue payable to any Native State. Such remittances should be made by the ordinary Money-order form and be dealt with under the ordinary rules for Money-orders.

PART II.

ISSUE OF REVENUE MONEY-ORDERS.

Issue of Revenue Money-orders.

6. Revenue Money-orders are issued from every Head, Sub, and Branch Post-office under the rules which govern the issue of ordinary Inland Money-orders. The following paragraphs contain additional instructions, which relate solely to the issue of Revenue Money-orders.

Limit of amount.

7. The rules in the *Postal Guide* fixing the limit of value of a single ordinary Inland Money-order apply to Revenue Money-orders. The rule prohibiting the inclusion of pies (fractions of an anna) in the amount of a money-order is not applicable to Revenue Money-orders, which may be for amounts including any fraction of an anna not less than one pie.

Office of Issue to help remitter in making entries.

8. The Office of Issue will help the remitter in making the requisite entries, and, if necessary, will make entries for him in the form of a Revenue Money-order, but no fee or any other gratification whatsoever is to be demanded or accepted, either directly or indirectly, by any official of the Postal Department for this service. Disregard of this order will be punished by dismissal of the official in fault who will, moreover, be liable to any further penalties provided by law. If, notwithstanding, the assistance thus offered, the remitter is unable to fill up the entries himself or to give the information necessary for the purpose, the Money-order should be returned to him and should not be issued by the Post-office, till the information is complete.

Note.—Remitters should also be advised to allow ample time for their Revenue Money-orders for land revenue to reach the Treasury before kist day, as the acceptance of a Revenue Money-order after kist day does not exempt an estate from sale, except as permitted by the rules applicable to personal payment of land revenue after kist day.

Responsibilities of the Office of Issue.

9. The Office of Issue is responsible that no Revenue Money-order is issued of which the Coupon (Chalan) is blank or is not completely filled up. The Post-office has no means of ascertaining the correctness of the information supplied by a remitter; all that it is necessary to see is that entries are made against every printed item in the Coupon (Chalan), that these entries are made against the appropriate printed items, that all the items are understood by the remitter, and that the Money-order is not for a larger sum than is allowed by the rules for ordinary Inland Money-orders. The spaces in the Acknowledgment and Chalan for the entry of interest, penalty and expenses (kharcha) are intended to meet the requirements of remitters who are in arrears as regards the payment of their cesses, and have incurred liabilities for interest, penalty, process fees, or other costs of proceedings. Every alteration or correction in the Money-order must be attested by the initials of the remitter.

Distinguishing of Revenue Money-orders.

10. The letter "R" should be written before the number of every Revenue Money-order, and this mode of distinguishing Revenue Money-orders should be adopted wherever the number is entered.

Number to be assigned to Revenue Money-orders.

11. The number assigned to a Revenue Money-order by the Head Office or Sub-Office of Issue will also be entered at the top of the Coupon (Chalan) and Acknowledgment by the Money-order Clerk of the Head Office or the Sub-Postmaster of the Sub-Office of Issue, as the case may be.

PART III.

PAYMENT OF REVENUE MONEY-ORDER.

SECTION A.—*Procedure in the Disbursing Office.*

12. When the Revenue Money-orders are in all respects* ready to be handed over to the Postman, a list in triplicate† (Form $\frac{2}{R.M.O.}$) should be made out by the Money-order Clerk, and the entries in the money column of the list should be carefully totalled. The Money-orders should be entered in the list according to the offices of issue. The original copy of the list will take the place of the journal of Money-orders paid, the duplicate of the list will be sent to the Treasury under the procedure described below, and the triplicate of the list will be the list for the Comptroller. When the number of Revenue Money-orders for payment in one day is more than enough to fill a single sheet of Form $\frac{2}{R.M.O.}$, each sheet should be separately totalled and a grand total should be made at the end of the last sheet of the list or on a separate sheet. The date stamp of the office of payment should be impressed on the space provided for it on the reverse of the acknowledgment portion of each Money-order.

13. The Postmaster should then check the entries in the list with those on the Money-orders, and also check the total of the money column. He will then prepare a Treasury Voucher Form (A/c 12), representing the total value of the money-orders as entered at the foot of the list. The amount represented by the Treasury Voucher will not be charged against the letter of credit, and will be paid quite independently of the balance of any letters of credit held by the Treasury in favour of the Post-office. Postmasters before sending Revenue Money-orders to the Treasury should examine them carefully, and any error which might have been avoided should be brought to the notice of the Superintendent.

14. The Money-orders, the duplicate copy of the list, and the Treasury Voucher duly filled up, should then be made over to the Postman for delivery at the Collectorate, the Postman's receipt for the documents being taken in the usual manner in the Register of Money-orders received.

* Only the total number and amount of Revenue Money-orders received for payment need be entered in the Register of Money-orders received. In order, however, that the record may be complete, it will be necessary to make a note in the last column of the Register whenever all the Revenue Money-orders received in one day are not included in the list of that date. For example, if in the Register of Money-orders received on the 5th July there are shown 500 Revenue Money-orders for Rs. 10,000 but 300 of these orders for Rs. 7,000 were received too late for inclusion in the list sent to the Collectorate on the 5th, there should be an entry in the last column of the Register in this form:

200 for Rs. 3,000 included in list of 5th.
300 for Rs. 7,000 included in list of 6th.

† The duplicate and triplicate will be prepared by carbonic paper, and a hard pencil must therefore be used in writing the list.

15. The Postman will take the duplicate copy of the list, the Money-orders and the Treasury Voucher to the Accountant, and will receive back from the Accountant the Money-orders without the coupons and acknowledgements. The Postman will be careful to see that he receives back all the Money-orders, and that they are all duly receipted by the Accountant, and in the case of Money-orders for amounts exceeding Rs. 500, by the Treasury officer also.

16. The paid Money-orders received back from the Treasury will be examined by the Money-order Clerk in the same way as ordinary Money-orders, and checked in detail with the original list. The total amount of the Money-orders will then be entered in the journal of Money-orders paid by a single entry thus: "As per Revenue Money-order list Rs. A. P. ." The Money-orders will be disposed of in the usual way.

17. The original and triplicate lists will be kept with the journal of Money-orders paid until the next list of ordinary Money-orders paid is sent to the Comptroller, when the corresponding list of Revenue Money-orders paid will also be sent, the paid Money-orders being arranged in order and attached to the lists. The original lists will then be filed, a separate file of original lists being kept with each journal of Money-orders paid, so that the dates of the journal and file of Revenue Money-order lists correspond.

Entries in accounts.

18. The amount of the Treasury voucher will be entered in the head office summary, and the head office cash-book on the receipt side opposite the item "Drawn from treasuries," and will be included in the sum entered on the disbursement side under the head "Money-orders paid." The amount will also appear in the Treasury Pass-book and Register of transactions with the Treasury as money drawn from the District Treasury. All these entries must be made on the same date.

Note.—The date referred to above is the date on which the money-orders are sent from the Post-office to the Collectorate. If the procedure to be followed in the Collectorate is correctly observed, the money-order will be credited in the Treasury on the same date. If, owing to press of work or other reasons, the money-orders are not credited in the Treasury on the same date, the entries in the Head Office summary, the Head Office Cash-book and the Treasury Pass-book should still be made as prescribed in rule 18 on the date on which the money-orders are sent to the Treasury for payment.

The money-orders should also be entered as paid on the same date in the paid list of money-orders; and if any Revenue money-orders sent to the Collectorate have not been received back when the paid list is due to be sent to the Comptroller, the paid list should still be sent, and the money-orders should be forwarded on receipt, a note explaining the reason for their absence being submitted at the same time to the Comptroller.

19. On receipt of the acknowledgements duly signed the Money-order Clerk will examine and compare them with the original list already in his possession, and with the duplicate presented to him along with the acknowledgments; and, if all are found correct, the Postmaster will sign the duplicate list and return it to the Collectorate official who brought back the documents to the Post Office.

Acknowledgments for Money-orders.

20. The Money-order Clerk should be particularly careful to see that he receives from the Collectorate an acknowledgment for every Money-order, except when a note has been made on the duplicate list against any order showing that it was not for Land Revenue, Road, or Public Works Cess, or Zamindari Dák Cess. The Money-order Clerk will also see that every acknowledgment which he receives is in acknowledgment of the full amount of the Money-order to which it appertains, and that the date of credit entered on each acknowledgment agrees with the date of payment of the Money-order.

Comparison of the duplicate list with the original.

21. Before the duplicate list is returned to the Collectorate, the Money-order Clerk will carefully compare it with the original, and see that they are exactly alike, any remarks recorded in the one list (either in the Collectorate or by the Money-order Clerk, or the Postmaster) being copied in the other list.

Duties of Money-order Clerk in respect of reports to Postmaster.

22. It will be the duty of the Money-order Clerk to report to the Postmaster if the signed acknowledgments and the duplicate list are not returned to him at latest by 4 P.M. on the day following that on which the Treasury voucher was sent to the Collectorate. On receipt of such a report, the Postmaster should at once bring the matter to the notice of the Treasury Officer. Any serious or oft-repeated delay in the return of the acknowledgments should be reported to the Head of the Circle. The Money-order Clerk should report to the Postmaster every case in which Revenue Money-orders are not received back on the same day that they are sent to the Treasury, and if it is found that this happens frequently, the Postmaster should bring the matter to the notice of higher authority.

23. The Money-order Clerk will report to the Postmaster every case in which the Coupon (Chalan) of a Revenue Money-order received by him is blank or is imperfectly filled up, and each such case should be reported by the Postmaster to the Superintendent of the Division, in which the Office of Issue is situated.

Return of all Revenue Money-orders received during previous month.

24. On the 5th of every month, the Money-order Clerk will prepare a return (From $\frac{8}{\text{R M.O.}}$) of all Revenue Money-orders received during the last month, and this return will be submitted by the Postmaster to the Head of the Circle.

SECTION B.—*Procedure to be followed in the Collectorate.*

25. On receipt in the Treasury of the duplicate copy of the list, the Money-orders, and Treasury Voucher, the Accountant will check and compare the documents. If there is any

error, he will return all the documents to the Post-office with a note of the error or errors. This error note will be signed by the Accountant and the Tauzi Navis of the Department concerned; when the documents are correct, the Accountant will at once cut off the portion of each Money-order containing the coupon and acknowledgment, sign and date the Money-orders (as payee), and return the paid Money-orders to the Postman. In the case of Money-orders for amounts exceeding Rs. 500, the Treasury Officer also shall sign and date the Money-orders as payee. The Accountant will retain the lower portion of each Money-order, including the coupon and acknowledgment, the duplicate list of Money-orders (Form $\frac{2}{R.M.O.}$) and the Treasury voucher. No Money-order received from the Post Office may be refused.

The acceptance of the Revenue Money-order after kist day is to be treated in the same manner as the receipt of a personal payment of revenue after kist day.

Entries in accounts.

26. The Treasury Officer will, on the same day, charge off the amount represented by the Treasury voucher (A. C. 14) by transfer, and credit the amounts of the several money-orders as shown in the list, and on the acknowledgments to the appropriate departments.

If the estate on account of which a remittance of Land Revenue has been received is situated in another district, the remittance should be credited in the usual way, and the Collector to whom the money-order should have been addressed should be advised of the credit, according to the procedure in Chapter II, Section XII, Rule 2 of the Board's Tauzi Manual 1899. The remitter should also be advised of his error by a note on the money-order acknowledgment.

In the case of Road and Public Works Cess and Zamindari Dâk Cess, the amount thus erroneously remitted should be transmitted by remittance transfer receipts to the Collector of the district to which the cess properly belongs, and the remitter of the money-order should be advised of his error, as in the case of land revenue.

If it should be found that a revenue money-order has been erroneously issued for a remittance of some due other than Land Revenue, Road or Public Works Cess or Zamindari Dak Cess, the Treasury Officer should make a note to that effect against the entry of the money-order on the duplicate list, and forward the coupon and acknowledgment with an advice list (Form 4, G. M. O.) to the appropriate department for disposal under the rules in Part III of the Rules for Government money-orders other than Revenue money-orders.

Money-orders which cannot at once be credited in the Treasury accounts.

27. If it should be found that any money-order represents a remittance apparently not due to or intended for Government or any department or authority having an account in the Treasury, or that the amount of the money-order cannot for this or any other reason be credited at once in the Treasury accounts, the amount should be disposed of according to the standing rules and practice of the Account Department, or be made over in cash to the officer who would have been entrusted with it had the money been paid in cash instead of by money-order, or had it been sent as cash in an ordinary or registered letter.

Responsibility of Treasury Officer.

28. The Treasury Officer will be responsible that the total of the amounts credited to the different departments, and any sum made over in cash under rule 27, is equal to the amount of the Treasury voucher received from the Post-office, and debited to the Postal Department.

Examination of Money-orders.

29. The next business to be done in the Collectorate will be a rough examination of the Acknowledgments and Coupons to see that the necessary particulars of remittance are given in each case. This examination should be made by the Tauzi Navises of the Land Revenue and Cess Offices, and by the Certificate Department, if a certificate has issued on account of Road and Public Works Cess. If the amounts due on account of any cess, interest, penalties, and expenses are wrongly distributed by the remitter in the Money-order, the Land Revenue or the Cess Department will correct the distribution. It is not necessary at this stage that the Money-orders should be sent to, or examined by, the Zamindari Dák office, even when they contain remittances of Zamindari Dák Cess. The fact that the amount remitted is less or more than is due is immaterial. If more than is due is remitted, the excess will be treated as a payment in advance; if less then is due is remitted, it will be treated as a payment on account.

If owing to omissions or errors in the particulars of remittance, there is any uncertainty as to whether a remittance can be correctly credited according to the intentions of the remitter, a note should be made across the acknowledgment in red ink, stating how the remittance has been credited or what further particulars are required, and in the latter case the remitter should be asked to send the required information immediately by letter. If a remittance of land revenue by Money-order is received in the Treasury after the sunset of kist day, a note should similarly be made across the acknowledgment in red ink to the effect that the payment is "too late for kist day." *

Documents to be returned to the Post-office and to be retained in the Collectorate.

30. Immediately after the examination prescribed in the preceding rule, the acknowledgments should be signed, dated, and returned with the duplicate list to the Post-office. The date on the acknowledgments must be the date of receipt of the Treasury Voucher by which

* It is to be understood that the date of receipt of the Money-order in the Treasury is the date of the Treasury voucher by which is paid, and not necessarily the date on which the acknowledgment is examined, signed or returned.

the Money-orders were paid. The Treasury Officer will be responsible that the acknowledgments and duplicate list are returned to the Post-office at latest by 4 P.M. on the day following that on which they were received in the Collectorate. The chalans will be retained in the Collectorate.

Treatment of Chalans.

31. After the return of the acknowledgments to the Post-office, the chalans of Form $\frac{1}{\text{R.M.O.}}$ should be sent to the land revenue tauzi office, and those of Form $\frac{1A}{\text{R.M.O.}}$ to the cess tauzi office, so that the remittances may be entered in the departmental registers. The chalans should be initialled by a responsible officer of each department, and then be returned to the Collectorate. On each coupon is to be noted by the muharrir the date when he posted in the tauzi ledger the amount referred to in the coupon. The muharrir is to sign such note.

Duplicate list to be filed.

32. When the duplicate list, with the Postmaster's acknowledgment for the documents returned to him, is received back from the Post-office, it should be attached to the chalans and filed in the Collectorate.

PART IV.

DISPOSAL OF ACKNOWLEDGMENTS.

Acknowledgments.

33. The Acknowledgments appertainining to Revenue Money-orders received from the Collectorate, will be sorted separately for each Office of Issue, and enclosed in envelopes (Form $\frac{4}{\text{R. M. O.}}$) addressed to the Postmasters of those offices. The total number of acknowledgments closed in each envelope will be the registered number assigned to that envelope. The acknowledgments for orders issued at Branch office are not to be returned to the Branch office direct, but through the Account office.

Envelopes containing acknowledgments.

34. The money-orders issued by each office will then be bracketed together in the remarks column of the original issue list, and the register number of the envelope enclosing the corresponding acknowledgments will be noted against each bracket. The closed envelopes will then be made over to the registration clerk for despatch, his receipt for the total number of envelopes 'numbered as above' being taken at the foot of the original list.

Disposal of envelopes and acknowledgments.

35. On arrival in the Office of Issue, the envelopes will be opened and the acknowledgments contained in each envelope will be checked with the registered number of the money-order. The envelopes will then be destroyed. The acknowledgments will then be stamped with the Money-order stamp, and be sorted for distribution to postmen and village postmen. The numbers of all acknowledgments given to each postman and village postman will be detailed separately by the Money-order Clerk, Sub or Branch Postmaster in the postman's book or the village postman's register, the entries being repeated as often as the acknowledgments are given out for delivery.

Delivery of acknowledgments.

36. The postman will obtain the remitter's signature or mark when delivering each acknowledgment in the postman's book.

Non-delivery and disposal of such.

37. Acknowledgments which cannot be delivered in consequence of the remitter not being found will be returned by the Postman to the Money-order Clerk, Sub-Postmaster, or Branch Postmaster as the case may be, who will sign for them in the Postman's Book or Village Postman's Register.

Undelivered acknowledgments.

38. Undelivered acknowledgments will be kept in the Office of Issue (if a Head Office) for a period of 12 months, and, if still unclaimed, will be destroyed.

39. In Sub-Offices and Branch Offices undelivered acknowledgments will be retained for a period of three months, and if still unclaimed, will be forwarded to the Head Office under a Postal Service registered cover. Such acknowledgments will be kept in the Head Office for a further period of nine months, and, if then still on hand, will be destroyed.

Responsibility of Post-office for delivery of acknowledgment.

40. Postmasters, Sub-Postmasters, and Branch Postmasters of the Offices of Issue will be responsible that acknowledgments are delivered to remitters of Revenue Money-orders without any unnecessary delay and free of charge. Enquiries as to the punctual and free delivery of acknowledgments should be made from time to time from zamindars, who may call at the Post Office to have Revenue Money-orders issued.

Remitter to examine acknowledgments.

41. Remitters of Revenue Money-orders should be advised to examine carefully their acknowledgments for the Money-orders, in case there should be any red-ink note by the Collectorate calling for further particulars, or indicating a doubt as to whether a remittance has been correctly credited according to the intentions of the remitter.

No. 2099T.R.—The 12th September 1903.—Whereas an application has been made by Babus Jadab Lal Banerjee and Sasti Kinkar Banerjee, tenure-holders of the greater part of the mauza Mohugram, which appertains to estate No. 1132, in the district of Murshidabad, and to No. 13, in the district of Birbhum, for a survey and preparation of a record-of-rights in respect of all lands situated in the mauza, and whereas they have agreed to deposit the estimated cost of the operations:

Murshidabad. Birbhum.

In exercise of the powers conferred by section 101 (2) (a) of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B.C.) of 1898, the Lieutenant-Governor of Bengal is pleased to direct that a survey shall be made and a record-of-rights prepared in respect of all lands situated within the boundaries of the said estates in village Mohugram, in the district of Birbhum.

The particulars to be recorded in the survey and record-of-rights shall be the following:—

(a) the name of each tenant or occupant;
(b) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat, and, if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure;
(c) the situation and quantity and one or more of the boundaries of the land held by each tenant or occupier;
(d) the name of each tenant's landlord;
(e) the money-rent payable at the time the record-of-rights is being prepared, or if a produce-rent, the fact that a produce-rent is paid;
(f) the mode in which that rent has been fixed, whether by contract, by order of a Court, or otherwise;
(g) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases;
(h) the special conditions and incidents, if any, of the tenancy;
(i) if the land is claimed to be held rent-free, whether or not rent is actually paid, and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority;
(j) the name of each proprietor, with the character and extent of his interest, and the situation, quantity, and one or more of the boundaries of each proprietor's private lands, as defined in Chapter XI of the Act.

Medlicott and Blanford ... Manual of the Geology of India (2nd edition), by R. D. Oldham, A.R.S.M., omitting Chapters 1-6 and Chapter 18.
Rutley ... ... Mineralogy.
Rutley ... ... Rock-forming Minerals.

GEOLOGY, MINERALOGY, PHYSICAL GEOGRAPHY, AND THE DOCTRINE OF SCIENTIFIC METHOD.

HONOUR COURSE.

Geikie ... ... Text-book of Geology.
Cole ... ... Aids to Practical Geology.
Medlicott and Blanford ... Manual of the Geology of India (2nd edition) by R. D. Oldham, A.R.S.M., omitting Chapters 1-6 and Chapter 18.
Rutley ... ... Mineralogy.
Rutley ... ... Rock-forming Minerals.
Alfred Harker ... Petrology for Students, Cambridge, 1895 (Cambridge Natural Science Manuals).
Geikie ... ... Atlas of Physical Geography.
Nicholson and Lydekkar... Palæontology.
Jevons ... .. Principles of Science (2nd edition), omitting Books I and II.

B.Sc. EXAMINATION, 1906.

MATHEMATICS.

PASS COURSE.

Subject II—Statics and Dynamics—

Loney ... ... Elements of Statics and Dynamics

Subject X—Hydrostatics and Astronomy—

Loney .. ... Elements of Hydrostatics, omitting Articles 76, 86-87, 102, 134-136, 140, 142-145, 164-167, 176-181,
(or the corresponding portions of S. B. Mukerjee's Elementary Hydrostatics).
Parker ... ... Elements of Astronomy (omitting Chapter XIV).

HONOUR COURSE.

Subjects II and X—

Loney ... ... Elements of Statics and Dynamics
Maxwell ... ... Matter and Motion, Chapter III, and Articles 96 and 97 only.
Loney ... .. Elements of Hydrostatics, omitting Articles 76, 86-87, 102, 134-136, 140, 142-145, 164-167, 176-181,
(or the corresponding portions of S. B. Mukerjee's Elementary Hydrostatics)
Parker ... ... Elements of Astronomy, omitting Chapter XIV.
Salmon ... ... Conic Sections (6th edition), Chapters I-III, V—VIII, to the end of Article 116, and Chapters X—XIII,
(or any other book covering the same ground).
Williamson ... ... Differential Calculus (9th edition), Chapters I—V, IX, XI—XVIII.
Edwards ... ... Integral Calculus for Beginners, Chapters I—X

MATHEMATICAL AND EXPERIMENTAL PHYSICS.

THEORETICAL PORTION

PASS COURSE.

Ganot .. .. Physics (16th edition, 1902).

General properties of Matter.—Omitting Books I, II, III, IV, *with the exception of* Articles 85, 86, 87, 88, 89, 96, 181, 182.

Sound.—The whole book is to be read.

Heat.—Omitting Articles 363, 394, 395, 408, 447, 480, 481, 482, 483, 491, 492, 493, 494, 507, 508, 509.

Light.—Omitting Articles 592, 603, 620, 621, 622, 623, 624, 626, 627, 631, 632, 634, 640, 641, 642, 645, 647, and Chapter VIII.

Magnetism.—Omitting Articles 722, 723, 724, 725, 736, 738, 740.

Frictional and Voltaic Electricity.—Omiting Articles 773, 775, 777, 797, 798, 801, 810, 811, 861, 862, 898, 899, 900, 902, 904, 905, 906, 907, 913, 918, 924–932 inclusive, 943, 965, 968, 969, 970, 985, Chapters XIII, XIV down to 1003, XV and all the rest.

HONOUR COURSE.

Ganot ...	... Physics (16th edition, 1902), omitting Chapter XV of Book X and the Elements of Meteorology.
S. P. Thompson	... Elementary Lessons on Electricity and Magnetism.
Tait ...	... Heat.
Jevons ...	... Principles of Science (2nd edition, omitting Books I and II).

PRACTICAL EXAMINATION.

PASS COURSE.

Schuster and Lees.—Intermediate Course of Practical Physics—

Part	I.	Section	III.
Part	II.	Section	V, Exercises I, II.
		Sections	VIII, IX, X, XI, XII (omitting corrections), XIII.
Part	III.	Section	XV, Exercises I, II.
		Section	XXI.
Part	IV.	Sections	XXII, XXIII.
Part	V.	Section	XXXII.
Part	VI.	Sections	XXXIII, XXXIV.
Part	VII.	Section	XXXVII.
Part	VIII.	Section	XLII.

HONOUR COURSE.

Schuster and Lees.—Intermediate Course of Practical Physics. In addition to the portions prescribed for the Pass Course, the following:—

Part	II.	Sections	VI, XIV.
Part	III.	Sections	XVII, XVIII, XX, Exercise I.
Part	IV.	Section	XXV, Exercises I, II, IV.
Part	V.	Section	XXXII.
Part	VI.	Section	XXXVI.
Part	VII.	Section	XXXIX.

CHEMISTRY.

The following books are recommended to be used in studying the subject of Chemistry as defined by the Syllabus prescribed: —

PASS COURSE.

Newth ...	... A Text-book of Inorganic Chemistry (latest edition).
Chapman Jones	... Practical Inorganic Chemistry for advanced students.

HONOUR COURSE.

Newth ...	... A Text-book of Inorganic Chemistry (latest edition).
Tilden ...	... Introduction to the Study of Chemical Philosophy (latest edition).
Perkin and Kipping	... Organic Chemistry (Part I).
Chapman Jones	... Practical Inorganic Chemistry for advanced students,

The examination in Chemistry shall be on the subject as defined by the syllabus, and shall not necessarily be confined to the books recommended to be used in studying the subject.

PHYSIOLOGY.

PASS COURSE.

Huxley ...	... Elementary Lessons in Physiology edited by Sir M. Foster.

(*For Practical Examination.*)

Halliburton ...	... Essentials of Chemical Physiology, Elementary Course. Blood, Milk, Albumen, Digestive Juices, Urine (normal) and Glycogen.

Stirling ... ... Outlines of Practical Physiology (4th edition).

Experimental Physiology.—The Frog's Heart,—Beating of the Heart,—Effect of Heat and Cold,—Section of the Heart, pages 360-363; Stannius's Experiment, pages 376-377; The Laryngoscope—Vowels, page 481; Reflex Action—Action of Poisons—Knee-jerk in Man, pages 492-496;—Eye—Formation of Image, pages 509-514;—Touch, Smell, Taste, Hearing, pages 565-568 and 580-581, omitting small print.

Stirling ... ... Practical Histology (2nd edition)—Preparation of fresh tissues from a Frog, omitting 1, 3, 4, 8 (*b*) 10, 13, 17-23.

HONOUR COURSE.

Kirke ... ... Handbook of Physiology, edited by Professor Halliburton.

(*For Practical Examination.*)

Halliburton ... ... Essentials of Chemical Physiology, Elementary Course—(i) The Proteids; (ii) Blood, Hæmoglobin; (iii) Digestion—Salivary, Gastric, Pancreatic, Glycogen in the Liver; (iv) Urine—Volumetric Analysis for Urea; Sugar in Urine, Qualitative and Quantitative.

Stirling ... ... Outlines of Practical Physiology (4th edition)—

Experimental Physiology.—(i) Nerve-Muscle Preparation—Stimulation of Nerve—Mechanical, Chemical and Thermal Stimuli, pages 219-225 and 243-251, omitting small print; (ii) The Frog's Heart—Stannius's Experiment, pages 360-364 and 376-377; (iii) The Laryngoscope—Vowels, page 481; (iv) Reflex Action—Action of Poisons—Knee-jerk in Man, pages 492-496; (v) The Eye—Formation of an Image, etc., pages 509-514; (vi) The Ophthalmoscope, pages 560-561; (vii) Touch, Smell, Taste, Hearing, pages 565-568, and 580-581, omitting small print.

Stirling ... ... Practical Histology (2nd edition)—Preparation of fresh tissues from a Frog, omitting 1, 3, 4, 8 (*b*), 10, 13, 17, 23.

BOTANY.

PASS COURSE.

Reynolds Green ... Text-book of Botany.
Oliver ... ... First Book of Indian Botany.
Bower ... ... Practical Botany for Beginners (Macmillan & Co.), pages 1-51, 76-107, 125-133, 150-178, 223-235, 244, 245.

HONOUR COURSE.

Reynolds Green ... Text-book of Botany.
Reynolds Green ... Physiology of Plants.
Bower ... ... Practical Botany for Beginners (Macmillan & Co).

ZOOLOGY.

PASS COURSE.

Parker ... ... Lessons in Elementary Biology.
Parker and Haswell ... A Manual of Zoology.
Parker and Parker ... Practical Zoology (Macmillan & Co.)—Dissection of the Leech, the Prawn and the Frog.

HONOUR COURSE.

Parker and Haswell ... A Manual of Zoology.
Haddon ... ... Introduction to the Study of Embryology.
Parker and Parker ... Practical Zoology (Macmillan & Co.).

GEOLOGY.

PASS COURSE.

Geikie ...	... Class-book of Geology.
Cole ...	... Aids to Practical Geology.
Medlicott and Blanford	... Manual of the Geology of India (2nd edition), by R. D. Oldham, A.R.S.M., omitting Chapters 1-6 and Chapter 18.

HONOUR COURSE.

Geikie ...	... Text-book of Geology.
Cole ...	... Aids to Practical Geology.
Nicholson and Lyddekar	... Palæontology.
Medlicott and Blanford	... Manual of the Geology of India (2nd edition), by R. D. Oldham, A. R. S. M., omitting Chapters 1-6 and Chapter 18.

MINERALOGY.

PASS COURSE.

Rutley ...	... Mineralogy
Rutley ...	... Rock-forming Minerals
Cole ...	... Aids to Practical Geology.

HONOUR COURSE.

Rutley ...	... Mineralogy.
Rutley ...	... Rock-forming Minerals.
Alfred Harker	... Petrology for Students, Cambridge, 1895 (Cambridge Natural Science Manuals)
Cole ...	... Aids to Practical Geology

M.A. EXAMINATION, 1905.

MENTAL AND MORAL SCIENCE.

The following books are recommended to be used in studying the subject of Mental and Moral Science as defined by the Syllabus prescribed:—

GENERAL.

Ward ...	... "Psychology" (*Encyclopædia Britannica*).
Spencer ...	... Principles of Psychology.
Ladd ..	... Outlines of Physiological Psychology
Mill ...	... System of Logic.
Venn	... Empirical Logic
Sidgwick ...	... Methods of Ethics
Martineau ...	.. Types of Ethical Theory
Sidgwick .	... The Ethics of T H. Green, Herbert Spencer and Martineau.
Caird ...	... Introduction to the Philosophy of Religion.
Martineau ...	.. A Study of Religion, 2nd edition.
Ward ...	... Gifford Lectures (Naturalism and Agnosticism), 1896—1898
Green . .	... Prolegomena to Ethics.
Aristotle	... Politics (English Translation by Jowett or Welldon).
Ulberweg ...	... History of Philosophy.
Erdmann .	... History of Philosophy, Vols. I and II.
Janet and Seailles	... A History of the Problems of Philosophy, translated by Ada Monahan.
Mádhavácháryya	... Sarva-darshana Sangraha, translated by Cowell and Gough (the Nyáya, Chárvaka, Sánkhya, and Bauddha systems).
Vyása and Sankara	... Vedánta Sutras with Bháshya, as in Part I of George Thibaut's Translation—Introduction only, pages i—xxx.

SPECIAL.

Kant ...	... Transcendental Analytic, Book II (Analytic of Principles as in Max Muller's translation of Kant's Critique of Pure Reason).

The examination in Mental and Moral Science shall be on the subject as defined by the Syllabus, and shall not necessarily be confined to the books recommended to be used in studying the subject.

MATHEMATICS.

Group A.

Hall and Knight ...	... Higher Algebra, Chapters XIX—XXXIV.
Todhunter ...	... Trigonometry, edited by Hogg.
Todhunter ...	... Spherical Trigonometry (as revised by J. G. Leathem, M.A., D.SC.).
Burnside and Panton	... Theory of Equations (4th edition), omitting Chapter XX.
Salmon ...	... Conic Sections.
Salmon ...	... Geometry of three Dimensions—the Course selected by Dr. Salmon for Junior Readers.
Williamson ...	... Differential Calculus (9th edition).
Williamson ...	... Integral Calculus (7th edition).
Murray ...	... Introductory Course in Differential Equations.
Todhunter ...	... Analytical Statics, Ed. Everett.
Williamson and Tarleton ...	Dynamics (2nd edition), Chapters I—VIII.
Minchin ...	... Hydrostatics and Elementary Hydrokinetics, omitting Chapter VIII.
Godfray ...	... Astronomy.
Newton ...	... Principia, Sections I, II, III.

GROUP B.

Salmon or Smith	... Conic Sections, Chapters I—XIII.
Smith ...	... Solid Geometry, omitting Chapters VII and IX.
Williamson ...	... Differential Calculus (9th edition).
Williamson ...	... Integral Calculus (7th edition), omitting Chapter XII.
Minchin ...	... Statics (Vols. I and II), omitting Chapters XIV and XVI.
Routh ...	... Dynamics of a Particle, Chapters I, II, III, IV; Chapter V, Articles 221-275, 285-286; Chapter VI, Articles 306-337, 387-401, 419-427 Chapter VII, Articles 490-510, 526, 527, 535-561.
Routh ..	... Elementary Rigid Dynamics, Chapters I—V.
Besant ...	... Hydro-Mechanics, Part I (Hydrostatics).
Bassett ...	... Elementary Treatise on Hydro-Dynamics and Sound, omitting Chapters VII—VIII.
Godfray ...	... Astronomy.
Newton ...	... Principia, Sections I, II, III, IX, XI.

NOTE.—Candidates are recommended to read Murray's Differential Equations (short course).

NATURAL AND PHYSICAL SCIENCE.

A.—CHEMISTRY.

Mendeleeff ...	... Principles of Chemistry, Vols. I and II. Translated by George Kamensky and edited by A. J. Greenaway.
Bernthsen ...	... Organic Chemistry,
	or
Wade ...	... Introduction to the Study of Organic Chemistry.
Newth ...	... Manual of Chemical Analysis
Ostwald ...	... The Scientific Foundations of Analytical Chemistry (translated by G. McGowan).
Walker ...	... Introduction to Physical Chemistry.

B.—HEAT, ELECTRICITY AND MAGNETISM AS PRINCIPAL SUBJECTS, WITH LIGHT AND SOUND AS SUBSIDIARY SUBJECTS.

Principal Subjects.

Maxwell ...	... Elementary Treatise on Electricity.
J. J. Thomson	Elements of Electricity and Magnetism.
Christiansen ...	... Theoretical Physics, Chapters VII—XI.
Hertz ...	... Electric Waves.
Faraday ...	... Experimental Researches in Electricity, Volume I.
Preston ...	... Theory of Heat.
Maxwell ...	... Theory of Heat (latest edition).
Fourier ...	... Theory of Heat, Chapters I and II.
Stewart and Gee	... Practical Physics, Volume II.
Glazebrook and Shaw	... Practical Physics, Chapters VIII—XIII (omitting Section 31).

Subsidiary Subject.

Daniell ...	... Text-book of the Principles of Physics (3rd edition), Chapters V, XIV, and XV.

C.—LIGHT AND SOUND AS PRINCIPAL SUBJECTS, WITH HEAT, ELECTRICITY AND MAGNETISM AS SUBSIDIARY SUBJECTS.

Principal Subjects.

Preston ...	... Theory of Light.
Heath ...	... Elementary Treatise on Geometrical Optics.
Helmholtz ...	... Sensations of Tone—Introduction and Chapters I—VIII.
Everett ...	... Vibratory Motion and Sound.
Donkin ...	... Acoustics.
Glazebrook and Shaw ...	... Practical Physics, Chapters VIII—XX.
Poynting and Thompson ...	... A Text-book of Physics—Sound.

Subsidiary Subjects.

J. J. Thomson	... * Elements of Electricity and Magnetism.
Balfour Stewart	... Heat (latest edition).

D.—BOTANY.

Asa Gray ...	... Structural Botany.
Sachs ...	... Text-book of Botany, Book II, new edition, by Goebel, translated by Garnsey and Balfour (Clarendon Press Series).
Sachs ...	... Lectures on the Physiology of Plants, translated by H. M. Ward (Clarendon Press Series).
Sachs ...	... History of Botany (1530—1860), translated by Garnsey and Balfour (Clarendon Press Series).
Graf zu Solms Laubach ...	Fossil Botany, translated by Garnsey and Balfour (Clarendon Press Series).
Roxburgh ...	... Flora Indica, Clarke's edition (for reference in identifying Indian plants).
Bower ...	... Practical Botany.
De Bary ...	... Comparative Anatomy of the Vegetative Organs of the Phanerogams and Ferns, translated by F. O. Bower and D. H. Scott (Clarendon Press Series).

E.—PHYSIOLOGY AND ZOOLOGY.

Michael Foster	... Text-book of Physiology.
Arnold Lang ...	... Text-book of Comparative Anatomy, Part I.
Wiedersheim ...	... Comparative Anatomy of the Vertebrata.
Schaffer ...	... The Essentials of Histology.
Stirling ...	... Outlines of Practical Histology.
Parker and Parker	... Elementary Course of Practical Zoology.
Halliburton ...	... Essentials of Chemical Physiology.
Balfour ...	... Comparative Embryology.
Darwin ...	... Origin of Species.
Kirke ...	... Handbook of Physiology, edited by Halliburton.
Parker ...	... Lessons in Elementary Biology.
Haddon ...	... Introduction to the Study of Embryology.
Claus-Sedgwick	... Elementary Text-book of Zoology, Vol. I, General Part and Special Part—Protozoa to Insecta; Vol. II, Special Part—Mollusca to Man.

F.—GEOLOGY AND MINERALOGY.

Geikie ...	... Text-book of Geology (latest edition).
Medlicott and Blanford ...	Manual of the Geology of India (2nd edition), by R. D. Oldham, A.R.S.M.
Nicholson and Lyddekar ...	Palæontology.
Rutley ...	... Mineralogy.
	or
Mier ...	... Mineralogy.
Rutley ...	... Rock-forming Minerals.
H. Rosenbush	... Microscopical Physiography of the Rock-making Minerals. Translated by Joseph P. Iddings, Macmillan & Co. (latest edition).

* The questions on J. J. Thomson's work shall not be so difficult as those in Group B.

Alfred Harker ...	Petrology for Students, Cambridge, 1895 (Cambridge Natural Science Manuals).
Cole ...	Aids to Practical Geology.
Geikie ...	Atlas of Physical Geography.

M.A. EXAMINATION, 1906.

ENGLISH.

Chaucer ...	The Tale of the Man of Lawe; The Pardoneres Tale; The Second Nonnes Tale; The Chanouns Yemannes Tale, &c., (making a volume, edited by Skeat. The Clarendon Press Series, small edition).

SANSKRIT.

GROUP A.

Srîharsha ...	... Naisadhacharita, Cantos I—III
Káhdása ...	... Vikramorvasí.
Mágh ...	.. Sisupálabadh, Cantos XIII and XIV.
Bhababhúti ...	... Mahávíracharita.
Sudraka ...	. . Mrichchhakatika.
Visákhadatta .	... Mudrá-Rákshasa.
Bánabhatta ...	.. Kádambari, Purvabhága.
Vyása and Sánkara	... Vedánta-Sútra and Bháshya, first four Sútras of the 1st Adhyáya, and 1st and 2nd Pádas of the 2nd Adhyáya.
Gautama and Visvanátha ...	Nyáya Sútra and Vritti, Chapters I—IV.
Váchaspati Misra	. Tattva-Kaumudi.
Upanishad ...	... Katha, with Sankara Bháshya.
Rigveda ...	... Hymns from the Rigveda Sanhitá, as edited by P. Peterson.
Vyása ...	... Bhagavadgítá.
Pánini ...	... Vaidika Prakriyá, Káraka and Samása, as contained in Sidhánta-Kaumudi.
Manu ...	... Manu—1, 2, 3, 4, 7, 8, 12.
Mammata Bhatta	... Kávya-Prakása.
Vararuchi ...	... Prakriyáprakása (edited by Cowell).

Permanent Subjects.

Max Müller ...	... Science of Language, Vols. I and II.
Muir ...	... Sanskrit Texts, Vol. V.

Students may take up the Inscriptions of Asoka instead of one of the following:—

(a) Nyáya-Sútra and Vritti (limited as above).
(b) Tattva-Kaumudi and Vedánta-Sútra (limited as above).

GROUP B.

I.	Gautama and Víswanátha ...	Sútra with Vritti.
	Kanada and Sankara ...	Sútra and Upaskára.
II.	Kapila and Aniruddha ...	Sútra and Vritti.
	Patanjali and Bhoja ...	Sútra and Vritti.

III.—Jaimini and Savara ... Sútra and Bháshya—Adhyayas 1, 2 and 3.
IV.—Vyása and Sankara . Sútra with Bháshya—Adhyaya 1.
V.—Vyása and Sankara—Adhyaya II.
VI.—Essay and Comparative Grammar.

N.B.—Students may take up Indian Paleography and Epigraphy instead of any one of the subjects of the first five papers.

Permanent Subjects.

Max Muller ... ... Science of Language, Vol. I—Lectures II and VI. Vol. II—Lectures IV, V, VI and VII.
Colebrooke ... ... Philosophy of the Hindus as given in the first volume of the works.
Max Muller ... ... Six Systems of Philosophy.

GROUP C.

I. { Gautama and Viswanátha ... Sútra and Vritti.
   { Kanada and Sankara ... Sútra and Upaskára.
II.—Viswanátha .. ... Bhashaparichheda with Siddhanta Muktavali.
III. { Udayana and Haridasa ... Kusumanjali with Haridasa's tika.
     { Gangesa and Jayadeva Iswaranumana with Aloka.
IV.—Gangesa and Mathuranatha Anumiti Siddhintalakshan of Pakshata and Parámarsa.
V.—Gangesa and Mathuranatha Avayava and Hetwabhasa.
VI.—Essay and Comparative Grammar.

N.B.—Students may take up Indian Paleography and Epigraphy for the subjects of any one of the first five papers.

Permanent Subjects.

Max Muller's Science of Language as limited in group B.
Mill's Logic, Book III of Induction, Chapters 1 to 5 and 8.

GROUP D.

I.—Vyása and Sankara ... Sútra and Bhásya, Adhyayas I and II—1, 2.
II.—Vyása and Sankara ... Adhyayas II—3, 4; III and IV.
III.—Vyása and Sankara ... Gita with Bháshya.
IV.—Appaya Dikshita Siddhantalesa ... ... Dharmarajadhvarindra.
Vedantaparibhasha and Vedantasara by Sarvananda.
V.—Upanishads—Chhandogya and Vrihadaranyaka with Sankara Bháshya.
VI.—Essay and Comparative Grammar.

N.B.—Students may take up Indian Paleography and Epigraphy for the subjects of any one of the first five papers.

Permanent Subjects.

Max Muller's Science of Language (limited as above).
Deussen—Elements of Metaphysics.

GROUP E.

I.—Rigveda ... ... Astaka I, with Sayana's Introduction and Commentary and Aitareya Brahma Kanda I.
II.—Samaveda, Adhyaya I, with Sayana's Introduction and Commentary and Atharva Vedá Vratya Kanda with Sayana's Commentary.
III.—Yajurveda Vajasaneya Sanhita ... ... Adhyayas 1 to 8 with Mahidhará's Commentary and Satapatha Brahmana Kanda I, with Sayana's Commentary.
IV.—Upanishads—Chhandogya and Vrihadaranyaka with Sankara's Commentary.
V.—Nirukta and Vaidikprakriya as in Siddhanta Kaumudi.
VI.—Essay and Comparative Grammar.

N.B.—Students may take up *Gupta and Kutilalipi* instead of any one of the following:—

(*a*) Chhandogya Upanishad with commentaries.
(*b*) Vrihadaranyaka Upanishad with commentaries.

PREMCHAND-ROYCHAND STUDENTSHIP EXAMINATION, 1904.

MATHEMATICS.

Candidates for the Premchand-Roychand Studentship Examination in 1904, who take up Pure Mathematics, will be examined in the following subjects:—

(a) Algebra.
(b) Trigonometry, Plane and Spherical.
(c) Theory of Equations.
(d) Analytical Plane Geometry, including the Higher Plane Curves.
(e) Analytical Solid Geometry.
(f) Differential Calculus.
(g) Integral Calculus, including the elements of the Calculus of Variations.
(h) Differential Equations.

The following books are recommended:—

Chrystal ...	... Algebra, Part II, Chapters XXIII—XXVIII, XXXII, XXXV.
Hobson ...	... Plane Trigonometry.
Casey ...	... Spherical Trigonometry.
Burnside and Panton	... Theory of Equations (4th Edition).
Salmon .	... Conic Sections.
Salmon ...	... Higher Plane Curves, Chapters I—V, omitting Section V.
Salmon ...	... Geometry of three Dimensions (omitting the last three Chapters).
Scott ...	... Modern Analytical Geometry.
Williamson ...	... Differential Calculus (9th Edition).
Williamson ...	... Integral Calculus (7th Edition).
Forsyth ...	... Differential Equations.

Candidates for the Premchand-Roychand Studentship Examination in 1904, who take up Mixed Mathematics, will be examined in the following subjects:—

(a) Analytical Statics.
(b) Dynamics of a Particle.
(c) Rigid Dynamics.
(d) Hydro-mechanics, including the elements of the Theory of Sound.
(e) Astronomy.
(f) Newton's Principia, Sections I, II, III, IX, XI.

The following books are recommended:—

Minchin ...	... Statics (4th Edition), omitting Chapter XIV.
Routh ...	. Analytical Statics, Volumes I—II.

PHYSICS.

The following books are recommended for candidates who take up Electricity, Magnetism and Sound at the Premchand-Roychand Studentship Examination in 1904:—

Maxwell	Electricity and Magnetism.
Maxwell	Scientific Papers, Volume I (Papers Nos. 8 and 23).
Mascart and Joubert ...	Electricity and Magnetism.
Hertz	Electric Waves
Faraday	Experimental Researches in Electricity.
Gordon	Electricity and Magnetism.
Tyndall	Researches on Diamagnetism.
Rayleigh	Theory of Sound.
Donkin	Acoustics.
Helmholtz	Sensation of Tone.
Stewart and Gee	Practical Physics.
Glazebrook and Shaw ...	Practical Physics.
Poynting and Thompson	A Text-book of Physics—Sound.
Thompson	Discharge of Electricity through Gases.

The following books are recommended for candidates who take up Heat, Molecular Physics and Physical Optics at the Premchand-Roychand Studentship Examination in 1904:—

Fourier	Analytical Theory of Heat.
Preston	Theory of Heat
Maxwell	Theory of Heat.
Maxwell ...	Scientific Papers, Volume II (Papers Nos. 62, 73, 83).
Watson	Kinetic Theory of Gases.
Tyndall	Contributions to Molecular Physics.
Airy	Undulatory Theory of Optics.
Preston	Theory of Light.
Bassett	Physical Optics.
Roscoe	Spectrum Analysis.
Glazebrook and Shaw ...	Practical Physics.

INORGANIC CHEMISTRY AND CHEMICAL TECHNOLOGY AND ORGANIC CHEMISTRY.

Inorganic Chemistry shall include—

(a) History of Chemistry.
(b) Principles of Chemistry and Chemical Physics.
(c) Chemistry of non metals and metals and their compounds.

Chemical Technology shall include a general knowledge of the more important manufacturing and Metallurgical processes.

Organic Chemistry shall include—

Chemistry of the Hydrocarbons of fatty and aromatic series and their derivatives.
Chemistry of Sugars, with special reference to Chemistry of Fermentation and Stereo-Chemistry.

NOTE—Questions to be fairly distributed among the various heads of definitions.

The following books are recommended for candidates who take up Inorganic Chemistry and Chemical Technology and Organic Chemistry at the Premchand Roychand Studentship Examination in 1904:—

E. Meyer	History of Chemistry, translated by McGowan.
Wurtz	History of Chemical Theory, translated by Watt.
Thorpe	Essays in Historical Chemistry.
Roscoe and Harden ...	A New View of Origin and Dalton's Atomic Theory.

UNIVERSITY ENTRANCE EXAMINATION, 1904.

PRIVATE STUDENTS.

1. *Private students* are those who do not appear from any school or who have been transferred from one school to another after the 31st August without the consent of the Inspector. The term "private students" includes *schoolmasters.*

2 Private students must appear at the test examination of one of the following institutions:—

Those from the	At the Test Examination of	Date of Test Examination.
1	2	3
1. Howrah district ...	Howrah Municipal School ...	4th January 1904.
2. Bankura „ ...	Bankura Zilla School ...	18th December 1903.
3. Birbhum „ ...	Birbhum ditto ...	14th „ „
4. Midnapore „ ...	Midnapore Collegiate School ..	4th January 1904.
5. Hooghly „ ...	Uttarpara Government School ...	2nd „ „
	Hooghly Branch School .	14th December 1903.
6. Burdwan „ .	Burdwan Raj Collegiate School (with the Principal's permission).	14th „ „

The examinations will begin as stated above, and each private student will pay a fee of Rs. 2 to the head of the institution at which he appears for examination. The balance, after payment of expenses (stationery, etc.), will go as remuneration to the examiners. No private student will be admitted to the test examination unless accompanied, for the purpose of identification, by some person known to the Headmaster of the institution at which he appears.

3. Applications for permission to appear must be sent so as to reach *this office* not later than the 15th November, with the following information, etc. :—

(*a*) The name of the school in which the candidate last studied.

(*b*) The transfer certificate (in original) granted to the candidate from the same; or

(*c*) in the case of a candidate who previously appeared at the Entrance examination, the Registrar's receipt (in original) for the fee paid.

(*d*) Age of the candidate.

(*e*) In the case of schoolmasters, a certificate of good conduct from the Secretary or Proprietor of the school in which the candidate is serving.

4. If this office is satisfied that all is in order, the Inspector will countersign and return the application, and this then will be the candidate's passport for admission *to the test examination.*

5. The Headmaster of an institution (one of those named above) should direct private students to appear before him not later than the 12th January with their applications for admission to the Entrance examination; and in the case of those candidates who have satisfied the test, he will cause them to sign their application forms in his presence, and will grant the necessary certificates, and then forward the applications to this office for countersignature, after which they will be sent by the Inspector *direct* to the candidates.

6. Expedition is necessary in carrying out all these instructions, and candidates should be *most careful* to give their names and addresses written legibly and distinctly, so that no mistake may be likely to occur.

7. *Under no circumstances should the entrance fee be sent to this office*, but it should be sent to the Registrar by the candidates themselves, together with the countersigned applications, which will be returned to the respective Headmasters for delivery to candidates.

8. Private students will understand that the test examination of any schools other than those named above will not be accepted by this office.

9. Addresses of private students should be supplied to this office.

10. The Entrance examination in 1904 will be held on the 7th March 1904 and following days. Applications and fees for admission must reach the office of the Registrar on or before the 25th January 1904.

F.A. AND B.A. EXAMINATIONS.

1. Deputy Inspectors of Schools, Sub-Inspectors of Schools and *bonâ fide* masters of English schools who have served as such for the full period of two academical years, or of six months after the examination of the same class last held by the University in the case of those only who were admitted to a former examination of that class, will be admitted to the abovementioned examinations.

2. Candidates for the F.A. and B A. examinations must produce certificates of character and length of service from the Secretaries of their respective schools, together with their *Entrance* or *F A.* certificates Those candidates who have been admitted to a former examination must produce the Registrar's receipt in addition.

3. The printed form of application should be carefully filled up, and submitted to this office *on or before the 20th January 1904*, together with other papers as mentioned in rule 2, after which no applications will be received.

4. By *bonâ fide* masters of schools are to be understood masters who hold regularly paid appointments in English schools, teaching at least the M. E. course.

5. The F.A and B A Examinations in 1904 will be held on the 21st March 1904 and following days. The applications and fees for admission must reach the office of the Registrar on or before the 6th February 1904.

Gaya Collectorate, the 22nd August 1903. F. W. DUKE, Collector.

APPENDIX XXX.

[See Chapter III, Rule 9.]

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plot of land, no longer required by Government, situated along the Barun-Daltonganj Railway, in the district of Gaya, will be put up to sale at 12 o'clock on Friday, the 18th September 1903, corresponding with the 12th Asin 1311 Fusli, at the Gaya Collector's Court.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the land closer than three feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of the original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

JAPAN, NORTH-WEST COAST—MIYADSU HARBOUR.

Rock.

THE British Admiralty has given notice (No. 635 of 1903) of the existence of a rock named Shishiguri, with a depth of 2¾ fathoms over it at low-water springs, in Miyadsu harbour, situated with Hora iwa bearing S. 43° W., distant 5½ cables, and the rocky point immediately northward of Shishi village S. 66° E., distant 3¾ cables.

Approximate position, lat. 35° 34′ N., long. 135° 13¼′ E.

About 130 yards to the eastward and northward of this rock there are depths of from 3½ to 4½ fathoms and from 4½ to 6 fathoms in other directions.

(Variation 5° Westerly in 1903.)

This Notice affects the following Admiralty Charts:—Amarube saki to Ando saki, No. 2174; Miyadsu harbour, No. 61: Also, China Sea Directory, vol. IV, 1894, page 542.

Kam Ranh bay—Dangers reported.

The British Admiralty has given notice (No. 639 of 1903) of the existence of the undermentioned dangers in Kam Ranh bay:—

1. A rock, with a depth of 2½ fathoms over it at lowest tide in the approach to Little pass on the north side of the entrance to the bay, situated with the southern point of Little pass bearing S. 81° W., distant 1½ miles, and the outer rock off the south-east point of Tagne island S. 34° W.

   Approximate position, lat. 11° 51½′ N., long. 109° 15½′ E.

2. Two coral heads, with depths of 3 feet and 13 feet, situated at distances of 4 cables S. 7° W., and 6½ cables S. 16° E. respectively from South-west rock off the village of Bangai.

Note.—Mariners are advised not to pass the westward of a line joining De la Prise island and Hon Chut, as there is a ledge with a depth of only 2½ fathoms over it between the latter island and the mainland.

Nhatrang bay approaches, and port Dayot—Dangers in—.

The British Admiralty has given notice (No. 640 of 1903) of the existence of the following dangers in the approaches to Nhatrang bay, and in Port Dayot:—

Nhatrang bay approach—

1. A rock, with a depth of 4 feet over it at lowest tide, about 3 cables to the eastward of Séche point.

   Approximate position, lat. 12° 21½′ N., long. 109° 17½′ E.

   The bay between Séche point and cape Seo is blocked almost entirely by coral reefs, and must not be entered.

2. A rock, which has two pinnacle heads, the least water over them being 6 feet at lowest tide, is situated about 7 cables S. 12° E. from Middle island, Van Fong bay.

   Approximate position, lat. 12° 29′ N., long. 109° 18¾′ E.

Port Dayot—

A coral reef of small extent, with a depth of 1 foot over it at lowest tide, exists in Port Dayot in lat. 12° 39′ 35″ N., long. 109° 22′ 15″ E.

Impérieuse rock—Buoy marking the rock placed to the north-eastward.

WITH reference to Notice to Mariners No. 273, dated 14th August 1903, issued by this office, the British Admiralty has given further notice (No. 611 of 1903) that the rock situated three-quarters of a cable north-eastward of Impérieuse rock has been marked by a black conical buoy, surmounted by staff and ball, moored in a depth of 6½ fathoms a quarter of a cable eastward of the rock, with Cornwallis stone bearing N. 64° E., distant 3¼ cables. Vessels should pass to the eastward of this buoy.

Approximate position, lat. 24° 26′ N., long 118° 4¾′ E.

The previous information received and published in the last of the abovementioned Notices that this buoy marked the Impérieuse rock is therefore erroneous.

Notice is also given that a pinnacle rock, with a depth of 15 feet over it at low water, exists about 50 yards north-eastward of Impérieuse rock, situated with Cornwallis stone bearing N. 67° E., distant 4 cables.

The British Admiralty has given notice (No. 622 of 1903) that the following banks were found by Lieutenant F. H. Schofield, commanding U.S.S. *Supply*, when searching for Galvez and Santa Rosa reefs, to the south-westward of Guam island:—

(1) A bank, about $2\frac{1}{4}$ miles long in an easterly and westerly direction, and $1\frac{1}{4}$ miles broad, with depths of from 22 to 40 fathoms over it, the centre being approximately lat. 12° 58′ N., long. 144° 22′ E.

(2) A bank of small extent, with depths of from 22 to 32 fathoms over it, in approximately lat. 13° 2′ N., long. 144° 26′ E.

(3) A bank, extending about $1\frac{3}{4}$ miles in a northerly and southerly direction, with depths of from 28 to 46 fathoms over it, in approximately lat. 13° 4′ N., long. 144° 25′ E.

AUSTRALIA—Torres strait, western approaches.

Proudfoot shoal light ship removed.

The Portmaster, Brisbane, has given notice (No. 7 of 1903) that on and after 31st January 1904, the light exhibited from the Lightship at Proudfoot Shoal, Western Approach to Torres Strait, will be discontinued, and the Lightship will be withdrawn.

The shoal patch of $1\frac{1}{2}$ fathoms marked P.D. on charts south-easterly from the Lightship is believed to be identical with the Bramble Patches. There is no evidence to the contrary, the report of its existence being extremely vague.

Masters of vessels approaching Torres Strait from the westward are recommended to get on the parallel of 10 degrees 45 minutes south before reaching the 20-fathom contour, and continue on that parallel until Booby Island is visible bearing north-easterly, then to steer to pass 2 miles to the north of the Island and thence continue as hitherto.

Vessels bound to the westward after passing Booby Island are recommended to steer south-west magnetic 16 miles, then to steer west half south until a safe direction can be made for their destined port

NOTE.—Booby Island is visible a distance of 14 or 15 miles; the light (a second order) is visible 17 to 19 miles by night from an ordinary ship's bridge.

Port Adelaide river—Alterations consequent on Light's Passage Harbour Works, being in progress.

THE President, Marine Board, Port Adelaide, has given notice (No. 4 of 1903) that in consequence of the Light's Passage Harbour Works being now in progress, the following alterations will be made on or about the 20th August next :—

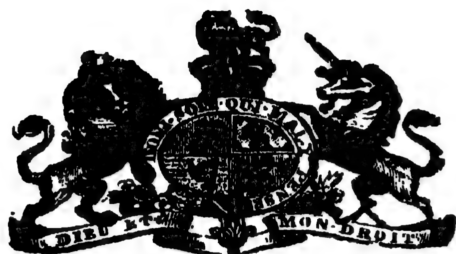
No. 1 Leading Beacon and No. 2 Light Beacon will be removed altogether.

In lieu thereof two Beacons showing Green Lights will be placed on the North Bank, one near the present Reflecting Beacon and the other opposite the present No. 1 White Light.

Two Light Beacons (both red) will be placed on the North Bank, which, when in line, will lead through the Cutting to the Bend.

Two Beacons, having White Lights, will be placed on the South Bank, which, when in line, will show the Bend in the Channel.

Sailing Directions.—To enter the River pass the Occulting Buoy at a distance of about 50 feet, and steer between the White Light on a Pile abreast of the old Lighthouse and the first Green Light, which is placed between the Reflecting Beacon and the Cutting, on a N.E. by E. course, passing the second Green Light at a similar distance until the New Lead on the North Bank (now No 1 Lead) comes in line. Keep them in line until the two lights on the South Bank are in line, then steer for No. 3 as before.



This affects Admiralty Chart No. 1750.
